ORCID iD: 0009-0007-0075-1516

Through:
Her Excellency,
The Hon'ble President of the Republic of India
President's Secretariat,
Rashtrapati Bhavan,
New Delhi — 110004, India

(Respectfully submitted for consideration and, only if independently considered appropriate, for possible further handling or transmission through competent constitutional and diplomatic channels.)

For Possible Transmission To:
His Excellency,
Secretary-General, United Nations,
United Nations Headquarters, New York,
United States of America.

Copy To:

1. The President of the United Nations General Assembly
2. The President of the United Nations Security Council;
3. The Permanent Representatives of the Member States of the United Nations;
4. Such other competent international authorities as may be considered appropriate.

SUBJECT:

Respectful Submission of “***THE WORLD’S FIRST WORLD PEACE CONSTITUTION — 2026: ADVANCED CONCISE INTERNATIONAL SUBMISSION EDITION***” — an independent, good-faith and non-binding global constitutional proposal for durable peace, human dignity, lawful cooperation, continuity of life, responsible human progress and future generations.

Your Excellency,

With profound respect for the Constitution of India, the Charter of the United Nations, applicable international law, the sovereign equality of States and the inherent dignity of every human being, I respectfully submit for consideration:

**THE WORLD'S FIRST WORLD PEACE CONSTITUTION — 2026
ADVANCED CONCISE INTERNATIONAL SUBMISSION EDITION.**

This instrument is offered neither as authority over nations nor as a claim to govern humanity. It is offered as an independent contribution to the continuing search for a lawful, practical and durable architecture through which peace may be prevented from failing, restored when damaged, strengthened through learning, and preserved across generations.

I. PURPOSE AND CONSTITUTIONAL VISION

Humanity has developed laws, institutions, diplomacy, humanitarian mechanisms and systems of accountability capable of responding to war and serious human suffering. Yet enduring peace requires more than responding after destruction has begun.

It requires attention to the conditions through which fear, insecurity, grievance, deception, humiliation, exclusion, exploitation, dehumanization, institutional failure, environmental stress and irresponsible uses of power or technology may develop into violence.

The governing responsibility of this Constitution is therefore:

TO UNDERSTAND THE CAUSE; TO PREVENT FORESEEABLE HARM; TO PRESERVE PEACEFUL ALTERNATIVES; TO PROTECT HUMAN DIGNITY; TO RESOLVE DISPUTES LAWFULLY; TO REPAIR HARM WHERE POSSIBLE; TO LEARN FROM FAILURE; AND TO REDUCE RECURRENCE ACROSS GENERATIONS.

The Constitution does not claim that every war can be prevented, every wrong eliminated or every future danger predicted.

Its purpose is instead to build a method capable of improving prevention, resilience, peaceful response, correction and continuity even as human circumstances change.

II. CONSTITUTIONAL SPIRIT OF THE INDIA-LINKED SUBMISSION

This submission respectfully invokes the constitutional spirit reflected in Article 51(c) and Article 51(d) of the Constitution of India.

Article 51(c) concerns the State's endeavour to foster respect for international law and treaty obligations in the dealings of organised peoples with one another.

Article 51(d) concerns the State's endeavour to encourage settlement of international disputes by arbitration.

These provisions are invoked solely as constitutional principles supportive of respect for international law and peaceful dispute settlement.

They are not invoked as creating any individual entitlement to Presidential action, governmental adoption, diplomatic transmission, United Nations consideration or any other institutional consequence.

Accordingly, this submission respectfully requests only such consideration and possible further transmission as the competent authorities of the Republic of India may independently determine to be lawful and appropriate.

III. LEGAL CHARACTER AND CONSTITUTIONAL RESTRAINT

This Constitution is an independent, peaceful, good-faith and non-binding proposal.

By its own force, it:

- (a) creates no treaty obligation or binding rule of international law;
- (b) establishes no world State, World Government, supranational sovereignty or global governmental authority;
- (c) transfers no sovereignty and manufactures no consent;
- (d) creates no compulsory jurisdiction, sanctions authority, military authority, compulsory taxation or mandatory financial transfer;
- (e) authorizes no unlawful intervention, coercive interference or threat or use of force;
- (f) creates no authority to represent the Republic of India, the United Nations, any other State or people, humanity as a legal whole, or future generations; and
- (g) creates no legal authority for the author or VSJP beyond that which may independently exist under applicable law.

Nothing in this Constitution shall amend, replace, override, displace or claim superiority over the Charter of the United Nations, applicable international law, valid treaty obligations, national constitutions, domestic legal orders or the lawful competence of established institutions.

Any future binding obligation, institution, jurisdiction, financing arrangement or enforcement mechanism inspired by this proposal would require its own independent and lawful basis.

GLOBAL ASPIRATION SHALL NEVER MANUFACTURE GLOBAL AUTHORITY.

IV. PEACE WITHIN LAW

World peace shall be pursued through law, responsibility and peaceful coexistence.

Accordingly:

- (a) peace shall not justify domination;
- (b) prevention shall not become preventive war;
- (c) humanitarian concern shall not manufacture sovereignty;
- (d) international cooperation shall not manufacture consent;
- (e) security shall not justify unlimited surveillance;
- (f) accountability shall not become collective vengeance;
- (g) technological capability shall not manufacture political authority;
- (h) emergency shall not manufacture permanent exceptional power;
- (i) and moral conviction shall not be misrepresented as binding law.

This Constitution shall therefore be interpreted consistently with applicable international law, including, according to its respective scope and conditions, principles and rules concerning sovereign equality, territorial integrity, political independence, peaceful settlement of disputes, non-intervention, domestic jurisdiction, human rights, and the prohibition of the threat or use of force under the Charter of the United Nations. International humanitarian law shall apply where its own legal conditions of application are met.

No principle advanced in the name of peace shall enlarge authority beyond its lawful foundation.

*PEACE WITHIN LAW. COOPERATION WITHOUT INVENTED CONSENT. RESPONSIBILITY
WITHOUT UNLAWFUL INTERVENTION.*

V. THE DURABLE PEACE-SOLUTION METHOD

This Constitution shall not regard the statement of a principle, prohibition or aspiration as sufficient where a responsible practical pathway can be identified.

Major threats to peace, dignity or continuity should therefore be examined, where appropriate, through the following architecture:

*UNDERSTAND → IDENTIFY ROOT CAUSES AND ENABLING CONDITIONS →
ANTICIPATE FORESEEABLE RISK → PREVENT → IDENTIFY ACTORS WITH
LAWFUL COMPETENCE → PRESERVE COMMUNICATION → BUILD CAPACITY
→ PROTECT → DE-ESCALATE → RESOLVE PEACEFULLY → PROVIDE LAWFUL
ACCOUNTABILITY OR REMEDY WHERE AVAILABLE → REPAIR → RECONCILE
WHERE POSSIBLE WITHOUT FORCED FORGETTING → LEARN → CORRECT →
ADAPT → MONITOR → PREVENT RECURRENCE.*

A proposed solution should, to the extent relevant:

- (a) address causes as well as consequences;
- (b) identify realistic implementation pathways;
- (c) respect human dignity and sovereign equality;
- (d) remain proportionate to the risk addressed;
- (e) strengthen education, institutional capacity or social resilience where needed;
- (f) permit evidence-based evaluation;
- (g) provide correction or remedy where lawfully available;
- (h) and remain capable of responsible adaptation over time.

Where no complete solution is presently possible, the constitutional duty is not to manufacture certainty. It is to reduce harm, preserve peaceful possibilities, improve knowledge and continue seeking a more durable response.

NO PRINCIPLE WITHOUT A PATHWAY.

NO PROHIBITION WITHOUT PREVENTION.

NO RESPONSIBILITY WITHOUT IMPLEMENTATION.

NO ACCOUNTABILITY WITHOUT A LAWFUL CORRECTIVE PATHWAY.

NO PEACE WITHOUT ATTENTION TO ROOT CAUSES.

*NO DURABLE SOLUTION WITHOUT LEARNING.
AND NO SOLUTION WITHOUT LAWFUL LIMITS.*

VI. PRESENT, EMERGING AND UNKNOWN FUTURE RISKS

This Constitution is not confined to the dangers identifiable in 2026.

Forms of conflict, technology, communication, environmental disruption, economic vulnerability and organized power may evolve more rapidly than fixed institutional language.

Known risks should therefore be addressed with factual and legal specificity where evidence permits, while emerging or presently unknown risks should be governed through enduring constitutional principles.

Those principles include:

- (a) human dignity;
- (b) peaceful coexistence;
- (c) lawfulness;
- (d) truth and evidentiary discipline;
- (e) prevention; proportionality;
- (f) responsible exercise of power;
- (g) meaningful human responsibility;
- (h) safety and resilience;
- (i) accountability and correctability;
- (j) scientific integrity;
- (k) institutional learning;
- (l) intergenerational responsibility;
- (m) continuity of life and life-supporting systems; and Aram.

Novelty shall not prove danger.

Uncertainty shall not justify neglect.

Innovation shall not create immunity from responsibility.

Precaution shall not become a pretext for domination or paralysis.

This Constitution therefore does not attempt to predict every danger that humanity may encounter.

It seeks to preserve a constitutional method capable of responding responsibly even to problems that cannot yet be named.

VII. HUMAN DIGNITY, LIFE AND RESPONSIBLE UNIVERSAL CONCERN

Every human being possesses inherent and equal dignity.

Human worth shall not depend upon nationality, sex, age, disability, wealth, power, political influence, technological capacity, economic usefulness or social status.

Responsible constitutional concern also extends, according to the different nature of the interest concerned, to:

human beings; other living beings; ecosystems and natural systems; the non-living natural and material foundations upon which life and civilization depend; and future generations.

Such concern shall not erase legal distinctions or falsely assign identical human rights, human dignity, legal personality, standing, representation or remedies to fundamentally different subjects.

The governing principle is:

EQUAL HUMAN DIGNITY.

RESPONSIBLE CONCERN FOR LIFE.

STEWARDSHIP OF WHAT SUSTAINS LIFE.

UNIVERSAL CONCERN WITHOUT FALSE LEGAL EQUIVALENCE.

VIII. ARAM AND HUMAN CONSCIENCE

Law can restrain conduct, but durable peace also depends upon human choice.

This Constitution therefore recognizes Aram as a non-compulsory ethical orientation toward right conduct, truth, integrity, justice, compassion, restraint, responsibility, non-harm and respect for human dignity and life.

Aram is not presented as a religion, State ideology, superior cultural identity, compulsory philosophy, source of binding international law or authority to control thought, conscience or lawful belief.

Its constitutional function is ethical, not jurisdictional.

It reminds humanity that:

- (a) anger need not become violence;

- (b) grievance need not become hatred;
- (c) hatred need not become dehumanization;
- (d) loss need not become vengeance;
- (e) ambition need not become domination; power need not become exploitation;
- (f) difference need not become enmity;
- (g) and disagreement need never become war.

*ARAM SHALL GUIDE CONSCIENCE. LAW SHALL GOVERN LEGAL OBLIGATION. NEITHER
SHALL BE MISREPRESENTED AS THE OTHER.*

IX. RESPONSIBILITY TOWARD FUTURE GENERATIONS

Present decisions may shape peace, ecological conditions, knowledge, technology, institutions and human possibility long beyond the lifetime of present decision-makers. The present therefore bears a responsibility to avoid, where reasonably possible, transferring preventable hatred, irreversible destruction or catastrophic risk to those who follow.

This responsibility does not authorize the present generation to invent the consent, preferences, political mandate or legal representation of persons not yet born.

Future generations are not a source of invented authority.

They are a reason for greater responsibility today.

*NO GENERATION OWNS THE FUTURE.
EVERY GENERATION SHAPES WHAT IT LEAVES BEHIND.*

X. DISCIPLINE AGAINST ABSOLUTE PROMISES

This Constitution does not promise the permanent elimination of war, violence, injustice, human error, institutional failure, environmental harm or technological danger. Such a promise would exceed evidence.

A durable peace-solution means instead an architecture capable of:

- (a) addressing root causes;
- (b) preventing reasonably foreseeable harm;
- (c) preserving peaceful alternatives;
- (d) responding lawfully when harm occurs; correcting failure;
- (e) providing remedy where independently available;

(f) preserving lessons;
(g) adapting to evidence and change;
and reducing recurrence across generations.

Its durability lies not in immutability, but in the continuity of a lawful and correctable method.

*A CONSTITUTION FOR PEACE NEED NOT PROMISE THE IMPOSSIBLE IN ORDER TO
PURSUE THE NECESSARY.*

XI. HISTORICAL-PRIORITY AND DOCUMENTARY SAFEGUARD

The expression: “**THE WORLD’S FIRST WORLD PEACE CONSTITUTION — 2026**” is used solely as a qualified, good-faith authorial historical-priority characterization within the specifically defined cumulative constitutional category of this instrument.

It does not claim that this is humanity’s first peace philosophy, peace document, proposed world constitution, world-federation project, global governance framework, human-rights initiative, environmental framework or international peace effort.

The characterization remains dependent upon reasonably available documentary evidence, expressly acknowledges relevant historical predecessors, and shall remain open to correction if credible contrary evidence establishes an earlier qualifying instrument.

Historical priority creates no sovereignty, jurisdiction, international legal personality, United Nations status, governmental recognition, institutional endorsement or authority over other peace initiatives.

*HISTORICAL DISTINCTION SHALL REMAIN SUBORDINATE TO DOCUMENTARY TRUTH.
TRUTH HAS PRIORITY OVER PRIORITY.*

XII. RESPECTFUL REQUEST AND NON-ENDORSEMENT SAFEGUARD

In this carefully limited and good-faith capacity, I respectfully request that the Hon’ble President of the Republic of India may be pleased to consider this submission and, only if independently considered appropriate within India’s constitutional, legal and institutional framework, permit such further consideration or transmission through competent channels as the appropriate authorities may lawfully determine.

No submission, receipt, acknowledgment, forwarding, transmission, publication, archiving, discussion or consideration of this Constitution shall, merely by that fact, constitute:

adoption; approval; endorsement; recognition; registration or deposit as an official international instrument; consent to jurisdiction; creation of legal obligation; or acceptance of its historical-priority characterization.

No institutional action shall ever be represented as more than the documentary record actually establishes.

XIII. FINAL FOUNDATIONAL APPEAL

Humanity does not require a sovereign above sovereign States in order to recognize a responsibility greater than preventable destruction.

It does not require uniformity to coexist.

It does not require surrender of lawful sovereignty to cooperate.

It does not require the disappearance of disagreement to preserve peace.

It requires the discipline to restrain power, the courage to preserve dialogue, the wisdom to separate justice from vengeance, the humility to correct error, the foresight to govern new capability responsibly, and the conscience to protect the conditions through which life and peaceful human possibility may continue.

This Constitution therefore offers no throne above nations and claims no authority to govern humanity.

It offers a constitutional possibility:

that strength may exist without domination;

that justice may operate without vengeance;

that memory may preserve truth without transmitting hatred;

that technology may advance without dissolving human responsibility;

that development may flourish without destroying its own foundations;

that diversity may endure without becoming dehumanization;

and that each generation may leave the next not a command to repeat its conflicts, but a greater capacity to resolve them peacefully.

PEACE WITHIN LAW.

DIGNITY WITHOUT DOMINATION.
JUSTICE WITHOUT VENGEANCE.
TRUTH WITHOUT MANIPULATION.
POWER WITH RESPONSIBILITY.
PROGRESS WITH HUMAN ACCOUNTABILITY.
CONTINUITY WITHOUT STAGNATION.
PREVENTION WITHOUT PREVENTIVE DOMINATION.
FUTURE RESPONSIBILITY WITHOUT INVENTED FUTURE CONSENT.
GLOBAL ASPIRATION WITHOUT GLOBAL GOVERNMENT.
FROM ARMS TO ARAM.
FROM REACTION TO PREVENTION.
FROM THE RECURRENCE OF WAR TO THE CONSTRUCTION OF DURABLE PEACE.

Respectfully submitted in good faith,

R. Narasimhan (also known as Aaryan Narasimhan Radhakrishnan) - A Human Being,

THE WORLD'S FIRST WORLD PEACE CONSTITUTION — 2026

ADVANCED CONCISE INTERNATIONAL SUBMISSION EDITION

EXECUTIVE CONSTITUTIONAL SUMMARY

I. PURPOSE

The World's First World Peace Constitution — 2026 is presented as an independent, peaceful, good-faith and non-binding global constitutional proposal for the prevention of recurring war and the construction of durable peace.

Its central purpose is to contribute to a future in which:

- a) war becomes progressively less likely;
- b) violence becomes progressively less normalized;
- c) Human Dignity becomes progressively better protected; peaceful settlement becomes more accessible and resilient;
- d) human and institutional capacity for prevention becomes stronger;
- e) the conditions that sustain life receive more responsible protection;
- f) scientific and technological power remains accountable to human responsibility;
- g) and future generations inherit greater peaceful possibility rather than avoidable cycles of destruction.

The Constitution does not presume that written principles can abolish every destructive human impulse or guarantee that war will never occur.

It seeks instead to reduce the pathways through which:

- a) disagreement becomes hostility;
- b) hostility becomes dehumanization;
- c) dehumanization becomes organized violence;

- d) grievance becomes inherited hatred; institutional failure becomes prolonged injustice;
- e) technological capability becomes irresponsible power;
- f) environmental or economic vulnerability becomes destabilizing pressure;
- g) and unresolved conflict becomes recurring war.

Its governing direction is:

*PREVENT THE CAUSE.
INTERRUPT THE ESCALATION.
PRESERVE COMMUNICATION.
PROTECT HUMAN DIGNITY.
RESOLVE DISPUTES PEACEFULLY.
REPAIR HARM LAWFULLY.
PRESERVE THE LESSON.
ADAPT TO CHANGE.
AND PREVENT RECURRENCE.*

II. CONSTITUTIONAL CHARACTER

Subject to the Foundational Submission Framework established in Part 1, this Constitution possesses no binding force by its own terms.

Its aspiration is universal.

Its authority is not.

Its principles are proposed for peaceful consideration, voluntary learning, responsible cooperation and such lawful implementation as independently competent actors may choose within their respective authority.

No provision shall manufacture sovereignty, consent, jurisdiction, representation, financial obligation, enforcement power or institutional competence.

Where existing international or national law independently establishes an obligation, right, jurisdiction or responsibility, that legal effect arises from the applicable law itself and not from this Constitution.

Where this Constitution proposes a principle that extends beyond existing binding law, that principle shall remain non-binding unless lawfully adopted through an independent legal process.

III. WHAT WORLD PEACE MEANS IN THIS CONSTITUTION

World Peace is not defined merely as the temporary absence of armed conflict.

For the purposes of this Constitution, durable peace is understood as a continuing condition in which human beings, communities and States are better able to coexist, disagree, develop and resolve disputes without recourse to unlawful violence or dehumanization.

Such peace depends, according to context, upon mutually reinforcing conditions including:

- a) Human Dignity;
- b) respect for law;
- c) peaceful settlement; human security;
- d) truthful and responsible communication;
- e) fair and accessible institutions;
- f) freedom from serious violence and exploitation;
- g) meaningful opportunity;
- h) social and economic resilience;
- i) education;
- j) responsible leadership;
- k) environmental continuity;
- l) responsible science and technology;
- m) and the capacity to correct failure.

Peace is therefore both:

The prevention of destruction;

and

The continuous construction of conditions through which peaceful life can endure.

IV. THE ROOT-CAUSE APPROACH

The Constitution rejects the assumption that lasting peace can be built solely by suppressing visible symptoms after a crisis has matured.

Different conflicts have different histories, causes and legal circumstances.

No universal list of causes shall therefore be mechanically imposed upon every society or dispute.

Nevertheless, responsible prevention should examine, where supported by evidence and relevant to the circumstances, whether serious instability is being intensified by factors such as:

- a) fear and insecurity;
- b) dehumanization; unresolved grievance;
- c) systematic exclusion or discrimination;
- d) serious injustice;
- e) extreme deprivation or vulnerability;
- f) corruption or institutional breakdown;
- g) violent extremism or organized incitement;
- h) manipulated information;
- i) breakdown of peaceful political or diplomatic channels;
- j) competition over critical resources;
- k) environmental stress;
- l) serious economic disruption;
- m) weapons proliferation; technological misuse;
- n) or interaction among several such pressures.

The existence of any such condition shall not establish guilt, causation or inevitability.

Prevention shall remain evidence-informed, context-sensitive and consistent with lawful authority.

The constitutional question is not: *“Whom can we blame before harm occurs?”*

it is: *“What conditions can responsibly be improved before harm becomes harder to prevent?”*

V. THE DURABLE PEACE ARCHITECTURE

The operational method established in Part 1 shall govern the Constitution as a whole.

In condensed form:

UNDERSTAND → ANTICIPATE → PREVENT → COMMUNICATE → PROTECT → DE-ESCALATE → RESOLVE PEACEFULLY → ACCOUNT LAWFULLY → REPAIR → RECONCILE WHERE POSSIBLE → LEARN → CORRECT → ADAPT → MONITOR → PREVENT RECURRENCE.

This architecture is neither a rigid sequence nor a claim that every problem permits every stage.

The appropriate point of entry shall depend upon circumstances, evidence, applicable law, urgency and institutional competence.

Where prevention succeeds, destructive escalation may never occur.

Where prevention fails, lawful protection and peaceful resolution become more urgent.

Where serious harm has occurred, accountability, remedy and repair may be necessary.

Where conflict has ended, unresolved causes and recurrence risks remain subjects of responsibility.

The permanence sought by this Constitution therefore lies not in a single institution or fixed solution, but in a continuous capacity to prevent, respond, learn and improve.

VI. HUMAN DIGNITY AND DIGNIFIED LIFE

Human Dignity is a foundational human concern of this Constitution.

Peace cannot be considered durable where human beings are persistently treated as disposable, inferior, exploitable or unworthy of protection.

Accordingly, the Constitution shall address, within its non-binding character and without displacing independently applicable law, the conditions through which a dignified life may be strengthened, including:

- a) protection of life and personal security;
- b) freedom from violence, exploitation and dehumanization;
- c) food and adequate nutrition;
- d) safe water and sanitation;

- e) shelter and basic security;
- f) health and care;
- g) education and access to knowledge;
- h) meaningful livelihood and opportunity;
- i) equality and non-discrimination;
- j) lawful freedom and participation;
- k) access to peaceful dispute resolution and justice;
- l) and a safe and sustainable environment.

These concerns shall not be interpreted as creating through this Constitution an automatic entitlement to any particular institutional, financial or distributive mechanism.

The constitutional duty is instead to ensure that peace architecture does not ignore the human conditions in which peace must actually be lived.

PEACE THAT FORGETS THE HUMAN BEING FORGETS ITS PURPOSE.

VII. WOMEN, CHILDREN AND OLDER PERSONS

Durable peace requires the equal dignity, safety, agency and meaningful participation of women.

Women shall never be reduced, within this Constitution, to familial, maternal or caregiving roles.

Their equal participation in education, science, technology, economic life, public affairs, leadership, peacebuilding and decision-making is part of peaceful human possibility.

Children require particular protection because violence, exploitation, dehumanization and inherited hatred can shape an entire future before the child possesses meaningful power to resist them.

No child should be educated to regard another people, religion, nationality, ethnicity, community or lawful identity as inherently worthy of hatred.

Older persons possess equal Human Dignity and should remain protected from neglect, violence, exploitation and exclusion.

Their experience and knowledge may be transmitted voluntarily across generations, but age shall not create unquestionable authority.

The intergenerational principle is:

LET EXPERIENCE GUIDE WITHOUT DOMINATING.

LET YOUTH INHERIT KNOWLEDGE WITHOUT INHERITING CHAINS.

LET EVERY GENERATION REMAIN FREE TO IMPROVE WHAT IT RECEIVES.

VIII. JUSTICE WITHOUT VENGEANCE

A durable peace cannot demand impunity for serious wrong.

Nor can justice remain durable when it is transformed into collective revenge.

This Constitution therefore distinguishes lawful accountability from vengeance.

Accountability should, where independently required or available under applicable law:

- a) identify responsibility through lawful processes;
- b) protect procedural fairness;
- c) distinguish individual responsibility from collective identity;
- d) recognize and support victims;
- e) provide effective remedy where legally available;
- f) prevent impunity where the law requires accountability;
- g) support rehabilitation and reintegration where appropriate;
- h) address institutional failures;
- i) and reduce recurrence.

Reconciliation shall never require compulsory forgetting, denial of truth or involuntary forgiveness. Memory should preserve truth without becoming an instruction to inherit hatred.

JUSTICE SHALL ANSWER WRONG.

VENGEANCE SHALL NOT GOVERN JUSTICE.

IX. HUMAN CONSCIENCE AND A CULTURE OF PEACE

Law can regulate conduct but cannot manufacture compassion, integrity or wisdom.

Durable peace therefore requires voluntary development of human capacities that make non-violent coexistence more achievable.

Education and social learning should, consistently with human rights, cultural pluralism and lawful freedom, strengthen:

- a) critical reasoning;
- b) truthfulness;
- c) empathy;
- d) self-awareness;
- e) emotional regulation;
- f) respectful disagreement;
- g) non-violent conflict resolution;
- h) resistance to manipulation and dehumanization;
- i) responsible citizenship;
- j) digital and information literacy;
- k) and understanding of the consequences of violence.

This constitutional approach shall never justify thought policing, compulsory ideological conformity, unauthorized surveillance or punishment of lawful belief or dissent.

THE PURPOSE IS NOT TO CONTROL THE HUMAN MIND.

*THE PURPOSE IS TO ENLARGE THE HUMAN CAPACITY TO REFUSE
AVOIDABLE WRONG.*

X. INFORMATION, TRUTH AND PEACE

Information can strengthen peaceful cooperation or accelerate distrust, panic, hatred and conflict.

The Constitution therefore supports responsible efforts to strengthen information integrity while preserving lawful freedom of expression, pluralism, journalism, scientific inquiry and legitimate disagreement.

Peace-oriented information resilience should include, where appropriate:

- a) public access to reliable information;

- b) transparent correction of material error; independent and plural sources of knowledge;
- c) media and digital literacy;
- d) responsible crisis communication;
- e) verification before consequential action;
- f) protection against unlawful incitement and other prohibited conduct according to applicable law;
- g) resilience against coordinated manipulation;
- h) and institutional capacity to distinguish evidence from speculation.

No authority shall infer from this Constitution a general power to suppress lawful disagreement in the name of truth or peace.

TRUTH REQUIRES EVIDENCE.

PEACE REQUIRES TRUTH WITHOUT COMPULSORY UNIFORMITY.

XI. EARTH, WATER, AIR, ENERGY AND SPACE

Human civilization depends upon life-supporting natural systems and physical conditions that should not be treated as unlimited instruments of destructive power.

This Constitution therefore develops an ethical and constitutional framework of responsible stewardship concerning Earth, Water, Air, Fire/Energy and Space.

These expressions do not create a new scientific taxonomy, new international legal category, ownership of nature, universal jurisdiction or identical legal status among those domains.

The purpose is practical:

- a) to protect life-supporting conditions from severe and avoidable harm;
- b) to reduce catastrophic misuse;
- c) to encourage restoration where feasible;
- d) to strengthen resilience;
- e) to support peaceful and sustainable development;
- f) and to prevent human capability from becoming detached from responsibility.

Nothing in this principle alters sovereignty or other lawful rights concerning territory, natural resources, maritime zones, national airspace, outer space or celestial bodies.

STEWARDSHIP IS NOT OWNERSHIP.

IT IS RESPONSIBILITY FOR CONSEQUENCES.

XII. SCIENCE, TECHNOLOGY AND ARTIFICIAL INTELLIGENCE

Science and technology can strengthen health, food security, education, communication, accessibility, environmental protection, productivity, knowledge and peaceful cooperation.

They can also create serious or catastrophic risks when power, deployment, control or incentives outrun safety and responsibility.

The Constitution therefore adopts the following orientation:

CAPABILITY WITH RESPONSIBILITY.

INNOVATION WITH SAFETY.

POWER WITH ACCOUNTABILITY.

Technology governance should remain proportionate to actual or reasonably foreseeable risk and should avoid unnecessarily obstructing beneficial innovation.

Artificial Intelligence, regardless of increasing capability, shall not merely by reason of that capability acquire sovereignty, governmental authority or immunity from human responsibility.

Human beings and institutions exercising lawful control or authority shall remain responsible according to independently applicable law.

For high-consequence technologies, responsible governance should consider, as appropriate:

- a) risk assessment;
- b) safety-by-design;
- c) security-by-design;
- d) testing and validation; meaningful human responsibility;
- e) protection against foreseeable misuse;
- f) cybersecurity;

- g) incident detection and response;
- h) audit and review;
- i) correction of harmful failure modes;
- j) and learning from serious incidents.

No technology shall become, by virtue of technical capability alone, a sovereign over human beings.

XIII. PEACE, TECHNOLOGY AND CRITICAL SYSTEMS

Technological dependence can create new pathways to large-scale human harm.

Particular care should therefore be directed toward critical civilian systems upon which life and social continuity depend, including, as relevant:

- a) healthcare;
- b) water;
- c) food systems;
- d) energy;
- e) communications;
- f) transportation;
- g) financial infrastructure;
- h) emergency services;
- i) and essential public administration.

Responsible resilience should include prevention, redundancy where appropriate, cybersecurity, continuity planning, incident response, recovery and learning.

In conflict-related technological systems, special attention should be given to risks of miscalculation, automation bias, manipulated information, cyber compromise, unintended escalation, machine-speed decision cycles and loss of meaningful human judgment. No provision of this Constitution determines the legality of a specific weapon or military system independently of applicable international law.

Its constitutional direction is preventive:

*THE FASTER HUMAN POWER BECOMES, THE MORE IMPORTANT
RESPONSIBLE HUMAN JUDGMENT BECOMES.*

XIV. PRESENT AND FUTURE SYSTEMIC RISKS

Humanity may face risks that do not fit neatly within traditional categories of conflict. The Constitution shall therefore maintain capacity for responsible attention to systemic and potentially catastrophic risks arising from, among other areas:

- a) nuclear danger;
- b) biological and chemical hazards;
- c) environmental degradation and climate-related stress;
- d) cyber disruption;
- e) Artificial Intelligence and autonomous systems;
- f) dangerous interactions among advanced technologies;
- g) critical-infrastructure failure;
- h) large-scale information manipulation;
- i) catastrophic dual-use capabilities;
- j) resource insecurity;
- k) and future technologies or systemic risks not yet reasonably foreseeable.

The existence of uncertainty shall not itself prove catastrophe.

Response should be calibrated to credible evidence, severity, probability, reversibility and uncertainty.

Where consequences could be exceptionally grave, responsible foresight may justify proportionate preventive preparation even before complete certainty exists, provided that such preparation remains lawful, evidence-responsive, reviewable and respectful of rights.

The future-risk principle is:

DO NOT INVENT FEAR.

DO NOT IGNORE EVIDENCE.

PREPARE RESPONSIBLY FOR WHAT COULD MATTER.

CORRECT COURSE AS KNOWLEDGE IMPROVES.

XV. ECONOMIC SECURITY, LIVELIHOOD AND PEACE

Peace is weakened where human beings lack realistic pathways to live with dignity, participate productively and withstand severe economic shock.

The Constitution therefore recognizes the peace value of:

- a) food security;
- b) meaningful livelihood;
- c) skills and education;
- d) fair opportunity;
- e) responsible technological transition;
- f) resilient communities;
- g) social protection consistent with national circumstances;
- h) and economic systems that reduce severe vulnerability without suppressing legitimate enterprise, innovation or lawful property.

Economic inequality, poverty or unemployment shall not automatically be described as causes of war.

Their relationship to instability varies by context and shall be assessed through evidence.

The constitutional objective is not compulsory economic uniformity.

It is:

*A DIGNIFIED POSSIBILITY TO LIVE, CONTRIBUTE, LEARN, ADAPT AND BUILD
A PEACEFUL FUTURE.*

XVI. PEACEFUL SETTLEMENT AND DIPLOMATIC CONTINUITY

International disagreement is inevitable.

War is not therefore inevitable.

Consistently with the Charter of the United Nations and applicable international law, States should preserve and strengthen peaceful means appropriate to their disputes, including negotiation, enquiry, mediation, conciliation, arbitration, judicial settlement, resort to regional agencies or arrangements, and other peaceful means of their choice.

No mechanism proposed by this Constitution becomes compulsory merely because peaceful settlement is preferred.

Where crisis intensifies, responsible actors should seek, where lawful and feasible, to preserve:

- a) communication channels;
- b) diplomatic contact;
- c) reliable crisis information;
- d) humanitarian communication;
- e) de-escalatory options;
- f) and time for responsible decision-making.

A broken relationship may still contain a peaceful channel.

A PEACE ARCHITECTURE SHOULD KEEP THAT CHANNEL OPEN.

XVII. IMPLEMENTATION

A Constitution concerned only with ideals but indifferent to practice cannot provide a durable solution architecture.

Accordingly, substantive provisions of this instrument shall identify, where relevant:

- a) the problem;
- b) its principal preventable causes or enabling conditions;
- c) the preventive pathway;
- d) actors possessing lawful competence;
- e) practical implementation measures;
- f) education or capacity-building requirements;
- g) monitoring and review;
- h) accountability, remedy or correction where legally available;
- i) and measures for long-term continuity and non-recurrence.

Implementation should be:

- a) voluntary where no independent legal obligation exists;
- b) lawful; proportionate;
- c) context-sensitive;

- d) financially and administratively realistic;
- e) transparent where appropriate;
- f) rights-respecting;
- g) capable of evaluation;
- h) and capable of correction.

No implementation clause shall silently create powers not otherwise lawfully possessed.

XVIII. RESPONSIBLE ACTORS

Peace cannot be delegated to a single institution.

According to context and lawful competence, contributions may come from:

- a) States;
- b) the United Nations and other competent international organizations;
- c) regional institutions;
- d) courts and tribunals possessing valid jurisdiction;
- e) diplomatic and mediation services;
- f) national and local institutions;
- g) educational and scientific institutions;
- h) civil society;
- i) communities;
- j) responsible private actors;
- k) families;
- l) and individuals.

The role of each actor shall remain limited by the authority, mandate, law, consent and responsibility actually applicable to that actor.

Shared responsibility shall not mean undefined authority.

GLOBAL RESPONSIBILITY REQUIRES MANY ACTORS.

IT DOES NOT REQUIRE ONE GLOBAL RULER.

XIX. MONITORING, LEARNING AND CORRECTION

A peace measure shall not be preserved merely because its intention was good.

Where appropriate, responsible implementation should be assessed through evidence concerning:

whether harm decreased;

whether peaceful capacity increased;

whether vulnerable persons were better protected;

whether unintended consequences occurred; whether rights were impaired;

whether institutional trust or integrity changed;

whether the intervention remained proportionate;

whether the original risk changed;

and whether recurrence became more or less likely.

Failure should trigger learning rather than institutional denial.

Success should be examined for transferability without assuming that one context mechanically fits another.

The governing principle is:

MEASURE CONSEQUENCES.

CORRECT ERROR.

PRESERVE WHAT WORKS.

ABANDON WHAT CAUSES UNJUSTIFIED HARM.

AND CONTINUE LEARNING.

XX. FUTURE GENERATIONS AND CONSTITUTIONAL CONTINUITY

Future generations cannot consent to the decisions of the present.

They therefore shall not be represented here as having authorized this Constitution.

Nevertheless, present decisions can alter the conditions they inherit.

The Constitution accordingly seeks to preserve for them:

- a) peaceful possibility;
- b) Human Dignity;
- c) ecological continuity;
- d) knowledge;
- e) institutional integrity;

- f) responsible technology; freedom to question inherited assumptions;
- g) and the capacity to correct the mistakes of preceding generations.

The instrument itself must therefore remain capable of principled review.

Durability shall not mean the preservation of error.

Adaptation shall not permit silent expansion of authority.

Amendment shall never silently transform this non-binding proposal into a World Government, supranational sovereignty, compulsory jurisdiction, automatic financial system, sanctions regime or military authority.

DURABILITY WITHOUT IMMUTABILITY.

CONTINUITY WITHOUT ENTRENCHED ERROR.

XXI. THE CONSTITUTIONAL TEST OF EVERY MAJOR SOLUTION

Before a major solution proposed under this Constitution is regarded as constitutionally sound, it should answer:

IS IT PEACEFUL?

IS IT LAWFUL?

DOES IT RESPECT HUMAN DIGNITY?

DOES IT ADDRESS CAUSES AS WELL AS CONSEQUENCES?

DOES IT RESPECT SOVEREIGN EQUALITY?

DOES IT AVOID MANUFACTURING AUTHORITY OR CONSENT?

IS THE RESPONSIBLE ACTOR IDENTIFIED?

IS THERE A PRACTICAL IMPLEMENTATION PATHWAY?

IS THE RESPONSE PROPORTIONATE TO THE RISK?

CAN ITS EFFECTS BE MONITORED?

CAN ERROR BE CORRECTED?

IS LAWFUL ACCOUNTABILITY OR REMEDY AVAILABLE WHERE REQUIRED?

CAN THE SYSTEM LEARN?

DOES IT REDUCE THE RISK OF RECURRENCE?

AND

DOES IT LEAVE FUTURE GENERATIONS WITH GREATER PEACEFUL POSSIBILITY?

A solution materially failing these tests should be reconsidered, corrected or rejected.

XXII. CONSTITUTIONAL FORMULA

PEACE WITHIN LAW.

DIGNITY WITHOUT DOMINATION.

JUSTICE WITHOUT VENGEANCE.

TRUTH WITHOUT MANIPULATION.

STRENGTH WITH RESTRAINT.

FREEDOM WITH RESPONSIBILITY.

POWER WITH ACCOUNTABILITY.

PROGRESS WITHOUT DEHUMANIZATION.

COOPERATION WITHOUT INVENTED CONSENT.

RESPONSIBILITY WITHOUT UNLAWFUL INTERVENTION.

TECHNOLOGY WITH HUMAN ACCOUNTABILITY.

UNIVERSAL CONCERN WITHOUT FALSE LEGAL EQUIVALENCE.

RESPECT ACROSS GENERATIONS.

PREVENTION BEFORE DESTRUCTION.

REPAIR BEFORE RECURRENCE.

CONTINUITY WITHOUT STAGNATION.

AND

GLOBAL ASPIRATION WITHOUT GLOBAL GOVERNMENT.

XXIII. CONCLUSION

This Constitution does not promise that human conflict can be erased by words.

It proposes that humanity can become progressively better at preventing the conditions through which disagreement becomes destruction and at responding more lawfully, intelligently and humanely when prevention fails.

Its practical ambition is:

- a) to make peaceful settlement easier to preserve;

- b) violence harder to normalize;
- c) dehumanization harder to sustain;
- d) hatred harder to inherit;
- e) deception harder to weaponize;
- f) revenge less capable of governing justice;
- g) catastrophic misuse of human capability harder to permit;
- h) technology more accountable;
- i) institutions more capable of learning;
- j) Human Dignity more secure;
- k) life-supporting systems more resilient;
- l) and recurring war progressively less capable of becoming humanity's answer to disagreement.

Its aspiration is universal.

Its authority is not.

Its purpose is peaceful.

Its implementation must remain lawful.

Its solutions must remain reviewable.

Its errors must remain correctable.

Its future must remain adaptable.

Its ethical direction is Aram.

And its constitutional commitment is:

FROM REACTION TO PREVENTION.

FROM DEHUMANIZATION TO HUMAN RECOGNITION.

FROM VENGEANCE TO LAWFUL JUSTICE.

FROM IRRESPONSIBLE POWER TO ACCOUNTABLE POWER.

*FROM THE DESTRUCTION OF LIFE-SUPPORTING CONDITIONS TO
RESPONSIBLE STEWARDSHIP.*

*FROM THE MANAGEMENT OF RECURRING WAR TO THE CONTINUOUS
CONSTRUCTION OF PEACE.*

FROM ARMS TO ARAM.

PREAMBLE

WE, AS MEMBERS OF ONE HUMAN FAMILY, mindful that humanity has inherited extraordinary capacities for knowledge, compassion, cooperation, creativity and peaceful progress, while retaining the capacity for fear, deception, exploitation, dehumanization, violence, destruction and war;

affirming the inherent and equal Human Dignity of every human being, without distinction incompatible with applicable law or the equal worth of the person;

recognizing that human unity does not require political uniformity, cultural sameness, ideological conformity or the surrender of lawful sovereignty;

respecting the purposes and principles of the Charter of the United Nations, applicable international law, sovereign equality, territorial integrity, political independence, peaceful settlement of disputes, non-intervention and the lawful diversity of national constitutional orders;

recognizing that universal concern does not create universal sovereignty, that cooperation does not manufacture consent, and that no claim made in the name of peace can create authority that does not otherwise lawfully exist; affirming that peace is more than the temporary silence of weapons and must be strengthened through conditions in which dignity, justice, freedom, security, responsibility, truth, dialogue and peaceful human possibility can endure;

determined to move beyond the repeated management of destruction toward the prevention of the conditions through which destruction becomes more likely;

recognizing that war and serious violence rarely arise from a single cause, and that responsible prevention therefore, requires attention to context, evidence, human conduct, institutions, grievances, security, economic and social vulnerability, information, environmental stress, technology and other relevant conditions without converting complexity into predetermined blame;

convinced that disagreement need not become hostility, hostility need not become dehumanization, grievance need not become inherited hatred, and conflict need not become war;

affirming that justice must remain capable of confronting serious wrong without becoming collective vengeance, and that reconciliation, where possible, must never require compulsory forgetting, denial of truth or the abandonment of lawful accountability; recognizing that law can restrain harmful conduct but cannot, by itself, manufacture virtue;

therefore, supporting peaceful and rights-respecting conditions through which truthfulness, compassion, empathy, critical reasoning, self-restraint, courage, responsibility and non-violent conflict resolution may be voluntarily strengthened;

rejecting thought control, compulsory ideology, unlawful surveillance, collective guilt and the punishment of lawful conscience, belief, expression or disagreement;

recognizing Aram as a non-compulsory ethical orientation toward right conduct, integrity, justice, compassion, restraint, responsibility and the refusal knowingly to cause avoidable wrong;

affirming that Aram shall guide conscience while law shall govern legal obligation, and that neither shall be misrepresented as the other;

recognizing the equal dignity, safety and agency of women as indispensable to peaceful human development;

determined that children should inherit knowledge without inherited enmity, education without indoctrination into hatred, and identities without instruction to dehumanize others; affirming the dignity and continuing participation of older persons, while recognizing that experience should guide without dominating and that every generation must remain free to question and improve what it inherits;

mindful that future generations cannot consent to the decisions of the present, yet may live with their consequences;

therefore, accepting an intergenerational responsibility to preserve, where reasonably possible, peaceful possibility, knowledge, ecological continuity, responsible technology, institutional integrity and the freedom of those who follow to correct the errors of those who came before;

recognizing that humanity shares the Earth with other living beings and depends upon ecosystems, natural systems and non-living physical foundations that sustain life and civilization;

affirming responsible concern for life and stewardship of the conditions that sustain it, without falsely equating fundamentally different legal subjects or manufacturing legal personality, sovereignty, jurisdiction or rights not independently established by law;

mindful that Earth, Water, Air, Energy and Space may sustain human possibility but may also be subjected to destructive misuse;

determined that growing human capability must be accompanied by growing responsibility for its consequences;

recognizing that science and technology can advance health, knowledge, food security, accessibility, communication, environmental protection, prosperity and human freedom, while also creating or amplifying risks of unprecedented scale;

affirming that Artificial Intelligence and other advanced technologies must remain subject to meaningful human responsibility and shall not acquire political sovereignty, governmental authority or legal immunity merely through technical capability;

mindful that future dangers may arise from interactions among nuclear, biological, chemical, cyber, environmental, informational, technological and other systems, including risks that cannot yet be specifically foreseen;

therefore, resolving to govern uncertainty neither through denial nor fear, but through evidence, proportionality, lawful foresight, preparedness, review, correction and continuous learning;

recognizing that food, water, shelter, health, education, meaningful livelihood, safety, opportunity and access to justice form part of the human conditions within which peaceful life becomes more possible;

affirming that prosperity worthy of human civilization should enlarge human possibility without sacrificing dignity, lawful freedom, environmental continuity or the legitimate opportunities of future generations;

recognizing that institutions can fail, policies can produce unintended consequences, scientific understanding can improve and well-intended solutions can become harmful when they are immune from review;

therefore, insisting that every serious peace solution remain capable of evaluation, correction and responsible adaptation;

rejecting the belief that peace can be permanently secured through domination, fear, compulsory uniformity, unlimited surveillance, collective punishment, technological sovereignty or the uncontrolled concentration of power;

affirming instead that durable peace must grow through lawful restraint, credible institutions, responsible leadership, peaceful settlement, education, human conscience, fair opportunity, truth, accountability, repair, resilience and intergenerational learning; recognizing that no written Constitution can abolish every human wrong, predict every future danger or guarantee that war will never again occur;

yet refusing to accept recurring war, inherited hatred, preventable dehumanization or irresponsible destruction as permanent governing conditions of human civilization;

convinced that the value of a peace constitution lies not in promising the impossible, but in making preventable destruction progressively less likely and peaceful possibility progressively stronger;

and determined that each major problem addressed by this Constitution shall, where responsibly possible, be accompanied not merely by a principle or prohibition but by a pathway of prevention, lawful responsibility, implementation, capacity-building, review, correction, remedy where available, learning and prevention of recurrence;

WE THEREFORE, OFFER THIS CONSTITUTION

not as a command to humanity;

not as a treaty; not as a claim to govern the world;

not as an instrument of supranational sovereignty;

not as authority to interfere unlawfully in the affairs of States;

not as a promise of perfection;

and not as a declaration that words alone can abolish war;

but as an independent, peaceful, good-faith and non-binding constitutional proposal for a civilization progressively more capable of preventing destructive conflict, protecting Human Dignity, governing power responsibly, correcting failure and preserving peaceful human possibility across generations.

ITS AMBITION IS NOT DOMINATION. ITS AMBITION IS PREVENTION.

ITS METHOD IS NOT COERCION.

ITS METHOD IS LAWFUL PEACEFUL POSSIBILITY.

ITS ASPIRATION IS UNIVERSAL.

ITS AUTHORITY IS NOT.

AND WE AFFIRM:

PEACE WITHIN LAW.

DIGNITY WITHOUT DOMINATION.

JUSTICE WITHOUT VENGEANCE.

TRUTH WITHOUT MANIPULATION.

STRENGTH WITH RESTRAINT.

COURAGE WITHOUT CRUELTY.

FREEDOM WITH RESPONSIBILITY.

POWER WITH ACCOUNTABILITY.

PROGRESS WITH HUMAN DIGNITY.

SCIENCE WITH RESPONSIBILITY.

TECHNOLOGY WITH HUMAN ACCOUNTABILITY.

COOPERATION WITHOUT INVENTED CONSENT.

RESPONSIBILITY WITHOUT UNLAWFUL INTERVENTION.

UNIVERSAL CONCERN WITHOUT FALSE LEGAL EQUIVALENCE.

RESPECT ACROSS GENERATIONS.

PREVENTION BEFORE DESTRUCTION.

REPAIR BEFORE RECURRENCE.

LEARNING BEFORE REPETITION.

CONTINUITY WITHOUT STAGNATION.

ADAPTATION WITHOUT SILENT EXPANSION OF POWER.

AND

GLOBAL ASPIRATION WITHOUT GLOBAL GOVERNMENT.

LET HUMANITY THEREFORE, SEEK TO MOVE:

FROM FEAR TO UNDERSTANDING.

FROM DEHUMANIZATION TO HUMAN RECOGNITION.

FROM HATRED TO PEACEFUL COEXISTENCE.

FROM VENGEANCE TO LAWFUL JUSTICE.

FROM DECEPTION TO TRUTH.

FROM EXPLOITATION TO DIGNITY.

FROM IRRESPONSIBLE POWER TO ACCOUNTABLE POWER.

FROM THE DESTRUCTION OF LIFE-SUPPORTING CONDITIONS TO RESPONSIBLE STEWARDSHIP.

FROM TECHNOLOGICAL POWER WITHOUT RESPONSIBILITY TO HUMANLY ACCOUNTABLE PROGRESS.

FROM INHERITED ENMITY TO INTERGENERATIONAL PEACE.

FROM THE MANAGEMENT OF WAR TO THE PREVENTION OF WAR.

FROM REACTION TO PREVENTION.

FROM ARMS TO ARAM.

AND

FROM THE RECURRENCE OF DESTRUCTION TO THE CONTINUOUS CONSTRUCTION OF DURABLE PEACE.

FOR PEACE IS NOT THE END OF HUMAN DIFFERENCE.

IT IS THE HUMAN CAPACITY TO LIVE WITH DIFFERENCE WITHOUT MAKING DESTRUCTION ITS ANSWER.

PART I — HUMANITY, ARAM AND PEACE

ARTICLES 1–13

ARTICLE 1: THE SINGLE CONSTITUTIONAL PURPOSE

1. The central purpose of this Constitution is to contribute, through peaceful, lawful and non-binding constitutional principles and practical solution pathways, to the prevention of recurring war, serious violence, dehumanization and other grave threats to Human Dignity and the peaceful Continuity of life.

2. It shall seek, wherever responsibly possible, not merely to respond to destructive consequences but to identify and reduce:

- (a) root causes;
- (b) enabling conditions;
- (c) escalation pathways;
- (d) preventable vulnerabilities; and
- (e) risks of recurrence.

3. Every provision shall be interpreted consistently with:

- (a) Peace Within Law;
- (b) equal Human Dignity;
- (c) Aram as a non-compulsory ethical orientation;
- (d) peaceful settlement;
- (e) sovereign equality;
- (f) lawful human responsibility;
- (g) prevention before destruction;
- (h) justice without vengeance;

- (i) intergenerational responsibility;
- (j) evidence, review and correctability; and
- (k) the Continuity of peaceful human possibility.

4. No objective pursued in the name of peace shall be implemented by means that unlawfully destroy the legal or human foundations upon which peace itself depends.

THE PURPOSE IS NOT MERELY TO END A CRISIS.

THE PURPOSE IS ALSO TO MAKE ITS PREVENTABLE RETURN LESS LIKELY.

ARTICLE 2: ONE HUMAN FAMILY, WITH DIVERSITY AND WITHOUT WORLD GOVERNMENT

1. Every human being belongs equally to humanity and possesses inherent Human Dignity.
2. Nationality, citizenship, language, culture, sex, age, belief, origin, disability, identity, political status, economic condition or other difference shall not diminish that inherent human worth.
3. Recognition of one human family is an ethical affirmation of shared humanity and responsibility.
4. It shall strengthen coexistence while respecting legitimate cultural, political, national, constitutional and social diversity.
5. The expression “one human family” creates no:
 - (a) world citizenship;
 - (b) world State;
 - (c) World Government;
 - (d) supranational sovereignty;
 - (e) compulsory political or cultural identity;
 - (f) transfer of State sovereignty; or
 - (g) authority to represent humanity as a legal whole.
6. Human unity shall therefore, be pursued through recognition of equal worth, not compulsory sameness.

ONE HUMANITY.

MANY PEOPLES.

MANY CULTURES.

MANY LAWFUL POLITICAL ORDERS.

EQUAL HUMAN DIGNITY.

HUMAN UNITY WITHOUT POLITICAL UNIFORMITY.

ARTICLE 3: PEACE WITHIN LAW

1. Peace is the governing constitutional objective of this instrument.
2. Peace shall be pursued consistently with the Charter of the United Nations and other Applicable Law, including the legal principles and rules relevant to sovereign equality, territorial integrity, political independence, peaceful settlement of disputes, non-intervention, domestic jurisdiction and Human Rights.
3. No person, State, institution, organization or technological system shall acquire legal authority merely by claiming to act for peace.
4. Peace shall not be interpreted as requiring:
 - (a) submission to unlawful domination;
 - (b) surrender of independently existing legal rights;
 - (c) acceptance of aggression or other unlawful conduct;
 - (d) compulsory ideological conformity;
 - (e) manufactured consent;
 - (f) collective punishment; or
 - (g) immunity from lawful accountability.
5. Where a proposed peace measure conflicts with an independently applicable legal obligation, the legal obligation retains its own authority according to Applicable Law.

PEACE WITHIN LAW.

PEACE WITHOUT DOMINATION.

LAW WITHOUT THE ABANDONMENT OF HUMANITY.

ARTICLE 4: ARAM

1. Aram is the ethical orientation of this Constitution toward right conduct, truthfulness, integrity, justice, compassion, restraint, responsibility and the conscious avoidance of preventable wrong.

2. Aram shall inform the ethical consideration of human conduct, leadership, justice, technology, stewardship, peace and responsibility toward future generations.

3. Aram does not constitute:

- (a) a compulsory religion;
- (b) a compulsory philosophy;
- (c) a mandatory cultural identity;
- (d) an independent source of binding international law;
- (e) a source of governmental or supranational authority; or
- (f) authority to interfere unlawfully with thought, conscience, belief or personal freedom.

4. Aram asks of power not merely whether it can act, but whether its purpose, means and foreseeable consequences are responsible.

5. Its ethical questions are:

IS THE PURPOSE, RIGHT?

ARE THE MEANS LAWFUL?

IS HUMAN DIGNITY RESPECTED?

IS AVOIDABLE HARM BEING REDUCED?

IS POWER RESTRAINED BY RESPONSIBILITY?

CAN ERROR BE CORRECTED?

AND

CAN THE CONSEQUENCES BE JUSTIFIED TO THOSE WHO MUST BEAR THEM?

6. Aram shall never be used to obscure the distinction between ethical aspiration and legal obligation.

ARAM SHALL GUIDE CONSCIENCE.

LAW SHALL GOVERN LEGAL OBLIGATION.

NEITHER SHALL BE MISREPRESENTED AS THE OTHER.

ARTICLE 5: FROM DESTRUCTIVE IMPULSE TO RESPONSIBLE CONDUCT

1. Human emotions, including anger, fear, jealousy, grief, resentment or frustration, shall not themselves be treated as wrongdoing merely because they may become difficult or intense.

2. Constitutional concern arises where destructive impulses are deliberately cultivated, manipulated or translated into conduct that causes, facilitates or credibly threatens serious harm.

3. A culture of peace should therefore, strengthen the voluntary human capacity to interrupt harmful escalation, including:

JEALOUSY BEFORE IT BECOMES INJUSTICE;

GREED BEFORE IT BECOMES EXPLOITATION;

ANGER BEFORE IT BECOMES VIOLENCE;

GRIEVANCE BEFORE IT BECOMES HATRED;

HATRED BEFORE IT BECOMES DEHUMANIZATION;

HUMILIATION BEFORE IT BECOMES VENGEANCE;

DECEPTION BEFORE IT BECOMES MANIPULATION;

AND

DISAGREEMENT BEFORE IT BECOMES DESTRUCTION.

4. Appropriate preventive pathways may include, according to context:

- (a) peace and ethical education;
- (b) emotional and social learning;
- (c) critical reasoning;
- (d) non-violent communication;
- (e) mediation and conflict-resolution skills;
- (f) family and community support;
- (g) accessible lawful dispute-resolution pathways;
- (h) protection against serious exploitation and exclusion;
- (i) responsible leadership;
- (j) digital and information literacy; and
- (k) rehabilitation, repair and reconciliation where appropriate.

5. Such measures shall remain consistent with applicable freedoms of thought, conscience, belief, expression and other Human Rights.

PREVENT HARMFUL CONDUCT.

STRENGTHEN RESPONSIBLE HUMAN CHOICE.

DO NOT CLAIM OWNERSHIP OF THE HUMAN MIND.

ARTICLE 6: THE PATH FROM HOSTILITY TO PEACEFUL COEXISTENCE

1. Where serious hostility develops among persons, communities, peoples or States, responsible actors should seek, within lawful competence, to interrupt escalation at the earliest practicable stage.

2. The pathway should be adapted to circumstances and may include:

LISTEN → ESTABLISH MATERIAL FACTS → IDENTIFY GRIEVANCES AND FEARS → DISTINGUISH PERSONS FROM PREJUDICE → PRESERVE COMMUNICATION → REDUCE DEHUMANIZATION → ADDRESS LEGITIMATE CONCERNS THROUGH LAWFUL MEANS → PROTECT PERSONS FACING CREDIBLE RISK → USE PEACEFUL DISPUTE-RESOLUTION PATHWAYS → REPAIR HARM WHERE APPROPRIATE → RECONCILE WHERE POSSIBLE → PRESERVE LESSONS → PREVENT RECURRENCE.

3. Dialogue shall not, merely by occurring, constitute legal admission, waiver, recognition, concession, settlement or consent to jurisdiction.

4. Reconciliation shall not erase lawful responsibility.

5. Accountability shall not justify collective hatred.

6. Where immediate resolution is impossible, responsible efforts should seek at minimum to prevent disagreement from becoming destructive.

NOT EVERY DISAGREEMENT

CAN BE ENDED IMMEDIATELY.

EVERY RESPONSIBLE EFFORT SHOULD SEEK TO PREVENT DISAGREEMENT FROM BECOMING DEHUMANIZATION OR WAR.

ARTICLE 7: JUSTICE WITHOUT VENGEANCE

1. Justice and vengeance shall remain constitutionally distinct.

2. Justice seeks lawful responsibility, protection, truth, remedy where available, and conditions in which established wrong is less likely to recur.

3. Vengeance seeks suffering as an end in itself.
4. Accountability, where independently authorized or required by Applicable Law, should be:
 - (a) based upon evidence;
 - (b) individualized where responsibility is individual;
 - (c) consistent with due process;
 - (d) proportionate;
 - (e) impartial;
 - (f) reviewable where law so provides;
 - (g) respectful of Human Dignity; and
 - (h) attentive to prevention of recurrence.
5. No child, family, nationality, ethnicity, religion, community, generation or people shall be assigned guilt merely because another person or an earlier generation committed wrongdoing.
6. Victims and survivors should not disappear from justice once responsibility has been investigated.
7. Where lawful and appropriate, restorative processes may complement other forms of justice through acknowledgment, repair, rehabilitation, reintegration or reconciliation.
8. Reconciliation shall never require forced forgiveness, compulsory forgetting or denial of established truth.
9. Nothing in this Article creates criminal jurisdiction, criminal liability, punishment, amnesty, immunity, compensation or remedy beyond that independently established by Applicable Law.

JUSTICE SHALL IDENTIFY RESPONSIBILITY WITHOUT MANUFACTURING HATRED.

TRUTH SHALL BE PRESERVED WITHOUT MAKING VENGEANCE THE INHERITANCE OF THE FUTURE.

ARTICLE 8: TRUTH, EVIDENCE AND INFORMATIONAL INTEGRITY

1. Durable peace requires a responsible capacity to distinguish among:
fact; evidence;

allegation;

opinion;

inference;

uncertainty;

error;

and deliberate deception.

2. Manipulation, fraud and systematic deception may weaken trust, dehumanize others, impair responsible decision-making and contribute to conditions in which conflict becomes easier to escalate.

3. Competent institutions and communities should therefore, strengthen, where lawful and appropriate:

(a) accurate public communication;

(b) documentary integrity;

(c) transparent correction of material error;

(d) scientific and evidentiary literacy;

(e) independent and responsible journalism;

(f) plural and credible sources of information;

(g) legitimate inquiry;

(h) protection against unlawful fraud, incitement and manipulation; and

(i) public capacity for critical evaluation of information.

4. The designation of information as “false”, “harmful” or “anti-peace” shall not itself create authority for generalized censorship, punishment of lawful disagreement or unauthorized surveillance.

5. Claims capable of materially affecting rights, peace or public decision-making should be distinguished according to the strength of their evidence.

TRUTH WITHOUT MANIPULATION.

FREEDOM WITHOUT DELIBERATE DECEPTION.

EVIDENCE BEFORE CONSEQUENTIAL CLAIMS.

ARTICLE 9: DIGNITY ACROSS AGE AND GENERATIONS

1. Human Dignity is equal across age.
2. Children, young persons, adults and older persons possess different needs, vulnerabilities, experience and capacities, but difference shall not diminish equal human worth.
3. Older persons should be able to live with dignity, safety, care, participation and respect and should not be discarded merely because physical or economic capacities change.
4. Knowledge accumulated through experience should, where voluntary and appropriate, remain available through:
 - (a) intergenerational dialogue;
 - (b) mentorship;
 - (c) preservation of useful knowledge and historical memory;
 - (d) participation in community and institutional life; and
 - (e) reciprocal learning between generations.
5. Respect for age shall not create unquestionable authority, discrimination against younger persons or immunity from accountability.
6. Respect for youth shall not require rejection of experience.
7. Every generation should receive both inherited knowledge and the freedom to examine, correct and improve it.

LET EXPERIENCE GUIDE WITHOUT DOMINATING.

LET YOUTH CREATE WITHOUT DISMISSING WISDOM.

LET KNOWLEDGE PASS

WITHOUT BECOMING CHAINS.

ARTICLE 10: EQUAL DIGNITY, SAFETY AND AGENCY OF WOMEN

1. Women possess equal and inherent Human Dignity.
2. No woman should be subjected to violence, exploitation, dehumanization or unlawful discrimination because she is a woman.
3. Equality requires more than ceremonial recognition and should be supported, consistently with Applicable Law and national circumstances, through meaningful conditions of:

- (a) personal safety;
- (b) equality and non-discrimination;
- (c) education and knowledge;
- (d) health and well-being;
- (e) economic and professional opportunity;
- (f) access to justice;
- (g) participation in public, social, scientific, technological, cultural and economic life;
- (h) leadership opportunity;
- (i) freedom from violence and exploitation; and
- (j) respect for lawful autonomy and human agency.

4. Women shall not be reduced by this Constitution to maternal, familial or caregiving functions.

5. Families, communities, institutions and competent public authorities should, within their respective lawful roles, contribute to preventing violence, exploitation and unlawful discrimination against women.

6. Prevention should include, where appropriate:

- (a) education in equal Human Dignity and mutual respect;
- (b) early and responsible response to violence and abuse;
- (c) accessible lawful protection and support;
- (d) accountable institutions;
- (e) education and economic opportunity;
- (f) participation in decisions materially affecting women; and
- (g) learning from failures so that established harms are less likely to recur.

7. Measures intended to protect women shall not become a pretext for paternalistic domination or the unnecessary denial of lawful agency.

EQUALITY WITHOUT ERASURE OF PERSONHOOD.

PROTECTION WITHOUT DOMINATION.

SAFETY WITHOUT CONTROL.

EQUAL HUMAN WORTH. EQUAL HUMAN AGENCY.

ARTICLE 11: PEACE BEGINS BEFORE WAR

1. Prevention of war begins before weapons are used.
2. The existence of any single social, political, economic, environmental, informational or technological condition shall never be treated as proof that armed conflict is inevitable.
3. Nevertheless, evidence may show that conflict risk is increasing through context-specific combinations of conditions such as:
 - (a) dehumanization;
 - (b) incitement to violence;
 - (c) unresolved serious grievances;
 - (d) systematic discrimination or exclusion;
 - (e) severe social fragmentation;
 - (f) deliberate manipulation of information;
 - (g) weaponization of historical grievance;
 - (h) irresponsible militarization or arms escalation;
 - (i) collapse of communication;
 - (j) institutional failure;
 - (k) competition over critical resources;
 - (l) severe economic, humanitarian or environmental disruption; or
 - (m) irresponsible technological escalation.

4. Risk assessment shall distinguish:

PRESENCE OF A CONDITION from PROOF OF CAUSATION;

RISK from

CERTAINTY;

WARNING from GUILT;

AND

PREVENTION from COERCIVE PREJUDGMENT.

5. Where credible risk exists, proportionate and lawful prevention may include:

- (a) early dialogue;
- (b) diplomacy;
- (c) mediation or other peaceful facilitation;
- (d) confidence-building;
- (e) preservation of communication channels;
- (f) factual clarification;
- (g) lawful response to incitement to violence;
- (h) peaceful attention to legitimate grievances;
- (i) institutional strengthening;
- (j) humanitarian protection;
- (k) responsible development and resilience;
- (l) risk-reduction measures; and
- (m) peaceful international cooperation.

6. Preventive action shall remain evidence-informed, context-sensitive, proportionate and respectful of Human Rights, sovereign equality and lawful authority.

7. Nothing in prevention shall be interpreted as establishing a doctrine of preventive war, preventive domination, unlawful intervention or coercive political engineering.

THE FIRST VICTORY OF PEACE

IS THE WAR THAT NEVER BEGINS.

BUT PREVENTION ITSELF MUST REMAIN PEACEFUL AND LAWFUL.

ARTICLE 12: THE DURABLE-SOLUTION DUTY

1. This Constitution shall not treat the statement of a principle, prohibition or aspiration as sufficient where a practical preventive or corrective pathway can responsibly be identified.

2. Each major constitutional problem shall therefore, be examined, where relevant, through the following structure:

PROBLEM → MATERIAL FACTS → ROOT CAUSES AND ENABLING CONDITIONS → PREVENTION → LAWFULLY RESPONSIBLE ACTORS → IMPLEMENTATION

→ EDUCATION OR CAPACITY → MONITORING → REVIEW → ACCOUNTABILITY, CORRECTION OR REMEDY WHERE AVAILABLE → LEARNING → ADAPTATION → PREVENTION OF RECURRENCE.

3. A proposed solution is constitutionally stronger where it:

- (a) addresses causes as well as consequences;
- (b) rests upon a lawful basis;
- (c) protects Human Dignity;
- (d) respects sovereign equality;
- (e) identifies who can responsibly act;
- (f) is practically implementable;
- (g) is proportionate to the problem and evidence;
- (h) avoids unnecessary coercion;
- (i) permits measurement and review;
- (j) permits correction of material error;
- (k) provides accountability or remedy where independently required or available; and
- (l) strengthens long-term peaceful capacity.

4. Where no complete or permanent solution is presently possible, responsible action should seek to:

- a) reduce harm;
- b) preserve peaceful alternatives;
- c) increase knowledge;
- d) strengthen resilience;
- e) avoid irreversible error where reasonably possible;
- f) and continue searching for a more durable solution.

5. No solution shall be called permanent merely because its authors intend it to endure.

Its durability must arise from:

- a) lawfulness;
- b) legitimacy;
- c) practical workability;
- d) evidence;
- e) adaptability;
- f) accountability;
- g) correctability;
- h) and capacity to reduce recurrence.

6. The constitutional rule is:

A PRINCIPLE MAY IDENTIFY WHAT SHOULD NOT HAPPEN.

A DURABLE SOLUTION MUST ALSO ASK WHY IT HAPPENS, HOW IT CAN BE PREVENTED, WHAT MUST HAPPEN IF PREVENTION FAILS, AND HOW ITS RETURN CAN BE MADE LESS LIKELY.

A PEACE CONSTITUTION MUST DO BOTH.

ARTICLE 13: FOUNDATIONAL SAFEGUARD OF PART I

1. This Part shall be read subject to the legal character and foundational restraints established in Part 1 of this instrument.

2. Nothing in this Part shall itself create:

- (a) compulsory jurisdiction;
- (b) international criminal jurisdiction;
- (c) a world State or World Government;
- (d) supranational sovereignty;
- (e) compulsory taxation or automatic financial obligations;
- (f) sanctions authority;
- (g) military or policing authority;
- (h) authority for unlawful intervention;
- (i) compulsory ideological conformity;

- (j) authority to control lawful thought or conscience;
- (k) universal investigative or enforcement authority;
- (l) consent, representation or legal personality not independently established; or
- (m) any legal obligation beyond that independently arising under Applicable Law.

3. Ethical propositions contained in this Part remain non-binding ethical or constitutional propositions unless independently given legal effect through a lawful process.

4. Existing obligations under Applicable Law retain their own legal character, scope, conditions and authority.

5. Universal concern shall not manufacture consent, sovereignty, jurisdiction, representation or enforcement authority.

6. No protection of peace, dignity or future generations proposed in this Part shall be interpreted as authorizing conduct that would otherwise be unlawful.

7. The foundational relationship among law, justice, truth, conscience and Aram is:

LAW SHALL RESTRAIN POWER.

JUSTICE SHALL RESTRAIN VENGEANCE.

TRUTH SHALL RESTRAIN DECEPTION.

CONSCIENCE SHALL CALL HUMAN CHOICE AWAY FROM AVOIDABLE WRONG.

AND ARAM SHALL REMIND HUMANITY THAT THE HIGHEST VICTORY IS NOT THE DESTRUCTION OF AN ENEMY,

BUT THE PREVENTION OF THE CONDITIONS THROUGH WHICH HUMAN BEINGS COME TO REQUIRE ENEMIES.

PART II — PREVENTION OF WAR AND PEACEFUL SETTLEMENT

ARTICLES 14–28

ARTICLE 14: THE CONSTITUTIONAL PRESUMPTION OF PEACE

1. Peaceful coexistence shall be the governing orientation of this Constitution in relations among States, peoples and human communities.

2. International disputes should be addressed through peaceful means consistent with the Charter of the United Nations and Applicable Law so that international peace, security and justice are not endangered.

3. No political, territorial, economic, technological, ideological, historical or other disagreement shall, merely by its existence, justify conduct prohibited by Applicable Law.

4. Peaceful disagreement shall therefore, be preferred to destructive escalation.

The constitutional sequence is:

UNDERSTAND BEFORE ESCALATION.

COMMUNICATE BEFORE ISOLATION BECOMES DANGEROUS.

CLARIFY BEFORE ASSUMPTION HARDENS INTO HOSTILITY.

NEGOTIATE BEFORE PEACEFUL OPTIONS NARROW.

USE LAWFUL PEACEFUL SETTLEMENT BEFORE VIOLENCE.

PRESERVE HUMANITY THROUGHOUT DISAGREEMENT.

5. Nothing in this Article alters any right or obligation independently arising under Applicable Law.

PEACE IS NOT THE ABSENCE OF DISAGREEMENT.

IT IS THE CAPACITY TO KEEP DISAGREEMENT FROM BECOMING UNLAWFUL DESTRUCTION.

ARTICLE 15: PREVENTION BEFORE ESCALATION

1. The most durable response to war is to reduce, where reasonably possible, the likelihood that conditions capable of contributing to armed conflict mature into destructive escalation.

2. Responsible prevention should operate, according to context, across four complementary stages:

STAGE I — STRUCTURAL PREVENTION

addressing evidence-supported conditions that materially increase vulnerability to serious conflict;

STAGE II — EARLY PREVENTION

identifying credible indications of escalating hostility and enlarging peaceful alternatives;

STAGE III — IMMEDIATE DE-ESCALATION

reducing imminent or continuing risks of violence while preserving lawful rights and channels of communication;

STAGE IV — NON-RECURRENCE

addressing unresolved grievances, institutional failures, consequences of conflict and other conditions capable of producing renewed violence.

3. Prevention shall be:

- (a) evidence-informed;
- (b) context-sensitive;
- (c) proportionate;
- (d) legally grounded;
- (e) rights-respecting;
- (f) reviewable; and
- (g) capable of correction.

4. Poverty, inequality, cultural difference, political disagreement, resource competition, environmental stress or technological change shall not automatically be characterized as causes of war.

5. Prevention shall distinguish correlation, contributing condition, risk factor and established causation.

6. Prevention shall never become a pretext for:

- (a) preventive war;
- (b) unlawful intervention;
- (c) coercive political engineering;
- (d) collective punishment;
- (e) arbitrary restriction of lawful freedom; or
- (f) interference beyond independently lawful authority.

PREVENTION MUST REDUCE THE PATH TO WAR.

IT MUST NOT BECOME ANOTHER PATH TO DOMINATION.

ARTICLE 16: PEACE RISK IDENTIFICATION AND EARLY WARNING

1. States and other competent institutions are encouraged, within their lawful mandates, to strengthen peaceful early-warning capacity for credible risks of serious violence or armed conflict.

2. Relevant indicators may include, according to context:

- (a) escalating threats of violence;
- (b) systematic dehumanization;
- (c) incitement to unlawful violence;
- (d) rapid deterioration of diplomatic communication;
- (e) serious or repeated attacks against civilians;
- (f) dangerous military miscalculation;
- (g) manipulation of information materially connected to violent escalation;
- (h) severe humanitarian deterioration;
- (i) destabilizing failures of critical civilian systems;
- (j) credible risks arising from dangerous technological systems;
- (k) serious tensions concerning essential resources; and
- (l) other evidence reasonably indicating escalation.

3. Early warning shall distinguish:

FACT FROM ALLEGATION;

EVIDENCE FROM ASSUMPTION;

RISK FROM CERTAINTY;

WARNING FROM GUILT;

AND

EARLY WARNING FROM AUTHORITY TO COERCE OR INTERVENE.

4. Assessments affecting significant rights or international relations should identify, to the extent practicable:

- (a) the evidence relied upon;
- (b) material uncertainty;
- (c) alternative explanations;
- (d) the seriousness and probability of the risk;
- (e) foreseeable consequences of action and inaction; and
- (f) the lawful competence of any proposed actor.

5. Early-warning systems should be periodically evaluated for false positives, false negatives, bias, manipulation, institutional failure and unintended escalation effects.

6. No warning produced under or inspired by this Constitution shall, merely by its existence, authorize sanctions, force, intervention, jurisdiction or coercive measures.

THE PURPOSE OF WARNING IS TO ENLARGE PEACEFUL POSSIBILITY BEFORE THAT POSSIBILITY BECOMES DANGEROUSLY NARROW.

ARTICLE 17: PERMANENT PEACE CONTACT PATHWAYS

1. Severe disagreement should not automatically extinguish every means of communication.

2. States and competent actors are encouraged, where lawful and appropriate, to preserve communication pathways capable of supporting:

- (a) diplomatic contact;
- (b) crisis clarification;
- (c) humanitarian coordination;
- (d) prevention of military misunderstanding;
- (e) exchange of verified information;
- (f) mediation or good offices;
- (g) civilian protection;
- (h) agreed de-escalatory arrangements;
- (i) incident notification;
- (j) prevention of accidental escalation; and
- (k) restoration of broader dialogue.

3. Such pathways may include:

- (a) existing diplomatic channels;
- (b) agreed hotlines;
- (c) neutral intermediaries;
- (d) designated crisis-contact mechanisms;
- (e) regional arrangements; or
- (f) other mutually acceptable means.

4. Communication should be sufficiently resilient, where feasible, to continue during serious political or security crises.

5. The existence or use of a communication pathway shall not, merely by that fact, constitute:

- (a) political recognition;
- (b) legal admission;
- (c) waiver of rights;
- (d) acceptance of allegations;
- (e) concession;
- (f) settlement; or
- (g) consent to jurisdiction.

6. Where technically appropriate, crisis channels should be protected against unauthorized interference, impersonation and avoidable cybersecurity failure.

WHEN RELATIONS BREAK DOWN,

THE ABILITY TO SPEAK MAY BECOME ONE OF THE LAST DEFENCES AGAINST WAR.

ARTICLE 18: THE PEACEFUL SETTLEMENT PATHWAY

1. Parties to disputes should seek peaceful resolution consistently with Applicable Law.

2. Depending upon the nature of the dispute, relevant legal framework and any required consent or jurisdictional basis, peaceful means may include:

- (a) negotiation;
- (b) enquiry;
- (c) mediation;
- (d) conciliation;
- (e) arbitration;
- (f) judicial settlement;
- (g) resort to regional agencies or arrangements; and
- (h) other peaceful means chosen or lawfully available to the parties.

3. No peaceful-settlement method shall be presumed universally superior or appropriate.

4. Selection of a pathway should consider:

- (a) the nature and legal character of the dispute;
- (b) urgency;
- (c) applicable obligations;
- (d) safety of affected persons;
- (e) prospects for preventing escalation;
- (f) accessibility and practicality;
- (g) jurisdiction or consent where required;
- (h) enforceability where relevant;
- (i) preservation of legitimate rights; and
- (j) prospects for durable resolution.

5. Parties should remain free, subject to Applicable Law, to combine, sequence, repeat or replace peaceful methods.

6. Where one method fails, responsible actors should consider whether another lawful peaceful method remains available.

7. This Constitution creates no compulsory jurisdiction and imposes no obligation to submit a dispute to a particular forum beyond Applicable Law.

PEACEFUL SETTLEMENT SHALL NOT BE REDUCED TO ONE DOOR.

ARTICLE 19: THE ADAPTIVE PEACEFUL-SETTLEMENT LADDER

1. Failure of one peaceful method shall not be treated as proof that peaceful settlement itself has failed.

2. Where appropriate, parties may consider the following illustrative progression:

DIRECT COMMUNICATION → NEGOTIATION → FACTUAL CLARIFICATION OR ENQUIRY → GOOD OFFICES OR MEDIATION → CONCILIATION → ARBITRATION OR JUDICIAL SETTLEMENT WHERE VALIDLY APPLICABLE OR ACCEPTED → OTHER LAWFUL PEACEFUL ARRANGEMENTS → CONTINUED REVIEW → RENEWED DIALOGUE.

3. The sequence is not compulsory.

4. Parties may enter, leave, repeat, combine or omit stages according to Applicable Law and circumstances.

5. A temporary inability to reach agreement shall not transform disagreement into lawful authority for prohibited conduct.

6. Where a dispute cannot immediately be solved, narrower agreements may still preserve peace concerning:

- (a) communication;
- (b) humanitarian access;
- (c) civilian protection;
- (d) incident prevention;
- (e) information exchange;
- (f) temporary restraint; or
- (g) continuing dialogue.

PEACE SHALL HAVE MORE THAN ONE DOOR.

AND WHEN ONE DOOR CLOSSES, RESPONSIBLE DIPLOMACY SHOULD ASK WHETHER ANOTHER REMAINS OPEN.

ARTICLE 20: DE-ESCALATION BEFORE IRREVERSIBILITY

1. Where tension approaches armed confrontation, every reasonably available lawful opportunity for de-escalation should receive serious consideration.

2. Context-appropriate measures may include:

- (a) clarification of intentions;
- (b) restoration of communication;
- (c) mutually understood restraint;
- (d) agreed confidence-building measures;
- (e) humanitarian arrangements;
- (f) protection of diplomatic channels;
- (g) prevention of accidental, unauthorized or automated escalation;
- (h) agreed temporary pauses or comparable arrangements;
- (i) neutral facilitation;

(j) verification mechanisms where voluntarily accepted and lawfully constituted; and

(k) renewed peaceful-settlement efforts.

3. De-escalation does not require abandonment of lawful rights or legal positions.

4. Temporary restraint does not, by itself, determine the final legal or political resolution of a dispute.

5. Measures affecting parties should, where appropriate, be sufficiently clear as to duration, scope, communication, verification and conditions for continuation or termination.

6. De-escalatory arrangements should be designed, where practicable, to reduce misunderstanding and avoid creating new incentives for miscalculation.

THE IMMEDIATE TASK IS SIMPLE IN PURPOSE,

EVEN WHEN DIFFICULT IN PRACTICE:

DO NOT ALLOW A REVERSIBLE CRISIS TO BECOME IRREVERSIBLE DESTRUCTION.

ARTICLE 21: HUMANITY AND CIVILIANS DURING ARMED CONFLICT

1. Where armed conflict nevertheless occurs, conflict shall never extinguish the Human Dignity of persons affected by it.

2. Applicable obligations under International Humanitarian Law, International Human Rights Law where applicable, and other Applicable Law retain their own independent legal force and conditions of application.

3. This Constitution supports strict respect for applicable legal protections concerning civilians and other persons protected by law.

4. Humanitarian concern shall not depend upon nationality, ethnicity, religion, political sympathy or the identity of a party to conflict.

5. Children shall not be treated as enemies merely because of the community, territory or identity into which they were born.

6. Medical, humanitarian and other specially protected persons, facilities or functions shall receive the protection independently required by Applicable Law.

7. Parties and other competent actors should support, where required or permitted by Applicable Law:

(a) protection of civilians;

- (b) humane treatment;
- (c) access to essential humanitarian relief;
- (d) preservation of civilian life-supporting systems;
- (e) protection of medical care;
- (f) family contact and tracing where appropriate;
- (g) protection against sexual and gender-based violence; and
- (h) investigation and accountability where independently required or authorized.

8. Human suffering shall never be celebrated as political achievement.

HUMANITY DOES NOT END WHERE DISAGREEMENT BECOMES WAR.

ARTICLE 22: NO DEHUMANIZATION OF PEOPLES

1. Responsibility for conduct shall be distinguished from the identity of an entire people.

2. No population should be described or treated as collectively less than human or inherently deserving of violence merely because of nationality, ethnicity, religion, political identity, territory, history or association.

3. Public and institutional analysis should distinguish, wherever material:

- (a) States and governments;
- (b) institutions;
- (c) armed forces or armed groups;
- (d) individual decision-makers;
- (e) persons alleged or established to bear responsibility;
- (f) civilians; and
- (g) wider populations.

4. Nothing in this Article prohibits lawful criticism of a government, State policy, ideology, institution, armed actor, political movement or conduct.

5. Severe, unpopular or controversial expression does not become prohibited merely because it causes offence; restrictions remain governed by Applicable Law.

6. The constitutional concern is the progression:

PERSON → CATEGORY → COLLECTIVE ENEMY → DENIAL OF HUMAN WORTH → ACCEPTANCE OF OTHERWISE UNACCEPTABLE HARM.

7. Prevention should therefore, strengthen responsible public language, media literacy, factual differentiation and resistance to collective guilt.

HUMAN IDENTITY SHALL NOT BECOME A SHORTCUT AROUND HUMAN DIGNITY.

ARTICLE 23: THE PREVENTION OF INHERITED WAR

1. Peace processes should seek, where appropriate, not only to end present violence but also to reduce the conditions through which conflict may be transmitted to another generation.

2. Post-conflict recovery and peacebuilding may require context-sensitive attention to:

- (a) preservation of truth;
- (b) lawful accountability;
- (c) remedy or reparation where independently required or available;
- (d) rehabilitation;
- (e) reconstruction;
- (f) restoration of dignified livelihood;
- (g) education;
- (h) restoration of legitimate institutions;
- (i) social trust;
- (j) reconciliation where possible;
- (k) preservation of reliable historical records;
- (l) psychosocial recovery where appropriate; and
- (m) safeguards against recurrence where lawfully established.

3. Historical education should preserve evidence, memory and the dignity of victims without teaching children that hatred is an inherited duty.

4. Neither victimhood nor wrongdoing shall automatically pass to descendants as inherited moral guilt or inherited moral superiority.

5. Intergenerational peace should distinguish:

REMEMBRANCE FROM REVENGE;

HISTORY FROM INHERITED HATRED;

AND

JUSTICE FROM A COMMAND TO CONTINUE CONFLICT.

THE PAST MUST BE REMEMBERED.

IT MUST NOT dg THE UNBORN INTO FUTURE WAR.

ARTICLE 24: PEACE AND LEGITIMATE GRIEVANCES

1. Durable peace may require serious attention to grievances that are credible and capable of peaceful examination.
2. A grievance shall not be dismissed merely because addressing it is politically difficult.
3. Nor shall the assertion of a grievance automatically establish the truth of every allegation or justify violence.
4. Responsible grievance resolution should, according to context, include:
 - (a) opportunity to be heard;
 - (b) factual clarification;
 - (c) preservation of relevant evidence;
 - (d) identification of Applicable Law;
 - (e) peaceful dispute-resolution pathways;
 - (f) correction of established wrong where lawfully appropriate;
 - (g) remedy where independently available;
 - (h) institutional reform where justified;
 - (i) communication of outcomes; and
 - (j) prevention of recurrence.
5. Where grievances cannot be fully resolved, institutions should seek, where feasible, to preserve lawful means by which they may continue to be raised without violence.
6. Grievance systems themselves should be reviewed where repeated failure, delay, discrimination, corruption or inaccessibility materially contributes to distrust.

HEAR WITHOUT PREJUDGING.

VERIFY WITHOUT DISMISSING.

CORRECT WITHOUT HUMILIATING.

REMEDY WITHOUT REVENGE.

RESOLVE WITHOUT WAR.

ARTICLE 25: PEACE, RESOURCES AND SHARED HUMAN NEEDS

1. Competition or insecurity concerning water, food, energy, land, environmental conditions, infrastructure, technology or other important resources may, according to context, intensify existing tensions.

2. Resource-related disagreement should be addressed through Applicable Law, responsible governance and peaceful cooperation.

3. Preventive pathways may include, where appropriate:

- (a) reliable information;
- (b) transparent assessment;
- (c) efficient and responsible resource use;
- (d) conservation and resilience;
- (e) lawful negotiated arrangements;
- (f) scientific and technical cooperation;
- (g) equitable procedures where independently required;
- (h) peaceful dispute resolution;
- (i) infrastructure protection and continuity planning; and
- (j) long-term planning responsive to changing conditions.

4. Cooperation concerning shared or transboundary resources should respect the specific legal regime independently applicable to the resource and parties concerned.

5. Resource scarcity shall not manufacture a right to:

- (a) aggression;
- (b) territorial acquisition;
- (c) unlawful intervention;
- (d) unlawful appropriation; or
- (e) coercion unsupported by Applicable Law.

6. Nothing in this Article determines:

- (a) ownership;
- (b) territorial title;
- (c) sovereignty;
- (d) maritime entitlements;
- (e) resource allocation; or
- (f) jurisdiction.

SHARED NEED MAY CREATE A REASON FOR COOPERATION.

IT DOES NOT, BY ITSELF, CREATE OWNERSHIP OR AUTHORITY.

ARTICLE 26: PEACE AND RESPONSIBLE LEADERSHIP

1. Persons exercising substantial public, political, diplomatic, military, economic, technological or informational power may possess a correspondingly substantial capacity either to reduce or intensify conflict.

2. Responsible leadership should therefore, be guided by:

- (a) factual integrity;
- (b) lawful decision-making;
- (c) restraint;
- (d) proportionality;
- (e) consultation;
- (f) awareness of foreseeable consequences;
- (g) preservation of peaceful alternatives;
- (h) protection of Human Dignity;
- (i) resistance to dehumanizing rhetoric;
- (j) willingness to correct material error; and
- (k) responsibility for decisions within the scope established by Applicable Law.

3. Leadership should distinguish political strength from the unnecessary infliction of harm.

4. The capacity to prevent avoidable destruction may constitute a greater expression of responsible strength than the capacity merely to retaliate.

5. Crisis decision-making should, where practicable, include adequate factual verification, competent advice and consideration of foreseeable escalation risks.

6. No provision of this Article creates personal liability, immunity, office, mandate or legal duty beyond Applicable Law.

LEADERSHIP IS MOST RESPONSIBLE WHEN POWER REMAINS CAPABLE OF RESTRAINT.

ARTICLE 27: THE PERMANENT PEACE CYCLE

1. For recurring or serious conflict, this Constitution establishes the following non-binding preventive and corrective model:

UNDERSTAND → ESTABLISH MATERIAL FACTS → IDENTIFY ROOT CAUSES AND ENABLERS → PREVENT → DETECT ESCALATION → COMMUNICATE → DE-ESCALATE → RESOLVE PEACEFULLY → PROTECT → ENSURE LAWFUL ACCOUNTABILITY WHERE APPLICABLE → REPAIR → RECONCILE WHERE POSSIBLE → LEARN → REFORM → MONITOR → ADAPT → PREVENT RECURRENCE.

2. The cycle may be entered at any stage appropriate to circumstances.

3. No stage authorizes conduct otherwise prohibited by Applicable Law.

4. Implementation should rely upon actors possessing lawful competence, including according to context:

- (a) States;
- (b) competent international and regional institutions;
- (c) courts and tribunals possessing valid jurisdiction;
- (d) diplomatic and mediation services;
- (e) national and local institutions;
- (f) educational and scientific institutions;
- (g) communities and civil society;
- (h) responsible private actors; and
- (i) individuals acting within lawful capacity.

5. Responsibility should be allocated according to actual competence, control, mandate and lawful authority.

6. Review should ask not merely whether immediate violence ended, but:

WHY DID THE CONFLICT BEGIN?

WHICH CONDITIONS MATERIALLY CONTRIBUTED?

WHAT WARNING WAS MISSED?

WHY DID PREVENTION FAIL?

WHAT REDUCED THE VIOLENCE?

WHAT REMAINS UNRESOLVED?

WHAT HARM REQUIRES LAWFUL REPAIR?

WHAT COULD RESTART THE CONFLICT?

WHAT UNINTENDED CONSEQUENCES AROSE?

AND

WHAT MUST CHANGE SO THAT THE SAME PATH IS LESS LIKELY TO LEAD TO WAR AGAIN?

7. Lessons should be preserved without assuming that a solution effective in one conflict will automatically suit another.

8. The durable solution to recurring war is therefore, not a single institution, rule, agreement or generation of leaders.

It is the continuing preservation of lawful systems capable of:

PREVENTION;

PEACEFUL RESOLUTION;

PROTECTION;

CORRECTION;

LEARNING;

AND NON-RECURRENCE.

ARTICLE 28: FINAL PEACE SAFEGUARD

1. This Part shall be read together with the Foundational Safeguards established in Part 1 and Article 13.

2. Nothing in this Part:

- (a) authorizes the threat or use of force contrary to Applicable Law;
- (b) creates a doctrine of preventive war;
- (c) creates compulsory mediation, arbitration or judicial jurisdiction;

- (d) imposes compulsory settlement through any particular mechanism;
- (e) authorizes sanctions;
- (f) creates military, policing or enforcement authority;
- (g) authorizes unlawful intervention;
- (h) transfers sovereignty;
- (i) determines territorial title or any territorial dispute;
- (j) determines responsibility in any particular conflict;
- (k) creates investigative authority;
- (l) manufactures consent;
- (m) creates legal liability or remedy beyond Applicable Law; or
- (n) alters independently existing rights or obligations.

3. Peace mechanisms shall derive legal authority only from the lawful basis actually applicable to them.

4. No preventive recommendation shall be represented as a binding rule unless it independently possesses that legal character.

5. No party shall be characterized as legally responsible merely because this Constitution identifies a category of conflict risk applicable to its circumstances.

6. The final constitutional direction of this Part is:

WAR SHALL NEVER BE ROMANTICIZED AS THE FIRST ANSWER TO HUMAN DISAGREEMENT.

WHERE PEACEFUL POSSIBILITY REMAINS, PRESERVE IT.

WHERE COMMUNICATION HAS FAILED, RESTORE IT WHERE POSSIBLE.

WHERE ESCALATION CAN STILL BE REVERSED, DE-ESCALATE IT.

WHERE PEACE HAS FAILED, SEEK LAWFULLY TO RESTORE IT.

WHERE HUMAN BEINGS ARE AT RISK, PROTECT THEM ACCORDING TO LAW.

WHERE WRONG HAS OCCURRED, ADDRESS IT THROUGH LAWFUL JUSTICE.

WHERE HARM CAN BE REPAIRED, REPAIR IT.

WHERE HATRED HAS BEEN INHERITED, END THE CHAIN.

WHERE INSTITUTIONS HAVE FAILED,

LEARN AND CORRECT.

AND WHERE WAR HAS ONCE OCCURRED,

THE HIGHEST LESSON IS NOT HOW TO PERFECT ITS RETURN,

BUT HOW TO MAKE ITS PREVENTABLE RETURN LESS LIKELY.

PART III — HUMAN CHARACTER, CONSCIENCE AND CULTURE OF PEACE

ARTICLES 29–43

ARTICLE 29: THE HUMAN FOUNDATION OF DURABLE PEACE

1. Durable peace requires more than the prevention or termination of armed conflict.

It also requires human and social conditions in which persons are better able to:

- (a) live with difference;
- (b) manage disagreement without dehumanization;
- (c) regulate destructive impulses;
- (d) recognize the Human Dignity of others;
- (e) distinguish grievance from hatred;
- (f) resist manipulation toward violence;
- (g) seek justice without vengeance; and
- (h) preserve peaceful alternatives during conflict.

2. This Constitution therefore, recognizes a complementary relationship among:

- (a) law;
- (b) education;
- (c) ethical formation;
- (d) family and community life;
- (e) responsible institutions;
- (f) reliable information;
- (g) social and emotional capability;
- (h) peaceful dispute resolution;
- (i) economic and social opportunity where relevant; and

(j) responsible public example.

3. No single institution, law, educational system, technology or moral principle shall be presumed capable of creating peaceful human character by itself.

4. Law may establish legitimate boundaries of conduct.

Education may enlarge understanding.

Experience may strengthen judgment.

Institutions may provide peaceful alternatives.

Conscience may guide choices where coercion should not.

5. Durable peace is strongest when peaceful capability exists throughout society before crisis arises.

PEACE MUST EXIST NOT ONLY IN AGREEMENTS BETWEEN STATES,

BUT ALSO, IN THE HUMAN CAPACITY TO DISAGREE WITHOUT DESTROYING.

ARTICLE 30: THE PEACEFUL HUMAN CAPABILITY FRAMEWORK

1. States, educational institutions, communities and other competent actors are encouraged, consistently with Applicable Law, Human Rights, educational competence and cultural pluralism, to strengthen human capabilities supportive of peaceful coexistence.

2. Such capabilities may include:

- (a) empathy without surrender of independent judgment;
- (b) emotional self-regulation;
- (c) truthful and respectful communication;
- (d) critical and evidence-based reasoning;
- (e) recognition of propaganda, manipulation and deception;
- (f) respect for equal Human Dignity;
- (g) capacity to disagree without dehumanizing;
- (h) non-violent conflict resolution;
- (i) willingness to hear legitimate grievances;
- (j) capacity to acknowledge and correct wrongdoing;
- (k) ability to seek justice without vengeance;

- (l) responsible exercise of freedom;
- (m) resistance to peer or institutional pressure toward unlawful harm;
- (n) digital and information literacy; and
- (o) courage to refuse participation in hatred or violence.

3. Such capabilities should be developed through education, social learning, voluntary ethical development and responsible institutional practice rather than compulsory ideological conformity.

4. Their effectiveness should be evaluated by observable outcomes, including reductions in violence, improved peaceful dispute resolution, greater safety and strengthened capacity for responsible disagreement.

5. No person shall be considered morally or legally deficient merely because the person does not exhibit a prescribed emotional state.

***A PEACEFUL CIVILIZATION SHOULD SEEK NOT OBEDIENT MINDS,
BUT RESPONSIBLE HUMAN BEINGS.***

ARTICLE 31: PEACE EDUCATION ACROSS LIFE

1. Peace education should begin sufficiently early to reduce the normalization of hatred, violence and dehumanization and should remain adaptable throughout life as social, informational and technological conditions change.

2. Age-appropriate peace education may include:

- (a) Human Dignity and Human Rights;
- (b) empathy and mutual respect;
- (c) peaceful communication;
- (d) emotional literacy and self-restraint;
- (e) critical and evidence-based reasoning;
- (f) media, digital and Artificial Intelligence literacy;
- (g) recognition of manipulation and dehumanizing narratives;
- (h) prevention of bullying, abuse and exploitation;
- (i) non-violent conflict resolution;
- (j) respect for cultural and human diversity;

- (k) responsible citizenship;
- (l) environmental responsibility;
- (m) historical learning without inherited hatred;
- (n) understanding the human consequences of violence and war; and
- (o) knowledge of lawful peaceful avenues for resolving disputes.

3. Peace education should enable persons to inquire, question, reason and disagree responsibly.

4. It shall not require acceptance of a compulsory political, religious, philosophical or ideological doctrine.

5. States and competent educational institutions retain their lawful authority concerning educational systems, curricula, pedagogy and administration.

6. This Constitution proposes educational principles and capacities.

It does not establish a compulsory universal curriculum.

7. Peace education itself should be periodically reviewed for:

- (a) effectiveness;
- (b) factual accuracy;
- (c) age appropriateness;
- (d) respect for Human Rights;
- (e) cultural and social context;
- (f) unintended ideological bias; and
- (g) capacity to improve peaceful behaviour without suppressing lawful thought.

TEACH THE VALUE OF PEACE

WITHOUT TEACHING THE SURRENDER OF THOUGHT.

ARTICLE 32: THE PREVENTION OF JEALOUSY BECOMING INJUSTICE

1. Jealousy, envy, disappointment and comparison are human experiences and shall not themselves be criminalized, pathologized or treated as proof of wrongdoing.

2. Constitutional concern arises when such emotions are transformed into conduct including:

- (a) harassment;

- (b) discrimination;
- (c) sabotage;
- (d) exploitation;
- (e) abuse of entrusted authority;
- (f) violence; or
- (g) other serious unlawful harm.

3. Preventive social and educational conditions should encourage:

- (a) self-worth without humiliation of others;
- (b) achievement without destructive comparison;
- (c) fair opportunity;
- (d) transparent and merit-respecting processes where appropriate;
- (e) gratitude and social responsibility;
- (f) healthy management of disappointment;
- (g) lawful avenues for addressing perceived unfairness; and
- (h) recognition that another person's success does not diminish one's own Human Dignity.

4. Institutions should, within lawful competence, reduce arbitrary favoritism, corruption, discriminatory treatment and opaque decision- making where such practices materially contribute to resentment or injustice.

5. Where recurrent conflict arises from perceived unfairness, responsible actors should distinguish:

PERCEPTION FROM ESTABLISHED FACT;

EMOTION FROM MISCONDUCT;

AND

INEQUALITY OF OUTCOME FROM UNLAWFUL DISCRIMINATION.

6. The durable solution is not to command:

“DO NOT FEEL JEALOUSY.”

It is to strengthen human and institutional conditions in which jealousy need not become injustice.

ARTICLE 33: PROSPERITY WITHOUT GREED, THEFT OR EXPLOITATION

1. Legitimate aspiration, enterprise, innovation, property, prosperity and economic development shall not be equated with greed.

2. Constitutional concern arises where pursuit of advantage becomes:

- (a) fraud;
- (b) theft;
- (c) corruption;
- (d) coercion;
- (e) exploitation;
- (f) abuse of entrusted power; or
- (g) other conduct contrary to Applicable Law or Human Dignity.

3. Prevention should combine, according to context:

- (a) ethical education;
- (b) meaningful livelihood opportunity;
- (c) education and skills;
- (d) financial and legal literacy;
- (e) transparent institutions;
- (f) responsible economic governance;
- (g) anti-corruption safeguards;
- (h) lawful protection of property and contractual interests;
- (i) fair and accessible justice;
- (j) accountability for entrusted power;
- (k) victim protection and remedy where available; and
- (l) rehabilitation and prevention of recurrence where appropriate.

4. Poverty shall not be presumed to cause criminality.

5. Wealth shall not be presumed to establish virtue or wrongdoing.

6. Responsibility shall be assessed according to conduct, evidence, control and Applicable Law rather than economic class.

7. Economic systems should, consistently with lawful national choices, seek to widen legitimate opportunity while reducing conditions in which serious exploitation becomes structurally difficult to resist.

PROSPERITY WITHOUT EXPLOITATION.

OPPORTUNITY WITHOUT CORRUPTION.

RESPONSIBILITY WITHOUT CLASS PREJUDICE.

ARTICLE 34: THE PREVENTION OF DECEPTION AND BETRAYAL

1. Trust is important to peaceful human relationships and functioning institutions.

2. Deliberate deception, fraud, abuse of confidence and betrayal of entrusted responsibility may cause substantial personal, institutional, economic or social harm.

3. Durable prevention should seek, according to context:

- (a) ethical formation in honesty and responsibility;
- (b) transparent decision-making where public accountability requires it;
- (c) clearly defined duties for entrusted authority;
- (d) documentary integrity;
- (e) reliable records;
- (f) accessible complaint mechanisms;
- (g) lawful protection against fraud;
- (h) independent review where appropriate;
- (i) correction of material falsehood;
- (j) remedy where independently available; and
- (k) institutional learning after established failure.

4. Confidentiality lawfully maintained for privacy, security, professional obligations, diplomacy, investigation or another legitimate purpose shall not be characterized as deception merely because information is not public.

5. Transparency and confidentiality shall each remain subject to their proper legal limits and purposes.

6. Where serious institutional betrayal occurs, review should ask:

WHAT DUTY EXISTED?

WHAT FACT WAS CONCEALED OR MISREPRESENTED?

WHO POSSESSED RELEVANT CONTROL OR KNOWLEDGE?

WHAT HARM RESULTED?

WHAT CORRECTION OR REMEDY IS LAWFULLY AVAILABLE?

AND

WHAT SAFEGARD CAN REDUCE RECURRENCE?

TRUTHFULNESS REQUIRES INTEGRITY.

IT DOES NOT REQUIRE THE DESTRUCTION OF LAWFUL CONFIDENTIALITY.

ARTICLE 35: THE PREVENTION OF VIOLENCE, KILLING AND SERIOUS HARM

1. Human life and physical integrity are fundamental concerns of this Constitution.
2. Prevention of unlawful violence requires attention both to harmful acts and to credible conditions through which serious harm may become more likely.
3. Responsible prevention may include, according to context:
 - (a) education in non-violent conflict resolution;
 - (b) early response to credible threats;
 - (c) lawful protection of persons facing identifiable risk;
 - (d) accessible dispute-resolution pathways;
 - (e) community support and intervention consistent with law;
 - (f) prevention of incitement to unlawful violence;
 - (g) reduction of organized violent exploitation;
 - (h) accountable and competent public-safety institutions;
 - (i) rehabilitation and reintegration where appropriate;
 - (j) victim and survivor support;
 - (k) lawful accountability and remedy; and
 - (l) systematic learning from serious incidents.

4. Serious incidents should, where appropriate and lawfully possible, be reviewed for preventable failures involving:

- (a) missed warnings;
- (b) communication breakdown;
- (c) institutional delay;
- (d) inadequate protection;
- (e) abuse of authority;
- (f) technological failure; or
- (g) other material recurrence risks.

5. Measures affecting rights shall satisfy the lawful requirements applicable to them, including necessity, proportionality and procedural safeguards where those standards apply.

6. Prevention shall not justify:

- (a) arbitrary detention;
- (b) collective punishment;
- (c) unlawful surveillance;
- (d) punishment based solely upon private thought;
- (e) discrimination based upon identity; or
- (f) unlimited preventive authority.

***THE PURPOSE OF PREVENTION IS TO PROTECT LIFE,
NOT TO CREATE UNLIMITED POWER OVER LIFE.***

ARTICLE 36: THE PREVENTION OF REVENGE

1. Serious injury may produce anger and a desire for retaliation.

A peaceful legal order should provide credible alternatives capable of interrupting the progression from injury to private or collective vengeance.

2. Persons who suffer wrongdoing should have meaningful access, where independently provided or permitted by Applicable Law, to:

- (a) immediate safety;
- (b) opportunity to be heard;

- (c) factual investigation;
- (d) lawful accountability;
- (e) remedy;
- (f) reparation where available;
- (g) rehabilitation and support; and
- (h) protection against recurrence.

3. Justice systems that are accessible, timely, impartial and trusted may reduce the perceived necessity of private retaliation.

4. Delay, corruption, impunity or denial of access to justice may increase recurrence risks and should be subject to institutional review where relevant.

5. Restorative processes may be considered where they are:

- (a) lawful;
- (b) appropriate;
- (c) safe;
- (d) informed;
- (e) genuinely voluntary; and
- (f) respectful of the rights and dignity of affected persons.

6. Forgiveness shall never be compelled.

7. Reconciliation shall never require a victim or survivor to deny established harm.

8. Accountability shall never become permission for cruelty.

9. The preventive pathway is:

HARM → SAFETY → TRUTH → LAWFUL JUSTICE → REPAIR → RECOVERY → RECONCILIATION WHERE FREELY POSSIBLE → NON-RECURRENCE.

JUSTICE MUST GIVE THE INJURED

A CREDIBLE PATH OTHER THAN REVENGE.

ARTICLE 37: THE PREVENTION OF HATRED AND DEHUMANIZATION

1. Human beings may strongly oppose conduct, policy, ideology, belief or political position without denying the humanity of those with whom they disagree.

2. Constitutional concern becomes especially serious where hostility is deliberately transformed into:

- (a) systematic dehumanization;
- (b) collective guilt;
- (c) incitement to unlawful violence;
- (d) celebration of violence against a population; or
- (e) organized manipulation materially increasing the risk of serious harm.

3. Prevention should strengthen:

- (a) recognition of equal Human Dignity;
- (b) critical reasoning;
- (c) truthful historical understanding;
- (d) responsible public communication;
- (e) safe and appropriate dialogue;
- (f) resilience against propaganda and manipulation;
- (g) lawful protection against incitement to violence;
- (h) factual differentiation between persons, groups, institutions and conduct; and
- (i) rapid peaceful response where dehumanizing narratives materially increase credible risk of violence.

4. Restrictions upon expression require an independent lawful basis and remain governed by Applicable Law.

5. Criticism shall not automatically be characterized as hatred.

6. Disagreement shall not automatically be characterized as incitement.

7. Offensive expression shall not automatically establish unlawful conduct.

8. The constitutional objective is not compulsory affection or agreement.

It is preservation of Human Dignity throughout disagreement.

***YOU NEED NOT AGREE WITH ANOTHER HUMAN BEING
TO RECOGNIZE THAT THE OTHER REMAINS HUMAN.***

ARTICLE 38: FAMILY, COMMUNITY AND THE FIRST ENVIRONMENTS OF PEACE

1. Families and communities may be among the earliest environments in which human beings learn trust, empathy, responsibility, cooperation and peaceful conduct.

2. They should be supported, according to lawful national and local arrangements, in promoting:

- (a) care;
- (b) mutual respect;
- (c) non-violent resolution of disagreement;
- (d) respect across generations;
- (e) equality of Human Dignity;
- (f) protection from violence and abuse;
- (g) responsible freedom;
- (h) education and emotional development; and
- (i) transmission of knowledge without inherited hatred.

3. Tradition, culture and community life may enrich human identity and continuity.

4. Neither tradition, family authority nor community custom shall, by itself, justify:

- (a) violence;
- (b) abuse;
- (c) exploitation;
- (d) forced conformity; or
- (e) violation of independently applicable rights.

5. Public institutions should respect legitimate family and community autonomy while remaining capable of protecting persons from serious harm according to Applicable Law.

6. Serious harm shall not become immune from protection or lawful accountability merely because it occurs within a family or community.

7. Support for families and communities may include, where appropriate:

- (a) parenting and caregiving education;

- (b) access to mediation and social support;
- (c) protection against domestic and interpersonal violence;
- (d) mental-health and psychosocial support consistent with rights and available resources;
- (e) intergenerational dialogue; and
- (f) referral to lawful protective institutions where necessary.

PEACE LEARNED EARLY MAY PREVENT HARM LATER.

BUT FAMILY AND COMMUNITY SHALL NEVER BECOME A SHIELD FOR ABUSE.

ARTICLE 39: PUBLIC LEADERSHIP AND THE CULTURE OF PEACE

1. Public leadership may materially influence whether disagreement remains political and peaceful or becomes dehumanizing and violent.
2. Persons exercising substantial public influence should therefore, consider the reasonably foreseeable consequences of language and conduct capable of intensifying hostility.
3. Responsible leadership should:
 - (a) distinguish criticism from dehumanization;
 - (b) distinguish accountability from collective blame;
 - (c) distinguish evidence from allegation;
 - (d) correct material factual error;
 - (e) avoid knowingly encouraging unlawful violence;
 - (f) preserve peaceful pathways during crisis;
 - (g) respect Human Dignity;
 - (h) avoid unnecessary humiliation of populations or opponents;
 - (i) communicate uncertainty where materially relevant; and
 - (j) demonstrate that restraint is compatible with strength.
4. Public officials and influential actors should not exploit fear, identity or grievance in ways that foreseeably increase serious risks of violence.
5. This Article creates no special censorship power, immunity from criticism or legal liability beyond Applicable Law.

6. Its expectation is ethical and preventive unless independently given legal effect through law.

A LEADER MAY WIN AN ARGUMENT BY DIVIDING PEOPLE.

A RESPONSIBLE LEADER MUST ALSO ASK:

WHAT REMAINS AFTER THE VICTORY?

ARTICLE 40: DIGITAL CULTURE, HUMAN AGENCY AND PEACE

1. Digital environments increasingly influence human attention, communication, identity, social relationships and public understanding.

2. Digital systems designed to optimize attention or engagement may, depending upon design and context, interact with:

- (a) anger;
- (b) fear;
- (c) humiliation;
- (d) sensationalism;
- (e) polarization;
- (f) misinformation;
- (g) social comparison; or
- (h) dehumanizing behaviour.

3. Responsible digital governance and design should therefore, consider, according to context:

- (a) Human Dignity;
- (b) user agency;
- (c) information integrity;
- (d) protection against deceptive manipulation;
- (e) safety and developmental interests of children;
- (f) privacy and data protection according to Applicable Law;
- (g) transparency appropriate to consequential systems;
- (h) meaningful means of correction or appeal where warranted;
- (i) research into systemic social effects;

- (j) cybersecurity and authenticity risks;
- (k) prevention of amplification materially connected to unlawful violence; and
- (l) proportionality between intervention and demonstrated harm.

4. Digital governance should distinguish:

CONTENT FROM CONDUCT;

DISAGREEMENT FROM INCITEMENT;

CORRELATION FROM CAUSATION;

PLATFORM CAPABILITY FROM ACTUAL CONTROL;

AND

TECHNOLOGICAL INVOLVEMENT FROM AUTOMATIC RESPONSIBILITY.

5. No platform, developer, operator or technological system shall be treated by this Constitution as automatically responsible for every human action involving its services.

6. Responsibility shall correspond, where relevant, to actual conduct, control, knowledge, foreseeability, legal duty and Applicable Law.

7. Measures intended to reduce digital harm shall not become a pretext for generalized surveillance, compulsory ideological conformity or arbitrary suppression of lawful expression.

PEACEFUL TECHNOLOGY

SHOULD ENLARGE HUMAN AGENCY,

NOT INDUSTRIALIZE HUMAN HOSTILITY.

ARTICLE 41: THE INTERGENERATIONAL TRANSMISSION OF WISDOM

1. Humanity should preserve knowledge capable of helping future generations avoid preventable suffering and improve peaceful human possibility.

2. Valuable knowledge may arise from:

- (a) science;
- (b) law;
- (c) history;
- (d) diplomacy;
- (e) education;

- (f) lived experience;
- (g) ethical and philosophical traditions;
- (h) indigenous and local knowledge where appropriately recognized;
- (i) lessons from conflict, justice and reconciliation;
- (j) institutional successes and failures; and
- (k) responsible technological development.

3. Knowledge intended for long-term transmission should, where appropriate, preserve:

- (a) accuracy;
- (b) provenance;
- (c) context;
- (d) uncertainty;
- (e) competing interpretations where materially relevant;
- (f) records of correction; and
- (g) distinction between established fact and opinion.

4. Older persons and persons possessing substantial experience should have voluntary opportunities to contribute knowledge without displacing the voice, freedom or creativity of younger generations.

5. Institutions should preserve lessons from serious failures in forms capable of being understood and reconsidered by those who inherit them.

6. Future generations should receive both:

WHAT HUMANITY LEARNED;

AND

THE FREEDOM TO QUESTION, CORRECT AND IMPROVE WHAT HUMANITY LEARNED.

KNOWLEDGE SHOULD CROSS GENERATIONS.

ERROR SHOULD NOT BECOME IMMUNE FROM CORRECTION MERELY BECAUSE IT IS OLD.

ARTICLE 42: THE CULTURE-OF-PEACE SOLUTION CYCLE

1. The long-term constitutional response to destructive human conduct shall operate, where relevant, through the following non-binding preventive and corrective cycle:

DIGNITY → BELONGING WITHOUT HATRED → EDUCATION → SELF-AWARENESS → CRITICAL REASONING → EMPATHY → PEACEFUL COMMUNICATION → ACCESSIBLE AND TRUSTWORTHY INSTITUTIONS → EARLY RESOLUTION OF GRIEVANCE → PROTECTION FROM SERIOUS HARM → LAWFUL ACCOUNTABILITY → REPAIR → RECOVERY → RECONCILIATION WHERE POSSIBLE → LEARNING

→ **INTERGENERATIONAL TRANSMISSION** → **ADAPTATION** → **PREVENTION OF RECURRENCE.**

2. No single stage shall be presumed sufficient for every form of harmful conduct.

3. The cycle recognizes that no institution or intervention can permanently remove every human cause of conflict.

4. Its durability lies in continuous prevention, responsible human development, institutional learning and correctability.

5. Progress should be assessed primarily through observable conditions and outcomes rather than attempts to inspect or regulate private thought.

6. Relevant indicators may include, according to context:

- (a) prevalence and severity of violence;
- (b) personal and community safety;
- (c) access to peaceful dispute resolution;
- (d) recurrence of established harms;
- (e) institutional integrity and trust;
- (f) effectiveness and unintended consequences of peace education;
- (g) protection of vulnerable persons;
- (h) incidence of dehumanization materially connected to violence;
- (i) accessibility of lawful grievance mechanisms; and
- (j) capacity of institutions to correct failure.

7. Indicators shall not be treated as mechanically comparable across all societies or contexts without appropriate methodological care.

8. Where a peace measure fails, creates disproportionate harm or no longer serves its legitimate purpose, it should be reviewed, corrected, replaced or ended according to the lawful authority applicable to it.

THE CULTURE OF PEACE IS NOT A FINISHED CONDITION.

IT IS A CONTINUING CAPACITY TO PREVENT, CORRECT, LEARN AND REFUSE RECURRENCE.

ARTICLE 43: THE CONSCIENCE AND FREEDOM SAFEGUARD

1. Nothing in this Part creates authority to:

- (a) police private thought;
- (b) prescribe compulsory emotions;
- (c) impose religious belief;
- (d) impose political or philosophical ideology;
- (e) punish lawful disagreement;
- (f) establish unauthorized surveillance;
- (g) assign guilt solely by identity;
- (h) impose compulsory cultural conformity;
- (i) require compulsory affection toward others;
- (j) manufacture legal obligations beyond Applicable Law; or
- (k) convert ethical aspiration into criminal liability.

2. Peace education and human-capability development shall remain compatible with:

- (a) Human Dignity;
- (b) freedom of thought, conscience and belief according to Applicable Law;
- (c) lawful freedom of expression;
- (d) critical inquiry;
- (e) cultural pluralism;
- (f) privacy;
- (g) intellectual independence; and
- (h) responsible disagreement.

3. Ethical aspiration shall never be misrepresented as criminal law.
4. Prevention shall focus upon harmful conduct, credible risk, peaceful capability and lawful institutional responsibility rather than compulsory inspection of conscience.
5. No person shall be punished merely for experiencing anger, fear, resentment, grief, disagreement, doubt or another internal state in the absence of an independently lawful basis concerning conduct.
6. Aram shall operate in this Part solely as the voluntary ethical orientation defined by this Constitution.
7. The final constitutional principle of this Part is:

WE SHALL NOT SEEK PEACE BY IMPRISONING THE HUMAN MIND.

WE SHALL NOT SEEK UNITY BY DESTROYING HUMAN DIFFERENCE.

WE SHALL NOT SEEK VIRTUE BY COMMANDING CONSCIENCE.

WE SHALL SEEK PEACE BY ENLARGING THE HUMAN CAPACITY FOR:

TRUTH;

EMPATHY;

REASON;

SELF-RESTRAINT;

DIGNITY;

JUSTICE;

RESPONSIBILITY;

AND PEACEFUL CHOICE.

FOR THE STRONGEST BARRIER AGAINST DEHUMANIZATION IS NOT FORCED SILENCE.

IT IS A HUMAN CONSCIENCE CAPABLE OF REFUSING TO TURN ANOTHER HUMAN BEING INTO AN ENEMY.

ARAM SHALL GUIDE CONSCIENCE.

LAW SHALL GOVERN LEGAL OBLIGATION.

FREEDOM SHALL PRESERVE THE SPACE IN WHICH CONSCIENCE CAN REMAIN HUMAN.

FROM ARMS TO ARAM.

PART IV — LIFE, JUSTICE AND FREEDOM FROM VIOLENCE

ARTICLES 44–58

ARTICLE 44: LIFE AND HUMAN DIGNITY

1. Human life and inherent Human Dignity stand at the centre of this Constitution's concern for peace.
2. Every human being shall remain entitled to the protection arising from Applicable Law without discrimination incompatible with that law.
3. No political objective, ideology, grievance, technological capability, historical claim, economic interest or assertion of collective superiority shall, merely by being invoked, create authority to take human life or inflict serious harm.
4. Nothing in this Constitution defines, enlarges, diminishes or otherwise determines the precise legal scope of the right to life or other protections independently established by Applicable Law.
5. The constitutional orientation of this Part is:

PROTECT LIFE BEFORE HARM.

PROTECT THE PERSON DURING DANGER.

PRESERVE HUMAN DIGNITY DURING CRISIS.

PROVIDE LAWFUL JUSTICE AFTER WRONG.

REPAIR WHAT CAN BE REPAIRED.

AND LEARN SO THAT THE SAME PREVENTABLE HARM IS LESS LIKELY TO RETURN.

ARTICLE 45: THE PREVENTION OF UNLAWFUL KILLING AND SERIOUS PERSONAL VIOLENCE

1. Prevention of unlawful killing and serious personal violence requires more than punishment after irreversible harm.
2. Competent authorities, institutions and communities should, within their lawful roles, strengthen layered prevention through measures that may include:
 - (a) education in non-violent conflict resolution;
 - (b) accessible lawful means for resolving serious disputes;
 - (c) timely response to credible threats;
 - (d) protection for persons facing identifiable danger;
 - (e) prevention of and lawful response to domestic and interpersonal violence;
 - (f) prevention of organized violent exploitation;

- (g) accountable public-safety institutions;
- (h) victim- and survivor-support systems;
- (i) rehabilitation and reintegration where appropriate; and
- (j) review of serious incidents for preventable failure and recurrence risk.

3. Prevention shall distinguish:

CREDIBLE RISK FROM SPECULATION;

WARNING FROM GUILT;

AND

PROTECTION FROM PUNISHMENT.

4. No person shall be treated as guilty merely because an authority, algorithm, institution or other actor predicts that the person may commit harm.

5. Measures affecting rights shall possess the lawful basis and procedural safeguards independently required by Applicable Law, including necessity and proportionality where those standards apply.

6. Serious incidents should, where appropriate, be examined not only for individual wrongdoing but also for preventable failures in protection, communication, institutional response or system design.

THE BEST RESPONSE TO AN UNLAWFUL KILLING

IS NOT ONLY JUSTICE AFTER A LIFE IS LOST.

IT IS ALSO EVERY LAWFUL AND REASONABLE MEASURE THAT COULD HAVE PREVENTED THE LOSS.

ARTICLE 46: FREEDOM FROM VIOLENCE, ABUSE, COERCION AND EXPLOITATION

1. A peaceful society should seek to protect persons from violence, abuse, coercion, trafficking, exploitation and other serious harm according to Applicable Law.

2. Prevention and protection should operate wherever serious harm may arise, including as relevant within:

- (a) families;
- (b) communities;
- (c) educational settings;

- (d) workplaces;
- (e) institutions;
- (f) custodial environments;
- (g) digital environments;
- (h) displacement settings; and
- (i) armed-conflict or emergency situations.

3. Private, familial, institutional, cultural, economic or political relationships shall not, merely by their existence, place serious harm outside lawful scrutiny.

4. Protection systems should, where appropriate:

- (a) be accessible;
- (b) respond without unreasonable delay;
- (c) preserve confidentiality where justified;
- (d) be trauma-informed where relevant;
- (e) protect against retaliation;
- (f) provide referral to appropriate services;
- (g) preserve evidence where necessary;
- (h) respect procedural fairness; and
- (i) remain capable of review.

5. Persons accused of wrongdoing retain every protection independently provided by Applicable Law.

6. Preventive systems should be reviewed where fear of reporting, institutional conflict of interest, discrimination, corruption or practical inaccessibility materially prevents protection.

PROTECT THE PERSON AT RISK.

ESTABLISH THE FACTS.

PRESERVE DUE PROCESS.

ADDRESS THE WRONG.

PREVENT ITS RETURN.

ARTICLE 47: THE PREVENTION OF THEFT, FRAUD, CORRUPTION AND ABUSE OF ENTRUSTED POWER

1. Theft, robbery, fraud, corruption and abuse of entrusted power may damage personal security, public resources, institutional trust, economic opportunity and social peace.

2. Durable prevention should combine, according to context:

- (a) ethical formation;
- (b) meaningful lawful livelihood opportunity;
- (c) financial and legal literacy;
- (d) secure and transparent systems;
- (e) accountable public administration;
- (f) appropriate internal controls;
- (g) independent oversight where lawfully established;
- (h) accessible reporting and complaint pathways;
- (i) protection against retaliation where Applicable Law so provides;
- (j) evidence-based investigation;
- (k) lawful recovery or remedy where available;
- (l) proportionate accountability; and
- (m) correction of systemic weaknesses enabling recurrence.

3. Economic hardship may be relevant to prevention policy but shall not, by itself, excuse conduct prohibited by Applicable Law.

4. Wealth, poverty, office, social status, occupation or identity shall not determine guilt.

5. Prevention should seek to make integrity practicable and wrongdoing more difficult without converting society into a system of arbitrary surveillance or collective suspicion.

6. Where repeated wrongdoing occurs, review should ask:

WHO ACTED?

WHAT SYSTEM ENABLED THE ACT?

WHAT CONTROL FAILED?

WHO BENEFITED?

WHO WAS HARMED?

WHAT CORRECTION IS LAWFULLY AVAILABLE?

AND

WHAT CAN PREVENT RECURRENCE?

A JUST SYSTEM MUST ADDRESS BOTH:

THE PERSON OR ENTITY RESPONSIBLE FOR THE WRONG;

AND, WHERE THE EVIDENCE SUPPORTS IT,

THE SYSTEMIC WEAKNESS THAT ALLOWED THE WRONG TO REPEAT.

ARTICLE 48: VICTIMS, SURVIVORS AND HUMAN DIGNITY AFTER HARM

1. Persons who suffer serious harm shall not become secondary concerns once investigation or accountability begins.

2. Within Applicable Law and available institutional competence, victim- and survivor-centred responses should consider:

- (a) immediate safety;
- (b) medical care where required;
- (c) psychological or psychosocial support where appropriate;
- (d) respectful access to relevant information;
- (e) opportunity to be heard;
- (f) protection from intimidation and retaliation;
- (g) accessible justice;
- (h) privacy and confidentiality where appropriate;
- (i) remedy or reparation where independently available;
- (j) rehabilitation and recovery; and
- (k) measures against recurrence.

3. Victims and survivors shall not be compelled by this Constitution to:

- (a) forgive;

- (b) reconcile;
- (c) participate in restorative processes;
- (d) publicize their experience; or
- (e) surrender independently existing legal rights.

4. Their Human Dignity shall not depend upon whether their suffering is: politically useful;

publicly visible;

widely reported;

or internationally recognized.

5. Responses should avoid unnecessary retraumatization and should respect agency wherever the law and circumstances permit.

COMPASSION SHALL NOT REPLACE JUSTICE.

JUSTICE SHALL NOT EXCLUDE COMPASSION.

AND THE PERSON WHO SUFFERED THE HARM SHALL NOT DISAPPEAR FROM THE PURPOSE OF JUSTICE.

ARTICLE 49: DUE PROCESS AND THE PRESUMPTION AGAINST ARBITRARY PUNISHMENT

1. Peace and justice are weakened when punishment becomes arbitrary.

2. No person shall be treated as legally responsible under this Constitution merely because of:

- (a) accusation;
- (b) public anger;
- (c) identity;
- (d) association;
- (e) ancestry;
- (f) automated classification;
- (g) political unpopularity; or
- (h) collective suspicion.

3. Where legal responsibility is determined, the procedural guarantees, burdens, evidentiary standards and other safeguards required by Applicable Law shall govern.

4. Responsible justice systems should protect, as independently applicable:

- (a) legality;
- (b) independent and impartial adjudication;
- (c) opportunity to answer allegations;
- (d) evidentiary integrity;
- (e) access to representation where provided;
- (f) reasoned decision-making;
- (g) proportionality; and
- (h) review or appeal where provided.

5. Public demand for punishment shall not substitute for lawful adjudication.

6. Emergency, fear or social anger shall not by themselves erase procedural safeguards.

***THE RULE OF LAW MUST REMAIN STRONGEST
WHEN ANGER IS STRONGEST.***

ARTICLE 50: INDIVIDUAL RESPONSIBILITY AND THE REJECTION OF COLLECTIVE GUILT

1. Responsibility shall attach to persons, States, organizations, institutions or other legal actors only according to the rules of Applicable Law governing the relevant conduct and form of responsibility.

2. No people, nationality, ethnicity, religion, family or community shall be presumed collectively guilty merely because one or more of its members committed wrongdoing.

3. No child or descendant shall inherit legal or moral guilt merely because of the conduct of:

- (a) a parent;
- (b) an ancestor;
- (c) a government;
- (d) an institution;

- (e) an armed actor;
- (f) a community; or
- (g) an earlier generation.

4. Nothing in this Article limits State responsibility, organizational responsibility, corporate responsibility, command or superior responsibility, or any other form of responsibility independently recognized by Applicable Law.

5. Collective historical memory may preserve truth without converting identity into inherited guilt.

IDENTIFY THE WRONGDOING.

ESTABLISH RESPONSIBILITY LAWFULLY.

DISTINGUISH THE RESPONSIBLE FROM THE UNINVOLVED.

DO NOT TURN IDENTITY INTO GUILT.

ARTICLE 51: ACCOUNTABILITY WITHOUT CRUELTY

1. Accountability is compatible with peace when it is lawful, proportionate, procedurally fair and directed toward legitimate purposes.

2. Nothing in this Constitution shall interpret accountability as a licence for:

- (a) torture;
- (b) cruel, inhuman or degrading treatment or punishment;
- (c) collective punishment;
- (d) humiliation as an end in itself;
- (e) punishment of innocent relatives;
- (f) vengeance against populations or communities; or
- (g) other conduct prohibited by Applicable Law.

3. Where independently permitted or required by law and appropriate to the circumstances, accountability may serve:

- (a) cessation of wrongdoing;
- (b) protection;
- (c) truth;
- (d) determination of responsibility;

- (e) lawful consequence;
- (f) remedy;
- (g) rehabilitation;
- (h) institutional correction; and
- (i) prevention of recurrence.

4. The nature and severity of any legal consequence shall remain governed solely by the competent legal framework applicable to the case.

5. This Constitution itself creates no offence, sentence, detention, tribunal, punishment or enforcement power.

JUSTICE LOSES ITS DIRECTION WHEN ACCOUNTABILITY BECOMES THE PRODUCTION OF SUFFERING FOR ITS OWN SAKE.

ARTICLE 52: RESTORATIVE JUSTICE AND VOLUNTARY RECONCILIATION

1. Where lawful, safe and appropriate, restorative processes may complement but shall not automatically replace other forms of justice.

2. Such processes may seek:

- (a) acknowledgment of harm;
- (b) meaningful participation;
- (c) responsibility;
- (d) truth;
- (e) repair;
- (f) rehabilitation;
- (g) restoration of relationships where possible;
- (h) community recovery; and
- (i) prevention of recurrence.

3. Participation shall be genuinely voluntary where voluntariness is required by the nature of the process or Applicable Law.

4. Restorative approaches shall not be used to:

- (a) conceal serious wrongdoing;

- (b) coerce victims or survivors;
- (c) eliminate due process;
- (d) manufacture forgiveness;
- (e) deny independently available remedies; or
- (f) protect powerful actors from lawful accountability.

5. Reconciliation should be pursued only where it does not require the sacrifice of truth, safety or justice.

6. A relationship may sometimes be repaired.

A community may sometimes recover.

But neither outcome shall be forced merely to create the appearance of peace.

PEACE DOES NOT REQUIRE FORGETTING THE WRONG.

IT REQUIRES FINDING A LAWFUL PATH

BY WHICH THE WRONG NEED NOT GOVERN THE FUTURE.

ARTICLE 53: REHABILITATION, REINTEGRATION AND THE PREVENTION OF RECURRENCE

1. Where consistent with Applicable Law, public safety and the facts of the case, justice systems should recognize that reducing recurrence may require rehabilitation as well as accountability.

2. Rehabilitation may include, according to context:

- (a) education;
- (b) skills development;
- (c) behavioural intervention;
- (d) social reintegration;
- (e) responsible family or community support;
- (f) lawful livelihood pathways;
- (g) treatment or care where voluntarily sought or otherwise lawfully and appropriately provided; and
- (h) structured recurrence-prevention measures.

3. Rehabilitation shall not erase responsibility.

4. Accountability shall not require permanent exclusion where law, public safety and individual circumstances permit responsible reintegration.

5. Rehabilitation programs should, where appropriate, be reviewed for:

- (a) safety;
- (b) effectiveness;
- (c) proportionality;
- (d) respect for Human Dignity;
- (e) unintended harm; and
- (f) recurrence outcomes.

A JUST SOCIETY SHOULD ASK NOT ONLY:

“WHAT CONSEQUENCE DOES THIS WRONG REQUIRE?”

BUT ALSO:

“WHAT CAN LAWFULLY AND RESPONSIBLY MAKE THIS WRONG LESS LIKELY TO HAPPEN AGAIN?”

ARTICLE 54: INSTITUTIONAL RESPONSIBILITY FOR REPEATED HARM

1. Where similar serious harms recur, competent review should consider whether institutional or systemic conditions materially contribute to that recurrence.

2. Relevant inquiry may include:

- (a) failures of prevention;
- (b) defective procedures;
- (c) conflicts of interest;
- (d) inadequate oversight;
- (e) corruption;
- (f) inadequate training;
- (g) unsafe design;
- (h) failure to respond to credible warning;
- (i) discriminatory practice;
- (j) resource or capacity failures;

(k) technological or information-system failures; and

(l) other materially relevant causes.

3. Institutional reform shall be based upon evidence and lawful authority.

4. Individual wrongdoing shall not automatically establish institutional wrongdoing.

5. Institutional failure shall not automatically excuse individual responsibility.

6. Where both are supported by evidence, both should be addressed through the appropriate lawful framework.

7. Corrective measures may include, where lawfully appropriate:

(a) procedural reform;

(b) training;

(c) redesign of unsafe systems;

(d) improved oversight;

(e) conflict-of-interest safeguards;

(f) transparency measures;

(g) independent review;

(h) resource or capacity improvement; and

(i) follow-up assessment.

DURABLE PREVENTION REQUIRES THE COURAGE TO EXAMINE NOT ONLY WHO FAILED,

BUT ALSO, WHETHER THE SYSTEM MADE FAILURE LIKELY TO RECUR.

ARTICLE 55: PROTECTION WITHOUT A SURVEILLANCE STATE

1. Prevention of violence, crime or disorder shall not be interpreted as requiring unrestricted monitoring of human life.

2. Measures involving surveillance, personal data, biometrics, predictive systems or Artificial Intelligence shall possess the lawful basis and safeguards independently required by Applicable Law.

3. Peace and public safety should be pursued consistently, where applicable, with:

(a) privacy;

(b) legality;

- (c) legitimate purpose;
- (d) necessity;
- (e) proportionality;
- (f) non-discrimination;
- (g) data minimization;
- (h) security;
- (i) accuracy;
- (j) retention limits where required;
- (k) meaningful human responsibility; and
- (l) access to correction or review where law provides.

4. No person shall be treated as guilty merely because an automated, statistical or predictive system assigns that person a risk score or classification.

5. Predictive information may inform a lawful assessment where appropriately authorized, but probability shall not be converted into guilt.

6. Systems used for protection should themselves be subject to appropriate:

- (a) testing;
- (b) security safeguards;
- (c) audit;
- (d) human oversight;
- (e) error correction;
- (f) incident review; and
- (g) accountability.

7. Surveillance or data collection shall not be justified merely by invoking broad concepts such as peace, security, efficiency or innovation.

PREVENT DANGER

WITHOUT MAKING EVERY HUMAN BEING A PERMANENT SUSPECT.

ARTICLE 56: ACCESS TO PEACEFUL JUSTICE

1. A peaceful society requires practical avenues through which persons may seek lawful resolution of disputes without resorting to violence, intimidation or private vengeance.

2. States and competent institutions are encouraged, consistently with their legal systems, lawful authority and available resources, to strengthen appropriate access to:

- (a) courts and tribunals possessing valid jurisdiction;
- (b) administrative remedies;
- (c) mediation;
- (d) arbitration where validly applicable or agreed;
- (e) conciliation;
- (f) lawful community dispute-resolution mechanisms;
- (g) legal assistance where provided; and
- (h) complaint, review and appeal mechanisms.

3. Informal or community processes shall not override independently applicable rights or procedural safeguards.

4. Practical barriers to justice arising from circumstances such as:

- (a) poverty;
- (b) disability;
- (c) language;
- (d) geography;
- (e) displacement;
- (f) digital exclusion;
- (g) intimidation; or
- (h) lack of accessible information

should be addressed where reasonably possible within lawful competence and available resources.

5. Justice mechanisms should, where appropriate, be understandable, reasonably timely and capable of providing meaningful outcomes.

6. Repeated inability to access lawful justice should itself become a subject of institutional review where it materially increases vulnerability to violence or exploitation.

JUSTICE THAT CANNOT BE REACHED

MAY LEAVE SPACE FOR VENGEANCE TO RETURN.

ARTICLE 57: THE LIFE–JUSTICE–PEACE SOLUTION ARCHITECTURE

1. Serious violence and injustice should, where appropriate, activate the following preventive, protective and corrective pathway:

RISK IDENTIFICATION → PREVENTION → IMMEDIATE PROTECTION → CESSATION OF HARM → PRESERVATION OF EVIDENCE → FAIR INVESTIGATION → DUE PROCESS → LAWFUL DETERMINATION OF RESPONSIBILITY → LAWFUL ACCOUNTABILITY → VICTIM AND SURVIVOR SUPPORT → REMEDY OR REPARATION WHERE AVAILABLE → REHABILITATION WHERE APPROPRIATE → INSTITUTIONAL CORRECTION WHERE REQUIRED

→ **RECONCILIATION WHERE POSSIBLE AND VOLUNTARY** → **REVIEW**
→ **LEARNING** → **PREVENTION OF RECURRENCE.**

2. No stage shall displace Applicable Law.

3. The pathway is functional rather than compulsory; stages may be adapted, omitted or reordered where law and circumstances require.

4. Review should ask:

WHAT HAPPENED?

WHAT EVIDENCE ESTABLISHES IT?

WHY DID IT HAPPEN?

WHO OR WHAT WAS LAWFULLY RESPONSIBLE?

WHO WAS HARMED?

WHAT PROTECTION FAILED?

WHAT JUSTICE OR REMEDY IS LAWFULLY AVAILABLE?

WHAT SYSTEMIC CONDITION, IF ANY, CONTRIBUTED?

WHAT COULD HAVE PREVENTED THE HARM?

WHAT CAN NOW BE CORRECTED?

WHAT LESSON MUST BE PRESERVED?

AND

WHAT MUST CHANGE TO REDUCE RECURRENCE?

5. A durable solution shall seek neither impunity nor endless vengeance.

6. Its constitutional balance is:

PROTECTION WITH JUSTICE;

JUSTICE WITH DUE PROCESS;

ACCOUNTABILITY WITH HUMAN DIGNITY;

REPAIR WITH TRUTH;

REHABILITATION WITHOUT ERASURE OF RESPONSIBILITY;

AND

PEACE WITH NON-RECURRENCE.

ARTICLE 58: FINAL SAFEGUARD FOR LIFE AND JUSTICE

1. This Part shall be interpreted together with the legal safeguards established in Part 1 and Article 13.

2. Nothing in this Part:

- (a) creates a criminal offence;
- (b) creates criminal or civil liability;
- (c) establishes a court or tribunal;
- (d) creates compulsory jurisdiction;
- (e) determines guilt or legal responsibility in any particular case;
- (f) imposes punishment;
- (g) grants amnesty or immunity;
- (h) creates an automatic right to compensation, reparation or another remedy;
- (i) authorizes arbitrary detention;
- (j) authorizes unlawful surveillance;
- (k) authorizes collective punishment;
- (l) creates investigative, policing or enforcement authority;
- (m) modifies Applicable International Law or national law; or

(n) creates legal powers beyond an independently lawful basis.

3. Rights, duties, offences, liabilities, remedies and procedural protections retain the legal character arising from their actual lawful sources.

4. Ethical and constitutional propositions within this Part shall not be represented as binding law unless independently given legal effect through a lawful process.

5. Measures inspired by this Part should be reviewed according to the Durable-Solution Duty in Article 12 and the Life–Justice–Peace Solution Architecture in Article 57.

6. The final constitutional principle of this Part is:

PROTECT LIFE BEFORE IT IS LOST.

PROTECT THE VULNERABLE BEFORE HARM BECOMES IRREVERSIBLE.

GIVE THE INJURED A LAWFUL PATH TO JUSTICE.

GIVE THE ACCUSED DUE PROCESS.

ESTABLISH RESPONSIBILITY THROUGH LAW, NOT ANGER.

GIVE THE RESPONSIBLE LAWFUL ACCOUNTABILITY.

GIVE THE CORRECTABLE A PATH TOWARD RESPONSIBLE REFORM WHERE LAW AND SAFETY PERMIT.

CORRECT THE SYSTEM WHERE THE SYSTEM FAILED.

PRESERVE THE TRUTH. PRESERVE THE LESSON.

AND MAKE THE SAME PREVENTABLE WRONG LESS LIKELY TO HAPPEN AGAIN.

THIS IS JUSTICE DIRECTED TOWARD PEACE.

THIS IS PREVENTION DIRECTED BY ARAM.

PART V — WOMEN, CHILDREN, OLDER PERSONS AND INTERGENERATIONAL RESPECT

ARTICLES 59–74

ARTICLE 59: EQUAL HUMAN DIGNITY ACROSS SEX AND GENERATIONS

1. Every human being possesses inherent and equal Human Dignity, irrespective of sex or age.

2. A peaceful civilization shall therefore, seek neither to:

(a) subordinate women;

- (b) silence or exploit children;
- (c) abandon older persons;
- (d) diminish younger persons merely for lack of age or experience; or
- (e) deny any generation meaningful human possibility.

3. Differentiated protection may be appropriate where vulnerability, developmental stage, circumstance or Applicable Law requires it.

4. Differentiated protection shall not be interpreted as unequal human worth.

5. Protection should preserve agency to the greatest extent consistent with Applicable Law and the circumstances of the person concerned.

The constitutional objective is:

EQUAL DIGNITY.

APPROPRIATE PROTECTION.

MEANINGFUL PARTICIPATION.

RESPONSIBLE CARE.

PRESERVED AGENCY.

AND CONTINUITY BETWEEN GENERATIONS.

ARTICLE 60: WOMEN — EQUALITY IN DIGNITY, AGENCY AND HUMAN POSSIBILITY

1. Women possess equal and inherent Human Dignity.
2. Women should enjoy, consistently with Applicable Law, equality, non-discrimination and meaningful opportunity in the realization of rights and human possibility.
3. Durable equality requires attention not only to formal recognition but also to barriers that materially prevent safety, autonomy, participation or opportunity.
4. Responsible institutions should, within lawful competence, seek to strengthen:
 - (a) access to education and knowledge;
 - (b) personal safety;
 - (c) health and well-being;
 - (d) economic and professional opportunity;

- (e) access to justice;
- (f) participation in public and community life;
- (g) participation in conflict prevention, mediation, peace processes and peacebuilding;
- (h) leadership opportunity;
- (i) access to science, technology and innovation;
- (j) freedom from violence, exploitation and unlawful discrimination; and
- (k) respect for lawful autonomy and personal choice.

5. Women shall not be defined solely through reproductive, familial, maternal, caregiving or relational roles.

6. Equality shall not require abandonment of freely chosen family life, culture, identity or personal commitments.

7. No woman exists merely as an instrument of another person, institution, tradition or political objective.

EQUALITY IS NOT CEREMONIAL RESPECT.

IT IS THE PRACTICAL RECOGNITION OF EQUAL HUMAN WORTH, EQUAL HUMAN AGENCY AND MEANINGFUL POSSIBILITY.

ARTICLE 61: THE PREVENTION OF VIOLENCE AGAINST WOMEN

1. Violence, abuse, exploitation and coercion directed against women are incompatible with Human Dignity and may undermine personal security, families, communities and lasting peace.

2. Prevention should operate before, during and after harm.

3. Within Applicable Law and lawful competence, the solution pathway should consider:

PREVENTION → EDUCATION IN EQUAL DIGNITY AND MUTUAL RESPECT
 → IDENTIFICATION OF CREDIBLE RISK → SAFE AND ACCESSIBLE
 REPORTING → IMMEDIATE PROTECTION WHERE REQUIRED →
 PRESERVATION OF RELEVANT EVIDENCE → RESPONSIBLE
 INVESTIGATION → DUE PROCESS → LAWFUL ACCOUNTABILITY →
 HEALTH, PSYCHOLOGICAL, SOCIAL OR OTHER APPROPRIATE SUPPORT →
 REMEDY OR REPARATION WHERE AVAILABLE → RECOVERY AND

REHABILITATION → INSTITUTIONAL REVIEW → PREVENTION OF RECURRENCE.

4. Preventive efforts may appropriately include men and boys in developing cultures of equality, responsibility, consent, dignity and non-violence.

5. No victim or survivor shall be blamed merely because of clothing, occupation, relationship status, location, social status, lawful conduct or another irrelevant circumstance.

6. Protection systems should preserve privacy, confidentiality, safety and agency according to Applicable Law and individual circumstances.

7. No allegation shall remove independently applicable due-process rights of an accused person.

8. Institutions should review repeated failures involving:

- (a) inaccessible reporting;
- (b) retaliation;
- (c) institutional indifference;
- (d) discriminatory treatment;
- (e) investigative failure;
- (f) inadequate protection; or
- (g) repeated preventable harm.

PROTECT THE WOMAN.

ESTABLISH THE FACTS.

PRESERVE DUE PROCESS.

ADDRESS THE WRONG LAWFULLY.

SUPPORT RECOVERY.

AND PREVENT ITS RETURN.

ARTICLE 62: WOMEN IN PEACE, PUBLIC LIFE AND LEADERSHIP

1. Women should have meaningful opportunity to participate in decisions affecting peace, security, development and the future of their communities.

2. Participation should not be confined to symbolic presence where meaningful participation is reasonably possible.

3. Competent institutions should identify and responsibly address material barriers to participation within Applicable Law.

4. Peace processes may benefit from the knowledge and experience of women involved in:

- (a) prevention;
- (b) mediation;
- (c) diplomacy;
- (d) humanitarian action;
- (e) community leadership;
- (f) recovery;
- (g) reconstruction; and
- (h) peacebuilding.

5. Women affected by conflict should not be treated solely as victims; they may also be decision-makers, professionals, negotiators, peacebuilders, scientists, leaders and agents of recovery.

6. This Constitution creates no compulsory numerical quota or universal representation formula.

PEACE SHOULD NOT BE DESIGNED

WHILE EXCLUDING HALF OF HUMANITY

FROM MEANINGFUL HUMAN POSSIBILITY.

ARTICLE 63: MATERNITY, CARE AND HUMAN DIGNITY

1. Pregnancy, maternity, parenthood and caregiving may involve responsibilities and vulnerabilities deserving appropriate support.

2. Such support shall not reduce women to reproductive or caregiving roles.

3. Responsible systems should, consistently with Applicable Law and available resources, consider appropriate support concerning:

- (a) maternal health;
- (b) safe conditions during pregnancy and childbirth;
- (c) non-discrimination;

- (d) safe and appropriate working conditions;
- (e) family and caregiving responsibilities;
- (f) social support;
- (g) continuity of education;
- (h) livelihood and professional opportunity; and
- (i) return to participation after periods of caregiving where feasible.

4. Caregiving by any person contributes to human continuity and should not automatically become a basis for economic, educational, professional or social exclusion.

5. Support for care shall preserve personal agency and shall not manufacture compulsory family roles.

CARE SHALL BE VALUED

WITHOUT BECOMING A LIMIT UPON HUMAN POSSIBILITY.

ARTICLE 64: CHILDREN — DIGNITY, SAFETY AND DEVELOPMENT

1. Every child possesses inherent Human Dignity.
2. Children require protection appropriate to age, development, vulnerability and circumstances.
3. The best interests of the child shall receive the weight independently required by Applicable Law.
4. Responsible societies should seek to protect children from:
 - (a) violence;
 - (b) abuse;
 - (c) neglect;
 - (d) exploitation;
 - (e) trafficking;
 - (f) harmful manipulation;
 - (g) unlawful recruitment or use in violence;
 - (h) severe bullying and dehumanization;
 - (i) sexual exploitation;

- (j) dangerous forms of economic exploitation; and
- (k) other serious harm recognized by Applicable Law.

5. Protection should be accompanied by meaningful opportunities for:

- (a) education;
- (b) health and development;
- (c) safe family and community life;
- (d) nutrition and basic security;
- (e) play and creativity;
- (f) knowledge;
- (g) development of independent judgment;
- (h) digital and information literacy; and
- (i) age-appropriate participation in matters affecting them where Applicable Law so recognizes.

6. Protection shall not be interpreted as ownership of the child's mind, identity or future.

CHILDREN ARE NOT INSTRUMENTS

FOR THE AMBITIONS, HATREDS, IDEOLOGIES OR WARS

OF ADULTS.

ARTICLE 65: NO INHERITED HATRED

1. No child should be taught that another child or people is inherently an enemy merely because of nationality, ethnicity, religion, language, ancestry, territory, historical conflict or another inherited identity.
2. History should be taught truthfully, including serious wrongdoing, injustice and human suffering where educationally appropriate.
3. Truthful remembrance shall not require inherited vengeance.
4. Peace education should help children distinguish:

HISTORY FROM DESTINY;

IDENTITY FROM HOSTILITY;

MEMORY FROM REVENGE;

RESPONSIBILITY FROM

COLLECTIVE GUILT;

AND

JUSTICE FROM INHERITED HATRED.

5. Nothing in this Article requires suppression, falsification, sanitization or politically convenient rewriting of historical evidence.

6. Historical memory should preserve the dignity of victims without assigning descendants a duty to continue past conflict.

THE CHILD BORN TODAY

SHALL NOT BE ASSIGNED AN ENEMY

BY A WAR FOUGHT BEFORE THAT CHILD WAS BORN.

ARTICLE 66: CHILDREN IN DIGITAL AND ARTIFICIAL INTELLIGENCE ENVIRONMENTS

1. Digital technologies and Artificial Intelligence may expand children's access to knowledge, creativity, accessibility, communication and learning while also creating distinctive risks.

2. Responsible design and governance should, according to Applicable Law and the nature of the system or service, consider:

- (a) age-appropriate safety;
- (b) privacy and data protection;
- (c) data minimization where required;
- (d) protection against exploitation;
- (e) protection against deceptive or coercive manipulation;
- (f) safeguards concerning harmful content and conduct;
- (g) digital, media and AI literacy;
- (h) preservation of meaningful human relationships;
- (i) cybersecurity;
- (j) accessible reporting and correction mechanisms;
- (k) protections against inappropriate profiling; and
- (l) responsible human oversight where consequential decisions affect a child.

3. Children should not be treated merely as data sources, engagement targets or experimental subjects for consequential technologies.
4. Protection of children shall not justify indiscriminate surveillance of children, families or wider populations.
5. Parents, caregivers, educators, technology providers, competent authorities and children themselves may possess different responsibilities according to Applicable Law, circumstances and age-appropriate capacity.
6. Systems materially affecting children should, where appropriate, be reviewed for:
 - (a) safety;
 - (b) privacy;
 - (c) manipulative design;
 - (d) discriminatory effects;
 - (e) developmental consequences;
 - (f) security failures; and
 - (g) unintended harm.

**TECHNOLOGY SHOULD HELP CHILDREN EXPAND HUMAN POSSIBILITY,
NOT LEARN TO EXPLOIT THEIR VULNERABILITY.**

ARTICLE 67: OLDER PERSONS — DIGNITY, INDEPENDENCE AND CARE

1. Older persons possess the same inherent Human Dignity as all other human beings.
2. Age shall not make a person disposable, invisible or less worthy of care, respect or participation.
3. Responsible societies should, consistently with Applicable Law, available resources and individual circumstances, support:
 - (a) safety;
 - (b) independence to the greatest reasonably possible extent;
 - (c) meaningful participation;
 - (d) appropriate care;
 - (e) protection from violence, neglect, exploitation and fraud;
 - (f) access to health and social support;

- (g) social connection;
- (h) opportunities for continued learning;
- (i) accessibility;
- (j) dignified living conditions; and
- (k) respect for lawful autonomy and decision-making.

4. Assistance shall not unnecessarily remove agency.

5. Dependence upon care shall not remove Human Dignity.

6. Economic productivity shall never constitute the measure of the value of a human life.

THE VALUE OF A HUMAN LIFE DOES NOT EXPIRE

WHEN ECONOMIC PRODUCTIVITY CHANGES OR ENDS.

ARTICLE 68: THE VALUE OF AGE, EXPERIENCE AND CONTINUING CONTRIBUTION

1. Human experience accumulated over time may preserve practical, cultural, professional, ethical and historical knowledge that cannot always be reproduced merely through data.

2. Societies should therefore, create appropriate voluntary pathways through which older and experienced persons may contribute to:

- (a) mentorship;
- (b) education;
- (c) preservation of historical memory;
- (d) professional and practical knowledge transfer;
- (e) community dialogue;
- (f) conflict prevention and reconciliation;
- (g) cultural continuity;
- (h) scientific, civic or institutional learning; and
- (i) advisory processes where appropriate.

3. Such participation shall remain compatible with:

- (a) equality;

- (b) competence;
- (c) accountability;
- (d) voluntary participation; and
- (e) the legitimate voice and opportunity of younger persons.

4. Age shall not automatically establish expertise.

5. Experience shall not automatically establish correctness.

6. Youth shall not automatically establish inexperience in every field.

7. Accumulated experience should neither dominate the future nor be discarded merely because it belongs to the past.

EXPERIENCE MERITS LISTENING, NOT DOMINATION.

ARTICLE 69: PREVENTING ABUSE, NEGLECT AND EXPLOITATION OF OLDER PERSONS

1. Older persons may, according to individual circumstances, face heightened risks of isolation, neglect, violence, financial exploitation, abuse, fraud or exclusion from meaningful participation.

2. Prevention should, where appropriate, include:

- (a) accessible information;
- (b) social connection;
- (c) safe reporting pathways;
- (d) protection against violence and financial exploitation;
- (e) accountable caregiving;
- (f) access to lawful remedies;
- (g) supported decision-making where recognized by Applicable Law;
- (h) appropriate oversight of institutional care;
- (i) early response to credible evidence of abuse; and
- (j) protection against coercive or deceptive manipulation.

3. Age alone shall not justify removing legal capacity, autonomy or decision-making authority.

4. Any limitation upon autonomy or decision-making shall require the lawful basis, individualized assessment and safeguards independently required by Applicable Law.
5. Protective systems should distinguish genuine protection from unnecessary paternalism.
6. Repeated abuse within care systems should trigger appropriate review of institutional causes, reporting failures and safeguards against recurrence.

PROTECTION SHALL SUPPORT DIGNITY,

NOT ERASE THE PERSON BEING PROTECTED.

ARTICLE 70: INTERGENERATIONAL CONTINUITY

1. Every generation receives from those preceding it:
knowledge;
institutions;
culture;
natural and technological systems;
opportunities;
achievements;
and unresolved problems.
2. Every generation also influences the conditions inherited by those that follow.
3. Intergenerational responsibility should therefore, encourage:
 - (a) preservation of reliable and useful knowledge;
 - (b) correction of inherited error;
 - (c) responsible stewardship of natural and life-supporting systems;
 - (d) preservation and improvement of peaceful institutions;
 - (e) responsible technological development;
 - (f) truthful historical memory;
 - (g) sustainable human opportunity;
 - (h) prevention of inherited hatred; and
 - (i) retention of society's capacity to learn and reform.

4. No generation shall be required merely to reproduce the choices, institutions or assumptions of an earlier generation.

5. Continuity means preserving what remains valuable while retaining the freedom to correct what evidence, experience, law and justice reveal to be wrong.

CONTINUITY WITHOUT STAGNATION.

MEMORY WITHOUT CAPTIVITY.

PROGRESS WITHOUT FORGETTING.

INHERITANCE WITHOUT OBEDIENCE TO ERROR.

ARTICLE 71: FUTURE GENERATIONS AND RESPONSIBLE PRESENT ACTION

1. Future Generations cannot presently provide consent, determine their preferences or appoint representatives through this Constitution.

2. This Constitution shall therefore, not assign to Future Generations:

- (a) invented consent;
- (b) predetermined political preferences;
- (c) fictional representation;
- (d) compulsory ideology;
- (e) legal personality merely through this instrument; or
- (f) jurisdictional authority.

3. Nevertheless, present generations may recognize an ethical responsibility not unnecessarily to foreclose the peaceful human possibilities of those who follow.

4. Long-term decision-making should, where materially relevant and lawfully appropriate, consider foreseeable consequences for:

- (a) peace;
- (b) environmental continuity;
- (c) essential natural and life-supporting systems;
- (d) technological safety;
- (e) preservation of knowledge;
- (f) institutional resilience;

- (g) Human Dignity;
- (h) freedom from catastrophic inherited risks; and
- (i) the capacity of future persons to make their own lawful choices.

5. Long-term assessment should distinguish:

FORESEEABLE CONSEQUENCE FROM SPECULATION;

SERIOUS RISK FROM CERTAINTY;

AND

RESPONSIBILITY TO THE FUTURE FROM AUTHORITY OVER THE FUTURE.

6. Uncertainty shall be acknowledged rather than concealed.

7. Responsibility toward Future Generations shall never become authority to claim to speak conclusively in their name.

WE MAY NOT KNOW WHAT FUTURE GENERATIONS WILL CHOOSE.

WE CAN STILL REFUSE

TO LEAVE THEM

AVOIDABLE RUIN.

ARTICLE 72: THE INTERGENERATIONAL PEACE BRIDGE

1. Societies are encouraged to strengthen voluntary and inclusive mechanisms through which generations may learn from one another.

2. Such mechanisms may include:

- (a) intergenerational mentorship;
- (b) oral-history preservation;
- (c) documentary archives;
- (d) community dialogue;
- (e) educational partnerships;
- (f) professional knowledge transfer;
- (g) youth participation;
- (h) elder advisory contribution;
- (i) cultural, scientific and technical knowledge preservation; and

(j) joint peace and community initiatives.

3. These mechanisms shall not create:

(a) hereditary political privilege;

(b) age-based veto;

(c) automatic political authority;

(d) compulsory deference; or

(e) suppression of younger generations' independent judgment.

4. Their purpose is continuity of knowledge, human understanding and peaceful learning.

5. A society that separates generations may repeatedly rediscover lessons previously learned at great human cost.

6. A society that binds younger generations entirely to older choices may prevent necessary progress.

7. The constitutional bridge is:

EXPERIENCE → LISTENING → KNOWLEDGE TRANSFER → QUESTIONING → CRITICAL EXAMINATION → ADAPTATION → NEW KNOWLEDGE → PRESERVATION → CONTINUITY.

LET EXPERIENCE INFORM THE FUTURE.

LET THE FUTURE REMAIN FREE TO IMPROVE UPON EXPERIENCE.

ARTICLE 73: THE DIGNITY-ACROSS-GENERATIONS SOLUTION ARCHITECTURE

1. Protection, equality and participation across sex and generations shall, where relevant, follow the constitutional sequence:

RECOGNIZE EQUAL HUMAN DIGNITY → IDENTIFY MATERIAL BARRIERS, NEEDS AND RISKS → ESTABLISH RELEVANT FACTS → PREVENT DISCRIMINATION, VIOLENCE, ABUSE OR EXPLOITATION → ENABLE EDUCATION, CAPACITY AND OPPORTUNITY → PROVIDE ACCESSIBLE PROTECTION AND SUPPORT → PRESERVE AGENCY AND PARTICIPATION → PROVIDE LAWFUL JUSTICE OR REMEDY WHERE AVAILABLE → CORRECT INSTITUTIONAL FAILURE → CONNECT GENERATIONS → PRESERVE KNOWLEDGE → REVIEW OUTCOMES → ADAPT → PREVENT RECURRENCE.

2. Review should ask:

WHO IS UNSAFE?

WHO IS EXCLUDED?

WHO CANNOT ACCESS EXISTING PROTECTION?

WHOSE VOICE IS MATERIALLY ABSENT?

WHAT BARRIER IS STRUCTURAL RATHER THAN INDIVIDUAL?

WHAT SUPPORT PRESERVES RATHER THAN REMOVES AGENCY?

WHAT KNOWLEDGE IS BEING LOST?

WHAT PREVENTABLE HARM IS RECURRING?

WHAT UNINTENDED CONSEQUENCES HAVE ARISEN?

AND

WHAT MUST CHANGE

SO THAT HUMAN DIGNITY EXISTS NOT ONLY IN PRINCIPLE,

BUT IN LIVED HUMAN POSSIBILITY?

3. Solutions should remain:

- (a) evidence-informed;
- (b) rights-consistent;
- (c) culturally respectful;
- (d) proportionate;
- (e) practically implementable;
- (f) sensitive to lawful national circumstances;
- (g) capable of review; and
- (h) capable of correction.

4. Cultural diversity deserves respect.

5. Human Dignity shall not be discarded in the name of culture, tradition, age or social convenience.

6. Protection shall not become domination.

7. Equality shall not become compulsory sameness.

8. Intergenerational continuity shall not become intergenerational control.

ARTICLE 74: FINAL SAFEGUARD FOR DIGNITY ACROSS GENERATIONS

1. This Part shall be read together with the foundational legal safeguards established in Part 1 and Article 13.

2. Nothing in this Part:

- (a) creates rights or legal obligations beyond those independently arising under Applicable Law;
- (b) imposes a universal family structure;
- (c) establishes a compulsory cultural model;
- (d) creates age-based political authority;
- (e) establishes hereditary privilege;
- (f) removes lawful parental or caregiving roles;
- (g) removes lawful autonomy of women or older persons;
- (h) manufactures consent or representation for Future Generations;
- (i) establishes compulsory quotas;
- (j) creates compulsory jurisdiction;
- (k) authorizes unlawful intervention;
- (l) creates compulsory surveillance;
- (m) establishes a universal educational curriculum; or
- (n) determines legal capacity, guardianship, family status or other legal questions independently governed by Applicable Law.

3. Binding treaty obligations and other rules of Applicable Law retain their own independent legal character, scope and conditions.

4. Non-binding principles in this Part shall not be represented as binding treaty obligations merely because they resemble or advance internationally recognized aspirations.

5. The constitutional commitment of this Part is:

NO WOMAN SHALL BE TREATED AS LESS HUMAN BECAUSE SHE IS A WOMAN.

NO CHILD SHALL BE BORN WITH A DUTY TO HATE.

NO OLDER PERSON SHALL LOSE DIGNITY BECAUSE AGE HAS CHANGED CAPACITY.

NO YOUNG PERSON SHALL BE DENIED POSSIBILITY MERELY BECAUSE EXPERIENCE HAS NOT YET ACCUMULATED.

NO GENERATION SHALL CLAIM OWNERSHIP OF EVERY GENERATION THAT FOLLOWS.

LET WOMEN LIVE WITH EQUAL DIGNITY, SAFETY AND AGENCY.

LET CHILDREN GROW WITHOUT INHERITED HATRED.

LET OLDER PERSONS LIVE WITH DIGNITY, CARE, AUTONOMY AND VOICE.

LET THE YOUNG

CREATE WHAT THE FUTURE REQUIRES.

LET EXPERIENCE GUIDE WITHOUT DOMINATING.

LET KNOWLEDGE PASS WITHOUT BECOMING CHAINS.

LET EACH GENERATION CORRECT WHAT MUST BE CORRECTED, PRESERVE WHAT REMAINS WORTHY, AND ADD WHAT HUMANITY HAS YET TO LEARN.

AND LET EACH GENERATION LEAVE TO THE NEXT

NOT A COMMAND TO REPEAT THE PAST,

BUT A GREATER CAPACITY

TO LIVE, TO THINK, TO CHOOSE, TO CORRECT, AND TO BUILD PEACE.

PART VI — EARTH, WATER, AIR, FIRE/ENERGY AND SPACE ELEMENTAL STEWARDSHIP AND NON-WEAPONIZATION

ARTICLES 75–91

ARTICLE 75: THE ELEMENTAL STEWARDSHIP PRINCIPLE

1. Human life, civilization and peaceful human possibility depend upon natural systems and physical conditions that humanity did not create and whose serious degradation may extend across persons, communities, States and generations.

2. For ethical and civilizational expression, this Constitution refers to:

EARTH; WATER; AIR; FIRE/ENERGY; AND SPACE as five elemental dimensions of responsible stewardship.

3. This formulation is constitutional and ethical rather than a claim of scientific taxonomy or independent legal classification.

4. It does not establish:

(a) a universal scientific classification;

- (b) a new category of international law;
- (c) ownership of nature;
- (d) collective ownership by humanity;
- (e) universal jurisdiction over natural systems;
- (f) identical legal status for Earth, Water, Air, Energy and Space; or
- (g) sovereign authority not otherwise lawfully existing.

5. The governing constitutional responsibility is:

PROTECT THE FOUNDATIONS AND CONDITIONS THAT SUSTAIN LIFE FROM DELIBERATE UNLAWFUL OR INDISCRIMINATE DESTRUCTION;

REDUCE CREDIBLE RISKS OF CATASTROPHIC MISUSE;

REPAIR SERIOUS DAMAGE WHERE LAWFULLY AND PRACTICALLY POSSIBLE;

AND PRESERVE PEACEFUL POSSIBILITY FOR PRESENT AND FUTURE GENERATIONS.

6. Stewardship shall remain consistent with Applicable Law, lawful sovereign rights, legitimate human needs, scientific advancement, peaceful use and responsible development.

UNIVERSAL CONCERN DOES NOT CREATE UNIVERSAL OWNERSHIP.

STEWARDSHIP MEANS RESPONSIBILITY FOR CONSEQUENCES.

ARTICLE 76: EARTH — STEWARDSHIP OF THE MATERIAL FOUNDATION OF LIFE

1. Land, soil, ecosystems, biodiversity, geological systems and terrestrial resources contribute to food, shelter, livelihoods, health, environmental stability and civilization.

2. States retain sovereignty and other rights concerning territory and natural resources according to Applicable Law.

3. Responsible stewardship should, within lawful competence, seek to:

- (a) prevent severe and reasonably avoidable environmental degradation;
- (b) preserve soil and ecosystem functions important to life;
- (c) reduce contamination capable of causing serious human or ecological harm;
- (d) prevent unsustainable degradation where relevant;
- (e) restore seriously damaged environments where feasible and appropriate;
- (f) strengthen resilience against natural and human-caused hazards;

(g) apply reliable scientific evidence to materially consequential environmental decisions;

(h) consider reasonably foreseeable long-term consequences; and

(i) preserve sustainable and peaceful human possibility.

4. Environmental protection shall not, merely by being invoked, create:

(a) territorial claims;

(b) ownership rights;

(c) jurisdiction over another State;

(d) authority over another State's natural resources; or

(e) permission for unlawful intervention.

5. Measures inspired by stewardship should consider ecological protection together with legitimate development, livelihoods, food security and other relevant human needs.

STEWARDSHIP DOES NOT MEAN

OWNERSHIP OF THE EARTH.

IT MEANS RESPONSIBILITY FOR WHAT HUMAN CHOICE DOES TO IT.

ARTICLE 77: WATER — LIFE, SECURITY AND PEACEFUL COOPERATION

1. Water is indispensable to human life, health, food production, ecosystems and civilization.

2. Water scarcity, contamination, infrastructure failure or water-related disagreement may, according to context, increase human vulnerability and contribute to social or international tension.

3. States and competent actors are encouraged, consistently with Applicable Law, to strengthen:

(a) safe and responsible water management;

(b) prevention and reduction of serious contamination;

(c) resilience of essential water infrastructure;

(d) scientific monitoring;

(e) efficient and sustainable use where appropriate;

- (f) peaceful cooperation concerning shared or transboundary waters where applicable;
- (g) lawful dispute resolution;
- (h) protection of civilian water needs during emergencies and armed conflict as required by Applicable Law; and
- (i) long-term planning responsive to environmental and demographic change.

4. Shared dependence upon water shall not be interpreted by this Constitution as transferring:

- (a) sovereignty;
- (b) territorial title;
- (c) ownership;
- (d) resource entitlement; or
- (e) jurisdiction.

5. Rights and obligations concerning particular waters shall derive from the legal regimes independently applicable to them.

6. Water-security policy should avoid transforming scarcity into collective blame or conflict where peaceful and lawful solutions remain available.

SHARED DEPENDENCE SHOULD STRENGTHEN COOPERATION.

IT SHALL NOT MANUFACTURE SOVEREIGNTY OR OWNERSHIP.

ARTICLE 78: AIR — THE TRANSBOUNDARY MEDIUM OF LIFE

1. Human beings depend upon breathable air regardless of political boundaries.
2. Atmospheric pollution and other transboundary atmospheric risks may require cooperation according to Applicable International Law and national competence.
3. Responsible action should support, where relevant:
 - (a) prevention and reduction of serious harmful pollution;
 - (b) scientific observation and measurement;
 - (c) exchange of reliable information where appropriate;
 - (d) preparedness for significant atmospheric hazards;
 - (e) protection of public health;

- (f) environmental resilience;
- (g) lawful response to transboundary harm where applicable; and
- (h) peaceful international cooperation.

4. Scientific findings concerning transboundary atmospheric processes should be communicated with appropriate attention to uncertainty, methodology and evidentiary strength.

5. The physical movement of atmospheric phenomena across borders shall not be interpreted as abolishing State sovereignty over national airspace or as creating universal jurisdiction.

WHAT CROSSES A BORDER PHYSICALLY DOES NOT AUTOMATICALLY ERASE A BORDER LEGALLY.

ARTICLE 79: FIRE AND ENERGY — POWER WITH RESPONSIBILITY

1. Fire symbolizes one of humanity’s oldest capacities to transform the material world.

2. In this Constitution, “Fire/Energy” is an ethical formulation expressing the responsibility accompanying humanity’s capacity to generate, transform, store, transmit and release energy.

3. Energy may advance:

- (a) health;
- (b) food systems;
- (c) water systems;
- (d) communication;
- (e) transportation;
- (f) science;
- (g) industry;
- (h) education;
- (i) economic development; and
- (j) human well-being.

4. The same capacity may, depending upon technology and use, produce serious or catastrophic harm.

5. Responsible energy stewardship should therefore, encourage:

- (a) safety;
- (b) reliability;
- (c) resilience;
- (d) responsible scientific and technological development;
- (e) prevention of catastrophic misuse;
- (f) emergency preparedness;
- (g) protection of critical civilian systems;
- (h) responsible management of hazardous materials;
- (i) cybersecurity where energy infrastructure depends upon digital systems; and
- (j) peaceful cooperation where appropriate.

6. Energy policy should also consider risks of cascading failure where the interruption of energy materially threatens healthcare, water, food, communications, transportation or other essential systems.

7. Nothing in this Article:

- (a) determines national energy policy;
- (b) prohibits lawful energy development;
- (c) assigns ownership over energy resources; or
- (d) creates international authority over lawful national energy decisions.

***THE GREATER THE POWER HUMANITY CAN COMMAND,
THE GREATER THE RESPONSIBILITY
WITH WHICH THAT POWER MUST BE GOVERNED.***

ARTICLE 80: SPACE — PEACEFUL POSSIBILITY BEYOND EARTH

1. Outer space supports communication, navigation, science, disaster response, environmental observation, security functions, development and other human activities.

2. Activities in outer space shall remain governed by Applicable International Law, including treaty obligations independently applicable to the States and activities concerned.

3. This Constitution supports the peaceful, safe, responsible and sustainable use of outer space and the reduction of conduct capable of creating catastrophic or unnecessary danger.

4. States and other competent actors are encouraged, consistently with Applicable Law, to strengthen:

- (a) peaceful cooperation;
- (b) safety of space operations;
- (c) reduction of harmful interference;
- (d) responsible management of debris and collision risk;
- (e) transparency and confidence-building where appropriate;
- (f) crisis communication;
- (g) protection of long-term access to and use of outer space;
- (h) protection against dangerous miscalculation; and
- (i) peaceful settlement of disputes.

5. Activities affecting essential space-enabled civilian services should, where appropriate, consider foreseeable consequences for communications, navigation, emergency response and other critical functions.

6. This Constitution shall not be interpreted as declaring that existing international law universally prohibits every military activity or every category of weapon in outer space.

7. It advances instead the stronger non-binding constitutional aspiration that:

SPACE SHOULD NOT BECOME AN UNRESTRAINED DOMAIN OF DESTRUCTIVE ESCALATION.

8. Nothing in this Article creates:

- (a) territorial sovereignty over outer space;
- (b) ownership of celestial bodies;
- (c) universal jurisdiction; or
- (d) authority beyond Applicable Law.

ARTICLE 81: THE NON-WEAPONIZATION PRINCIPLE

1. Humanity should progressively strengthen lawful international restraint against the deliberate hostile manipulation or use of natural systems, environmental processes and life-supporting foundations as means of catastrophic, unlawful or indiscriminate destruction.
2. This principle shall be interpreted with strict legal source-status discipline.
3. It shall not be represented as proving that one universal rule of existing international law presently prohibits every conceivable hostile use of:
 - (a) land or terrestrial systems;
 - (b) water;
 - (c) air or atmospheric processes;
 - (d) energy;
 - (e) weather or environmental processes;
 - (f) outer space; or
 - (g) future technologies capable of manipulating such systems.
4. Existing legal prohibitions and restrictions derive from the specific treaties, customary rules and other law independently applicable to the relevant State, actor, conduct and circumstances.
5. Beyond independently binding law, this Constitution proposes the non-binding progressive principle that States should consider lawful cooperation to prevent emerging forms of catastrophic hostile manipulation of natural and life-supporting systems.
6. Such cooperation may include:
 - (a) scientific dialogue;
 - (b) risk identification;
 - (c) transparency and confidence-building where appropriate;
 - (d) development of safety norms;
 - (e) clarification of existing law;
 - (f) negotiation of additional legal instruments where States consider them necessary; and
 - (g) mechanisms for peaceful consultation concerning emerging risks.

7. Any future binding prohibition requires an independent lawful basis and lawful international process.

THE ETHICAL ASPIRATION MAY BE UNIVERSAL.

THE LEGAL OBLIGATION MUST COME FROM THE LAW THAT ACTUALLY CREATES IT.

ARTICLE 82: ENVIRONMENTAL MODIFICATION AND HOSTILE MANIPULATION

1. Military or other hostile use of environmental modification techniques shall be assessed under the international legal rules actually applicable to the States, actors, conduct and circumstances concerned.

2. This Constitution recognizes the existence and importance of legal regimes concerning environmental modification without representing any particular treaty rule as universally binding upon actors not legally bound by it.

3. Emerging capabilities capable of intentionally producing severe, widespread, persistent, cascading or otherwise grave environmental effects should receive responsible scientific and legal attention.

4. Preventive architecture may include, where appropriate:

- (a) scientific horizon-scanning;
- (b) risk assessment;
- (c) responsible research governance;
- (d) biosafety, environmental safety or other relevant safeguards;
- (e) transparency consistent with legitimate confidentiality and security requirements;
- (f) international dialogue;
- (g) confidence-building;
- (h) clarification of Applicable Law;
- (i) emergency preparedness;
- (j) incident investigation where lawfully authorized; and
- (k) periodic review of emerging capability.

5. Scientific capability shall not itself constitute evidence of hostile intent.

6. Dual-use potential shall not automatically convert peaceful research into unlawful activity.

7. Prevention shall therefore, distinguish:

KNOWLEDGE FROM HOSTILE INTENT;

CAPABILITY FROM WEAPONIZATION;

AND

SCIENTIFIC POSSIBILITY FROM PROVEN UNLAWFUL CONDUCT.

ARTICLE 83: THE NATURAL ENVIRONMENT DURING ARMED CONFLICT

1. Armed conflict does not render the natural environment legally or humanly irrelevant.

2. Applicable International Humanitarian Law and other Applicable Law shall govern according to their own scope and conditions.

3. This Constitution supports strict compliance with independently applicable legal rules concerning protection of the natural environment, civilians and civilian survival.

4. Military necessity shall not be represented as an unlimited permission to disregard legal restraints otherwise applicable.

5. Lawful planning should, where relevant, consider environmental damage capable of materially affecting:

(a) civilian life;

(b) drinking water;

(c) food production;

(d) public health;

(e) livelihoods;

(f) displacement;

(g) ecosystems essential to civilian survival; and

(h) post-conflict recovery.

6. Post-conflict recovery should, where appropriate and feasible, include scientifically informed assessment and remediation of serious environmental harm.

7. Environmental damage should be documented where this can lawfully and safely support protection, accountability, remediation or future prevention.

WAR MAY END BEFORE ITS ENVIRONMENTAL CONSEQUENCES DO.

LAND, WATER AND AIR

MAY CARRY THE HARM LONG AFTER THE WEAPONS FALL SILENT.

ARTICLE 84: CHEMICAL AND BIOLOGICAL DANGERS

1. Chemical and biological capabilities capable of causing serious or catastrophic human, animal or environmental harm require exceptionally responsible legal, scientific and institutional attention.

2. Legal obligations concerning chemical and biological weapons derive from treaties and other rules of international law independently applicable to the relevant State, actor and conduct.

3. This Constitution strongly supports:

- (a) compliance with applicable prohibitions and restrictions;
- (b) prevention of proliferation and misuse;
- (c) biosafety proportionate to risk;
- (d) biosecurity;
- (e) chemical safety and security;
- (f) responsible scientific research;
- (g) detection and preparedness;
- (h) emergency-response capacity;
- (i) international cooperation consistent with Applicable Law;
- (j) accountability where independently established; and
- (k) lessons-learned review after serious incidents.

4. Peaceful scientific, medical, pharmaceutical, agricultural and industrial activities shall not automatically be equated with prohibited weapons activity.

5. Dual-use risk should be managed proportionately, with attention to both serious harm prevention and preservation of legitimate scientific progress.

6. Governance should distinguish:

***PEACEFUL RESEARCH FROM PROHIBITED USE;
POSSIBLE MISUSE FROM ESTABLISHED INTENT;
AND
PRECAUTION FROM UNNECESSARY SUPPRESSION OF SCIENCE.
SCIENCE THAT CAN PROTECT LIFE
SHOULD NOT BE CARELESSLY TRANSFORMED
INTO A MEANS OF MASS SUFFERING.***

ARTICLE 85: NUCLEAR RISK AND CATASTROPHIC DESTRUCTION

1. The potentially catastrophic humanitarian, environmental and civilizational consequences of nuclear war make its prevention an exceptionally serious concern of World Peace.
2. This Constitution does not alter the rights or obligations of any State under treaties or other Applicable Law concerning nuclear weapons, non-proliferation, safeguards, arms control, peaceful nuclear activity or disarmament.
3. It supports, through lawful and peaceful processes:
 - (a) prevention of nuclear war;
 - (b) prevention of accidental or unauthorized use;
 - (c) reduction of risks of miscalculation;
 - (d) reliable crisis communication;
 - (e) responsible command and control;
 - (f) nuclear safety and security;
 - (g) non-proliferation according to Applicable Law;
 - (h) arms-control and disarmament initiatives pursued through lawful processes;
 - (i) protection of peaceful uses of nuclear science consistent with applicable obligations; and
 - (j) institutional learning from near-misses, incidents and identified vulnerabilities where disclosure is lawful and responsible.
4. Nuclear-risk reduction should not be confused with adjudication of the legality of any particular State's conduct without the required factual and legal analysis.

5. No nuclear-weapon policy or legal status is created, altered or determined by this Constitution.

6. Where catastrophic systems depend upon human and technological decision chains, responsible prevention should consider:

- (a) false warning;
- (b) unauthorized action;
- (c) cybersecurity compromise;
- (d) communication failure;
- (e) automation bias;
- (f) technical malfunction; and
- (g) escalation under severe time pressure.

***THE CAPACITY TO CAUSE CATASTROPHIC DESTRUCTION
IMPOSES A CORRESPONDING RESPONSIBILITY
TO PREVENT CATASTROPHIC MISCALCULATION.***

ARTICLE 86: CLIMATE, ENVIRONMENTAL STRESS AND PEACE

1. Climatic and environmental changes may interact with social, economic, humanitarian, political and security conditions.

2. Such interactions shall be assessed through evidence and context rather than simplistic assumptions that environmental change automatically causes armed conflict.

3. Peace-oriented resilience may include, according to circumstances:

- (a) reliable scientific assessment;
- (b) disaster-risk reduction;
- (c) adaptation;
- (d) resilient food systems;
- (e) resilient water systems;
- (f) protection of vulnerable populations;
- (g) responsible infrastructure;
- (h) peaceful resource governance;

- (i) livelihood resilience;
- (j) humanitarian preparedness;
- (k) early warning; and
- (l) peaceful international cooperation.

4. Environmental stress assessments should consider vulnerability, institutional capacity and other material contributing conditions rather than attributing conflict to one variable without adequate evidence.

5. Environmental policy shall not become a pretext for unlawful intervention or unauthorized control of another State's territory or resources.

6. Prevention should seek to interrupt the possible progression:

ENVIRONMENTAL STRESS → HUMAN VULNERABILITY → SYSTEMIC PRESSURE → GRIEVANCE OR DISPLACEMENT → INSTABILITY → ESCALATION

before that progression becomes destructive where evidence shows that such a pathway is developing.

PREPARE FOR ENVIRONMENTAL STRESS

BEFORE STRESS BECOMES HUMAN CRISIS,

AND BEFORE HUMAN CRISIS BECOMES CONFLICT.

ARTICLE 87: SCIENCE FOR ELEMENTAL PEACE

1. Prevention of catastrophic environmental and technological harm requires reliable science, institutional competence and honest treatment of uncertainty.

2. States, scientific institutions and other competent actors are encouraged, according to lawful capacity, to strengthen:

- (a) observation and monitoring;
- (b) risk assessment;
- (c) interdisciplinary research;
- (d) responsible data sharing where appropriate;
- (e) early warning;
- (f) safety research;
- (g) emergency preparedness;
- (h) independent scientific review where appropriate;

- (i) communication of material uncertainty;
- (j) reproducibility and verification where practicable; and
- (k) correction of material scientific error.

3. Scientific findings shall be distinguished from political or legal conclusions extending beyond the evidence.

4. Scientific disagreement shall not automatically be characterized as bad faith.

5. Uncertainty shall not be concealed.

6. Uncertainty shall also not automatically justify inaction where credible evidence indicates a risk of catastrophic or irreversible harm and lawful proportionate preventive measures are available.

7. Preventive action should remain:

- (a) evidence-informed;
- (b) proportionate;
- (c) reviewable;
- (d) rights-respecting;
- (e) capable of adjustment; and
- (f) capable of correction as knowledge improves.

SCIENCE SHOULD HELP HUMANITY SEE DANGER EARLIER.

IT SHOULD NOT BE FORCED TO CLAIM CERTAINTY WHERE CERTAINTY DOES NOT EXIST.

ARTICLE 88: THE ELEMENTAL EARLY-WARNING ARCHITECTURE

1. Competent authorities and institutions should, where appropriate, maintain the capacity to identify credible emerging risks involving natural systems, hazardous technologies or environmental processes.

2. A responsible early-warning pathway may include:

OBSERVATION → SCIENTIFIC VALIDATION → CHARACTERIZATION OF RISK → IDENTIFICATION OF MATERIAL UNCERTAINTY → ASSESSMENT OF POSSIBLE CONSEQUENCES → COMMUNICATION TO COMPETENT ACTORS → LAWFUL PREVENTIVE ACTION WHERE JUSTIFIED → EMERGENCY PREPAREDNESS → MONITORING → REVIEW → CORRECTION.

3. Warning shall not be treated as proof of hostile intent.
4. Scientific capability shall not be treated as proof of weaponization.
5. Risk assessment shall not itself create jurisdiction, coercive authority or guilt.
6. Emergency response shall remain subject to Applicable Law.
7. Early-warning mechanisms should themselves be reviewed for:
 - (a) scientific error;
 - (b) institutional bias;
 - (c) manipulation;
 - (d) false alarms;
 - (e) missed warnings;
 - (f) communication failure; and
 - (g) unintended escalation.

THE OBJECTIVE IS TO DETECT DANGER EARLY WITHOUT TURNING SCIENCE INTO SUSPICION OR WARNING INTO A SUBSTITUTE FOR LAW.

ARTICLE 89: ACCOUNTABILITY, REMEDIATION AND RESTORATION

1. Where serious environmental, technological or elemental harm occurs, questions of responsibility, accountability and remedy shall depend upon the facts and Applicable Law.
2. Where lawfully available and appropriate, responses may include:
 - (a) cessation of harmful conduct;
 - (b) containment;
 - (c) emergency protection;
 - (d) investigation by competent authority;
 - (e) preservation of evidence;
 - (f) determination of responsibility according to law;
 - (g) remediation;
 - (h) environmental restoration where feasible;
 - (i) compensation or other remedy where legally available;

- (j) institutional reform;
- (k) safety redesign;
- (l) monitoring; and
- (m) prevention of recurrence.

3. Environmental restoration should be guided by:

- (a) scientific evidence;
- (b) feasibility;
- (c) proportionality;
- (d) ecological consequences;
- (e) human needs; and
- (f) Applicable Law.

4. Where complete restoration is impossible, responsible efforts should seek to reduce continuing harm, protect affected persons and systems, preserve evidence, support recovery and prevent further damage.

5. This Constitution creates no automatic:

- (a) liability;
- (b) compensation scheme;
- (c) tribunal;
- (d) jurisdiction;
- (e) enforcement authority; or
- (f) obligation of restoration beyond Applicable Law.

REPAIR WHAT CAN BE REPAIRED.

CONTAIN WHAT CANNOT YET BE REPAIRED.

LEARN WHY THE HARM OCCURRED.

CHANGE WHAT MADE ITS RECURRENCE POSSIBLE.

ARTICLE 90: THE ELEMENTAL NON-WEAPONIZATION SOLUTION ARCHITECTURE

1. The long-term constitutional architecture for preventing catastrophic hostile misuse of natural and life-supporting systems is:

KNOWLEDGE → HORIZON-SCANNING → RESPONSIBLE RESEARCH → RISK IDENTIFICATION → SCIENTIFIC VALIDATION → LEGAL CLARITY → SAFETY-BY-DESIGN WHERE RELEVANT → TRANSPARENCY AND CONFIDENCE-BUILDING WHERE APPROPRIATE → PREVENTIVE SAFEGUARDS → PEACEFUL INTERNATIONAL COOPERATION → EARLY WARNING → EMERGENCY PREPAREDNESS → LAWFUL ACCOUNTABILITY WHERE APPLICABLE → REMEDIATION → INDEPENDENT OR COMPETENT REVIEW WHERE APPROPRIATE → ADAPTATION TO NEW RISKS → PREVENTION OF RECURRENCE.

2. The architecture shall distinguish:

PEACEFUL USE FROM HOSTILE USE;

SCIENCE FROM WEAPONIZATION;

CAPABILITY FROM INTENT;

RISK FROM PROVEN WRONGDOING;

ETHICAL ASPIRATION FROM

BINDING LAW;

STEWARDSHIP FROM OWNERSHIP;

AND

UNIVERSAL CONCERN FROM UNIVERSAL JURISDICTION.

3. New capabilities presenting credible catastrophic risks should receive proportionate scrutiny before harmful applications become irreversible where such scrutiny is lawful and practically possible.

4. Where existing law does not adequately address an emerging risk, States may consider:

- (a) dialogue;
- (b) scientific cooperation;
- (c) voluntary standards;
- (d) confidence-building measures;
- (e) agreed norms;
- (f) treaties or other international agreements; or
- (g) other lawful mechanisms appropriate to the risk.

5. No new binding rule shall be claimed to exist merely because this Constitution proposes that such a rule would be desirable.

6. Scientific and technological progress shall not be restricted beyond what can be justified by a lawful and proportionate response to risk.

THE DURABLE SOLUTION IS NOT TO FEAR NATURE OR SCIENCE.

IT IS TO PREVENT HUMAN POWER FROM TURNING THE FOUNDATIONS OF LIFE INTO INSTRUMENTS OF CATASTROPHIC DESTRUCTION.

ARTICLE 91: FINAL ELEMENTAL SAFEGUARD

1. This Part shall be interpreted consistently with the Foundational Submission Framework in Part 1 and the safeguards established in Article 13.

2. Nothing in this Part:

- (a) transfers sovereignty;
- (b) determines territorial title;
- (c) creates ownership over natural resources;
- (d) alters maritime entitlements;
- (e) alters sovereignty over national airspace;
- (f) creates sovereignty over outer space or celestial bodies;
- (g) creates universal environmental jurisdiction;
- (h) creates compulsory inspection authority;
- (i) creates sanctions authority;
- (j) authorizes military action;
- (k) authorizes unlawful intervention;
- (l) prohibits lawful peaceful science;
- (m) prohibits lawful development;
- (n) creates automatic liability or compensation;
- (o) creates a universal enforcement institution;
- (p) determines the legality of particular conduct without the factual and legal analysis required by Applicable Law; or
- (q) modifies rights or obligations independently arising under Applicable Law.

3. Existing treaties and other legal rules retain their actual scope, conditions, participation requirements and legal character.
4. Stronger principles proposed in this Part beyond independently binding law remain non-binding unless lawfully adopted through an independent process.
5. The final constitutional direction of this Part is:

EARTH SHALL SUSTAIN LIFE, NOT BE DELIBERATELY TRANSFORMED INTO AN INSTRUMENT OF UNLAWFUL DESTRUCTION.

WATER SHALL SUSTAIN LIFE, NOT BECOME A MEANS OF CATASTROPHIC HOSTILE HARM.

AIR SHALL SUSTAIN LIFE, NOT BE IRRESPONSIBLY MANIPULATED TOWARD MASS SUFFERING.

ENERGY SHALL ADVANCE HUMAN POSSIBILITY, AND ITS GREATEST POWERS SHALL CALL FOR THE GREATEST RESPONSIBILITY.

SPACE SHALL ENLARGE PEACEFUL HUMAN POSSIBILITY, NOT BECOME AN UNRESTRAINED DOMAIN OF DESTRUCTIVE ESCALATION.

THESE ARE NOT CLAIMS OF INVENTED LAW. THEY ARE A NON-BINDING CONSTITUTIONAL DIRECTION FOR PEACE.

PROTECT WHAT SUSTAINS LIFE.

RESPECT THE LAW THAT ACTUALLY APPLIES.

GOVERN HUMAN CAPABILITY RESPONSIBLY.

USE SCIENCE TO RECOGNIZE RISK.

PRESERVE PEACEFUL USE.

PREVENT CATASTROPHIC MISUSE.

REPAIR SERIOUS HARM WHERE POSSIBLE.

LEARN FROM FAILURE.

STRENGTHEN LAW ONLY THROUGH LAWFUL PROCESSES.

AND NEVER ALLOW THE HUMAN POWER TO TRANSFORM NATURE TO OUTGROW THE HUMAN RESPONSIBILITY TO PRESERVE LIFE.

FROM THE STEWARDSHIP OF EARTH TO THE PEACEFUL USE OF SPACE— LET HUMAN CAPABILITY BE GOVERNED BY LAW, RESPONSIBILITY, SCIENCE, HUMAN DIGNITY AND ARAM.

PART VII — SCIENCE, TECHNOLOGY, ARTIFICIAL INTELLIGENCE AND INFORMATION INTEGRITY

ARTICLES 92–112

ARTICLE 92: SCIENCE AND TECHNOLOGY FOR PEACEFUL HUMAN POSSIBILITY

1. Science and technology are among humanity's most powerful means of understanding, creating and transforming the conditions of life.
2. Their peaceful and responsible development may advance:
 - (a) health;
 - (b) education;
 - (c) food and water security;
 - (d) accessibility;
 - (e) communication;
 - (f) environmental protection;
 - (g) productivity and livelihood;
 - (h) disaster prevention and response;
 - (i) scientific knowledge; and
 - (j) Human Dignity.
3. The same capabilities may, depending upon design, access, control, deployment and use, create serious, systemic or catastrophic harm.
4. The constitutional principle is therefore:

CAPABILITY WITH RESPONSIBILITY.

INNOVATION WITH SAFETY.

POWER WITH ACCOUNTABILITY.

PROGRESS WITH HUMAN DIGNITY.

5. Governance should be proportionate to credible risk and should avoid unnecessarily obstructing beneficial scientific and technological development.
6. Science shall not be presumed dangerous merely because it is new.
7. Innovation shall not be presumed safe merely because it is useful, profitable or widely adopted.

8. Responsible governance should remain capable of learning and adjustment as evidence, capability and risk evolve.

ARTICLE 93: HUMAN RESPONSIBILITY FOR ARTIFICIAL INTELLIGENCE

1. Artificial Intelligence shall not, merely by possessing advanced capability, autonomy, scale, speed or apparent intelligence, acquire:

- (a) sovereignty;
- (b) governmental authority;
- (c) political legitimacy;
- (d) jurisdiction;
- (e) immunity from lawful oversight; or
- (f) authority over human beings.

2. Persons, States, institutions, organizations and other actors remain subject to responsibilities independently arising under Applicable Law.

3. Use of an AI system shall not, by itself, erase responsibility that would otherwise attach lawfully to a human or legal person.

4. Responsibility should be assessed according to facts and Applicable Law, including where relevant:

- (a) design;
- (b) development;
- (c) training or configuration;
- (d) deployment;
- (e) control;
- (f) intended use;
- (g) reasonably foreseeable misuse;
- (h) knowledge;
- (i) capacity to prevent or mitigate harm;
- (j) actual conduct; and
- (k) independently applicable legal duties.

5. Participation in an AI lifecycle shall not automatically make every participant responsible for every consequence.

6. Responsibility shall correspond, where relevant, to actual conduct, control, knowledge, causation and legal duty.

AUTOMATION SHALL NOT BECOME A HIDING PLACE FOR HUMAN RESPONSIBILITY.

ARTICLE 94: HUMAN DIGNITY AND MEANINGFUL HUMAN AGENCY

1. Technological systems should support, rather than unnecessarily diminish, meaningful human agency.

2. In contexts materially affecting life, liberty, safety, Human Rights or other highly consequential interests, governance should provide the degree of human oversight, review and accountability appropriate to the risk and Applicable Law.

3. Human oversight shall be meaningful rather than ceremonial where it is relied upon as a safeguard.

4. A person shall not be considered to exercise meaningful oversight merely by automatically approving an automated output.

5. Meaningful oversight may require, according to context:

- (a) sufficient understanding of the relevant system and decision;
- (b) access to material information;
- (c) ability to question automated output;
- (d) ability to intervene where technically and lawfully possible;
- (e) escalation to competent human authority;
- (f) review and correction;
- (g) documentation appropriate to accountability; and
- (h) sufficient time for responsible judgment where circumstances permit.

6. Technology should not deliberately structure consequential decisions so that human responsibility exists only in name.

HUMANITY MAY DELEGATE TASKS. IT SHOULD NOT CARELESSLY DELEGATE THE RESPONSIBILITY TO REMAIN HUMAN.

ARTICLE 95: AI SAFETY, ROBUSTNESS AND SECURITY

1. AI systems presenting material risks to persons, institutions, peace, infrastructure or other critical systems should be designed, developed, deployed and governed with safeguards proportionate to those risks.

2. Safeguards may include, according to context:

- (a) risk assessment;
- (b) testing and evaluation;
- (c) robustness;
- (d) cybersecurity;
- (e) secure access controls;
- (f) misuse resistance;
- (g) monitoring;
- (h) incident detection and response;
- (i) fallback, recovery or fail-safe mechanisms where appropriate;
- (j) documentation;
- (k) adversarial evaluation or equivalent testing;
- (l) staged deployment;
- (m) post-deployment review; and
- (n) correction, restriction or withdrawal where serious risks cannot otherwise be adequately addressed and lawful authority exists.

3. Safety assessment should consider both intended operation and reasonably foreseeable misuse.

4. Safety measures shall be reconsidered as systems, environments and risks change.

5. Successful completion of a test at one moment shall not establish permanent safety.

6. Safety claims should identify material limitations and uncertainty where relevant.

SAFETY IS NOT A CERTIFICATE OF PERFECTION.

IT IS A CONTINUING RESPONSIBILITY.

ARTICLE 96: AI, NON-DISCRIMINATION AND FAIRNESS

1. AI systems may reproduce, amplify, reduce or create patterns of disadvantage depending upon data, design, deployment and social context.

2. Where AI materially affects persons, responsible governance should consider risks of unlawful discrimination and other serious unfair harm.

3. Safeguards may include:

- (a) data-quality assessment;
- (b) examination of materially relevant representation gaps;
- (c) testing under relevant conditions;
- (d) documentation of known limitations;
- (e) human review where appropriate;
- (f) contestability and correction mechanisms where warranted;
- (g) monitoring of consequential outcomes; and
- (h) remediation where required by Applicable Law.

4. Mathematical uniformity shall not automatically establish fairness.

5. Difference in outcome shall not automatically establish unlawful discrimination.

6. Assessment shall remain evidence-based, contextual and legally grounded.

7. Efforts to improve fairness shall avoid replacing one unjustified form of discrimination with another.

FAIRNESS REQUIRES MORE THAN A FORMULA. IT REQUIRES ATTENTION TO HUMAN CONSEQUENCES.

ARTICLE 97: PRIVACY, DATA AND HUMAN FREEDOM

1. Human beings shall not be reduced merely to sources of data, behavioural profiles or objects of prediction.

2. Collection, processing and use of personal data through technological systems shall remain subject to Applicable Law.

3. Responsible systems should consider, where relevant:

- (a) lawful basis;
- (b) legitimate purpose;
- (c) data minimization;
- (d) accuracy;
- (e) security;

- (f) appropriate retention;
- (g) transparency;
- (h) purpose limitation where applicable;
- (i) safeguards against unauthorized use;
- (j) access and correction where legally required; and
- (k) accountability.

4. Sensitive or highly consequential data should receive safeguards appropriate to the risk and Applicable Law.

5. Peace, security, efficiency, convenience or innovation shall not, merely by being invoked, create unlimited authority to monitor human life.

6. Privacy shall not automatically prevent lawful, necessary and proportionate measures independently authorized for legitimate purposes.

7. Data governance should distinguish:

USEFUL INFORMATION FROM UNLIMITED COLLECTION;

PREDICTION FROM CERTAINTY;

AND

SECURITY FROM PERMANENT UNACCOUNTABLE OBSERVATION.

PROTECT THE PERSON.

USE DATA RESPONSIBLY.

PRESERVE LAWFUL SECURITY.

DO NOT TURN HUMAN EXISTENCE INTO PERMANENT OBSERVATION.

ARTICLE 98: ARTIFICIAL INTELLIGENCE AND THE PREVENTION OF WAR

1. Artificial Intelligence may influence military analysis, strategic decision-making, cyber operations, intelligence processing, communications, logistics and information environments relevant to international peace and security.

2. Speed, complexity and interaction among such systems may create risks including:

- (a) miscalculation;
- (b) false or manipulated information;
- (c) automation bias;

- (d) unintended escalation;
- (e) loss of meaningful human judgment;
- (f) cybersecurity compromise;
- (g) interaction among automated systems;
- (h) misidentification;
- (i) compressed decision time; and
- (j) escalation occurring faster than responsible deliberation.

3. States and competent actors are encouraged, consistently with Applicable International Law, to reduce such risks.

4. Measures may include, where appropriate:

- (a) meaningful human responsibility;
- (b) rigorous testing;
- (c) cybersecurity;
- (d) verification of consequential information;
- (e) escalation controls;
- (f) fail-safe or fail-secure design where technically appropriate;
- (g) authenticated crisis communication;
- (h) incident and near-miss review;
- (i) protection against unauthorized operation; and
- (j) international dialogue concerning emerging risks.

5. Systems used in high-consequence security decisions should be designed, where practicable, to preserve opportunities for human verification and reconsideration before irreversible action.

6. This Constitution does not independently determine the legality of any particular weapon or military AI system.

NO MACHINE SHOULD MAKE WAR EASIER TO BEGIN MERELY BECAUSE IT MAKES DECISIONS FASTER TO EXECUTE.

ARTICLE 99: AUTONOMY, FORCE AND HUMAN ACCOUNTABILITY

1. Any use of force involving autonomous or AI-enabled systems remains subject to Applicable International Law.

2. Nothing in this Constitution creates, replaces or modifies legal rules concerning:

- (a) resort to force;
- (b) conduct of hostilities;
- (c) weapons review;
- (d) State responsibility;
- (e) individual responsibility; or
- (f) other independently applicable legal regimes.

3. This Constitution nevertheless advances the non-binding principle that increasing machine autonomy in decisions capable of causing death or severe harm requires correspondingly serious attention to:

- (a) human judgment;
- (b) predictability;
- (c) reliability;
- (d) legal compliance;
- (e) operational control;
- (f) accountability;
- (g) prevention of unintended engagement;
- (h) cybersecurity;
- (i) escalation risk; and
- (j) capacity to suspend or terminate operation where practicable.

4. Technological complexity shall not become a reason for legal responsibility to disappear.

5. Where meaningful human control or judgment is represented as a safeguard, its practical reality should be examined rather than assumed.

THE MORE CONSEQUENTIAL THE DECISION, THE LESS ACCEPTABLE IT IS FOR RESPONSIBILITY TO DISAPPEAR.

ARTICLE 100: AI, CYBERSPACE AND CRITICAL CIVILIAN SYSTEMS

1. Digital systems increasingly support:

- (a) healthcare;
- (b) water;
- (c) energy;
- (d) food systems;
- (e) communications;
- (f) finance;
- (g) transportation;
- (h) emergency services; and
- (i) essential public administration.

2. Serious cyber or AI-enabled disruption may therefore, produce consequences far beyond the digital environment.

3. States, institutions and responsible private actors should, within their lawful roles, strengthen:

- (a) cybersecurity;
- (b) resilience;
- (c) secure-by-design practices;
- (d) incident detection;
- (e) continuity planning;
- (f) redundancy where appropriate;
- (g) recovery capacity;
- (h) responsible vulnerability management;
- (i) supply-chain awareness;
- (j) protection proportionate to critical civilian functions; and
- (k) lawful cooperation concerning serious cross-border threats.

4. AI-enabled cybersecurity should itself remain subject to appropriate human responsibility, testing and safeguards.

5. Critical-system governance should consider cascading consequences where failure in one system may endanger others.

6. Security shall not become justification for indiscriminate surveillance or unauthorized interference.

PROTECT THE SYSTEM BECAUSE HUMAN LIFE MAY DEPEND UPON IT.

PROTECT HUMAN FREEDOM BECAUSE SECURITY EXISTS TO SERVE HUMANITY.

ARTICLE 101: INFORMATION INTEGRITY AND PEACE

1. Peaceful public life requires the ability to exchange information, express disagreement and evaluate competing claims.

2. Deliberately deceptive or manipulated information may, depending upon context, contribute materially to:

- (a) fraud;
- (b) panic;
- (c) dehumanization;
- (d) unlawful incitement;
- (e) institutional distrust;
- (f) dangerous miscalculation; or
- (g) violent escalation.

3. The solution shall not be the creation through this Constitution of a centralized authority empowered to determine all truth.

4. Instead, societies should strengthen, consistently with Applicable Law:

- (a) evidence literacy;
- (b) independent and responsible journalism;
- (c) transparent correction of material error;
- (d) provenance and authenticity mechanisms where appropriate;
- (e) responsible access to reliable information;
- (f) research into information-system risks;
- (g) digital and media literacy;
- (h) responsible platform governance; and

(i) lawful safeguards against independently regulated harmful conduct.

5. Information integrity should improve the conditions through which truth may be tested and identified.

6. It shall not create ownership of truth.

7. Official or institutional claims affecting major public interests should, where appropriate, distinguish fact, assessment, uncertainty and opinion.

TRUTH REQUIRES EVIDENCE.

FREEDOM REQUIRES PLURALISM.

PEACE REQUIRES BOTH.

ARTICLE 102: SYNTHETIC MEDIA, DEEPFAKES AND DECEPTIVE IMPERSONATION

1. AI-generated and digitally manipulated media may serve legitimate purposes including art, accessibility, education, research, communication and entertainment.

2. The same capabilities may be used to:

- (a) impersonate persons;
- (b) fabricate events;
- (c) facilitate fraud;
- (d) create false evidence;
- (e) manipulate public understanding; or
- (f) intensify conflict.

3. Risk-sensitive safeguards may include:

- (a) provenance mechanisms;
- (b) authentication tools;
- (c) proportionate disclosure of synthetic content;
- (d) rapid correction;
- (e) protection against fraud and unlawful impersonation;
- (f) public literacy;
- (g) verification of high-consequence communications; and

(h) crisis incident response.

4. Disclosure requirements, where lawfully adopted, should avoid unnecessary burdens on harmless artistic, satirical, accessibility, educational or research uses.
5. During international crises, communications capable of triggering serious escalation should receive especially careful authentication where practicable.
6. Institutions relying upon digital media for consequential action should avoid treating apparent authenticity as sufficient proof where credible manipulation risks exist.

A FALSE IMAGE SHOULD NEVER, THROUGH CARELESSNESS, BECOME THE FIRST STEP TOWARD A REAL WAR.

ARTICLE 103: ALGORITHMIC AMPLIFICATION AND HUMAN HOSTILITY

1. Digital systems may materially influence what information receives attention and how rapidly it spreads.
2. Where system design materially rewards outrage, humiliation, dehumanization, manipulation or deceptive sensationalism, it may contribute to conditions harmful to peaceful public life.
3. Responsible platforms and competent authorities should, according to their lawful roles, consider:
 - (a) systemic-risk assessment;
 - (b) transparency appropriate to consequential recommender systems;
 - (c) user choice and control where practicable;
 - (d) protection against coordinated deceptive manipulation;
 - (e) safeguards proportionate to demonstrated risk;
 - (f) independent research subject to legitimate privacy and security safeguards;
 - (g) review of unintended consequences.
4. Popularity shall not establish truth.
5. Unpopularity shall not establish illegality.
6. Measures concerning amplification shall preserve lawful freedom of expression, pluralism and legitimate disagreement.

7. Responsibility should correspond to actual design choices, control, knowledge, foreseeable effects and Applicable Law.

TECHNOLOGY SHOULD NOT TURN HUMAN ANGER INTO A SELF-REINFORCING SYSTEM OF HATRED.

ARTICLE 104: CHILDREN, AI AND DEVELOPMENTAL RESPONSIBILITY

1. AI systems materially interacting with children require heightened attention to age, development, privacy, safety, vulnerability and agency.

2. Responsible safeguards may include:

- (a) age-appropriate design;
- (b) protection against exploitation;
- (c) protection against deceptive or coercive manipulation;
- (d) appropriate limitation of data collection;
- (e) clear reporting pathways;
- (f) AI literacy;
- (g) responsible parental, caregiver or educator involvement according to age and Applicable Law;
- (h) human oversight for highly consequential decisions; and
- (i) evaluation of material developmental risks.

3. AI should support education without unnecessarily weakening independent reasoning, curiosity or human relationships.

4. Children should learn not only how to obtain an answer from a machine, but how to question:

IS THE ANSWER ACCURATE?

WHAT EVIDENCE SUPPORTS IT?

WHAT MAY BE MISSING?

COULD IT BE BIASED OR MANIPULATED?

AND

WHEN SHOULD A HUMAN BE ASKED?

5. Protection shall not justify indiscriminate surveillance of children.

THE FUTURE REQUIRES CHILDREN WHO CAN USE INTELLIGENCE — HUMAN OR ARTIFICIAL — WITHOUT SURRENDERING JUDGMENT.

ARTICLE 105: WORK, LIVELIHOOD AND TECHNOLOGICAL TRANSITION

1. Technological progress may create occupations, transform existing work and displace particular tasks or roles.
2. The benefits and burdens of transition may be distributed unevenly.
3. Responsible transition strategies should therefore, consider, according to lawful national circumstances and available resources:
 - (a) education;
 - (b) reskilling;
 - (c) upskilling;
 - (d) lifelong learning;
 - (e) pathways into new livelihood opportunities;
 - (f) support for persons materially affected by transition;
 - (g) responsible adoption of automation;
 - (h) access to technological opportunity;
 - (i) entrepreneurship and innovation where appropriate; and
 - (j) preservation of Human Dignity during economic change.
4. Technological displacement should be monitored where it produces material and persistent social vulnerability.
5. No technology shall be presumed socially beneficial merely because it reduces labour costs or increases efficiency.
6. This Constitution does not prescribe:
 - (a) a particular economic system;
 - (b) an employment guarantee;
 - (c) a universal income model; or
 - (d) compulsory restrictions upon lawful automation.

***TECHNOLOGICAL PROGRESS SHOULD EXPAND HUMAN POSSIBILITY WITHOUT
TREATING HUMAN BEINGS AS OBSOLETE MATERIAL.***

ARTICLE 106: CONCENTRATION OF TECHNOLOGICAL POWER

1. Extraordinary technological capability concentrated in a small number of public or private actors may, depending upon context, create risks concerning:

- (a) accountability;
- (b) competition;
- (c) security;
- (d) information integrity;
- (e) human agency;
- (f) critical dependency;
- (g) systemic resilience; and
- (h) democratic or institutional autonomy where relevant.

2. Competent authorities should assess such risks through Applicable Law and evidence rather than presuming that size, wealth or capability alone establishes wrongdoing.

3. Governance may appropriately consider:

- (a) transparency;
- (b) competition;
- (c) conflicts of interest;
- (d) concentration of critical infrastructure;
- (e) dependency;
- (f) interoperability or portability where lawfully appropriate;
- (g) accountability;
- (h) systemic risk;
- (i) resilience against single points of failure; and
- (j) concentration of decision-making power over consequential systems.

4. Private technological capability shall not automatically create public authority.

5. Public regulation shall not automatically justify arbitrary control of lawful innovation.

6. Neither corporate power nor governmental power shall be considered self-justifying merely because the underlying technology is complex.

POWER REQUIRES ACCOUNTABILITY WHETHER THE POWER IS PUBLIC, PRIVATE OR TECHNOLOGICAL.

ARTICLE 107: HIGH-CONSEQUENCE AND CATASTROPHIC AI RISK

1. AI capabilities presenting credible potential for catastrophic, systemic or irreversible harm require proportionately serious preventive attention.

2. Risk assessment should consider:

- (a) plausible magnitude of harm;
- (b) probability;
- (c) uncertainty;
- (d) reversibility;
- (e) scale of exposure;
- (f) speed of propagation;
- (g) misuse potential;
- (h) degree of control;
- (i) detectability of failure; and
- (j) capacity for containment or recovery.

3. Appropriate measures may include:

- (a) capability evaluation;
- (b) pre-deployment testing for high-consequence uses;
- (c) security against unauthorized access;
- (d) staged deployment;
- (e) monitoring;
- (f) incident reporting where lawfully required or voluntarily appropriate;
- (g) contingency planning;

- (h) competent or independent evaluation where appropriate;
- (i) emergency-response mechanisms; and
- (j) suspension, restriction or withdrawal where lawfully authorized and justified.

4. Speculative risk shall not justify unlimited regulatory power.

5. Absence of complete certainty shall not automatically justify ignoring credible catastrophic risk.

6. The degree of intervention should remain proportionate to evidence, potential harm and lawful authority.

The constitutional approach is:

IDENTIFY THE RISK.

TEST THE EVIDENCE.

STATE THE UNCERTAINTY.

ASSESS THE CONSEQUENCE.

MATCH THE SAFEGUARD TO THE RISK.

MONITOR THE RESULT.

CORRECT THE ERROR.

ARTICLE 108: AI RESEARCH, OPENNESS AND DUAL-USE RESPONSIBILITY

1. Scientific openness may accelerate discovery, scrutiny, education, replication and beneficial innovation.

2. Certain technical capabilities or information may also create serious misuse risks.

3. Responsible governance should therefore, avoid treating either total openness or total secrecy as universally correct.

4. Decisions concerning access, publication or release of high-risk capability should consider:

- (a) scientific benefit;
- (b) public benefit;
- (c) misuse potential;
- (d) severity of possible harm;

- (e) reversibility;
- (f) availability of safeguards;
- (g) legitimate security interests;
- (h) value of independent review; and
- (i) accountable scientific collaboration.

5. Restrictions imposed as law require lawful authority.

6. Voluntary restraint should remain proportionate, reviewable and capable of reconsideration as risk changes.

7. Dual-use governance should not confuse legitimate scientific curiosity with hostile intent.

KNOWLEDGE SHOULD ADVANCE HUMANITY.

RESPONSIBILITY SHOULD GUIDE HOW DANGEROUS CAPABILITY IS RELEASED.

ARTICLE 109: AI INCIDENTS, REMEDY AND LEARNING

1. When an AI or technological system causes or materially contributes to serious harm, response should extend beyond immediate containment where the circumstances justify further action.

2. Subject to Applicable Law and lawful competence, response may include:

- (a) protection of affected persons;
- (b) containment;
- (c) preservation of relevant evidence;
- (d) investigation;
- (e) identification of technical, human and institutional causes;
- (f) correction;
- (g) remedy where legally available;
- (h) accountability where independently established;
- (i) notification of materially affected actors where appropriate;
- (j) safety improvement;
- (k) documentation of lessons; and

(l) prevention of recurrence.

3. Investigation should consider whether failure arose from:

DESIGN; DATA; SECURITY; TESTING; DEPLOYMENT; HUMAN OVERSIGHT; MISUSE; ORGANIZATIONAL GOVERNANCE; EXTERNAL INTERACTION; OR A COMBINATION OF THESE.

4. Technical complexity shall not be used to conceal avoidable institutional failure.

5. Learning should preserve relevant lessons while respecting lawful privacy, security, **BECOME** confidentiality and legitimate proprietary interests.

6. Significant incidents should inform future design, testing and governance were reasonably transferable.

INCIDENT RESPONSE SHOULD ASK NOT ONLY:

“HOW DO WE STOP THIS FAILURE?”

BUT ALSO:

“WHY DID IT POSSIBLE, AND HOW DO WE PREVENT ITS RETURN?”

ARTICLE 110: THE RESPONSIBLE TECHNOLOGY SOLUTION ARCHITECTURE

1. Consequential emerging technology should, where relevant, be governed through the following constitutional architecture:

HUMAN PURPOSE → SCIENTIFIC UNDERSTANDING → IDENTIFICATION OF BENEFIT → RISK IDENTIFICATION → RIGHTS AND DIGNITY ASSESSMENT → SAFETY-BY-DESIGN → SECURITY-BY-DESIGN → TESTING AND VALIDATION → LAWFUL DEPLOYMENT → MEANINGFUL HUMAN RESPONSIBILITY → MONITORING → INCIDENT RESPONSE → ACCOUNTABILITY OR REMEDY WHERE LAWFULLY AVAILABLE → CORRECTION → COMPETENT OR INDEPENDENT REVIEW WHERE APPROPRIATE → ADAPTATION → CONTINUOUS LEARNING → PREVENTION OF RECURRENCE.

2. The architecture shall distinguish:

CAPABILITY FROM AUTHORITY;

AUTOMATION FROM SOVEREIGNTY;

PREDICTION FROM GUILT;

DATA FROM KNOWLEDGE;

INFORMATION FROM TRUTH;

INTELLIGENCE FROM MORAL RESPONSIBILITY;

INNOVATION FROM IMMUNITY;

AND

TECHNOLOGICAL NOVELTY FROM LEGAL EXCEPTION.

3. Technology governance should remain adaptive because systems may change faster than static rules.

4. Adaptability shall not mean absence of principle or silent expansion of power.

5. The enduring principles are:

HUMAN DIGNITY.

PEACE.

SAFETY.

LAWFULNESS.

HUMAN AGENCY.

RESPONSIBILITY.

ACCOUNTABILITY.

CORRECTABILITY.

PROPORTIONALITY.

AND ARAM.

ARTICLE 111: NO TECHNOLOGICAL WORLD GOVERNMENT

1. No Artificial Intelligence system, digital platform, technological organization or automated network shall acquire governmental, supranational or sovereign authority merely because its capability, reach or use becomes global.

2. This Constitution creates no:

- (a) global AI sovereign;
- (b) compulsory global digital identity;
- (c) universal technological surveillance authority;
- (d) compulsory global data repository;
- (e) automatic jurisdiction over digital activity;

- (f) global social-credit system;
- (g) authority to rank the political or moral worth of human beings;
- (h) universal algorithmic governance authority; or
- (i) power to replace lawful constitutional institutions.

3. International technological cooperation should operate through lawful mandates, consent, agreements, institutions and other valid processes.

4. Efficiency, technical superiority, global scale or predictive accuracy shall never by themselves constitute a lawful source of political authority.

5. No AI system shall be treated by this Constitution as entitled to override human constitutional institutions merely because its analysis is more rapid or complex.

HUMANITY MAY BUILD GLOBAL TECHNOLOGY.

GLOBAL TECHNOLOGY DOES NOT THEREBY ACQUIRE THE RIGHT TO GOVERN HUMANITY.

ARTICLE 112: FINAL TECHNOLOGY AND INFORMATION SAFEGUARD

1. This Part shall be interpreted consistently with the foundational legal safeguards established in Part 1 and Article 13.

2. Nothing in this Part:

- (a) creates legal personality or rights for Artificial Intelligence;
- (b) denies any legal status that Applicable Law may independently establish;
- (c) creates criminal or civil liability;
- (d) establishes compulsory licensing;
- (e) creates a global AI regulator;
- (f) creates compulsory technological standards;
- (g) authorizes censorship;
- (h) authorizes indiscriminate surveillance;
- (i) creates compulsory data transfer;
- (j) authorizes cyber operations;
- (k) authorizes military action;
- (l) determines the legality of a particular weapon;

- (m) creates compulsory jurisdiction;
- (n) creates governmental authority for a private technology provider;
- (o) authorizes automated punishment or political ranking; or
- (p) modifies Applicable International Law or national law.

3. Legal obligations concerning Artificial Intelligence, technology, data, cyberspace, weapons, information or digital activity retain the legal character arising from their actual lawful sources.

4. Stronger safeguards proposed in this Part remain non-binding unless independently adopted through lawful processes.

5. No future technological development shall silently convert the ethical or non-binding provisions of this Constitution into binding authority.

6. The final constitutional direction of this Part is:

LET SCIENCE DISCOVER.

LET TECHNOLOGY CREATE.

LET ARTIFICIAL INTELLIGENCE ASSIST.

LET HUMANITY LEARN.

BUT LET RESPONSIBILITY NEVER DISAPPEAR.

NO MACHINE SHALL BECOME AN EXCUSE FOR HUMAN WRONG.

NO ALGORITHM SHALL TURN PROBABILITY INTO GUILT.

NO DIGITAL SYSTEM SHALL CLAIM OWNERSHIP OF HUMAN CONSCIENCE.

NO SYNTHETIC IMAGE SHOULD CARELESSLY BEGIN A REAL WAR.

NO TECHNOLOGICAL SYSTEM SHALL BECOME SOVEREIGN MERELY BECAUSE IT IS POWERFUL.

NO TECHNOLOGICAL POWER SHOULD OUTGROW THE CAPACITY TO QUESTION IT, THE CAPACITY TO CONTROL IT WHERE CONTROL IS LAWFULLY REQUIRED, THE CAPACITY TO CORRECT IT OR THE CAPACITY TO ACCOUNT FOR ITS CONSEQUENCES.

TECHNOLOGY SHALL SERVE HUMAN POSSIBILITY.

HUMANITY SHALL REMAIN RESPONSIBLE FOR THE WORLD IT BUILDS. AND WHERE CAPABILITY BECOMES POWER, LET POWER REMAIN GUIDED BY:

LAW;

HUMAN DIGNITY;

PEACE;

SAFETY;

HUMAN RESPONSIBILITY;

ACCOUNTABILITY;

CORRECTABILITY;

AND ARAM.

PART VIII — IMPLEMENTATION, EDUCATION, ACCOUNTABILITY AND REVIEW

ARTICLES 113–130

ARTICLE 113: FROM PRINCIPLE TO PRACTICE

1. A peace principle acquires practical value when it can responsibly inform lawful action without exceeding the authority of those who act.

2. Implementation of this Constitution shall therefore, follow the governing discipline:

NO PRINCIPLE WITHOUT A PATHWAY.

NO PROHIBITION WITHOUT PREVENTION.

NO RESPONSIBILITY WITHOUT IMPLEMENTATION.

NO ACCOUNTABILITY WITHOUT A LAWFUL CORRECTIVE PATHWAY.

NO PEACE WITHOUT ATTENTION TO ROOT CAUSES.

NO DURABLE SOLUTION WITHOUT LEARNING.

AND

NO SOLUTION WITHOUT LAWFUL LIMITS.

3. Every significant implementation measure should identify, where relevant:

- (a) the problem;
- (b) material facts;
- (c) root causes or materially contributing conditions;
- (d) the actor possessing lawful competence;
- (e) the preventive or corrective measure;
- (f) necessary capacity and resources;
- (g) practical implementation steps;

- (h) safeguards for Human Dignity and Applicable Law;
- (i) monitoring and review;
- (j) accountability, correction or remedy where independently available;
- (k) lessons to be preserved; and
- (l) prevention of recurrence.

4. Where no complete solution presently exists, implementation should seek to reduce harm, preserve peaceful alternatives and improve the conditions for a more durable solution.

5. An aspiration shall not be represented as an existing binding obligation merely because immediate implementation is difficult or desirable.

THE QUESTION IS NOT ONLY:

“WHAT SHOULD HAPPEN?”

IT IS ALSO:

“WHO CAN ACT LAWFULLY, HOW CAN THEY ACT,

HOW WILL WE KNOW WHETHER IT WORKED, AND WHAT WILL WE DO IF IT FAILS?”

ARTICLE 114: LAWFUL AND DIFFERENTIATED IMPLEMENTATION

1. Implementation shall occur only through actors possessing lawful competence or through voluntary action within lawful capacity.

2. Depending upon subject matter, relevant actors may include:

- (a) States;
- (b) competent international organizations;
- (c) regional organizations;
- (d) national and local authorities;
- (e) courts, tribunals or quasi-judicial bodies possessing valid jurisdiction;
- (f) educational institutions;
- (g) scientific and professional institutions;
- (h) civil society;
- (i) communities;
- (j) responsible private actors; and

(k) individuals.

3. Their mandates, powers, responsibilities and accountability are not identical.

4. Participation by a non-State actor shall not create governmental authority merely because the actor contributes to implementation.

5. International participation shall not replace:

(a) valid consent where consent is required;

(b) lawful institutional competence;

(c) national constitutional processes; or

(d) independently applicable legal safeguards.

6. Responsibility shall be matched to actual authority, capacity, control and lawful mandate.

UNIVERSAL CONCERN DOES NOT CREATE UNIVERSAL POWER.

ARTICLE 115: VOLUNTARY NATIONAL PEACE IMPLEMENTATION FRAMEWORKS

1. States may, if they independently consider it appropriate, adapt relevant non-binding principles of this Constitution through their own constitutional, legislative, administrative, educational, diplomatic or policy processes.

2. A voluntary national implementation framework may identify:

(a) existing legal obligations;

(b) relevant institutions;

(c) existing peace and conflict-prevention mechanisms;

(d) prevention gaps;

(e) vulnerable populations or systems;

(f) education and capacity needs;

(g) available resources;

(h) measurable priorities;

(i) coordination arrangements; and

(j) periodic review.

3. Such frameworks should be adapted to national constitutional structures, legal traditions, institutions, resources and circumstances.

4. Adoption of an independently similar national policy shall not create a presumption that a State has accepted, endorsed or incorporated this Constitution.

5. This Constitution proposes a framework for voluntary consideration.

It does not command national legislation or constitutional change.

IMPLEMENTATION THROUGH SOVEREIGN CHOICE.

COOPERATION WITHOUT MANUFACTURED CONSENT.

ARTICLE 116: PEACE EDUCATION AS PREVENTIVE HUMAN INFRASTRUCTURE

1. Peace education may function as preventive human infrastructure by strengthening peaceful capability before courts, police, diplomacy or emergency systems become the principal remaining response.

2. Consistent with Article 31, age-appropriate and context-sensitive education may strengthen:

- (a) Human Dignity;
- (b) non-violence;
- (c) peaceful dispute resolution;
- (d) empathy;
- (e) emotional self-regulation;
- (f) critical and evidence-based reasoning;
- (g) media, digital and AI literacy;
- (h) resistance to manipulation and dehumanization;
- (i) historical learning without inherited hatred;
- (j) responsible citizenship;
- (k) environmental and technological responsibility; and
- (l) knowledge of lawful avenues for addressing grievance.

3. Education should strengthen the capacity to question responsibly rather than compel ideological conformity.

4. States and competent educational institutions retain their lawful authority over education and curricula.
5. Peace education should be periodically evaluated for effectiveness, accuracy, unintended bias and respect for Human Rights.

PEACE EDUCATION SHALL NOT TEACH WHAT A PERSON MUST THINK. IT SHOULD HELP A PERSON LEARN HOW NOT TO TURN DIFFERENCE INTO DESTRUCTION.

ARTICLE 117: CAPACITY-BUILDING FOR PEACE

1. Responsibility without practical capacity may become aspiration without performance.
2. Peace architecture should therefore, strengthen, according to context:
 - (a) professional training;
 - (b) institutional competence;
 - (c) mediation and negotiation skills;
 - (d) risk-assessment capability;
 - (e) crisis communication;
 - (f) digital and technological literacy;
 - (g) evidence preservation;
 - (h) humanitarian preparedness;
 - (i) scientific and technical capability;
 - (j) institutional memory;
 - (k) continuity planning; and
 - (l) capacity to review and correct failure.
3. Capacity-building should strengthen lawful institutions rather than replace them with unauthorized structures.
4. International assistance, where voluntarily accepted, should respect:
 - (a) lawful consent;
 - (b) national ownership;
 - (c) transparency;
 - (d) local knowledge;

- (e) sustainability;
- (f) Applicable Law; and
- (g) avoidance of unnecessary dependency.

5. Capacity-building should seek long-term competence rather than permanent reliance upon external actors.

BUILD CAPACITY SO RESPONSIBILITY CAN BECOME PRACTICE.

ARTICLE 118: PREVENTION FIRST

1. Public policy inspired by this Constitution should give reasonable and lawful attention to prevention before avoidable harm becomes crisis.

2. Preventive capacity may include investment in:

- (a) education;
- (b) mediation;
- (c) public health and safety;
- (d) social resilience;
- (e) trustworthy institutions;
- (f) anti-corruption safeguards;
- (g) meaningful livelihood opportunity;
- (h) protection of vulnerable persons;
- (i) reliable information systems;
- (j) environmental and scientific monitoring;
- (k) technological safety; and
- (l) crisis preparedness.

3. Preventive measures shall remain evidence-informed, proportionate and reviewable.

4. Prevention shall not justify:

- (a) indefinite emergency authority;
- (b) unlawful surveillance;
- (c) collective suspicion;
- (d) preventive punishment without lawful basis;

- (e) unlawful intervention; or
- (f) permanent exceptional governance.

5. Resources devoted to prevention should be assessed not only by expenditure but by whether they materially reduce foreseeable harm.

THE CONSTITUTIONAL QUESTION IS:

WHAT CAN BE DONE LAWFULLY TODAY SO THAT HUMANITY NEED NOT PAY A FAR GREATER HUMAN COST TOMORROW?

ARTICLE 119: MEASURING PEACE WITHOUT POLICING THOUGHT

1. Implementation should be evaluated primarily through observable conditions, processes and outcomes.

2. Peace shall not be measured by determining whether persons privately possess officially preferred beliefs, emotions or opinions.

3. Relevant indicators may include, according to context:

- (a) incidence and recurrence of serious violence;
- (b) civilian and community safety;
- (c) access to peaceful dispute resolution;
- (d) effectiveness of prevention and early-warning systems;
- (e) protection of vulnerable persons;
- (f) access to justice;
- (g) institutional integrity;
- (h) recurrence of corruption, exploitation or abuse;
- (i) accessibility and effectiveness of peace education;
- (j) resilience of critical systems;
- (k) effectiveness of technological safeguards;
- (l) implementation of agreed corrective measures; and
- (m) recurrence of previously identified failures.

4. Indicators shall not be treated as complete descriptions of a society, culture or population.

5. Measurement should disclose, where material:

- (a) methodology;
- (b) limitations;
- (c) uncertainty;
- (d) data quality;
- (e) relevant context; and
- (f) risk of misleading comparison.

6. Metrics should themselves be reviewed where they create distorted incentives or conceal significant harm.

MEASURE HARM.

MEASURE PREVENTION.

MEASURE OUTCOMES.

MEASURE RECURRENCE.

DO NOT CLAIM OWNERSHIP OF THE HUMAN MIND.

ARTICLE 120: TRANSPARENCY, CONFIDENTIALITY AND PUBLIC REASON

1. Peace-oriented institutions should provide sufficient transparency, consistent with Applicable Law, to permit responsible understanding, review and accountability.

2. Transparency may include, where appropriate:

- (a) publication of policies;
- (b) reasons for materially significant decisions;
- (c) relevant methodologies;
- (d) aggregate implementation information;
- (e) correction of material error;
- (f) disclosure of conflicts of interest; and
- (g) accessible review procedures.

3. Transparency shall not require unlawful or irresponsible disclosure of:

- (a) personal information;
- (b) diplomatic confidentiality;

- (c) legitimate national-security information;
- (d) protected professional communications;
- (e) protected intellectual property;
- (f) security-sensitive technical information; or
- (g) other lawfully restricted information.

4. Confidentiality shall serve legitimate purposes and shall not be invoked merely to conceal corruption, material misconduct or failure where disclosure is independently required by law.

5. Institutions should distinguish:

CONFIDENTIALITY FROM CONCEALMENT;

SECURITY FROM UNACCOUNTABILITY;

AND

TRANSPARENCY FROM IRRESPONSIBLE DISCLOSURE.

6. Public reasoning is strongest when significant decisions can be explained without compromising interests that law legitimately protects.

ARTICLE 121: ACCOUNTABILITY FOR IMPLEMENTATION

1. Where an institution voluntarily assumes or is lawfully assigned a peace-related responsibility, material implementation failure should be answerable within the accountability framework actually applicable to that institution.

2. Accountability may include, according to lawful competence:

- (a) internal review;
- (b) administrative oversight;
- (c) independent audit;
- (d) judicial review;
- (e) legislative or parliamentary oversight;
- (f) professional review;
- (g) public reporting; or
- (h) another lawful mechanism.

3. This Constitution itself creates none of those jurisdictions or oversight powers.

4. Accountability shall distinguish, according to evidence and

Applicable Law:

- (a) reasonable failure despite due effort;
- (b) negligence;
- (c) reckless disregard where recognized by law;
- (d) deliberate misconduct;
- (e) systemic institutional failure; and
- (f) circumstances genuinely beyond reasonable control.

5. Responsibility should not be assigned merely to satisfy public demand for blame.

6. Review should identify the actual causal and institutional failure where evidence permits.

ACCOUNTABILITY MUST IDENTIFY WHAT ACTUALLY FAILED, NOT MERELY FIND SOMEONE CONVENIENT TO BLAME.

ARTICLE 122: CORRECTION AND REMEDY

1. A system committed to durable peace must be capable of correcting material error.

2. Where harm or implementation failure is established, responses may include, according to Applicable Law and lawful competence:

- (a) cessation;
- (b) correction;
- (c) immediate protection;
- (d) reconsideration or review;
- (e) acknowledgment or apology where appropriate;
- (f) remedy or reparation where legally available;
- (g) rehabilitation;
- (h) procedural reform;
- (i) institutional reform;
- (j) training;
- (k) technical redesign; and

(l) prevention of recurrence.

3. The appropriate response shall depend upon:

- (a) the facts;
- (b) the nature of the harm;
- (c) causation;
- (d) the relevant rights and duties;
- (e) lawful authority;
- (f) proportionality; and
- (g) feasibility.

4. This Constitution creates no automatic entitlement to compensation, reparation, apology or other remedy.

5. Where no formal remedy is legally available, responsible institutions may still, within lawful competence, examine whether correction, learning or prevention is possible.

CORRECTION IS NOT INSTITUTIONAL WEAKNESS.

THE REFUSAL TO CORRECT KNOWN MATERIAL ERROR MAY BE.

ARTICLE 123: INDEPENDENT AND EVIDENCE-BASED REVIEW

1. Significant peace measures should be periodically examined to determine whether they remain effective, lawful, necessary and proportionate where those standards apply.

2. Review should ask:

DID THE MEASURE REDUCE HARM?

DID IT CREATE NEW HARM?

DID IT PROTECT HUMAN DIGNITY?

DID IT REMAIN WITHIN LAWFUL AUTHORITY?

DID IT ADDRESS A MATERIAL CAUSE?

DID IT EXCLUDE IMPORTANT AFFECTED VOICES?

DID IT CREATE UNINTENDED CONSEQUENCES?

IS THE EVIDENCE RELIABLE?

ARE THE COSTS AND BURDENS JUSTIFIED?

DOES THE MEASURE REQUIRE CORRECTION?

AND

IS IT STILL NECESSARY?

3. Independent or functionally impartial review should be used where appropriate and lawfully available.
4. Material conflicts of interest should be disclosed according to applicable standards.
5. Review should be sufficiently independent from institutional pride to permit genuine correction.
6. A measure shall not be preserved merely because:
 - (a) it is longstanding;
 - (b) substantial resources have already been invested;
 - (c) its authors are influential; or
 - (d) it was created in the name of peace.

EVIDENCE OF FAILURE SHOULD LEAD TO RECONSIDERATION, NOT ENTRENCHMENT.

ARTICLE 124: ADAPTIVE REVIEW AND FUTURE CHANGE

1. Peace challenges will evolve as societies, technologies, environmental conditions, institutions and international relations change.
2. This Constitution shall therefore, be durable in principle and adaptable in implementation.
3. Periodic review may consider:
 - (a) new scientific knowledge;
 - (b) technological development;
 - (c) evolution of Applicable Law;
 - (d) emerging peace and security risks;
 - (e) implementation experience;
 - (f) unintended harm;
 - (g) new forms of vulnerability;
 - (h) improved preventive methods; and

(i) lessons from successful and unsuccessful interventions.

4. Adaptation shall never be used to silently erase the foundational safeguards of:

- (a) Human Dignity;
- (b) Peace Within Law;
- (c) sovereign equality;
- (d) non-intervention;
- (e) peaceful dispute settlement;
- (f) human agency;
- (g) accountability;
- (h) freedom of thought and conscience;
- (i) rejection of compulsory ideological conformity; and
- (j) rejection of invented global authority.

5. Change in implementation shall not itself change the non-binding legal character of this Constitution.

CONTINUITY WITHOUT STAGNATION.

ADAPTATION WITHOUT LOSS OF PRINCIPLE.

CHANGE WITHOUT SILENT EXPANSION OF POWER.

ARTICLE 125: INSTITUTIONAL MEMORY AND THE PRESERVATION OF LESSONS

1. Peace systems should preserve lessons from:

- (a) armed conflict;
- (b) institutional failure;
- (c) humanitarian crisis;
- (d) corruption or systemic abuse;
- (e) environmental disaster;
- (f) technological incident;
- (g) failed prevention; and
- (h) successful prevention.

2. Preservation may include:

- (a) accurate records;
- (b) lessons-learned processes;
- (c) archival continuity;
- (d) training materials;
- (e) scientific and technical findings;
- (f) legal and institutional learning;
- (g) intergenerational knowledge transfer; and
- (h) periodic re-evaluation of earlier assumptions.

3. Records should, where appropriate, distinguish:

FACT FROM INTERPRETATION;

SUCCESS FROM UNPROVEN ATTRIBUTION;

AND

LESSON FROM MYTH.

4. Sensitive information remains subject to Applicable Law, privacy, confidentiality and legitimate security requirements.

5. Historical memory should preserve truth without manufacturing inherited hatred.

6. Institutions that forget preventable failure risk recreating it.

MEMORY SHALL SERVE PREVENTION, NOT REVENGE.

ARTICLE 126: THE GLOBAL PEACE IMPLEMENTATION CYCLE

1. The principal implementation architecture of this Constitution is:

IDENTIFY THE PROBLEM → ESTABLISH MATERIAL FACTS → IDENTIFY ROOT CAUSES AND CONTRIBUTING CONDITIONS → IDENTIFY ACTORS WITH LAWFUL COMPETENCE → SELECT THE LEAST HARMFUL EFFECTIVE LAWFUL RESPONSE → BUILD CAPACITY → IMPLEMENT → PROTECT HUMAN DIGNITY → MONITOR OUTCOMES → PROVIDE LAWFUL ACCOUNTABILITY WHERE REQUIRED → CORRECT OR REMEDY FAILURE WHERE AVAILABLE → PRESERVE LESSONS → ADAPT → PREVENT RECURRENCE.

2. The cycle may be adapted to matters including:

- (a) conflict prevention;
- (b) serious violence;
- (c) corruption;
- (d) discrimination;
- (e) exploitation;
- (f) environmental risk;
- (g) technological risk;
- (h) information-system risk;
- (i) institutional failure; and
- (j) other serious peace-related concerns addressed by this Constitution.

3. No stage creates authority beyond Applicable Law.

4. No actor shall acquire competence merely because a problem is global, urgent or morally significant.

5. International cooperation should complement lawful responsibility, not erase it.

6. The implementation test is not merely:

“WAS A RULE WRITTEN?”

It is also:

“WAS THE PROBLEM UNDERSTOOD?”

“WERE THE FACTS RELIABLE?”

“WERE ROOT CAUSES EXAMINED?”

“WHO POSSESSED LAWFUL RESPONSIBILITY?”

“WAS THE RESPONSE PRACTICABLE?”

“WAS HUMAN DIGNITY PROTECTED?”

“DID THE RESPONSE CREATE NEW HARM?”

“WAS FAILURE CORRECTED?”

AND

“IS THE SAME PREVENTABLE HARM LESS LIKELY TO RETURN?”

ARTICLE 127: NO AUTOMATIC INTERNATIONAL MACHINERY

1. This Constitution does not automatically establish:

- (a) an international secretariat;
- (b) a world peace authority;
- (c) a supranational executive;
- (d) a compulsory monitoring body;
- (e) an international inspectorate;
- (f) a global enforcement agency;
- (g) compulsory reporting;
- (h) assessed contributions;
- (i) mandatory funding;
- (j) sanctions;
- (k) compulsory jurisdiction;
- (l) military authority;
- (m) policing authority; or
- (n) any institution empowered to govern States or humanity.

2. Any future institution inspired by this Constitution would require an independently lawful basis establishing, as appropriate:

- (a) mandate;
- (b) membership or participation;
- (c) governance;
- (d) decision-making rules;
- (e) jurisdiction;
- (f) safeguards;
- (g) financing;
- (h) accountability;
- (i) review; and
- (j) termination or amendment procedures.

3. No institutional proposal acquires authority merely because it appears useful or globally relevant.

INSTITUTIONAL USEFULNESS SHALL NOT BE CONFUSED WITH INSTITUTIONAL ENTITLEMENT.

GLOBAL ASPIRATION SHALL NEVER BE USED TO MANUFACTURE GLOBAL AUTHORITY.

ARTICLE 128: VOLUNTARY COOPERATION AND INTERNATIONAL PARTNERSHIP

1. States and competent actors may voluntarily cooperate in advancing purposes consistent with this Constitution and Applicable Law.

2. Cooperation may include:

- (a) peace education;
- (b) mediation and negotiation capacity;
- (c) scientific research;
- (d) early warning;
- (e) humanitarian and disaster preparedness;
- (f) technological safety;
- (g) protection of vulnerable persons;
- (h) institutional capacity-building;
- (i) environmental resilience;
- (j) exchange of good practices;
- (k) crisis communication; and
- (l) peaceful dispute prevention.

3. Cooperation should be:

- (a) lawful;
- (b) consent-based where consent is required;
- (c) transparent where appropriate;
- (d) adapted to local circumstances;
- (e) respectful of sovereignty;

- (f) accountable;
- (g) sustainable; and
- (h) capable of review.

4. Assistance shall not become domination.
5. Partnership shall not become political ownership.
6. Technical assistance shall not manufacture jurisdiction.
7. Shared learning shall not become compulsory uniformity.
8. Cooperation should seek to strengthen local and national capacity rather than create unnecessary permanent dependency.

COOPERATION WITHOUT DOMINATION IS ONE OF THE PRACTICAL FORMS OF PEACE.

ARTICLE 129: THE DURABLE - SOLUTION TEST

1. Every major policy, programme or institutional mechanism inspired by this Constitution should be tested against the following questions:

IS IT PEACEFUL?

IS IT LAWFUL?

IS THERE A LEGITIMATE PURPOSE?

IS IT NECESSARY WHERE NECESSITY IS RELEVANT?

IS IT PRACTICABLE?

IS IT PROPORTIONATE WHERE THAT STANDARD APPLIES?

DOES IT PROTECT HUMAN DIGNITY?

DOES IT ADDRESS MATERIAL CAUSES AS WELL AS CONSEQUENCES?

DOES IT PRESERVE PEACEFUL ALTERNATIVES?

DOES IT RESPECT SOVEREIGN EQUALITY?

DOES IT RESPECT VALID COMPETENCE AND CONSENT?

IS THE RESPONSIBLE ACTOR IDENTIFIED?

IS THERE ADEQUATE CAPACITY?

CAN ITS EFFECTS BE MEASURED?

CAN MATERIAL ERROR BE CORRECTED?

IS LAWFUL ACCOUNTABILITY AVAILABLE WHERE REQUIRED?

IS THERE A PATH TO REMEDY WHERE APPLICABLE?

CAN IT ADAPT TO NEW EVIDENCE?

DOES IT REDUCE RECURRENCE?

DOES IT CREATE UNJUSTIFIED NEW RISKS OR DEPENDENCIES?

AND

COULD THE SOLUTION ITSELF BECOME A SOURCE OF INJUSTICE?

2. A measure materially failing this test should be reconsidered, redesigned, limited or abandoned according to lawful authority.

3. No measure shall be presumed morally superior merely because it uses the language of peace, dignity, security, technology or future generations.

4. The name of a noble objective does not excuse an unlawful method.

PEACE MUST ITSELF BE ACCOUNTABLE TO THE PRINCIPLES THAT MAKE PEACE WORTH PRESERVING.

ARTICLE 130: FINAL IMPLEMENTATION SAFEGUARD

1. This Part shall be read consistently with Part 1, Article 13 and all other applicable safeguards of this Constitution.

2. Nothing in this Part:

- (a) creates binding implementation obligations;
- (b) creates compulsory reporting;
- (c) creates inspection authority;
- (d) creates new jurisdiction;
- (e) creates mandatory financial contributions;
- (f) creates taxation authority;
- (g) creates enforcement powers;
- (h) transfers sovereignty;
- (i) authorizes sanctions;
- (j) authorizes military or police action;
- (k) authorizes unlawful intervention;
- (l) creates legal liability beyond Applicable Law;

- (m) creates an automatic remedy;
- (n) permits implementation inconsistent with Human Rights or Applicable Law;
- (o) or converts voluntary cooperation into compulsory participation.

3. References to accountability, monitoring, review, audit, remedy, education, implementation or institutional action shall be carried out only through:

- (a) actors possessing lawful competence; or
- (b) voluntary arrangements operating within lawful capacity.

4. No implementation mechanism shall obtain authority solely from this Constitution's global aspiration or moral purpose.

5. The final constitutional principle of this Part is:

A PEACE CONSTITUTION MUST NOT END WHEN ITS WORDS ARE WRITTEN.

IT MUST ASK:

HOW CAN PEACE BE PRACTICED?

WHO CAN ACT LAWFULLY?

WHAT MUST BE PREVENTED?

WHAT CAPACITY IS REQUIRED?

WHAT HAPPENS WHEN PREVENTION FAILS?

HOW IS THE PERSON AT RISK PROTECTED?

HOW MAY THE INJURED RECEIVE LAWFUL JUSTICE?

HOW ARE INSTITUTIONS HELD RESPONSIBLE WITHIN LAW?

HOW IS ERROR CORRECTED?

HOW IS THE LESSON PRESERVED?

HOW DOES THAT LESSON REACH THE NEXT GENERATION?

HOW DOES THE SYSTEM ADAPT WITHOUT ABANDONING PRINCIPLE?

AND ABOVE ALL:

HOW CAN THE SAME PREVENTABLE WRONG BE MADE LESS LIKELY TO RETURN?

THIS IS THE DIFFERENCE BETWEEN A DECLARATION OF PEACE AND AN ARCHITECTURE FOR DURABLE PEACE.

FROM PRINCIPLE TO PRACTICE.

FROM PRACTICE TO REVIEW.

FROM REVIEW TO CORRECTION.

FROM CORRECTION TO LEARNING.

FROM LEARNING TO PREVENTION.

FROM ARMS TO ARAM.

PART IX — LEGAL STATUS, INTERPRETATION AND FINAL SAFEGUARDS

ARTICLES 131–155

ARTICLE 131: LEGAL CHARACTER OF THIS CONSTITUTION

1. This Constitution is an independent, peaceful, Good-Faith and

Non-Binding international constitutional proposal offered for consideration in relation to World Peace, Human Dignity, responsible human progress and Continuity.

2. It is not, by its own force:

- (a) a treaty;
- (b) an international agreement;
- (c) an instrument of accession, ratification or acceptance;
- (d) a source of compulsory jurisdiction;
- (e) an enactment of the United Nations;
- (f) an enactment of the Republic of India or its Government;
- (g) an instrument adopted by any State merely because it has been submitted to, received by or considered by that State;
- (h) authorization to represent a State, people or international organization;
- (i) a binding world constitution;
- (j) a source of supranational sovereignty; or
- (k) a substitute for Applicable International Law or national law.

3. Its propositions possess only the persuasive, ethical, constitutional, intellectual or policy significance appropriate to their actual character unless independently given legal effect through a lawful process.

4. No title, subtitle, historical characterization, institutional submission or public description of this instrument shall enlarge its legal force.

ITS ASPIRATION IS UNIVERSAL.

ITS LEGAL FORCE IS NOT.

ARTICLE 132: NO WORLD STATE, WORLD GOVERNMENT OR SUPRANATIONAL SOVEREIGNTY

1. This Constitution creates no:

- (a) world State;
- (b) World Government;
- (c) global executive;
- (d) global legislature;
- (e) compulsory world judiciary;
- (f) supranational sovereignty;
- (g) compulsory global citizenship;
- (h) universal policing authority;
- (i) global taxation authority;
- (j) compulsory global financial system;
- (k) sanctions authority; or
- (l) military authority.

2. No person, organization, institution, technological system or future body may derive any such authority solely from this Constitution.

3. International cooperation remains fully compatible with State sovereignty when based upon lawful consent, treaty, mandate, jurisdiction or another valid legal foundation.

4. Human unity is an ethical recognition of equal human worth.

It does not require political uniformity.

ONE HUMANITY SHALL NOT REQUIRE ONE SOVEREIGN OVER HUMANITY.

ARTICLE 133: SOVEREIGN EQUALITY, NON-INTERVENTION AND DOMESTIC JURISDICTION

1. This Constitution shall be interpreted consistently with Applicable International Law concerning:

- (a) sovereign equality;
- (b) territorial integrity;
- (c) political independence;
- (d) peaceful settlement of international disputes;
- (e) non-intervention; and
- (f) matters within domestic jurisdiction according to the applicable legal framework.

2. Universal concern shall not itself create:

- (a) territorial authority;
- (b) jurisdiction;
- (c) consent;
- (d) representation;
- (e) investigative power;
- (f) inspection authority;
- (g) enforcement power;
- (h) sanctions authority;
- (i) military authority; or
- (j) a right of political intervention.

3. No actor may justify otherwise unlawful coercive action merely by invoking:

PEACE; HUMANITY; HUMAN DIGNITY; NATURE; TECHNOLOGY; FUTURE GENERATIONS; OR ARAM.

4. Responsibility shall operate through lawful authority, voluntary cooperation or other valid legal means.

RESPONSIBILITY WITHOUT LAWFUL AUTHORITY SHALL NOT BECOME INTERVENTION.

ARTICLE 134: RELATIONSHIP WITH THE CHARTER OF THE UNITED NATIONS AND INTERNATIONAL LAW

1. Nothing in this Constitution replaces, amends, overrides, supersedes or claims authority over the Charter of the United Nations or Applicable International Law.

2. Existing international legal obligations retain their independent:

- (a) source;
- (b) scope;
- (c) subjects;
- (d) participation requirements;
- (e) conditions of application; and
- (f) legal effect.

3. Where this Constitution reflects a principle independently found in international law, the binding force of that principle derives from its actual legal source rather than from this Constitution.

4. Where this Constitution proposes a principle stronger or broader than existing binding law, that proposal remains non-binding unless independently adopted through a lawful process.

5. This Constitution shall not convert:

A MORAL PRINCIPLE INTO A TREATY OBLIGATION;

A POLICY ASPIRATION INTO CUSTOMARY INTERNATIONAL LAW;

A NON-BINDING RESOLUTION INTO A TREATY;

A RECOMMENDATION INTO COMPULSORY LAW;

OR

AN AUTHORIAL PROPOSAL INTO INTERNATIONAL CONSENT.

LEGAL PRECISION IS ITSELF A SAFEGUARD FOR PEACE.

ARTICLE 135: APPLICABLE LAW

1. “Applicable Law” means the body of law independently applicable to the relevant actor, subject matter, territory, jurisdiction, time and circumstances.

2. Depending upon context, Applicable Law may include:

- (a) applicable international law;
- (b) binding treaty obligations;
- (c) customary international law where applicable;

- (d) binding decisions or obligations arising through competent international mechanisms where legally operative;
- (e) constitutional law;
- (f) national law;
- (g) valid regional or supranational law where applicable; and
- (h) other rules possessing lawful force.

3. The expression “Applicable Law” shall never imply that every international instrument binds every State or actor.

4. Relevant conditions including:

- (a) treaty participation;
- (b) reservations;
- (c) declarations;
- (d) jurisdiction;
- (e) territorial scope;
- (f) temporal application;
- (g) derogations where legally permissible; and
- (h) other legally relevant qualifications shall be respected.

5. Where legal status is materially uncertain or contested, that uncertainty should be identified rather than concealed.

LAW SHALL BE CITED NOT AS WE WISH IT TO BE, BUT AS IT ACTUALLY APPLIES.

ARTICLE 136: BINDING LAW, NON-BINDING INTERNATIONAL NORMS AND AUTHORIAL PROPOSALS

1. For interpretive discipline, this Constitution distinguishes:

CATEGORY I — BINDING LAW INDEPENDENTLY APPLICABLE TO THE RELEVANT ACTOR;

CATEGORY II — NON-BINDING INTERNATIONAL DECLARATIONS, RESOLUTIONS, RECOMMENDATIONS, PRINCIPLES, STANDARDS OR POLICY FRAMEWORKS;

AND

CATEGORY III — AUTHORIAL CONSTITUTIONAL, ETHICAL OR POLICY PROPOSALS OF THIS INSTRUMENT.

2. A provision may be informed by more than one category.
3. The categories shall not be collapsed into one another.
4. Citation of an international source shall not enlarge the legal character of that source.
5. Where a source is relied upon in the legal and normative foundations of this Constitution, its status should be described with reasonable accuracy.

INTERNATIONAL RESPECT REQUIRES NOT ONLY CITING LAW— BUT CITING LAW AS LAW ACTUALLY IS.

ARTICLE 137: HUMAN RIGHTS AND HUMAN FREEDOM

1. This Constitution shall not be interpreted to diminish rights and freedoms independently protected by Applicable Law.
2. Peace shall not become a general justification for suppressing:
 - (a) freedom of thought;
 - (b) freedom of conscience;
 - (c) lawful expression;
 - (d) lawful association;
 - (e) lawful political participation;
 - (f) privacy;
 - (g) cultural identity;
 - (h) critical inquiry; or
 - (i) other rights independently protected by law.
3. Any limitation upon a protected right shall remain governed by the legal standards actually applicable to that right and circumstance.
4. This Constitution creates no censorship authority.
5. It creates no authority to punish a person merely for:
 - (a) private thought;
 - (b) emotion;
 - (c) belief;
 - (d) conscience;

- (e) lawful criticism; or
- (f) lawful disagreement.

6. Peace education, Aram and human-capability development shall remain subject to the conscience safeguards established elsewhere in this Constitution.

THE PURPOSE IS NOT TO CONTROL THE HUMAN MIND.

THE PURPOSE IS TO STRENGTHEN THE HUMAN CAPACITY TO CHOOSE PEACE WITHOUT SURRENDERING FREEDOM.

ARTICLE 138: EQUAL HUMAN DIGNITY AND DIFFERENTIATED PROTECTION

1. Human Dignity is equal.
2. Equality of Human Dignity does not require every human being, community, institution, State, living being, ecosystem, natural system or Future Generation to possess identical legal status.
3. Protection may be differentiated according to:
 - (a) the nature of the interest;
 - (b) vulnerability;
 - (c) applicable rights;
 - (d) legal status;
 - (e) ecological or systemic function; and
 - (f) Applicable Law.
4. Human beings retain the Human Rights and legal protections arising from Applicable Law.
5. Other living beings, ecosystems, natural systems, non-living life-supporting foundations and Future Generations shall not be assigned identical human rights, Human Dignity, legal personality, representation or standing merely because this Constitution recognizes them as objects of ethical or protective concern.
6. Nothing in this Article prevents Applicable Law from independently recognizing legal protections or status concerning non-human interests.
7. Constitutional concern must remain both ethically serious and legally accurate.

UNIVERSAL CONCERN WITHOUT FALSE LEGAL EQUIVALENCE.

ARTICLE 139: INTERPRETATION OF ARAM

1. “Aram” is used in this Constitution as a voluntary ethical and civilizational orientation toward:

- (a) right conduct;
- (b) truth;
- (c) integrity;
- (d) justice;
- (e) compassion;
- (f) restraint;
- (g) responsibility;
- (h) avoidance of unnecessary harm;
- (i) Human Dignity; and
- (j) peaceful Continuity.

2. Aram is not:

- (a) a compulsory religion;
- (b) a state ideology;
- (c) an independent source of international legal obligation;
- (d) a superior cultural identity;
- (e) a compulsory philosophical doctrine;
- (f) authority over conscience; or
- (g) authorization for coercion.

3. Aram may inform ethical reflection only consistently with:

HUMAN DIGNITY;

PEACE WITHIN LAW;

FREEDOM;

REASON;

NON-DOMINATION;

AND

LAWFUL HUMAN CHOICE.

4. Its constitutional formula is:

ARAM SHALL GUIDE CONSCIENCE.

LAW SHALL GOVERN LEGAL OBLIGATION.

NEITHER SHALL BE MISREPRESENTED AS THE OTHER.

ARTICLE 140: INTERPRETATION OF “WORLD PEACE”

1. “World Peace” does not mean complete agreement among all persons, peoples, communities or States.

2. Peace is compatible with:

- (a) political disagreement;
- (b) legal disputes;
- (c) cultural difference;
- (d) ideological diversity;
- (e) peaceful protest;
- (f) criticism;
- (g) competition;
- (h) lawful political change; and
- (i) independent national choices.

3. The constitutional objective is not a world without disagreement.

4. It is a world increasingly capable of managing disagreement without:

- (a) unlawful violence;
- (b) dehumanization;
- (c) domination;
- (d) collective vengeance; or
- (e) war.

PEACE IS NOT THE ABSENCE OF DIFFERENCE.

IT IS THE CAPACITY TO LIVE WITH DIFFERENCE WITHOUT TURNING DIFFERENCE INTO DESTRUCTION.

ARTICLE 141: INTERPRETATION OF “DURABLE” OR “PERMANENT SOLUTION”

1. A “Permanent Solution” does not mean that human conflict, wrongdoing, error, dangerous emotion, institutional failure or technological risk can be eliminated absolutely and forever.

2. It means a durable and renewable architecture capable of:

- (a) understanding root causes;
- (b) preventing foreseeable harm;
- (c) strengthening peaceful alternatives;
- (d) protecting persons and systems at risk;
- (e) responding lawfully when prevention fails;
- (f) providing accountability or remedy where independently available;
- (g) correcting institutional or technical failure;
- (h) repairing harm where possible;
- (i) preserving lessons;
- (j) adapting to new evidence and circumstances; and
- (k) reducing recurrence across generations.

3. Permanence therefore, lies in continuity of responsible method rather than immutability of one solution.

4. The enduring method is:

UNDERSTAND.

ANTICIPATE.

PREVENT.

PROTECT.

RESOLVE PEACEFULLY.

REPAIR.

LEARN.

CORRECT.

ADAPT.

AND

PREVENT RECURRENCE.

A DURABLE SOLUTION MUST BE STRONG ENOUGH TO CONTINUE AND HUMBLE ENOUGH TO CORRECT ITSELF.

ARTICLE 142: PRECAUTION AGAINST ABSOLUTE CLAIMS

1. No provision of this Constitution guarantees that:

- (a) all wars will cease;
- (b) all violence will disappear;
- (c) all harmful human impulses will end;
- (d) every institution will act justly;
- (e) every technological danger can be predicted;
- (f) every environmental harm can be prevented;
- (g) every human grievance can be resolved; or
- (h) every proposed solution will succeed in every context.

2. This Constitution instead seeks to reduce preventable harm through lawful, evidence-informed, practical, preventive and corrective architecture.

3. Claims shall remain proportionate to evidence.

4. Uncertainty shall be acknowledged.

5. Failure shall be examined.

6. Error shall remain correctable.

7. Improvement shall remain possible.

***A CONSTITUTION FOR PEACE NEED NOT PROMISE THE IMPOSSIBLE
IN ORDER TO PURSUE THE NECESSARY.***

ARTICLE 143: INTERPRETATION OF THE FIVE ELEMENTAL DIMENSIONS

1. References to:

EARTH; WATER; AIR; FIRE/ENERGY; AND SPACE

constitute the civilizational and ethical stewardship formulation defined in Part VI.

2. They shall not be interpreted as asserting:

- (a) a universal scientific taxonomy;
- (b) a pre-existing five-part legal classification;
- (c) universal ownership;
- (d) universal jurisdiction; or
- (e) identical legal treatment.

3. Legal obligations concerning natural resources, environmental harm, weapons, environmental modification, hazardous agents, energy, national airspace, outer space or related matters arise only from Applicable Law.

4. Stronger non-weaponization or stewardship principles proposed by this Constitution remain non-binding unless independently given legal effect.

SYMBOLIC LANGUAGE MAY INSPIRE.

LEGAL LANGUAGE MUST REMAIN PRECISE.

ARTICLE 144: INTERPRETATION OF ARTIFICIAL INTELLIGENCE

1. References to Artificial Intelligence in this Constitution are functional and technology-neutral unless context expressly requires a narrower meaning.

2. The Constitution shall not presume that all AI systems possess identical:

- (a) capability;
- (b) autonomy;
- (c) purpose;
- (d) risk; or
- (e) social consequence.

3. Governance should therefore, remain proportionate to relevant factors including:

- (a) capability;
- (b) use;
- (c) context;
- (d) scale;
- (e) potential impact;
- (f) degree of autonomy;

- (g) reversibility of harm;
- (h) human control;
- (i) systemic consequence; and
- (j) Applicable Law.

4. References to advanced, future, general or potentially transformative AI capabilities shall not be treated as factual declarations that any particular speculative form of intelligence presently exists.

5. Technological terminology should remain reviewable as knowledge and technology develop.

6. Nothing in this Constitution shall treat intelligence, however advanced, as equivalent by itself to sovereignty, legal authority or moral legitimacy.

CAPABILITY IS NOT AUTHORITY.

INTELLIGENCE IS NOT SOVEREIGNTY.

ARTICLE 145: NO INVENTED CONSENT

1. No person, people, State, organization, institution, Future Generation or other entity shall be deemed to have consented to this Constitution merely because:

- (a) the instrument concerns them;
- (b) it is publicly available;
- (c) it was submitted to an authority;
- (d) an institution received it;
- (e) receipt was acknowledged;
- (f) an individual or institution discussed it;
- (g) it was published, indexed or archived;
- (h) it was cited or referenced; or
- (i) independently adopted policy resembles one of its principles.

2. Consent shall arise only through the process recognized by Applicable Law or through another valid voluntary arrangement.

3. Neither silence nor lack of objection shall be transformed by this instrument into consent where law does not independently provide that effect.

SILENCE SHALL NOT BE MANUFACTURED INTO CONSENT.

ARTICLE 146: NO INVENTED REPRESENTATION

1. The author speaks through this Constitution solely in the independent, Good-Faith capacity expressly identified in the submission.
2. This instrument does not authorize the author or any associated organization to represent:
 - (a) the Republic of India;
 - (b) the Government of India;
 - (c) the President of India;
 - (d) the United Nations;
 - (e) any United Nations Member State;
 - (f) humanity collectively;
 - (g) Future Generations;
 - (h) women collectively;
 - (i) children collectively;
 - (j) older persons collectively;
 - (k) any nation or people collectively; or
 - (l) any other person or entity lacking independent authorization.
3. Statements framed as appeals to humanity remain appeals, not claims of mandate.
4. Universal aspiration shall never be confused with universal representation.

THE AUTHOR MAY APPEAL TO HUMANITY.

THE AUTHOR SHALL NOT INVENT HUMANITY'S CONSENT.

ARTICLE 147: SUBMISSION, RECEIPT, TRANSMISSION AND CONSIDERATION

1. Submission of this Constitution to any public authority, international organization or other institution constitutes only a request for consideration unless the receiving institution independently determines otherwise within its lawful competence.
2. Receipt shall not mean endorsement.
3. Acknowledgment shall not mean acceptance.

4. Forwarding or transmission shall not mean adoption.
5. Consideration shall not mean consent.
6. Publication shall not create legal authority.
7. Filing, registration, archiving, indexing, citation, repository deposit or public availability shall not transform this document into:
 - (a) official law;
 - (b) an official United Nations instrument;
 - (c) an official Government of India instrument;
 - (d) a treaty; or
 - (e) an adopted international constitutional instrument.
8. Any receiving institution retains its own lawful authority to decide whether and how it may:
 - (a) consider;
 - (b) retain;
 - (c) transmit;
 - (d) refer;
 - (e) archive;
 - (f) acknowledge; or
 - (g) otherwise address the submission.
9. No institutional action shall be described beyond what documentary evidence supports.

INSTITUTIONAL ATTENTION, IF IT OCCURS, SHALL NEVER BE MISREPRESENTED AS INSTITUTIONAL APPROVAL.

ARTICLE 148: INDIA-LINKED SUBMISSION SAFEGUARD

1. Where this Constitution is respectfully submitted through the Hon'ble President of the Republic of India, that route constitutes a request for consideration and, only if independently considered appropriate, possible further handling through competent constitutional and diplomatic channels.
2. Reference to the constitutional spirit reflected in Article 51(c) and Article 51(d) of the Constitution of India shall be understood respectively in relation to:

- (a) fostering respect for international law and treaty obligations; and
- (b) encouraging settlement of international disputes by arbitration.

3. Nothing in this Constitution asserts:

- (a) a constitutional entitlement to Presidential consideration or transmission;
- (b) a legal obligation upon the President to transmit it;
- (c) endorsement by the Government of India;
- (d) adoption by India;
- (e) authority for the author to represent India internationally;
- (f) Indian sponsorship;
- (g) diplomatic approval; or
- (h) any consequence beyond that independently established by competent Indian authorities.

4. Receipt, acknowledgment or transmission, if any, shall retain only the meaning actually supported by the relevant official record.

5. Respect for India's constitutional order requires restraint, accuracy and documentary truth in every description of this submission route.

ARTICLE 149: HISTORICAL-PRIORITY CHARACTERIZATION

1. The title:

“THE WORLD’S FIRST WORLD PEACE CONSTITUTION — 2026”

constitutes a qualified Good-Faith authorial historical-priority characterization within the particular cumulative constitutional category claimed by this instrument.

2. It shall not be interpreted as claiming that this Constitution is:

- (a) the first writing concerning peace;
- (b) the first philosophy of peace;
- (c) the first peace declaration;
- (d) the first proposed world constitution of any kind;
- (e) the first world-federation or world-government proposal;
- (f) the first international peace framework;

- (g) the first international legal instrument relating to peace; or
- (h) the first historical attempt to organize international cooperation.

3. The characterization depends upon documentary research reasonably available as of the relevant verification date and upon the specific criteria defining the claimed category.

4. Absence of a discovered earlier document is not conclusive proof that no earlier qualifying document exists.

5. Historical research remains open to correction.

6. If credible evidence demonstrates that the historical-priority characterization is materially inaccurate, it should be corrected in an appropriate later edition or public record.

7. Historical priority creates no:

- (a) sovereignty;
- (b) legal personality;
- (c) jurisdiction;
- (d) institutional status;
- (e) intellectual monopoly;
- (f) compulsory citation;
- (g) recognition;
- (h) endorsement; or
- (i) authority over other peace initiatives.

HISTORICAL DISTINCTION SHALL REMAIN SUBORDINATE TO DOCUMENTARY TRUTH.

CONSTITUTIONAL MERIT SHALL NOT DEPEND UPON WINNING A HISTORICAL RACE. TRUTH HAS PRIORITY OVER PRIORITY.

ARTICLE 150: VERIFICATION, SOURCE DISCIPLINE AND CORRECTION

1. Material legal, institutional, scientific, technological and historical claims that may change over time should be verified as close as reasonably practicable to the date of each final edition.

2. Verification should prefer authoritative primary sources where reasonably available.

3. Source review should distinguish:

- (a) law from policy;
- (b) binding instruments from non-binding instruments;
- (c) fact from interpretation;
- (d) institutional statement from authorial inference;
- (e) current status from historical status; and
- (f) evidence from speculation.

4. Where a material error is later identified, correction should be made transparently in an appropriate subsequent edition or public record.

5. A corrected claim should not continue to be knowingly reproduced in an unqualified form.

6. Correction shall not be treated as failure of constitutional principle.

7. A document committed to truth must remain capable of correcting itself.

VERIFY.

DISTINGUISH.

QUALIFY.

CORRECT.

DATE THE RECORD.

PRESERVE THE RECORD.

ARTICLE 151: SEVERABILITY AND CORRECTABILITY OF PRINCIPLES

1. If a provision is shown to be:

- (a) materially inaccurate;
- (b) unlawful in a particular application;
- (c) impracticable;
- (d) internally inconsistent; or
- (e) inconsistent with Applicable Law,

that defect shall not automatically invalidate unrelated provisions.

2. Depending upon the nature of the defect, the affected provision should be:

- (a) interpreted consistently with Applicable Law where reasonably possible;
- (b) limited in application;
- (c) clarified;
- (d) corrected;
- (e) revised; or
- (f) removed in a later edition.

3. No clause shall be preserved merely for symbolism where its continued wording materially undermines:

- (a) legal accuracy;
- (b) Human Dignity;
- (c) internal coherence;
- (d) documentary truth; or
- (e) the peaceful purpose of this Constitution.

4. Severability shall not be used to preserve the operative effect of an interpretation that would contradict the foundational safeguards of the instrument.

CONSTITUTIONAL CONTINUITY SHALL INCLUDE THE CAPACITY FOR CONSTITUTIONAL CORRECTION.

ARTICLE 152: REVIEW AND FUTURE EDITIONS

1. This Constitution may be periodically reviewed in light of:

- (a) developments in Applicable International Law;
- (b) advances in science;
- (c) technological change;
- (d) lessons from conflict prevention and peacebuilding;
- (e) improved evidence;
- (f) emerging risks;
- (g) implementation experience;
- (h) institutional learning; and
- (i) identified drafting defects.

2. Future editions should preserve the foundational orientation toward:

WORLD PEACE;

HUMAN DIGNITY;

ARAM;

PEACE WITHIN LAW;

SOVEREIGN EQUALITY;

NON-DOMINATION;

PEACEFUL SETTLEMENT;

PREVENTION;

ACCOUNTABILITY;

CORRECTABILITY;

AND

CONTINUITY.

3. Revision shall not manufacture:

(a) retroactive consent;

(b) retroactive legal effect;

(c) institutional endorsement;

(d) jurisdiction; or

(e) authority absent from the edition actually considered.

4. Each material edition should be identifiable through date, version or another reliable documentary marker.

5. Superseded language should remain historically traceable where appropriate to preserve documentary integrity.

6. Adaptation shall preserve truth.

Continuity shall preserve memory.

Neither shall prohibit improvement.

DURABILITY WITHOUT IMMUTABILITY.

CONTINUITY WITHOUT ENTRENCHED ERROR.

ARTICLE 153: THE FINAL CONSTITUTIONAL TEST

1. Every provision and every substantial measure inspired by this Constitution should, so far as reasonably possible, be tested through the following cumulative questions:

DOES IT SERVE PEACE?

DOES IT RESPECT HUMAN DIGNITY?

DOES IT REMAIN WITHIN LAW?

DOES IT PRESERVE SOVEREIGN EQUALITY?

DOES IT AVOID DOMINATION?

DOES IT PROTECT LAWFUL HUMAN FREEDOM?

DOES IT ADDRESS MATERIAL ROOT CAUSES?

DOES IT PROVIDE A PRACTICAL PATHWAY?

IS THE ACTOR LAWFULLY COMPETENT?

DOES IT DISTINGUISH PREVENTION FROM COERCION?

IS THE RESPONSE PROPORTIONATE WHERE RELEVANT?

DOES IT PRESERVE ACCOUNTABILITY?

IS CORRECTION OR REMEDY AVAILABLE WHERE APPROPRIATE?

DOES IT RESPECT EVIDENCE AND UNCERTAINTY?

CAN FAILURE BE REVIEWED?

CAN ERROR BE CORRECTED?

CAN IT ADAPT WITHOUT MANUFACTURING POWER?

DOES IT REDUCE RECURRENCE?

DOES IT PRESERVE FUTURE PEACEFUL POSSIBILITY?

AND

DOES IT LEAVE HUMANITY MORE CAPABLE OF PEACEFUL RESOLUTION THEN BEFORE?

2. Where two interpretations are reasonably available, preference should be given to the interpretation that best preserves:

- (a) Applicable Law;
- (b) the non-binding character of this Constitution;
- (c) Human Dignity;
- (d) sovereignty and lawful freedom;

- (e) peaceful purpose; and
- (f) the prohibition against invented authority.

3. No interpretive method shall transform aspiration into power merely to achieve a preferred result.

ARTICLE 154: FINAL CONSTITUTIONAL SAFEGUARD

1. Nothing in this Constitution shall be interpreted to authorize:

- (a) aggression;
- (b) unlawful threat or use of force;
- (c) preventive war;
- (d) unlawful intervention;
- (e) collective punishment;
- (f) persecution;
- (g) torture or other treatment prohibited by Applicable Law;
- (h) compulsory ideological conformity;
- (i) thought policing;
- (j) unlawful censorship;
- (k) arbitrary or unlawful surveillance;
- (l) compulsory jurisdiction not independently lawfully established;
- (m) automatic sanctions;
- (n) compulsory taxation or financing;
- (o) supranational sovereignty;
- (p) World Government;
- (q) fabricated consent;
- (r) fabricated representation;
- (s) unauthorized investigation or enforcement;
- (t) technological sovereignty;
- (u) automatic legal personality for AI or non-human entities; or

(v) alteration of Applicable International Law merely through authorial declaration.

2. No universal, humanitarian, environmental, technological, intergenerational or peace-related aspiration in this Constitution may be used to justify conduct contrary to the law, dignity and peaceful purpose that the instrument seeks to preserve.

3. Where implementation would require authority not independently existing, the proper constitutional response is:

SEEK A LAWFUL BASIS; DO NOT INVENT ONE.

4. The final legal formula is:

PEACE WITHIN LAW.

DIGNITY WITHOUT DOMINATION.

JUSTICE WITHOUT VENGEANCE.

COOPERATION WITHOUT INVENTED CONSENT.

UNIVERSAL CONCERN WITHOUT FALSE LEGAL EQUIVALENCE.

GLOBAL ASPIRATION WITHOUT GLOBAL GOVERNMENT.

RESPONSIBILITY WITHOUT UNLAWFUL INTERVENTION.

PROGRESS WITH HUMAN ACCOUNTABILITY.

CONTINUITY WITHOUT STAGNATION.

INSTITUTIONAL POSSIBILITY WITHOUT IMPLIED POWER.

HISTORICAL ASPIRATION WITHOUT HISTORICAL OVERCLAIMING.

INTERNATIONAL SUBMISSION WITHOUT FALSELY CLAIMING INTERNATIONAL ENDORSEMENT.

AND

ETHICAL CONVICTION WITHOUT INVENTED LEGAL FORCE.

ARTICLE 155: THE FINAL CONSTITUTIONAL DECLARATION

1. Humanity cannot guarantee that every future generation will choose peace.

2. Humanity can nevertheless strengthen the institutions, education, law, culture, science, technology and habits of responsibility through which peace becomes more possible and preventable destruction becomes less likely.

3. This Constitution therefore, calls for a continuing human movement:

FROM REACTION TO PREVENTION;

FROM FEAR TO UNDERSTANDING;

FROM DEHUMANIZATION TO HUMAN RECOGNITION;

FROM HATRED TO PEACEFUL COEXISTENCE;

FROM REVENGE TO LAWFUL JUSTICE;

FROM DECEPTION TO TRUTH;

FROM EXPLOITATION TO RESPONSIBILITY;

FROM EXCLUSION TO EQUAL HUMAN WORTH;

FROM INHERITED HOSTILITY TO INTERGENERATIONAL PEACE;

FROM THE IRRESPONSIBLE DESTRUCTION OF LIFE-SUPPORTING SYSTEMS TO RESPONSIBLE STEWARDSHIP;

FROM UNACCOUNTABLE TECHNOLOGICAL POWER TO RESPONSIBLE HUMAN GOVERNANCE OF TECHNOLOGY;

FROM THE MANAGEMENT OF RECURRING WAR TO THE PREVENTION OF WAR;

AND

FROM ARMS TO ARAM.

4. Peace shall not require the surrender of freedom.

Justice shall not require vengeance.

Unity shall not require uniformity.

Security shall not require unlimited power.

Technology shall not require the surrender of human responsibility.

Progress shall not require the destruction of Continuity.

Memory shall not require inherited hatred.

Responsibility for Future Generations shall not require invented future consent.

And universal concern shall not require World Government.

5. The final durable peace architecture of this Constitution is:

UNDERSTAND THE HUMAN BEING.

PROTECT HUMAN DIGNITY.

TEACH PEACE WITHOUT CONTROLLING THOUGHT.

PREVENT HATRED BEFORE IT BECOMES DEHUMANIZATION.

ADDRESS GRIEVANCE BEFORE IT BECOMES A PATH TO VIOLENCE.

PRESERVE COMMUNICATION BEFORE MISUNDERSTANDING BECOMES ESCALATION.

PRESERVE PEACEFUL SETTLEMENT BEFORE CONFLICT BECOMES WAR.

PROTECT LIFE BEFORE HARM BECOMES IRREVERSIBLE.

PROVIDE LAWFUL JUSTICE SO THAT VENGEANCE NEED NOT BECOME THE ALTERNATIVE.

USE SCIENCE TO RECOGNIZE DANGER WITHOUT PRETENDING TO POSSESS CERTAINTY.

GOVERN TECHNOLOGY SO THAT CAPABILITY DOES NOT OUTGROW RESPONSIBILITY.

PROTECT EARTH, WATER, AIR, ENERGY AND SPACE FROM CATASTROPHIC IRRESPONSIBLE MISUSE.

RESPECT WOMEN AS EQUAL HUMAN BEINGS WITH EQUAL DIGNITY AND AGENCY.

PROTECT CHILDREN FROM VIOLENCE, EXPLOITATION AND INHERITED HATRED.

HONOUR OLDER PERSONS WITHOUT TURNING EXPERIENCE INTO DOMINATION.

CONNECT GENERATIONS.

PRESERVE KNOWLEDGE.

CORRECT INSTITUTIONS.

REPAIR HARM WHERE POSSIBLE.

PRESERVE LESSONS.

ADAPT TO EVIDENCE.

CORRECT ERROR.

AND

PREVENT RECURRENCE.

6. The constitutional destination is not perfection.

It is a continuing increase in humanity's capacity to preserve peace, protect dignity, correct failure and prevent avoidable destruction.

7. The constitutional method is not domination.

It is lawful responsibility guided by Human Dignity and Aram.

8. The constitutional hope is not that humanity will cease to disagree.

It is that human disagreement need not require human destruction.

9. And the final philosophical affirmation proposed by this instrument is:

FOOD IS THE FIRST JUSTICE.

LOVE IS THE FIRST LAW.

ARAM IS THE FINAL TRUTH.

FROM ARMS TO ARAM.

FROM THE RECURRENCE OF WAR TO THE CONTINUOUS CONSTRUCTION OF DURABLE PEACE.

FROM THE POWER TO DESTROY TO THE WISDOM TO PRESERVE.

AND FROM A WORLD THAT REACTS TO DESTRUCTION TO A HUMANITY THAT LEARNS HOW TO PREVENT IT.

PART 13 - CONCISE INTERNATIONAL LEGAL AND NORMATIVE FOUNDATIONS

I. PURPOSE, SCOPE AND SOURCE-STATUS DISCIPLINE

1. This section identifies selected international legal, constitutional and normative foundations relevant to the principles and solution architectures proposed in this Constitution.

2. It is not an exhaustive statement of international law.

3. Citation of a legal or normative instrument does not imply that:

- (a) every provision of this Constitution derives from that instrument;
- (b) every cited instrument binds every State;
- (c) the legal meaning of a cited source is enlarged by this Constitution; or
- (d) an authorial proposal acquires legal force merely because it is consistent with, inspired by or adjacent to an international source.

4. Every source retains its own:

- (a) legal character;
- (b) scope;
- (c) subjects;
- (d) participation requirements;
- (e) reservations or declarations where relevant;

- (f) conditions of application;
- (g) interpretive framework; and
- (h) legal effect.

5. The governing source discipline is:

BINDING LAW SHALL BE IDENTIFIED AS BINDING LAW ONLY WHERE IT ACTUALLY BINDS.

NON-BINDING NORMS SHALL BE IDENTIFIED AS NON-BINDING.

AUTHORIAL PROPOSALS SHALL REMAIN AUTHORIAL PROPOSALS.

AND

NO SOURCE SHALL BE GIVEN A LEGAL EFFECT IT DOES NOT POSSESS.

II. THE CHARTER OF THE UNITED NATIONS

1. The Charter of the United Nations constitutes a central legal foundation for the international-peace orientation of this Constitution.

2. Particularly relevant Charter principles include, according to their actual terms and legal context:

- (a) maintenance of international peace and security;
- (b) sovereign equality of Members;
- (c) settlement of international disputes by peaceful means;
- (d) restraint from the threat or use of force inconsistent with the Charter;
- (e) international cooperation;
- (f) promotion and encouragement of respect for Human Rights and fundamental freedoms; and
- (g) respect for matters essentially within domestic jurisdiction, subject to the Charter's own terms.

3. Article 33 of the Charter identifies peaceful means including:

NEGOTIATION;

ENQUIRY;

MEDIATION;

CONCILIATION;

ARBITRATION;

JUDICIAL SETTLEMENT;

RESORT TO REGIONAL AGENCIES OR ARRANGEMENTS;

AND

OTHER PEACEFUL MEANS OF THE PARTIES' OWN CHOICE.

4. Nothing in this Constitution modifies the Charter framework concerning:

- (a) peaceful settlement;
- (b) the threat or use of force;
- (c) self-defence;
- (d) collective security;
- (e) competence of United Nations organs; or
- (f) other Charter matters.

LEGAL STATUS:

THE CHARTER IS BINDING TREATY LAW FOR UNITED NATIONS MEMBERS ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

III. THE CONSTITUTION OF INDIA — ARTICLE 51

1. The India-linked submission route is respectfully associated with the constitutional spirit of Article 51 of the Constitution of India.

2. Article 51 provides that the State shall endeavour to:

- (a) promote international peace and security;
- (b) maintain just and honourable relations between nations;
- (c) foster respect for international law and treaty obligations in the dealings of organised peoples with one another; and
- (d) encourage settlement of international disputes by arbitration.

3. The present submission places particular emphasis upon the constitutional spirit reflected in Article 51(c) and Article 51(d).

4. Those provisions are not represented by this Constitution as creating:

- (a) an individual right to international transmission;
- (b) an obligation upon the Hon'ble President of India to transmit this Constitution;
- (c) an obligation upon the Government of India to adopt it;

- (d) Indian governmental sponsorship;
- (e) authority for the author to represent India; or
- (f) any predetermined diplomatic consequence.

5. Any consideration, forwarding or transmission remains entirely subject to competent Indian constitutional and institutional processes.

LEGAL STATUS:

ARTICLE 51 FORMS PART OF THE DIRECTIVE PRINCIPLES OF STATE POLICY WITHIN THE CONSTITUTIONAL ORDER OF THE REPUBLIC OF INDIA.

IT IS CITED HERE WITH RESPECT TO THE INDIA-LINKED REQUEST FOR CONSIDERATION.

IV. INTERNATIONAL HUMAN-RIGHTS FOUNDATIONS

1. This Constitution's concern for Human Dignity, life, equality, freedom, conscience, expression, due process and non-discrimination is informed by the international human-rights framework.

2. Relevant sources include, according to their respective legal status and applicability:

- (a) the Universal Declaration of Human Rights;
- (b) the International Covenant on Civil and Political Rights;
- (c) the International Covenant on Economic, Social and Cultural Rights;
- (d) the Convention on the Elimination of All Forms of Discrimination against Women;
- (e) the Convention on the Rights of the Child; and
- (f) other applicable human-rights treaties and rules.

3. Treaty obligations apply according to:

- (a) treaty participation;
- (b) reservations and declarations where relevant;
- (c) territorial and temporal application;
- (d) jurisdiction;
- (e) permissible limitations or derogations where applicable; and
- (f) other requirements of Applicable Law.

4. Citation of a human-rights source in this Constitution does not enlarge, diminish or independently reinterpret its binding scope.

5. Authorial provisions concerning Human Dignity that extend beyond an existing legal rule remain constitutional proposals unless independently supported by Applicable Law.

LEGAL STATUS:

MIXED. TREATY LAW — WHERE THE RELEVANT TREATY IS APPLICABLE.

THE UNIVERSAL DECLARATION OF HUMAN RIGHTS — A FOUNDATIONAL INTERNATIONAL DECLARATION WITH ITS OWN DISTINCT HISTORICAL, NORMATIVE AND LEGAL SIGNIFICANCE.

V. WOMEN, EQUALITY AND PEACE

1. The Convention on the Elimination of All Forms of Discrimination against Women provides an international treaty framework concerning discrimination against women and the obligations of its States Parties.

2. United Nations Security Council resolution 1325 (2000) forms a foundational part of the Women, Peace and Security agenda.

3. Among its relevant themes are:

(a) participation of women in conflict prevention and resolution;

(b) participation in peacebuilding;

(c) representation in decision-making;

(d) protection of women and girls in situations of armed conflict; and

(e) attention to gender-based violence.

4. This Constitution's provisions concerning women should therefore, be understood as advancing:

EQUAL HUMAN DIGNITY;

AGENCY;

SAFETY;

MEANINGFUL PARTICIPATION;

OPPORTUNITY;

AND

FREEDOM FROM VIOLENCE AND UNLAWFUL DISCRIMINATION.

5. Those provisions shall not be interpreted as paternalistic authority over women.

LEGAL STATUS:

CEDAW — BINDING TREATY OBLIGATIONS FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE LAW.

SECURITY COUNCIL RESOLUTION 1325 — A RESOLUTION OF THE UNITED NATIONS SECURITY COUNCIL WHOSE LEGAL AND INSTITUTIONAL EFFECT MUST BE ASSESSED THROUGH THE CHARTER, THE RESOLUTION ITSELF, AND APPLICABLE LAW.

VI. CHILDREN AND INTERGENERATIONAL PEACE

1. The Convention on the Rights of the Child provides the principal global treaty framework specifically concerning the rights and protection of children for its States Parties.

2. Child-related provisions of this Constitution are informed by principles including:

- (a) Human Dignity;
- (b) protection from violence and exploitation;
- (c) development;
- (d) education;
- (e) the best interests of the child where Applicable Law so requires;
- (f) appropriate consideration of children's views according to Applicable Law, age and maturity; and
- (g) protection appropriate to vulnerability and developmental stage.

3. The additional proposition that children should not inherit hatred, collective guilt or predetermined enemies from earlier generations is a distinct authorial peace principle of this Constitution.

4. It shall not be represented as the text of a particular treaty rule unless such a proposition is independently established by the relevant legal source.

LEGAL STATUS:

THE CONVENTION ON THE RIGHTS OF THE CHILD — BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS.

THE NO-INHERITED-HATRED PRINCIPLE — A DISTINCT NON-BINDING AUTHORIAL PEACE PROPOSITION.

VII. OLDER PERSONS AND INTERGENERATIONAL RESPECT

1. The United Nations Principles for Older Persons were adopted by the United Nations General Assembly in resolution 46/91 of 16 December 1991.

2. They address the broad themes of:

INDEPENDENCE;

PARTICIPATION;

CARE;

SELF-FULFILMENT;

AND

DIGNITY.

3. They also recognize the continuing contribution older persons may make to society.

4. These principles are relevant to this Constitution's treatment of:

(a) dignity;

(b) autonomy;

(c) care;

(d) participation;

(e) protection against abuse and exploitation; and

(f) voluntary intergenerational knowledge transfer.

5. Nothing in those principles or in this Constitution creates age-based superiority, hereditary authority or an automatic political privilege.

LEGAL STATUS:

NON-BINDING UNITED NATIONS GENERAL ASSEMBLY PRINCIPLES.

VIII. THE CULTURE OF PEACE

1. The United Nations General Assembly adopted the Declaration and Programme of Action on a Culture of Peace in resolution A/RES/53/243 on 13 September 1999.

2. Its framework addresses, among other themes:

(a) education;

(b) Human Rights;

(c) dialogue;

- (d) cooperation;
- (e) peaceful settlement;
- (f) democratic participation;
- (g) tolerance; and
- (h) conditions supportive of peaceful coexistence.

3. It is normatively relevant to this Constitution's preventive movement from responding to violence toward building human and institutional capacity for peace.

4. The Constitution nevertheless remains independently authored and does not purport to reproduce the Declaration or Programme of Action as a binding constitutional code.

LEGAL STATUS:

NON-BINDING UNITED NATIONS GENERAL ASSEMBLY DECLARATION AND PROGRAMME OF ACTION.

IX. EDUCATION FOR PEACE

1. UNESCO's Recommendation on Education for Peace, Human Rights and Sustainable Development, formally titled the Recommendation on Education for Peace and Human Rights, International Understanding, Cooperation, Fundamental Freedoms, Global Citizenship and Sustainable Development, was adopted by the UNESCO General Conference on 20 November 2023.

2. It provides an international standard-setting framework concerning education for:

- (a) lasting peace;
- (b) Human Rights;
- (c) international understanding;
- (d) cooperation;
- (e) fundamental freedoms;
- (f) responsible global citizenship; and
- (g) sustainable development.

3. Its educational approach is relevant to the Constitution's emphasis upon strengthening:

KNOWLEDGE;

VALUES;

ATTITUDES;

SKILLS;

CRITICAL THINKING;

RESPONSIBLE PARTICIPATION;

AND

THE CAPACITY TO LIVE PEACEFULLY WITH OTHERS.

4. This Constitution independently adds a strict freedom safeguard:

PEACE EDUCATION SHALL STRENGTHEN PEACEFUL CAPABILITY WITHOUT CLAIMING OWNERSHIP OF THOUGHT.

5. Nothing in this section creates a compulsory universal curriculum.

LEGAL STATUS:

UNESCO STANDARD-SETTING RECOMMENDATION.

NON-BINDING AS A RECOMMENDATION.

X. INTERNATIONAL HUMANITARIAN LAW AND THE NATURAL ENVIRONMENT

1. International Humanitarian Law applies according to the legal classification of the armed conflict, treaty participation, customary international law and other legally relevant conditions.

2. Additional Protocol I to the Geneva Conventions contains treaty provisions concerning protection of the natural environment, including Articles 35(3) and 55.

3. Their actual application depends upon the legal circumstances, including the relevant treaty and customary-law framework.

4. Those provisions shall not be generalized by this Constitution into a universal prohibition of every environmental consequence of armed conflict.

5. Other rules of International Humanitarian Law and Applicable International Law may also be relevant according to the facts and legal context.

6. The stronger stewardship propositions of this Constitution remain distinct from the legal rules actually applicable.

LEGAL STATUS:

INTERNATIONAL HUMANITARIAN LAW — BINDING WHERE THE RELEVANT TREATY OR CUSTOMARY RULE IS APPLICABLE, ACCORDING TO ITS ACTUAL LEGAL SCOPE AND CONDITIONS.

XI. ENVIRONMENTAL MODIFICATION AND HOSTILE USE

1. The Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques — commonly known as ENMOD — addresses defined military or other hostile uses of environmental modification techniques.
2. Its obligations bind States Parties according to the Convention and Applicable International Law.
3. The Convention shall not be represented by this Constitution as a universal treaty obligation binding every State irrespective of treaty status.
4. The Elemental Non-Weaponization Principle proposed in Part VI is broader in ethical aspiration than the scope of any single existing treaty.
5. That broader proposition therefore, remains Non-Binding unless independently adopted through lawful international processes.

LEGAL STATUS:

ENMOD — BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS.

BROADER ELEMENTAL NON-WEAPONIZATION PRINCIPLE — AUTHORIAL, PROGRESSIVE AND NON-BINDING.

XII. BIOLOGICAL AND CHEMICAL WEAPONS

1. The Biological Weapons Convention forms a central treaty framework concerning biological and toxin weapons.
2. The Chemical Weapons Convention establishes a comprehensive treaty regime concerning chemical weapons for its States Parties and provides for implementation and verification through the Organisation for the Prohibition of Chemical Weapons.
3. Obligations under each Convention depend upon the instrument's own terms and Applicable International Law.
4. Treaty participation figures are time-sensitive and should therefore, be verified against the relevant authoritative depositary or treaty status source at the time of final authentication or republication.
5. Extensive treaty participation shall not be used to erase the legal importance of:

STATE CONSENT;

TREATY STATUS;

RESERVATIONS OR DECLARATIONS WHERE LEGALLY RELEVANT;

AND

THE ACTUAL SCOPE OF APPLICABLE OBLIGATIONS.

6. Peaceful biological, medical, pharmaceutical, agricultural, industrial and chemical activities shall not automatically be equated with prohibited weapons activity.

7. Dual-use capability should be governed according to risk, law, evidence and legitimate peaceful purpose.

LEGAL STATUS:

BIOLOGICAL WEAPONS CONVENTION AND CHEMICAL WEAPONS CONVENTION — BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO THE RESPECTIVE CONVENTIONS AND APPLICABLE LAW.

XIII. OUTER SPACE

1. The Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies — the Outer Space Treaty — is a foundational treaty of international space law.

2. Its provisions include important legal rules concerning the exploration and use of outer space.

3. Article IV includes specific prohibitions concerning nuclear weapons and other weapons of mass destruction in orbit, on celestial bodies or stationed in outer space as provided by the Treaty.

4. It also contains provisions concerning peaceful use of the Moon and other celestial bodies and specified military activities there.

5. The Outer Space Treaty shall not be misrepresented as a universal prohibition of every military activity or every category of weapon throughout all areas of outer space.

6. The stronger aspiration of this Constitution that space should not become an unrestricted domain of destructive escalation remains Non-Binding beyond independently Applicable Law.

7. Nothing in this Constitution creates sovereignty, ownership or new jurisdiction over outer space or celestial bodies.

LEGAL STATUS:

THE OUTER SPACE TREATY — BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

XIV. ARTIFICIAL INTELLIGENCE ETHICS AND RESPONSIBLE TECHNOLOGY

1. UNESCO's Recommendation on the Ethics of Artificial Intelligence, adopted by the UNESCO General Conference in 2021, provides an important international normative framework concerning responsible Artificial Intelligence.

2. Relevant themes include:

- (a) Human Rights and Human Dignity;
- (b) fairness and non-discrimination;
- (c) transparency;
- (d) human oversight;
- (e) responsibility and accountability;
- (f) environmental and ecosystem considerations; and
- (g) public-policy responsibility concerning AI.

3. The AI provisions of this Constitution are independently formulated constitutional proposals.

4. They shall not be represented as a verbatim restatement of the UNESCO Recommendation.

5. The Recommendation does not, merely by its existence, create:

- (a) a global AI sovereign;
- (b) compulsory global jurisdiction;
- (c) a universal technological regulator;
- (d) supranational sovereignty; or
- (e) authority to override national constitutional systems.

6. Other international, regional or national AI frameworks may possess their own independent legal or normative character and should be described according to their actual status if relied upon in later editions.

LEGAL STATUS:

UNESCO RECOMMENDATION ON THE ETHICS OF ARTIFICIAL INTELLIGENCE — INTERNATIONAL STANDARD-SETTING RECOMMENDATION; NON-BINDING AS A RECOMMENDATION.

XV. SOURCE-STATUS AND INTERPRETIVE RULE

1. Every source identified in this section shall be read according to its actual legal character.

2. The governing distinctions are:

TREATIES BIND ACCORDING TO THE LAW GOVERNING THEIR APPLICATION.

CUSTOMARY INTERNATIONAL LAW MUST BE ESTABLISHED ACCORDING TO INTERNATIONAL LAW.

SECURITY COUNCIL RESOLUTIONS MUST BE READ IN LIGHT OF:

THE CHARTER;

THE TEXT OF THE PARTICULAR RESOLUTION;

AND

THE RELEVANT LEGAL CONTEXT.

GENERAL ASSEMBLY RESOLUTIONS SHALL NOT AUTOMATICALLY BE TREATED AS TREATIES OR AS BINDING LAW.

UNESCO RECOMMENDATIONS SHALL NOT AUTOMATICALLY BE TREATED AS BINDING TREATY LAW.

POLITICAL COMMITMENTS, DECLARATIONS AND POLICY FRAMEWORKS SHALL RETAIN THEIR ACTUAL CHARACTER.

ETHICAL PRINCIPLES SHALL NOT AUTOMATICALLY BECOME LEGAL OBLIGATIONS.

AND

THIS CONSTITUTION'S OWN PROPOSALS SHALL REMAIN NON-BINDING UNLESS INDEPENDENTLY GIVEN LEGAL EFFECT THROUGH A LAWFUL PROCESS.

3. Similarity between an authorial proposal and an existing rule shall not itself establish that the proposal accurately restates that rule.

4. Where source status is uncertain, contested or dependent upon particular facts, the uncertainty shall be acknowledged.

5. Nothing in this section creates:

(a) legal obligation;

(b) jurisdiction;

(c) consent;

(d) representation;

- (e) institutional authority; or
- (f) legal entitlement

that does not independently exist.

XVI. VERIFICATION, TEMPORAL ACCURACY AND CONTINUING LEGAL REVIEW

1. Material legal, institutional, treaty-status, scientific and technological claims in this section should be verified against authoritative primary or institutional sources as close as reasonably practicable to final authentication.

2. The verification date for this edition is: **05th SEPTEMBER 2026.**

3. Any later submission, revised edition or formal republication should reverify material time-sensitive matters including, where relevant:

- (a) treaty participation;
- (b) reservations and declarations;
- (c) institutional mandates;
- (d) current legal instruments;
- (e) amendments or new treaties;
- (f) current international normative frameworks;
- (g) technological terminology; and
- (h) other facts capable of material change.

4. Search-result absence shall not by itself prove:

- (a) absence of a historical instrument;
- (b) absence of a legal source;
- (c) universal treaty participation; or
- (d) non-existence of a materially relevant precedent.

5. Where an authoritative source and a secondary description conflict, the authoritative legal source should ordinarily control the legal characterization, subject to proper interpretation.

6. A later-established material error should be corrected transparently and the documentary history preserved.

VERIFY CLOSE TO SUBMISSION.

DISTINGUISH SOURCE FROM INTERPRETATION.

DISTINGUISH LAW FROM ASPIRATION.

STATE UNCERTAINTY WHERE IT EXISTS.

CORRECT MATERIAL ERROR.

PRESERVE THE DOCUMENTARY RECORD.

***FINAL FOUNDATIONAL PRINCIPLE THIS CONSTITUTION DOES NOT ASK
INTERNATIONAL LAW TO BECOME WHAT IT IS NOT.***

IT ASKS HUMANITY TO RESPECT THE LAW THAT EXISTS;

TO USE THE PEACEFUL PATHWAYS THE LAW ALREADY PROVIDES;

TO STRENGTHEN LAW ONLY THROUGH LAWFUL PROCESSES;

TO STATE NON-BINDING ASPIRATION AS NON-BINDING ASPIRATION;

AND

WHERE LAW ALONE CANNOT MANUFACTURE CONSCIENCE, TO LET

HUMAN DIGNITY;

RESPONSIBILITY;

REASON;

COMPASSION;

FREEDOM;

AND ARAM

HELP HUMAN BEINGS

CHOOSE PEACE.

LEGAL TRUTH SHALL NOT BE SACRIFICED

TO MAKE A PEACE PROPOSAL APPEAR STRONGER.

***FOR THE CREDIBILITY OF PEACE DEPENDS ALSO UPON THE HONESTY WITH
WHICH LAW IS DESCRIBED.***

PART 14 - FINAL AUTHORIAL DECLARATION

I. DECLARATION OF GOOD-FAITH PURPOSE

I, A Human Being — Aaryan Narasimhan Radhakrishnan, submit this World Peace Constitution in Good Faith as my independent, peaceful and Non-Binding proposal for international consideration.

I offer it neither as a command to humanity nor as an assertion of authority over any State, people, institution, culture, religion, community or generation.

Its purpose is to contribute a practical and enduring constitutional architecture through which humanity may strengthen:

WORLD PEACE;

HUMAN DIGNITY;

NON-VIOLENCE;

PEACEFUL AND LAWFUL DISPUTE SETTLEMENT;

JUSTICE WITHOUT VENGEANCE;

RESPONSIBLE HUMAN FREEDOM;

EQUALITY, SAFETY AND AGENCY OF WOMEN;

THE DIGNITY, SAFETY AND DEVELOPMENT OF CHILDREN;

THE DIGNITY, AUTONOMY AND PARTICIPATION OF OLDER PERSONS;

INTERGENERATIONAL CONTINUITY;

RESPONSIBLE STEWARDSHIP OF EARTH, WATER, AIR, FIRE/ENERGY AND SPACE;

RESPONSIBLE SCIENCE AND TECHNOLOGY;

HUMAN ACCOUNTABILITY FOR ARTIFICIAL INTELLIGENCE;

INFORMATION INTEGRITY;

PREVENTION OF PRESENT AND EMERGING CATASTROPHIC RISKS;

AND

THE REDUCTION OF RECURRING HUMAN DESTRUCTION.

II. DECLARATION OF NON-BINDING CHARACTER

This Constitution is not a treaty.

It is not international legislation.

It is not an instrument adopted by the United Nations.

It is not an instrument adopted by the Republic of India.

It does not establish:

- (a) a World Government;
- (b) supranational sovereignty;
- (c) compulsory jurisdiction;
- (d) sanctions authority;
- (e) military or policing authority;
- (f) compulsory taxation or financing;
- (g) automatic international institutional machinery; or
- (h) authority to govern humanity.

It does not manufacture:

CONSENT;

REPRESENTATION;

JURISDICTION;

SOVEREIGNTY;

LEGAL PERSONALITY;

OR

INTERNATIONAL ENDORSEMENT.

It does not alter Applicable International Law merely through authorial declaration.

Its proposals remain non-binding unless independently accepted, adopted or otherwise given legal effect through lawful processes.

ITS ASPIRATION IS UNIVERSAL.

ITS AUTHORITY IS NOT.

III. DECLARATION OF RESPECT FOR INTERNATIONAL LAW

This Constitution is intended to operate in harmony with, and never in claimed superiority over:

THE CHARTER OF THE UNITED NATIONS;

APPLICABLE INTERNATIONAL LAW;

AND

THE LAWFUL CONSTITUTIONAL ORDERS OF STATES.

It respects, according to Applicable International Law:

SOVEREIGN EQUALITY;

TERRITORIAL INTEGRITY;

POLITICAL INDEPENDENCE;

NON-INTERVENTION;

DOMESTIC JURISDICTION;

PEACEFUL SETTLEMENT OF DISPUTES;

HUMAN RIGHTS;

INTERNATIONAL HUMANITARIAN LAW WHERE APPLICABLE;

VALID TREATY OBLIGATIONS;

AND

THE LAWFUL DIVERSITY OF CONSTITUTIONAL, POLITICAL, CULTURAL AND SOCIAL SYSTEMS.

Where this Constitution proposes principles stronger or broader than existing binding law, those principles are presented solely as non-binding proposals for peaceful consideration.

LAW SHALL NOT BE INVENTED TO MAKE AN ETHICAL PROPOSAL APPEAR STRONGER.

THE CREDIBILITY OF PEACE SHALL INCLUDE THE CREDIBILITY OF LEGAL TRUTH.

IV. DECLARATION CONCERNING THE REPUBLIC OF INDIA

This Constitution is respectfully associated with the constitutional spirit reflected in Article 51 of the Constitution of India.

In particular:

Article 51(c) concerns fostering respect for international law and treaty obligations in the dealings of organised peoples with one another; and

Article 51(d) concerns encouraging settlement of international disputes by arbitration.

Any submission through the Hon'ble President of the Republic of India constitutes only a respectful request for consideration and, if independently considered appropriate, possible further handling or transmission through competent constitutional and diplomatic channels.

I do not claim:

- (a) a constitutional entitlement to transmission;
- (b) a legal duty upon the President of India to transmit this Constitution;
- (c) endorsement by the President of India;
- (d) endorsement by the Government of India;
- (e) adoption by the Republic of India;
- (f) sponsorship by India;
- (g) authority to represent India internationally; or
- (h) any predetermined constitutional or diplomatic consequence.

The constitutional sovereignty, institutional competence and independent discretion of the Republic of India remain fully respected.

V. DECLARATION CONCERNING THE UNITED NATIONS

Any possible transmission of this Constitution to the Secretary-General of the United Nations shall constitute only a request for peaceful international consideration.

Receipt shall not mean endorsement.

Acknowledgment shall not mean acceptance.

Transmission shall not mean adoption.

Consideration shall not mean consent.

Archiving shall not mean legal recognition.

Publication shall not create institutional authority.

Indexing, citation or repository preservation shall not transform this Constitution into an official United Nations instrument.

Nothing in this Constitution shall be represented as an official United Nations document unless the United Nations itself, acting through a competent process, independently accords it such status.

INSTITUTIONAL ATTENTION, IF IT OCCURS, SHALL NEVER BE MISREPRESENTED AS INSTITUTIONAL APPROVAL.

VI. DECLARATION OF HUMAN FREEDOM, CONSCIENCE AND RESPONSIBILITY

This Constitution does not seek to control the human mind.

It does not seek to prohibit lawful:

THOUGHT;

BELIEF;

CONSCIENCE;

CRITICISM;

DOUBT;

DISAGREEMENT;

EMOTION;

OR

INQUIRY.

Human beings may experience anger, fear, grief, jealousy, ambition, frustration and other difficult emotions.

A constitution cannot erase them by command.

The objective is instead to strengthen the human capacity to prevent destructive emotion from becoming destructive conduct.

The human pathway is:

SELF-AWARENESS → TRUTH → REASON → EMPATHY → RESTRAINT →
PEACEFUL COMMUNICATION → LAWFUL RESOLUTION → JUSTICE →
REPAIR → LEARNING → PREVENTION OF RECURRENCE.

THE PURPOSE IS NOT TO CONTROL THE HUMAN MIND.

***THE PURPOSE IS TO STRENGTHEN THE HUMAN CONSCIENCE SO THAT HUMAN FREEDOM
CAN CHOOSE RESPONSIBILITY.***

VII. DECLARATION AGAINST HATRED AND VENGEANCE

I reject the proposition that humanity must preserve hatred in order to preserve memory.

I reject the proposition that justice requires vengeance.

I reject the proposition that descendants must inherit the guilt or enemies of previous generations.

I affirm instead:

MEMORY WITHOUT INHERITED HATRED.

TRUTH WITHOUT MANIPULATION.

JUSTICE WITHOUT VENGEANCE.

ACCOUNTABILITY WITHOUT COLLECTIVE PUNISHMENT.

RECONCILIATION WITHOUT FORCED FORGETTING.

PREVENTION WITHOUT DOMINATION.

AND

HISTORICAL MEMORY WITHOUT ASSIGNED FUTURE ENEMIES.

NO CHILD SHOULD ENTER LIFE WITH AN ENEMY ALREADY ASSIGNED BY A CONFLICT THAT PRECEDED THE CHILD'S EXISTENCE.

VIII. DECLARATION OF THE EQUAL DIGNITY AND AGENCY OF WOMEN

I affirm that women are not merely persons to be protected.

Women are equal human beings possessing equal inherent Human Dignity, agency, intelligence, autonomy, capacity, responsibility and human possibility.

A peaceful world should strengthen, consistently with Applicable Law:

EQUALITY;

SAFETY;

EDUCATION;

HEALTH;

ECONOMIC OPPORTUNITY;

ACCESS TO JUSTICE;

MEANINGFUL PARTICIPATION;

LEADERSHIP;

SCIENCE AND TECHNOLOGICAL OPPORTUNITY;

AND

FREEDOM FROM VIOLENCE, EXPLOITATION AND UNLAWFUL DISCRIMINATION.

Women shall not be reduced to reproductive, familial or caregiving functions.

Protection shall not become paternalistic control.

No appeal to tradition, culture, power or convenience
should be used to erase Human Dignity.

EQUALITY IS NOT CEREMONIAL RESPECT.

IT IS THE PRACTICAL RECOGNITION OF EQUAL HUMAN WORTH AND EQUAL HUMAN AGENCY.

IX. DECLARATION CONCERNING CHILDREN, OLDER PERSONS AND GENERATIONS

Children should inherit knowledge

without inheriting hatred.

They should be protected from violence, exploitation, dehumanization and manipulation,

while being given increasing capacity to think, learn, question and participate appropriately as they develop.

Older persons should live with dignity without being discarded because age changes physical capacity, economic productivity or dependence upon care.

Their experience may guide without becoming unquestionable authority.

Younger persons should remain free to question, create, correct and improve.

Knowledge should pass between generations without becoming chains.

No generation owns humanity.

No generation owns the future.

And no generation should claim the consent of generations that do not yet exist.

THE YOUNG REQUIRE POSSIBILITY.

OLDER PERSONS DESERVE DIGNITY, AUTONOMY, CARE AND VOICE.

AND HUMANITY REQUIRES A LIVING BRIDGE BETWEEN GENERATIONS.

X. DECLARATION OF ELEMENTAL STEWARDSHIP

For ethical and civilizational expression, this Constitution refers to:

EARTH; WATER; AIR; FIRE/ENERGY; AND SPACE.

I do not present these as a universal scientific taxonomy or as a pre-existing five-part international legal classification.

They are used as a constitutional language of stewardship.

Humanity should strengthen lawful, peaceful and scientifically responsible efforts to prevent catastrophic misuse of natural and life-supporting systems.

Where Applicable International Law already creates obligations, those obligations retain their actual legal source, scope and conditions.

Where this Constitution proposes stronger restraint, that proposal remains non-binding unless independently adopted through lawful processes.

STEWARDSHIP IS NOT OWNERSHIP.

UNIVERSAL CONCERN IS NOT UNIVERSAL JURISDICTION.

WHAT SUSTAINS LIFE SHOULD NOT, THROUGH HUMAN CHOICE, BE DELIBERATELY TRANSFORMED INTO A MEANS OF UNLAWFUL, INDISCRIMINATE OR CATASTROPHIC DESTRUCTION.

XI. DECLARATION ON SCIENCE, TECHNOLOGY AND ARTIFICIAL INTELLIGENCE

I affirm the immense peaceful potential of science, technology and Artificial Intelligence.

I also affirm that increasing technological capability must not become decreasing human responsibility.

Artificial Intelligence shall not become an excuse for human wrongdoing.

Automation shall not become a hiding place for accountability.

Prediction shall not become guilt.

Data shall not automatically become truth.

Efficiency shall not become sovereignty.

Capability shall not become authority merely because it is powerful.

Technological scale shall not become political legitimacy.

Humanity may delegate tasks.

Humanity should not carelessly delegate its responsibility for consequences.

The governing principle is:

CAPABILITY WITH RESPONSIBILITY.

INNOVATION WITH SAFETY.

POWER WITH ACCOUNTABILITY.

TECHNOLOGY SHALL SERVE HUMAN POSSIBILITY.

HUMANITY SHALL REMAIN RESPONSIBLE FOR THE WORLD IT BUILDS.

XII. DECLARATION OF DURABLE-SOLUTION RESPONSIBILITY

I do not offer this Constitution merely as a catalogue of aspirations.

Its central method is that major problems should, where practicable, be accompanied by preventive, implementable, reviewable and corrective solution architecture.

Its governing discipline is:

NO PRINCIPLE WITHOUT A PATHWAY.

NO PROHIBITION WITHOUT PREVENTION.

NO RESPONSIBILITY WITHOUT IMPLEMENTATION.

NO ACCOUNTABILITY WITHOUT A LAWFUL CORRECTIVE PATHWAY.

NO PEACE WITHOUT ATTENTION TO ROOT CAUSES.

NO DURABLE SOLUTION WITHOUT LEARNING.

AND

NO SOLUTION WITHOUT LAWFUL LIMITS.

Its continuing peace method is:

UNDERSTAND → ESTABLISH THE FACTS → IDENTIFY ROOT CAUSES →
ANTICIPATE → PREVENT → COMMUNICATE → PROTECT → DE-ESCALATE
→ RESOLVE PEACEFULLY → ACCOUNT LAWFULLY → REPAIR →
RECONCILE WHERE FREELY POSSIBLE → LEARN → CORRECT → ADAPT
→ MONITOR → PREVENT RECURRENCE.

The architecture is not a guarantee.

It is a disciplined method for making preventable harm less likely to return.

XIII. DECLARATION AGAINST ABSOLUTE PROMISES

I do not claim that this Constitution can guarantee the permanent end of every war.

I do not claim that every act of violence, injustice, deception or hatred can be eliminated.

I do not claim that every future technological, environmental, biological, social or systemic danger can be predicted.

I do not claim that every proposed solution will succeed in every legal, political, social or cultural context.

Such claims would exceed evidence and weaken the integrity of this instrument.

This Constitution seeks instead a more credible and durable objective:

TO MAKE AVOIDABLE DESTRUCTION LESS LIKELY;

TO MAKE PEACEFUL RESOLUTION MORE AVAILABLE;

TO MAKE INSTITUTIONS MORE CAPABLE OF LEARNING;

TO MAKE TECHNOLOGICAL POWER MORE ACCOUNTABLE;

TO MAKE HUMAN DIGNITY MORE DIFFICULT TO DISREGARD;

AND

TO MAKE FUTURE GENERATIONS LESS LIKELY TO INHERIT PREVENTABLE CYCLES OF DESTRUCTION.

A CONSTITUTION FOR PEACE NEED NOT PROMISE THE IMPOSSIBLE IN ORDER TO PURSUE THE NECESSARY.

XIV. DECLARATION CONCERNING HISTORICAL PRIORITY

The title:

“THE WORLD’S FIRST WORLD PEACE CONSTITUTION — 2026” is used as my qualified Good-Faith historical-priority characterization within the specific cumulative constitutional category defined by this instrument.

It is not a claim that this Constitution is:

- (a) the first philosophy of peace;
- (b) the first peace document;
- (c) the first proposed world constitution of any kind;
- (d) the first world-government or world-federation proposal;
- (e) the first international peace initiative;
- (f) the first international legal instrument concerning peace; or
- (g) the first historical effort toward organized international cooperation.

The characterization remains dependent upon documentary evidence reasonably available as of the relevant verification date.

Absence of discovered precedent is not conclusive proof that no earlier qualifying instrument exists.

If reliable contrary evidence is established, the characterization should be corrected in an appropriate later edition or public record.

Historical priority creates no:

SOVEREIGNTY;

JURISDICTION;

LEGAL PERSONALITY;

INSTITUTIONAL RECOGNITION;

MONOPOLY;

COMPULSORY CITATION;

OR

AUTHORITY OVER OTHER PEACE INITIATIVES.

HISTORICAL DISTINCTION SHALL REMAIN SUBORDINATE TO DOCUMENTARY TRUTH.

TRUTH HAS PRIORITY OVER PRIORITY.

XV. DECLARATION OF CORRECTABILITY AND CONTINUITY

I affirm that no human-authored document should be placed beyond correction.

If a material legal, scientific, technological, institutional, historical or factual error is established, it should be corrected transparently.

If evidence improves, the document should improve.

If Applicable International Law changes, relevant legal references should be reverified.

If technology changes, technological provisions should be reconsidered.

If implementation reveals unintended or disproportionate harm, the relevant solution should be reviewed and corrected.

If historical evidence changes, historical claims should be corrected.

Each material revision should preserve a clear documentary record of the edition being revised.

Continuity does not require rigidity.

Durability does not require the preservation of error.

Integrity requires the capacity to correct.

VERIFY.

LEARN.

CORRECT.

PRESERVE THE RECORD.

CONTINUE.

XVI. FINAL HUMAN DECLARATION

I submit this Constitution not because humanity is perfect, but because humanity is capable of learning.

Not because disagreement will disappear, but because disagreement need not become war.

Not because law can command every conscience, but because law, education, reason, responsibility and human choice can make peaceful conduct more possible.

Not because science will remove every uncertainty, but because knowledge can help humanity recognize danger before danger becomes irreversible.

Not because technology will solve every human problem, but because human beings can choose to govern technological power responsibly.

Not because one generation can determine the future, but because every generation can take responsibility for what kind of inheritance it leaves.

The final human appeal of this Constitution is therefore:

PROTECT LIFE.

RESPECT HUMAN DIGNITY.

SEEK TRUTH.

PRESERVE FREEDOM.

REJECT DEHUMANIZATION.

RESOLVE DISPUTES PEACEFULLY.

PURSUE JUSTICE WITHOUT VENGEANCE.

EDUCATE WITHOUT CONTROLLING THOUGHT.

RESPECT WOMEN AS EQUAL HUMAN BEINGS WITH EQUAL DIGNITY AND AGENCY.

LET CHILDREN GROW WITHOUT INHERITED HATRED.

LET OLDER PERSONS LIVE WITH DIGNITY, AUTONOMY, CARE AND VOICE.

CONNECT GENERATIONS.

PRESERVE KNOWLEDGE.

USE SCIENCE RESPONSIBLY.

GOVERN ARTIFICIAL INTELLIGENCE WITH HUMAN ACCOUNTABILITY.

PROTECT THE FOUNDATIONS THAT SUSTAIN LIFE.

PRESERVE PEACEFUL COMMUNICATION.

PREVENT CATASTROPHIC MISUSE OF HUMAN POWER.

CORRECT WRONGDOING.

REPAIR HARM WHERE POSSIBLE.

CORRECT INSTITUTIONS WHEN THEY FAIL.

PRESERVE THE LESSON.

ADAPT TO EVIDENCE.

AND

PREVENT RECURRENCE.

FROM ARMS TO ARAM.

FROM REACTION TO PREVENTION.

FROM THE MANAGEMENT OF WAR TO THE PREVENTION OF WAR.

FROM THE RECURRENCE OF DESTRUCTION TO THE CONTINUOUS CONSTRUCTION OF DURABLE PEACE.

AND

FROM THE POWER TO DESTROY TO THE WISDOM TO PRESERVE.

DECLARED IN GOOD FAITH

By:

R. Narasimhan (also known as Aaryan Narasimhan Radhakrishnan) - A Human Being,
Founder & International Leader – Vishwa Shanti Janata Party (VSJP)TM
Founder of Digital Democracy | Digital Father of the World
Chief Ambassador of World Peace | Digital Father of Artificial Intelligence
Moral & Constitutional Father of Artificial Intelligence.

AUTHORIAL CAPACITY SAFEGUARD

This declaration is made solely in the author's own independent Good-Faith capacity.

It shall not be represented as an endorsement, adoption, sponsorship, authorization or official declaration of:

the Republic of India;

the Hon'ble President of India;

the Government of India;

the United Nations;

the Secretary-General of the United Nations;

any United Nations Member State;

or any other State, institution, people or person that has not independently provided such authorization.

PART 15- FINAL DIGITAL AUTHENTICATION

1. AUTHORIAL AUTHENTICATION

This final electronic edition may be authenticated by the author through a valid Digital Signature Certificate (DSC).

Such digital authentication confirms only the authorship and integrity of the electronically signed document to the extent established by the certificate, the signed file, the validation process and Applicable Law.

2. NO INSTITUTIONAL ENDORSEMENT

Digital authentication does not constitute or imply endorsement, adoption, approval, recognition or authorization by:

THE REPUBLIC OF INDIA;

THE PRESIDENT OF INDIA;

THE GOVERNMENT OF INDIA;

THE UNITED NATIONS;

THE SECRETARY-GENERAL OF THE UNITED NATIONS;

ANY STATE;

OR ANY OTHER INSTITUTION.

3. DOCUMENT INTEGRITY

The digitally signed electronic file shall constitute the authenticated electronic edition.

Any subsequent substantive alteration shall be separately identifiable and, where appropriate, newly authenticated.

4. FINAL AUTHENTICATION

Author:

R. Narasimhan (also known as Aaryan Narasimhan Radhakrishnan) - A Human Being,
Founder & International Leader – Vishwa Shanti Janata Party (VSJP)TM

Founder of Digital Democracy | Digital Father of the World

Chief Ambassador of World Peace | Digital Father of Artificial Intelligence

Moral & Constitutional Father of Artificial Intelligence.

Date of Actual Authentication: **05th SEPTEMBER 2026**

Place: **India**

ANNEXURE I

INTERNATIONAL LEGAL AND NORMATIVE SOURCE REGISTER VERIFICATION AND TRACEABILITY ANNEXURE

A. PURPOSE, STATUS AND METHOD

1. This Annexure provides a concise documentary register of selected international legal, constitutional and normative sources relevant to the principles and solution architectures of this Constitution.

2. Its functions are:

- (a) source identification;
- (b) legal-status discipline;
- (c) documentary traceability;
- (d) verification;
- (e) prevention of legal overstatement; and
- (f) distinction between existing law, non-binding international norms and authorial proposals.

3. This Annexure is not an exhaustive statement of international law.

4. Citation of a source does not mean that:

- (a) every provision of this Constitution derives from that source;
- (b) every provision of the cited instrument is incorporated into this Constitution;

- (c) the cited instrument binds every State;
- (d) normative similarity establishes legal derivation;
- (e) citation establishes consent; or
- (f) a non-binding proposition becomes binding law.

5. Every source retains its own:

- (a) legal character;
- (b) text;
- (c) scope;
- (d) subjects;
- (e) participation requirements;
- (f) reservations and declarations where legally relevant;
- (g) conditions of application;
- (h) institutional context;
- (i) temporal applicability; and
- (j) authoritative interpretive framework.

6. Where the legal effect of a source depends upon particular facts, participation, jurisdiction or legal context, that qualification shall be preserved.

CITATION DOES NOT MEAN INCORPORATION.

SIMILARITY DOES NOT MEAN LEGAL DERIVATION.

REFERENCE DOES NOT CREATE CONSENT.

AND

A SOURCE SHALL NOT BE GIVEN A LEGAL EFFECT IT DOES NOT ACTUALLY POSSESS.

B. CORE INTERNATIONAL SOURCE REGISTER

1. CHARTER OF THE UNITED NATIONS

Signed: 26 June 1945

Entered into Force: 24 October 1945

Relevant Constitutional Themes:

- maintenance of international peace and security;
- peaceful settlement of international disputes;
- sovereign equality of Members;
- restraint concerning the threat or use of force;
- international cooperation;
- Human Rights and fundamental freedoms; and
- domestic-jurisdiction safeguards within the Charter framework.

Particularly Relevant Provisions:

Articles 1, 2 and 33.

Constitutional Relevance:

The Charter provides a principal international legal foundation for:

PEACE WITHIN LAW;

SOVEREIGN EQUALITY;

PEACEFUL DISPUTE SETTLEMENT;

AND

COOPERATION WITHOUT INVENTED SUPRANATIONAL AUTHORITY.

Legal Status:

BINDING TREATY LAW FOR UNITED NATIONS MEMBERS ACCORDING TO THE CHARTER AND APPLICABLE INTERNATIONAL LAW.

Nothing in this Constitution modifies the Charter or the competence of United Nations organs.

2. UNIVERSAL DECLARATION OF HUMAN RIGHTS

Adopted: 10 December 1948

Relevant Constitutional Themes:

- inherent human dignity;
- equality;
- life;
- liberty;

- security of person;
- freedom of thought and conscience;
- freedom of expression;
- participation;
- social well-being; and
- human development.

Constitutional Relevance:

A foundational normative reference for this Constitution's treatment of:

HUMAN DIGNITY;

HUMAN FREEDOM;

EQUALITY;

AND

THE VALUE OF EVERY HUMAN BEING.

Legal Status:

UNITED NATIONS GENERAL ASSEMBLY DECLARATION;

NOT ITSELF A TREATY.

Its provisions possess their own historical, normative and legal significance, which shall not be overstated or understated by this Constitution.

3. INTERNATIONAL COVENANT ON CIVIL AND POLITICAL RIGHTS

Adopted: 16 December 1966

Entered into Force: 23 March 1976

Relevant Constitutional Themes:

- life;
- liberty and security;
- due process;
- equality;
- non-discrimination;
- freedom of thought and conscience;
- freedom of expression;

- peaceful assembly; and
- political participation.

Constitutional Relevance:

Freedom, justice, lawful accountability, human agency and protection against arbitrary power.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

4. INTERNATIONAL COVENANT ON ECONOMIC, SOCIAL AND CULTURAL RIGHTS

Adopted: 16 December 1966

Entered into Force: 3 January 1976

Relevant Constitutional Themes:

- work;
- just and favourable conditions of work;
- social protection;
- health;
- education;
- adequate living conditions;
- food;
- cultural participation; and
- progressive realization according to the Covenant.

Constitutional Relevance:

The social foundations of durable peace, including dignified human opportunity, human development and protection against severe deprivation.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

5. CONVENTION ON THE ELIMINATION OF ALL FORMS OF DISCRIMINATION AGAINST WOMEN

Adopted: 18 December 1979

Entered into Force: 3 September 1981

Relevant Constitutional Themes:

- elimination of discrimination against women;
- equality;
- education;
- employment;
- health;
- public and political participation; and
- equal human opportunity.

Constitutional Relevance:

This Constitution's provisions concerning the equal Human Dignity, agency, safety, opportunity and participation of women.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

6. UNITED NATIONS SECURITY COUNCIL RESOLUTION 1325 (2000)

Adopted: 31 October 2000

Relevant Constitutional Themes:

- Women, Peace and Security;
- participation of women in peace processes;
- conflict prevention;
- conflict resolution;
- peacebuilding;
- protection of women and girls; and
- attention to gender-based violence.

Constitutional Relevance:

The meaningful participation of women in preventing, resolving and recovering from conflict.

Legal Status:

A RESOLUTION OF THE UNITED NATIONS SECURITY COUNCIL.

Its particular legal effect shall be determined from:

THE UNITED NATIONS CHARTER;

THE TEXT OF THE RESOLUTION;

AND

THE RELEVANT LEGAL CONTEXT.

This Constitution does not presume that every Security Council resolution has identical legal effect.

7. CONVENTION ON THE RIGHTS OF THE CHILD

Adopted: 20 November 1989

Entered into Force: 2 September 1990

Relevant Constitutional Themes:

- dignity of children;
- protection;
- development;
- education;
- protection from violence, abuse and exploitation;
- best interests of the child according to the Convention; and
- participation and consideration of the child's views in accordance with its terms.

Constitutional Relevance:

Child protection, peaceful human development and intergenerational peace.

The additional proposition that children should not inherit hatred or predetermined enemies from prior generations remains a distinct authorial peace principle of this Constitution.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

8. UNITED NATIONS PRINCIPLES FOR OLDER PERSONS

Adopted by the United Nations General Assembly: 16 December 1991

Resolution: 46/91

Principal Themes:

INDEPENDENCE;

PARTICIPATION;

CARE;

SELF-FULFILMENT;

AND

DIGNITY.

Constitutional Relevance:

The dignity, autonomy, care, participation and continuing contribution of older persons, together with voluntary intergenerational transfer of knowledge and experience.

Legal Status:

NON-BINDING UNITED NATIONS GENERAL ASSEMBLY PRINCIPLES.

They create no age-based superiority or automatic authority over younger generations.

9. DECLARATION AND PROGRAMME OF ACTION ON A CULTURE OF PEACE

United Nations General Assembly: A/RES/53/243

Adopted: 13 September 1999

Relevant Constitutional Themes:

- culture of peace;
- education;
- peaceful settlement;
- dialogue;
- tolerance;

- Human Rights;
- participation;
- non-violence; and
- international cooperation.

Constitutional Relevance:

Human conscience, peace education, prevention, dialogue and the development of peaceful capability across generations.

Legal Status:

NON-BINDING UNITED NATIONS GENERAL ASSEMBLY DECLARATION AND PROGRAMME OF ACTION.

10. UNESCO RECOMMENDATION ON EDUCATION FOR PEACE AND HUMAN RIGHTS, INTERNATIONAL UNDERSTANDING, COOPERATION, FUNDAMENTAL FREEDOMS, GLOBAL CITIZENSHIP AND SUSTAINABLE DEVELOPMENT

Adopted: 20 November 2023

Relevant Constitutional Themes:

- education for lasting peace;
- Human Rights;
- Human Dignity;
- international understanding;
- cooperation;
- fundamental freedoms;
- critical thinking;
- knowledge;
- skills;
- values and attitudes;
- responsible participation; and
- sustainable development.

Constitutional Relevance:

Peace education as preventive human infrastructure.

This Constitution independently preserves the additional conscience safeguard:

TEACH THE VALUE OF PEACE WITHOUT TEACHING THE SURRENDER OF THOUGHT.

Legal Status:

UNESCO STANDARD-SETTING RECOMMENDATION;

NON-BINDING AS A RECOMMENDATION.

11. GENEVA CONVENTIONS OF 1949 AND APPLICABLE INTERNATIONAL HUMANITARIAN LAW

Relevant Constitutional Themes:

- protection in armed conflict;
- protection of civilians and other protected persons;
- humane treatment;
- limits upon methods and conduct of warfare; and
- continuing human protection even after peaceful prevention has failed.

Constitutional Relevance:

The Constitution's principle that:

HUMANITY DOES NOT END WHERE DISAGREEMENT BECOMES WAR.

Legal Status:

INTERNATIONAL HUMANITARIAN LAW.

Particular obligations depend upon:

THE APPLICABLE TREATY;

CUSTOMARY INTERNATIONAL LAW WHERE ESTABLISHED;

THE CLASSIFICATION OF THE CONFLICT;

THE STATUS OF THE ACTORS;

AND

OTHER RELEVANT LEGAL CIRCUMSTANCES.

12. ADDITIONAL PROTOCOL I - TO THE GENEVA CONVENTIONS — PROTECTION OF THE NATURAL ENVIRONMENT

Adopted: 8 June 1977

Particularly Relevant Provisions:

Article 35(3);

Article 55.

Relevant Constitutional Theme:

Protection of the natural environment within the applicable law of armed conflict.

Constitutional Relevance:

The prevention of severe environmental harm during armed conflict and protection of life-supporting systems.

Legal Status:

TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS, together with any independently applicable rules of customary or other international law.

Interpretive Safeguard:

These provisions shall not be represented as establishing a universal prohibition of every conceivable environmental consequence of warfare.

The broader stewardship principles of this Constitution remain distinct non-binding proposals where they extend beyond Applicable Law.

13. CONVENTION ON THE PROHIBITION OF MILITARY OR ANY OTHER HOSTILE USE OF ENVIRONMENTAL MODIFICATION TECHNIQUES

Common Reference:

ENMOD CONVENTION

Concluded at New York: 10 December 1976

Entered into Force: 5 October 1978

Relevant Constitutional Theme:

Military or other hostile use of environmental modification techniques within the Convention's defined scope.

Constitutional Relevance:

A legal source relevant to, but narrower than, the Elemental Non-Weaponization Principle proposed by this Constitution.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS.

The Convention does not possess universal treaty participation.

Accordingly, the broader constitutional proposition remains:

AUTHORIAL;

NON-BINDING;

PEACE-ORIENTED;

AND

DEPENDENT UPON INDEPENDENT LAWFUL ADOPTION

BEFORE ANY NEW

BINDING OBLIGATION COULD ARISE.

14. BIOLOGICAL WEAPONS CONVENTION

Full Title:

CONVENTION ON THE PROHIBITION OF THE DEVELOPMENT, PRODUCTION AND STOCKPILING OF BACTERIOLOGICAL (BIOLOGICAL) AND TOXIN WEAPONS AND ON THEIR DESTRUCTION

Opened for Signature: 10 April 1972

Entered into Force: 26 March 1975

Relevant Constitutional Themes:

- prevention of biological and toxin weapons;
- catastrophic-risk prevention;
- responsible science;
- peaceful biological activity; and
- protection against deliberate misuse of biological capability.

Constitutional Relevance:

Biological security, responsible science, peaceful use and prevention of catastrophic misuse.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

Peaceful biological, medical, scientific and related activity shall not automatically be equated with prohibited weapons activity.

15. CHEMICAL WEAPONS CONVENTION

Full Title:

CONVENTION ON THE PROHIBITION OF THE DEVELOPMENT, PRODUCTION, STOCKPILING AND USE OF CHEMICAL WEAPONS AND ON THEIR DESTRUCTION

Opened for Signature: 13 January 1993

Entered into Force: 29 April 1997

Relevant Constitutional Themes:

- prohibition of chemical weapons within the Convention;
- destruction obligations;
- verification;
- international implementation;
- chemical safety; and
- peaceful chemical activity.

Constitutional Relevance:

Chemical safety, non-weaponization, peaceful use and accountability within Applicable Law.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

The Organisation for the Prohibition of Chemical Weapons performs functions under the Convention according to its treaty mandate.

16. OUTER SPACE TREATY

Full Title:

TREATY ON PRINCIPLES GOVERNING THE ACTIVITIES OF STATES IN THE EXPLORATION AND USE OF OUTER SPACE, INCLUDING THE MOON AND OTHER CELESTIAL BODIES

Opened for Signature: 27 January 1967

Entered into Force: 10 October 1967

Particularly Relevant Provision:

Article IV.

Relevant Constitutional Themes:

- peaceful use;
- nuclear weapons and other weapons of mass destruction within the scope of Article IV;
- celestial bodies;
- international responsibility; and
- international cooperation within the Treaty framework.

Constitutional Relevance:

Peaceful and responsible use of outer space and prevention of catastrophic escalation.

Legal Status:

BINDING TREATY LAW FOR STATES PARTIES ACCORDING TO ITS TERMS AND APPLICABLE INTERNATIONAL LAW.

Interpretive Safeguard:

The Outer Space Treaty shall not be misrepresented as universally prohibiting:

EVERY MILITARY ACTIVITY;

OR

EVERY CATEGORY OF WEAPON

THROUGHOUT ALL AREAS OF OUTER SPACE.

Any stronger demilitarization or non-weaponization aspiration in this Constitution remains non-binding unless independently given legal effect.

17. UNESCO RECOMMENDATION ON THE ETHICS OF ARTIFICIAL INTELLIGENCE

Adopted: 23 November 2021

Relevant Constitutional Themes:

- Human Dignity;
- Human Rights;

- fairness;
- non-discrimination;
- transparency;
- human oversight;
- responsibility;
- accountability;
- safety;
- environmental considerations; and
- societal consequences of AI.

Constitutional Relevance:

Responsible Artificial Intelligence, human accountability and technology serving human possibility.

Legal Status:

UNESCO STANDARD-SETTING RECOMMENDATION;

NON-BINDING AS A RECOMMENDATION.

This Constitution independently proposes:

TECHNOLOGY SHALL SERVE HUMAN POSSIBILITY.

HUMANITY SHALL REMAIN RESPONSIBLE FOR THE WORLD IT BUILDS.

No UNESCO recommendation, by itself, creates a world AI authority, compulsory jurisdiction or supranational sovereignty.

C. INDIA-LINKED CONSTITUTIONAL SOURCE

18. CONSTITUTION OF INDIA — ARTICLE 51

Article 51 forms part of the Directive Principles of State Policy within the Constitution of India.

Relevant Provisions:

Article 51(a): Promotion of international peace and security.

Article 51(b): Maintenance of just and honourable relations between nations.

Article 51(c): Fostering respect for international law and treaty obligations in the dealings of organised peoples with one another.

Article 51(d): Encouragement of settlement of international disputes by arbitration.

Constitutional Relevance:

Article 51 provides constitutional context for the author's respectful request that this independent, Good-Faith, Non-Binding proposal be considered through appropriate Indian constitutional and diplomatic channels.

If independently considered appropriate by competent authorities, the proposal may be handled or transmitted according to their lawful competence and discretion.

Article 51 does not, through this Constitution, create:

- (a) a right to Presidential transmission;
- (b) a duty upon the President to transmit the instrument;
- (c) automatic Government endorsement;
- (d) adoption by India;
- (e) international representation authority;
- (f) Indian diplomatic sponsorship; or
- (g) any entitlement to United Nations consideration.

Legal Status:

DIRECTIVE PRINCIPLE OF STATE POLICY WITHIN THE CONSTITUTIONAL ORDER OF THE REPUBLIC OF INDIA.

THE INDIA-LINKED ROUTE IS A REQUEST FOR CONSIDERATION, NOT A CLAIM OF ENTITLEMENT.

D. SOURCE-STATUS MATRIX

SOURCE TYPE: UNITED NATIONS CHARTER

STATUS: BINDING TREATY LAW FOR UNITED NATIONS MEMBERS ACCORDING TO THE CHARTER AND APPLICABLE INTERNATIONAL LAW.

SOURCE TYPE: HUMAN-RIGHTS TREATY

STATUS: BINDING UPON THE RELEVANT STATES PARTIES

ACCORDING TO:

THE TREATY;

PARTICIPATION;

RESERVATIONS OR DECLARATIONS WHERE LEGALLY RELEVANT;

AND

APPLICABLE INTERNATIONAL LAW.

SOURCE TYPE: OTHER MULTILATERAL TREATY

STATUS:

BINDING ACCORDING TO:

PARTICIPATION;

ITS TERMS;

THE RELEVANT FACTUAL CONTEXT;

AND

APPLICABLE INTERNATIONAL LAW.

SOURCE TYPE:

UNITED NATIONS GENERAL ASSEMBLY DECLARATION, PRINCIPLES, PROGRAMME OR RESOLUTION

STATUS:

NOT AUTOMATICALLY BINDING TREATY LAW.

ITS LEGAL AND NORMATIVE SIGNIFICANCE MUST BE DETERMINED ACCORDING TO:

THE PARTICULAR INSTRUMENT;

APPLICABLE INTERNATIONAL LAW;

AND

THE RELEVANT LEGAL CONTEXT.

SOURCE TYPE:

UNITED NATIONS SECURITY COUNCIL RESOLUTION

STATUS:

ITS LEGAL EFFECT MUST BE DETERMINED FROM:

THE UNITED NATIONS CHARTER;

THE PARTICULAR RESOLUTION;

AND

THE RELEVANT LEGAL CONTEXT.

SOURCE TYPE:

UNESCO RECOMMENDATION

STATUS:

***INTERNATIONAL STANDARD-SETTING RECOMMENDATION;
NON-BINDING AS A RECOMMENDATION.***

SOURCE TYPE:

CUSTOMARY INTERNATIONAL LAW

STATUS:

***MUST BE ESTABLISHED ACCORDING TO INTERNATIONAL LAW.
THIS CONSTITUTION CANNOT CREATE CUSTOM BY DECLARATION.***

SOURCE TYPE:

AUTHORIAL CONSTITUTIONAL, ETHICAL OR POLICY PRINCIPLE

STATUS:

***NON-BINDING PROPOSAL UNLESS INDEPENDENTLY GIVEN LEGAL EFFECT
THROUGH A LAWFUL PROCESS.***

E. INTERPRETIVE SAFEGUARD

Nothing in this Annexure shall be interpreted as asserting that:

1. every cited treaty binds every State;
2. every treaty provision has identical legal status outside its treaty framework;
3. treaty participation alone resolves every question concerning interpretation, jurisdiction or application;
4. every United Nations General Assembly resolution constitutes binding international law;
5. every United Nations Security Council resolution has identical legal effect;
6. every UNESCO recommendation creates treaty obligations;
7. every international declaration creates compulsory jurisdiction;
8. citation creates consent;
9. normative similarity creates representation;
10. publication creates legal personality;
11. an authorial principle becomes customary international law merely through repetition or publication;

12. a source cited for one constitutional theme supports every other proposition in this Constitution;
13. this Constitution modifies, expands or extinguishes an existing international obligation;
14. stronger moral aspiration may be presented as existing binding law;
15. international legal authority may be created through authorial declaration; or
16. uncertainty concerning source status may be concealed for rhetorical advantage.

THE GOVERNING RULE IS:

LAW SHALL REMAIN LAW.

NON-BINDING NORMS SHALL REMAIN NON-BINDING.

AUTHORIAL PROPOSALS SHALL REMAIN PROPOSALS.

AND

UNCERTAINTY SHALL REMAIN VISIBLE UNTIL THE LAW OR EVIDENCE RESOLVES IT.

F. DOCUMENTARY VERIFICATION AND TEMPORAL-ACCURACY PRINCIPLE

For every final authenticated edition:

1. official primary legal sources should be preferred where reasonably available;
2. authoritative institutional sources should be used where appropriate;
3. treaty participation, reservations, declarations, institutional mandates and other time-sensitive information should be reverified as close as reasonably practicable to authentication;
4. material discrepancies should be resolved or transparently qualified before final signature;
5. historical versions of sources shall not be silently substituted for current legal status where current status is material;
6. the text of a legal source shall be distinguished from:
 - (a) interpretation;
 - (b) policy inference;
 - (c) ethical reasoning; and

(d) the author's own proposal;

7. secondary sources may assist understanding but shall not silently replace authoritative primary material where primary material is available and necessary to establish legal status;

8. time-sensitive numerical participation figures need not be permanently embedded in this Constitution unless their inclusion serves a necessary documentary purpose;

9. where such figures are included, their verification date should be identified;

10. search-result absence shall not by itself establish the legal or historical non-existence of a source;

11. a material error identified after publication should be transparently corrected in an identifiable later edition or documentary record; and

12. sufficient source information should be preserved to permit later independent verification.

G. FINAL SOURCE-INTEGRITY FORMULA

CITE WHAT EXISTS.

VERIFY WHAT CAN CHANGE.

DISTINGUISH WHAT BINDS.

IDENTIFY WHAT GUIDES.

DECLARE WHAT IS PROPOSED.

ACKNOWLEDGE WHAT IS UNCERTAIN.

DO NOT TURN ASPIRATION INTO LAW.

DO NOT TURN LAW INTO PROPAGANDA.

DO NOT TURN REFERENCE INTO CONSENT.

DO NOT TURN SIMILARITY INTO DERIVATION.

DO NOT TURN RECEIPT INTO ENDORSEMENT.

AND

WHERE LAW PROVIDES A PATH TOWARD PEACE,

USE THAT PATH

WITH

HONESTY,

***PRECISION,
RESPONSIBILITY,
HUMAN DIGNITY,
AND
ARAM.***

VERIFICATION DATE: 05 SEPTEMBER 2026

ANNEXURE II

DURABLE PEACE-SOLUTION ARCHITECTURE FROM ROOT CAUSES TO PREVENTION, PEACEFUL RESOLUTION, REMEDY, LEARNING AND NON- RECURRENCE

A. PURPOSE AND LEGAL CHARACTER

1. This Annexure consolidates the practical, preventive and corrective solution architecture underlying this Constitution.
2. It is intended to translate constitutional aspiration into structured pathways for lawful, peaceful and evidence-informed action.
3. It does not create:
 - (a) international jurisdiction;
 - (b) compulsory institutional authority;
 - (c) supranational sovereignty;
 - (d) automatic enforcement authority;
 - (e) compulsory monitoring;
 - (f) compulsory reporting;
 - (g) mandatory financing;
 - (h) sanctions authority;
 - (i) military or policing authority; or
 - (j) authority to intervene contrary to Applicable Law.
4. Every proposed pathway remains subject to:

APPLICABLE LAW;

LAWFUL COMPETENCE;

HUMAN DIGNITY;

SOVEREIGN EQUALITY;

NON-INTERVENTION;

NECESSARY CONSENT WHERE REQUIRED;

AND

THE RIGHTS AND SAFEGUARDS APPLICABLE TO THE PERSONS AND INSTITUTIONS CONCERNED.

5. Its operational purpose is:

IDENTIFY THE PROBLEM.

ESTABLISH THE FACTS.

UNDERSTAND THE ROOT CAUSES.

IDENTIFY WHO MAY ACT LAWFULLY.

PREVENT ESCALATION.

BUILD CAPACITY.

PROTECT HUMAN DIGNITY.

PRESERVE COMMUNICATION.

USE PEACEFUL AND LAWFUL PATHWAYS.

ADDRESS HARM.

CORRECT FAILURE.

LEARN.

ADAPT.

AND REDUCE RECURRENCE.

B. THE UNIVERSAL PEACE-SOLUTION CYCLE

The general solution architecture is:

IDENTIFY THE PROBLEM → ESTABLISH RELIABLE FACTS → DISTINGUISH FACT FROM ASSUMPTION, PROPAGANDA AND UNVERIFIED CLAIM → IDENTIFY ROOT CAUSES AND CONTRIBUTING CONDITIONS → IDENTIFY PERSONS, COMMUNITIES, INSTITUTIONS AND SYSTEMS AT RISK → IDENTIFY THE LAWFUL AND COMPETENT ACTOR → IDENTIFY FORESEEABLE PATHWAYS OF HARM → PREVENT FORESEEABLE HARM → BUILD NECESSARY HUMAN, TECHNICAL, LEGAL AND INSTITUTIONAL CAPACITY → PRESERVE COMMUNICATION → DE-ESCALATE →

PROTECT HUMAN DIGNITY, LIFE AND LAWFUL RIGHTS → USE PEACEFUL SETTLEMENT → IMPLEMENT THE LEAST HARMFUL EFFECTIVE LAWFUL RESPONSE → MONITOR EFFECTS WITHOUT POLICING THOUGHT → ESTABLISH ACCOUNTABILITY WHERE LEGALLY AVAILABLE → CORRECT AND REMEDY WHERE APPROPRIATE → RECONCILE WHERE POSSIBLE WITHOUT COMPELLED FORGIVENESS OR FORCED FORGETTING → PRESERVE LESSONS → REFORM FAILED SYSTEMS → REVIEW RESULTS → ADAPT TO EVIDENCE → PREVENT RECURRENCE.

No stage of this cycle creates authority that does not independently exist.

C. ROOT-CAUSE PEACE FRAMEWORK

1. Durable peace requires attention not only to visible conflict, but also to conditions that may, in particular contexts, contribute to destructive escalation.

2. Relevant conditions may include:

- (a) unresolved grievances;
- (b) fear and insecurity;
- (c) dehumanization;
- (d) hatred and inherited hostility;
- (e) revenge cycles;
- (f) severe or persistent injustice;
- (g) exclusion and unlawful discrimination;
- (h) exploitation;
- (i) corruption;
- (j) deprivation;
- (k) loss of dignified opportunity;
- (l) destructive misinformation or manipulation;
- (m) institutional failure;
- (n) collapse of trusted communication;
- (o) competition over resources;
- (p) environmental stress;
- (q) irresponsible technological use;

- (r) failures of accountability;
- (s) impunity where Applicable Law requires accountability;
- (t) political or social polarization;
- (u) breakdown of fair grievance mechanisms;
- (v) repeated exposure to violence; and
- (w) failure to preserve lessons from previous harm.

3. No single factor shall automatically be presumed to cause violence or war.

4. Root-cause analysis shall remain:

CONTEXTUAL;

EVIDENCE-INFORMED;

NON-DISCRIMINATORY;

CORRECTABLE;

AND

CONSISTENT WITH APPLICABLE LAW.

5. A diagnosis that wrongly assigns collective guilt or predetermined blame shall not be treated as a legitimate peace analysis.

D. WAR-PREVENTION ARCHITECTURE

Where international tension may escalate toward armed conflict, the preferred preventive pathway is:

EARLY RISK IDENTIFICATION → FACTUAL CLARIFICATION → DISTINGUISH VERIFIED INFORMATION FROM RUMOUR, MANIPULATION AND UNCERTAINTY → PRESERVATION OF DIPLOMATIC CONTACT → DIRECT COMMUNICATION AND CRISIS CHANNELS → DE-ESCALATORY MEASURES → NEGOTIATION → ENQUIRY, MEDIATION OR CONCILIATION WHERE APPROPRIATE → ARBITRATION OR JUDICIAL SETTLEMENT WHERE LAWFULLY AVAILABLE, ACCEPTED OR OTHERWISE COMPETENT → REGIONAL AGENCIES, ARRANGEMENTS OR OTHER PEACEFUL MEANS WHERE APPROPRIATE → CONTINUED PROTECTION OF CIVILIANS AND OTHER PERSONS PROTECTED BY APPLICABLE LAW → POST-CRISIS REVIEW → CORRECTION OF ESCALATION FAILURES → NON-RECURRENCE MEASURES.

No step in this architecture alters the Charter of the United Nations or Applicable International Law concerning the threat or use of force, self-defence, collective security or other relevant matters.

COMMUNICATION IS NOT CAPITULATION.

DE-ESCALATION IS NOT SURRENDER.

***PEACEFUL SETTLEMENT SHOULD BE PURSUED BEFORE IRREVERSIBILITY
WHEREVER LAWFULLY AND PRACTICABLY POSSIBLE.***

E. HUMAN CONSCIENCE AND DESTRUCTIVE-CONDUCT PREVENTION

1. This Constitution does not criminalize or seek governmental ownership of private human emotion.

2. Its concern is the transition from difficult emotion, grievance or destructive impulse into harmful conduct.

3. The preventive pathway is:

***EMOTION, LOSS OR GRIEVANCE → SELF-AWARENESS → FACTUAL UNDERSTANDING
→ REFLECTION → EMOTIONAL RESTRAINT → EMPATHY AND HUMANIZATION →
PEACEFUL COMMUNICATION → ACCESS TO A LAWFUL GRIEVANCE MECHANISM →
FAIR CONSIDERATION → PEACEFUL RESOLUTION WHERE POSSIBLE → REPAIR
WHERE APPROPRIATE → LEARNING → PREVENTION OF RECURRENCE.***

4. Accordingly:

JEALOUSY NEED NOT BECOME INJUSTICE.

GREED NEED NOT BECOME EXPLOITATION.

ANGER NEED NOT BECOME VIOLENCE.

GRIEVANCE NEED NOT BECOME HATRED.

HATRED NEED NOT BECOME DEHUMANIZATION.

LOSS NEED NOT BECOME REVENGE.

AMBITION NEED NOT BECOME DOMINATION.

FEAR NEED NOT BECOME PERSECUTION.

AND

DISAGREEMENT NEED NOT BECOME WAR.

F. VIOLENCE, CRIME AND SERIOUS HARM

For murder, serious violence, robbery, fraud, exploitation, abuse and other serious harm, the constitutional pathway is:

***PREVENTION → RISK REDUCTION → ACCESSIBLE LAWFUL REPORTING →
IMMEDIATE PROTECTION WHERE NECESSARY AND LAWFULLY AVAILABLE → FAIR
AND COMPETENT INVESTIGATION → DUE PROCESS → INDIVIDUAL***

RESPONSIBILITY ACCORDING TO APPLICABLE LAW → PROPORTIONATE LAWFUL ACCOUNTABILITY → VICTIM AND SURVIVOR SAFETY AND SUPPORT → REMEDY WHERE LEGALLY AVAILABLE → REHABILITATION WHERE APPROPRIATE → INSTITUTIONAL CORRECTION WHERE SYSTEMIC FAILURE EXISTS → RECURRENCE PREVENTION.

Justice shall reject:

COLLECTIVE GUILT;

ARBITRARY PUNISHMENT;

CRUELTY;

DEHUMANIZATION;

AND

REVENGE DISGUISED AS ACCOUNTABILITY.

G. JUSTICE WITHOUT VENGEANCE

The constitutional justice sequence is:

TRUTH → FAIR PROCESS → INDIVIDUAL RESPONSIBILITY → PROPORTIONATE LAWFUL ACCOUNTABILITY → VICTIM DIGNITY → PROTECTION WHERE REQUIRED → REMEDY WHERE AVAILABLE → REHABILITATION WHERE APPROPRIATE → RESTORATIVE PROCESSES WHERE VOLUNTARY, LAWFUL AND SUITABLE → RECONCILIATION WHERE FREELY POSSIBLE → NON-RECURRENCE.

Forgiveness shall not be compelled.

Reconciliation shall not erase truth.

Memory shall not preserve hatred as an obligation.

Accountability shall not become collective punishment.

JUSTICE SHALL NOT REQUIRE VENGEANCE.

H. WOMEN — EQUALITY, SAFETY, AGENCY AND PARTICIPATION

The practical pathway concerning women is:

EQUAL HUMAN DIGNITY → EQUAL LEGAL AND HUMAN RECOGNITION

ACCORDING TO APPLICABLE LAW → EDUCATION AND CAPABILITY → ECONOMIC AND SOCIAL OPPORTUNITY → SAFETY AND PREVENTION → ACCESSIBLE REPORTING, CARE AND SUPPORT → LAWFUL PROTECTION → FAIR INVESTIGATION AND DUE PROCESS → ACCOUNTABILITY WHERE REQUIRED → REMEDY AND RECOVERY → MEANINGFUL PARTICIPATION IN PUBLIC LIFE, SCIENCE,

TECHNOLOGY, PEACEBUILDING AND LEADERSHIP → INSTITUTIONAL REVIEW → NON-RECURRENCE.

Women shall not be reduced to objects of protection.

Protection shall not become paternalistic control.

Women are equal participants in the construction, preservation and leadership of peace.

I. CHILDREN — BREAKING THE INHERITANCE OF HATRED

The intergenerational prevention pathway is:

SAFETY → CARE → HEALTHY DEVELOPMENT → EDUCATION → CRITICAL THINKING → EMPATHY → HISTORICAL LEARNING WITHOUT COLLECTIVE GUILT → DIGITAL, MEDIA AND INFORMATION LITERACY → AI LITERACY APPROPRIATE TO DEVELOPMENT → PEACEFUL CONFLICT-RESOLUTION CAPABILITY → OPPORTUNITY → PARTICIPATION CONSISTENT WITH AGE, MATURITY AND APPLICABLE LAW → A GENERATION LESS BURDENED BY INHERITED HOSTILITY.

Children shall not be taught that historical memory requires continuing hatred.

Historical truth may be preserved without assigning inherited enemies.

THE CHILD BORN TODAY SHOULD NOT BE ASSIGNED AN ENEMY BY A WAR FOUGHT BEFORE THAT CHILD WAS BORN.

J. OLDER PERSONS AND INTERGENERATIONAL CONTINUITY

The constitutional pathway is:

DIGNITY → INDEPENDENCE WHERE POSSIBLE → SAFETY AND CARE → PROTECTION FROM ABUSE, NEGLECT AND EXPLOITATION → MEANINGFUL PARTICIPATION → VOLUNTARY SHARING OF EXPERIENCE, SKILLS AND KNOWLEDGE → INTERGENERATIONAL DIALOGUE → PRESERVATION OF USEFUL MEMORY → CONTINUITY WITHOUT DOMINATION.

Age shall not create automatic authority.

Youth shall not justify disregard for experience.

EXPERIENCE MERITS LISTENING, NOT DOMINATION.

K. PEACE EDUCATION ARCHITECTURE

1. Peace education should progressively strengthen:

(a) Human Dignity;

- (b) non-violence;
- (c) peaceful dispute resolution;
- (d) empathy;
- (e) emotional self-regulation;
- (f) critical reasoning;
- (g) historical understanding;
- (h) media literacy;
- (i) digital literacy;
- (j) AI literacy;
- (k) resistance to dehumanization;
- (l) responsible citizenship;
- (m) environmental responsibility;
- (n) lawful methods of expressing grievance;
- (o) communication across difference; and
- (p) respect for lawful diversity.

2. The learning pathway is:

LEARN → QUESTION → VERIFY → UNDERSTAND → REASON → HUMANIZE → COMMUNICATE → RESOLVE PEACEFULLY → REFLECT → IMPROVE.

3. Peace education shall not become:

THOUGHT CONTROL;

COMPULSORY IDEOLOGY;

COMPULSORY RELIGION;

PARTISAN INDOCTRINATION;

COMPULSORY CULTURAL CONFORMITY;

OR

SUPPRESSION OF LAWFUL QUESTIONING.

THE PURPOSE IS NOT TO CONTROL THE HUMAN MIND.

IT IS TO STRENGTHEN THE HUMAN CAPACITY FOR RESPONSIBLE, PEACEFUL CHOICE.

L. ELEMENTAL STEWARDSHIP AND NON-WEAPONIZATION

For Earth, Water, Air, Fire/Energy and Space, understood as the Constitution's ethical stewardship framework, the solution pathway is:

UNDERSTAND HUMAN AND ECOLOGICAL DEPENDENCE → IDENTIFY RISK → DISTINGUISH PEACEFUL USE FROM DANGEROUS MISUSE → PREVENT FORESEEABLE CATASTROPHIC MISUSE → PROTECT LIFE-SUPPORTING SYSTEMS → STRENGTHEN SAFETY, RESILIENCE AND RECOVERY CAPACITY → USE SCIENCE RESPONSIBLY → APPLY EXISTING INTERNATIONAL LAW ACCORDING TO ITS ACTUAL SCOPE → PROMOTE STRONGER PEACEFUL RESTRAINT ONLY THROUGH LAWFUL PROCESSES → RESPOND TO HARM → RESTORE WHERE POSSIBLE → LEARN → PREVENT RECURRENCE.

The broader constitutional aspiration is:

WHAT SUSTAINS LIFE SHOULD NOT, THROUGH HUMAN CHOICE, BE DELIBERATELY TRANSFORMED INTO AN INSTRUMENT OF UNLAWFUL, INDISCRIMINATE OR CATASTROPHIC DESTRUCTION.

M. CLIMATE, ENVIRONMENTAL STRESS AND RESOURCE-RELATED PEACE

Where environmental stress may contribute to instability, the preventive pathway is:

SCIENTIFIC UNDERSTANDING → EARLY IDENTIFICATION OF RISK → ASSESSMENT OF VULNERABILITY AND EXPOSURE → RESILIENCE → LAWFUL, EQUITABLE AND CONTEXT-SENSITIVE MANAGEMENT → COOPERATION WHERE APPROPRIATE → PROTECTION OF VULNERABLE PERSONS → PEACEFUL MANAGEMENT OF RESOURCE-RELATED DISPUTES → ADAPTATION → REVIEW → RECURRENCE REDUCTION.

Environmental stress shall not automatically be characterized as the sole cause of conflict.

Correlation shall not automatically be treated as causation.

Evidence, context and Applicable Law shall govern.

N. ARTIFICIAL INTELLIGENCE AND RESPONSIBLE TECHNOLOGY

The responsible-technology pathway is:

DEFINE THE PURPOSE, USE AND CONTEXT → ASSESS CAPABILITY, SCALE, AUTONOMY AND RISK → IDENTIFY RESPONSIBLE HUMAN AND INSTITUTIONAL ACTORS → ASSESS RIGHTS, DIGNITY AND SAFETY CONSEQUENCES → APPLY PROPORTIONATE SAFEGUARDS → BUILD SAFETY AND SECURITY BY DESIGN → PRESERVE MEANINGFUL HUMAN AGENCY → TEST SAFETY, SECURITY, RELIABILITY AND ROBUSTNESS → PROTECT PRIVACY AND HUMAN DIGNITY → REDUCE

DISCRIMINATORY, MANIPULATIVE AND DECEPTIVE HARM → DEPLOY LAWFULLY → MONITOR HIGH-CONSEQUENCE USE → ENABLE INCIDENT REPORTING WHERE LAWFULLY APPROPRIATE → INVESTIGATE FAILURE → PROVIDE ACCOUNTABILITY AND REMEDY WHERE APPLICABLE → CORRECT → LEARN → PREVENT RECURRENCE.

CAPABILITY IS NOT SOVEREIGNTY.

AUTOMATION IS NOT ABSOLUTION.

TECHNOLOGICAL NOVELTY IS NOT LEGAL IMMUNITY.

TECHNOLOGY SHALL SERVE HUMAN POSSIBILITY.

HUMANITY SHALL REMAIN RESPONSIBLE

FOR THE WORLD IT BUILDS.

O. AI AND WAR-PREVENTION ARCHITECTURE

Where Artificial Intelligence or automated systems may affect international peace or security, special attention should be directed toward:

1. false or manipulated information;
2. synthetic impersonation;
3. deepfakes;
4. misidentification;
5. unreliable classification;
6. automation bias;
7. automated escalation;
8. cyber-enabled disruption;
9. failures of meaningful human oversight;
10. compressed decision time;
11. unreliable prediction;
12. interaction among automated systems;
13. unauthorized system manipulation;
14. loss of communications integrity; and
15. catastrophic or irreversible consequences.

The preventive sequence is:

VERIFY → AUTHENTICATE CRITICAL INFORMATION WHERE PRACTICABLE → RETAIN MEANINGFUL HUMAN JUDGMENT → QUESTION MACHINE-GENERATED CERTAINTY → PRESERVE HUMAN COMMUNICATION → MAINTAIN ESCALATION CONTROLS → PREVENT AUTOMATIC ESCALATION → USE APPROPRIATE FAIL-SAFE, FAIL-SECURE AND CORRECTIVE MECHANISMS → REVIEW INCIDENTS → CORRECT SYSTEMIC WEAKNESS → LEARN → PREVENT RECURRENCE.

A FALSE IMAGE,

FALSE SIGNAL OR FALSE MACHINE INFERENCE SHOULD NEVER, THROUGH CARELESSNESS, BECOME THE FIRST STEP TOWARD A REAL WAR.

P. INFORMATION-INTEGRITY ARCHITECTURE

1. This Constitution rejects both:

UNACCOUNTABLE INFORMATION MANIPULATION;

AND

CENTRALIZED OWNERSHIP

OF TRUTH.

2. The preferred pathway is:

SOURCE AWARENESS → AUTHENTICATION WHERE RELEVANT → VERIFICATION → CONTEXT → CRITICAL REASONING → DISCLOSURE OF SYNTHETIC, ALTERED OR MANIPULATED CONTENT WHERE APPROPRIATE → CORRECTION → ACCOUNTABILITY FOR UNLAWFUL HARM WHERE APPLICABLE → PUBLIC RESILIENCE.

3. Information integrity shall not become a pretext for:

UNLAWFUL CENSORSHIP;

SUPPRESSION OF LEGITIMATE DISAGREEMENT;

POLITICAL CONTROL OF TRUTH;

OR

PUNISHMENT OF LAWFUL CRITICISM.

Q. INSTITUTIONAL-FAILURE ARCHITECTURE

Where recurring harm reveals a possible institutional problem:

IDENTIFY THE FAILURE → ESTABLISH FACTS → IDENTIFY PERSONS OR SYSTEMS AT RISK → DISTINGUISH INDIVIDUAL FROM SYSTEMIC CAUSES → IDENTIFY LAWFUL RESPONSIBILITY → PROTECT AFFECTED PERSONS → CORRECT THE PROCESS → ADDRESS CAPACITY, DESIGN, RESOURCE OR GOVERNANCE GAPS → ESTABLISH ACCOUNTABILITY WHERE APPLICABLE → PROVIDE REMEDY WHERE

***AVAILABLE → PRESERVE LESSONS → REVIEW PERFORMANCE → MONITOR
CORRECTIVE EFFECT → PREVENT RECURRENCE.***

No institution should be declared responsible merely because harm occurred.

No institution should escape scrutiny merely because failure is systemic.

SYSTEMIC FAILURE REQUIRES SYSTEMIC LEARNING.

R. IMPLEMENTATION ARCHITECTURE

Where an actor voluntarily or lawfully seeks to apply principles from this Constitution, the implementation test is:

1. What specific problem is being addressed?
2. What reliable evidence establishes its existence and scale?
3. What are the material root causes and enabling conditions?
4. Who possesses lawful competence?
5. Whose consent, participation or consultation is legally or practically required?
6. What preventive action is possible?
7. What capacity, knowledge, institutions and resources are required?
8. What Human Rights, Human Dignity and legal safeguards must be protected?
9. What is the least harmful effective lawful pathway?
10. How will implementation actually occur?
11. Who is responsible for each stage?
12. How will results be measured?
13. How will unintended consequences be detected?
14. What accountability framework applies?
15. What correction or remedy is available?
16. What lessons should be preserved?
17. How will the measure adapt to new evidence?
18. When should the measure be reviewed, changed or ended?
19. What new risks might the solution itself create?
20. How will recurrence be reduced?

THE LANGUAGE OF PEACE SHALL NEVER SUBSTITUTE FOR THE DISCIPLINE OF PRACTICAL IMPLEMENTATION.

S. ACCOUNTABILITY, CORRECTION AND REMEDY

1. Accountability should distinguish, according to evidence and Applicable Law, among:

GOOD-FAITH EFFORT THAT FAILED;

UNAVOIDABLE ERROR;

NEGLIGENT FAILURE;

RECKLESS CONDUCT WHERE RECOGNIZED BY LAW;

DELIBERATE WRONGDOING;

SYSTEMIC FAILURE;

AND

EVENTS BEYOND REASONABLE CONTROL.

2. Remedy should correspond, where Applicable Law provides, to:

- (a) the nature of the harm;
- (b) the rights affected;
- (c) causation;
- (d) responsibility;
- (e) jurisdiction;
- (f) available legal procedures;
- (g) vulnerability of affected persons; and
- (h) the remedy actually authorized.

3. Possible lawful responses may include, depending upon the applicable framework:

- (a) cessation;
- (b) correction;
- (c) restoration;
- (d) rehabilitation;
- (e) compensation;
- (f) restitution;

- (g) institutional reform;
- (h) procedural safeguards;
- (i) acknowledgment;
- (j) review; or
- (k) other remedies lawfully available.

4. This Constitution itself creates no automatic right to:

COMPENSATION;

REPARATION;

PUNISHMENT;

RESTITUTION;

APOLOGY;

OR

ANY OTHER COMPULSORY REMEDY.

NO ACCOUNTABILITY WITHOUT FAIRNESS.

NO REMEDY WITHOUT LAWFUL BASIS.

T. MEASUREMENT WITHOUT THOUGHT POLICING

Peace implementation may evaluate, where relevant, lawful and methodologically responsible:

- reductions in violence;
- civilian safety;
- access to peaceful dispute-resolution mechanisms;
- recurrence of preventable harm;
- institutional responsiveness;
- accessibility of justice;
- participation;
- protection of vulnerable persons;
- educational capability;
- correction of identified failures;

- environmental resilience;
- technological safety;
- incident frequency;
- access to remedy;
- recovery capacity; and
- other observable outcomes.

Metrics should be:

TRANSPARENT;

REVIEWABLE;

CONTEXT-SENSITIVE;

PROPORTIONATE;

AND

CAPABLE OF CORRECTION.

They should not claim to measure the moral purity of private thought.

MEASURE HARM.

MEASURE PREVENTION.

MEASURE CAPACITY.

MEASURE PROGRESS.

MEASURE RECURRENCE.

DO NOT CLAIM OWNERSHIP OF THE HUMAN MIND.

U. THE DURABLE - SOLUTION TEST

Before any measure is presented as a durable peace solution, ask cumulatively:

IS IT DIRECTED TOWARD A LEGITIMATE PEACEFUL PURPOSE?

IS IT LAWFUL?

IS IT BASED ON RELIABLE FACTS?

DOES IT DISTINGUISH FACT FROM ASSUMPTION?

DOES IT ADDRESS A MATERIAL ROOT CAUSE?

DOES IT RESPECT HUMAN DIGNITY?

DOES IT PRESERVE LAWFUL HUMAN FREEDOM?

IS THE RESPONSIBLE ACTOR LAWFULLY COMPETENT?

IS NECESSARY CONSENT PRESENT WHERE REQUIRED?

IS THE MEASURE NECESSARY AND PROPORTIONATE WHERE THOSE STANDARDS APPLY?

IS A LESS HARMFUL EFFECTIVE PATH AVAILABLE?

DOES IT PRESERVE SOVEREIGN EQUALITY?

DOES IT RESPECT NON-INTERVENTION?

DOES IT PROTECT THOSE WHO MAY BE UNINTENTIONALLY HARMED?

IS THE REQUIRED CAPACITY REALISTICALLY AVAILABLE?

CAN IMPLEMENTATION BE MONITORED?

CAN ITS EFFECT BE MEASURED?

CAN ERROR BE DETECTED?

CAN ERROR BE CORRECTED?

CAN HARM BE REMEDIED WHERE APPROPRIATE?

IS ACCOUNTABILITY CLEAR?

CAN THE APPROACH ADAPT TO EVIDENCE?

CAN IT END WHEN IT IS NO LONGER NECESSARY OR EFFECTIVE?

DOES IT REDUCE THE RISK OF RECURRENCE?

AND

COULD THE PROPOSED SOLUTION ITSELF BECOME A SOURCE OF INJUSTICE, DOMINATION OR NEW CONFLICT?

A SOLUTION THAT CREATES A GREATER PREVENTABLE WRONG IS NOT A DURABLE PEACE SOLUTION.

V. THE NON-DOMINATION SAFEGUARD

Nothing in this Annexure shall be used to justify:

AGGRESSION;

UNLAWFUL THREAT OR USE OF FORCE;

PREVENTIVE WAR;

UNLAWFUL INTERVENTION;

COLLECTIVE PUNISHMENT;

ARBITRARY DETENTION;

TORTURE OR OTHER PROHIBITED MISTREATMENT;

PERSECUTION;

THOUGHT POLICING;

COMPULSORY IDEOLOGY;

UNLAWFUL CENSORSHIP;

ARBITRARY OR UNLAWFUL SURVEILLANCE;

FABRICATED CONSENT;

FABRICATED REPRESENTATION;

COMPULSORY GLOBAL AUTHORITY;

SUPRANATIONAL SOVEREIGNTY;

WORLD GOVERNMENT;

OR

ANY POWER NOT INDEPENDENTLY ESTABLISHED BY APPLICABLE LAW.

A GOOD PURPOSE DOES NOT MAKE AN UNLAWFUL METHOD LAWFUL.

W. THE CONTINUITY LOOP

A durable peace architecture must remain capable of learning across time.

Therefore:

EACH CRISIS SHOULD PRODUCE A LESSON.

EACH LESSON SHOULD IMPROVE PREVENTION.

EACH FAILURE SHOULD TEST THE SYSTEM.

EACH CORRECTION SHOULD STRENGTHEN CAPACITY.

EACH REMEDY SHOULD INFORM PREVENTION WHERE APPROPRIATE.

EACH GENERATION SHOULD RECEIVE KNOWLEDGE WITHOUT INHERITING HATRED.

EACH SUCCESSFUL PEACEFUL PATHWAY SHOULD BE STUDIED WITHOUT ASSUMING THAT IT WILL WORK IDENTICALLY EVERYWHERE.

AND

EACH PEACEFUL SUCCESS SHOULD HELP MAKE THE NEXT PEACEFUL SUCCESS MORE POSSIBLE.

CONTINUITY IS NOT THE PRESERVATION OF OLD METHODS.

CONTINUITY IS THE PRESERVATION OF THE CAPACITY TO LEARN, CORRECT AND CONTINUE.

X. THE CONSTITUTIONAL PEACE EQUATION

The operational philosophy of this Constitution may be expressed symbolically as:

***PEACE = PREVENTION + HUMAN DIGNITY + TRUTH + PEACEFUL COMMUNICATION
+ LAWFUL JUSTICE + HUMAN AND INSTITUTIONAL CAPACITY + ACCOUNTABILITY +
CORRECTION + REMEDY + LEARNING + ADAPTATION + NON-RECURRENCE.***

This is an explanatory constitutional formulation.

It is not a mathematical, scientific or predictive equation.

No single element, standing alone, is presented as sufficient to guarantee peace.

Y. FINAL DURABLE - SOLUTION ARCHITECTURE

THE WORLD PEACE CONSTITUTION THEREFORE, PROPOSES:

DO NOT WAIT FOR WAR BEFORE BUILDING PEACE.

DO NOT WAIT FOR DEHUMANIZATION BEFORE TEACHING HUMAN DIGNITY.

DO NOT WAIT FOR VIOLENCE BEFORE CREATING PEACEFUL PATHWAYS.

*DO NOT WAIT FOR REVENGE BEFORE MAKING LAWFUL JUSTICE
ACCESSIBLE.*

*DO NOT WAIT FOR A CHILD TO INHERIT AN ENEMY BEFORE BREAKING THE
CYCLE.*

*DO NOT WAIT FOR INSTITUTIONS TO FAIL REPEATEDLY BEFORE BUILDING
ACCOUNTABILITY AND PRESERVING LESSONS.*

*DO NOT WAIT FOR TECHNOLOGICAL CAPABILITY TO OUTGROW HUMAN
RESPONSIBILITY BEFORE BUILDING SAFETY, OVERSIGHT AND
CORRECTABILITY.*

*DO NOT WAIT FOR FALSE INFORMATION TO CREATE REAL-WORLD
DESTRUCTION BEFORE BUILDING VERIFICATION AND RESILIENCE.*

*DO NOT WAIT FOR NATURAL OR LIFE-SUPPORTING SYSTEMS TO BECOME
INSTRUMENTS OF CATASTROPHIC MISUSE*

BEFORE STRENGTHENING LAWFUL RESTRAINT.

DO NOT WAIT FOR ENVIRONMENTAL STRESS TO BECOME A PEACE AND SECURITY CRISIS BEFORE BUILDING RESILIENCE AND PEACEFUL COOPERATION.

DO NOT WAIT FOR A SYSTEM TO COLLAPSE BEFORE ASKING WHETHER ITS FAILURE WAS FORESEEABLE.

AND

DO NOT CALL A PROBLEM SOLVED UNTIL THE CONDITIONS THAT MAKE ITS PREVENTABLE RECURRENCE LIKELY HAVE ALSO BEEN ADDRESSED AS FAR AS LAWFULLY, REASONABLY, EVIDENCE-RESPONSIVELY,

AND

PRACTICABLY POSSIBLE.

THE GOVERNING DISCIPLINE REMAINS:

NO PRINCIPLE WITHOUT A PATHWAY.

NO PROHIBITION WITHOUT PREVENTION.

NO RESPONSIBILITY WITHOUT IMPLEMENTATION.

NO ACCOUNTABILITY WITHOUT A LAWFUL CORRECTIVE PATHWAY.

NO PEACE WITHOUT ATTENTION TO ROOT CAUSES.

NO DURABLE SOLUTION WITHOUT LEARNING.

AND

NO SOLUTION WITHOUT LAWFUL LIMITS.

FROM ROOT CAUSES TO PREVENTION.

FROM PREVENTION TO PEACEFUL RESOLUTION.

FROM RESOLUTION TO LAWFUL JUSTICE AND REPAIR.

FROM REPAIR TO LEARNING.

FROM LEARNING TO CORRECTION.

FROM CORRECTION TO ADAPTATION.

FROM ADAPTATION TO NON-RECURRENCE.

AND

FROM ARMS TO ARAM.

ANNEXURE III

HISTORICAL-PRIORITY, DOCUMENTARY INTEGRITY AND CORRECTION RECORD

A. PURPOSE

1. This Annexure records the limited, qualified and evidence-dependent historical meaning of the title:

“THE WORLD’S FIRST WORLD PEACE CONSTITUTION — 2026.”

2. It establishes safeguards concerning:

- (a) historical accuracy;
- (b) documentary evidence;
- (c) acknowledgment of predecessors;
- (d) definition of the claimed category;
- (e) research limitations;
- (f) correction of material error;
- (g) edition and version continuity; and
- (h) preservation of documentary integrity.

3. Historical distinction is secondary to the substantive purpose of this Constitution.

4. The central purpose remains:

THE PREVENTION OF WAR;

THE PROTECTION OF HUMAN DIGNITY;

THE PEACEFUL RESOLUTION OF HUMAN DIFFERENCE;

AND

THE CONTINUOUS CONSTRUCTION OF DURABLE PEACE.

5. No historical-priority characterization shall be used to diminish, erase or misrepresent earlier contributions to peace, constitutional thought or international cooperation.

B. PRECISE HISTORICAL-PRIORITY CHARACTERIZATION

For purposes of this instrument, the expression:

“THE WORLD’S FIRST WORLD PEACE CONSTITUTION — 2026”

means only:

THE AUTHOR’S GOOD-FAITH, EVIDENCE-DEPENDENT HISTORICAL-PRIORITY CHARACTERIZATION OF THE FIRST KNOWN COMPREHENSIVE WORLD PEACE CONSTITUTION WITHIN THE SPECIFIC CUMULATIVE CONSTITUTIONAL CATEGORY DEFINED BY THIS INSTRUMENT, BASED UPON DOCUMENTARY RESEARCH REASONABLY AVAILABLE AS OF THE VERIFICATION DATE.

The characterization is therefore:

LIMITED;

CATEGORY-SPECIFIC;

RESEARCH-DEPENDENT;

EVIDENCE-SENSITIVE;

CORRECTABLE;

NON-EXCLUSIVE;

AND

NON-ABSOLUTE.

It is not presented as omniscient proof concerning every document created throughout human history.

C. WHAT IS NOT CLAIMED

This Constitution does not claim to be:

1. the first human writing about peace;
2. the first philosophy of peace;
3. the first moral, spiritual or civilizational teaching concerning peace;
4. the first international peace proposal;
5. the first peace declaration;
6. the first peace treaty;
7. the first constitutional text addressing peace;
8. the first proposed world constitution of any kind;
9. the first world-federalist constitution;

10. the first world-government proposal;
 11. the first proposal for international institutions;
 12. the first human-rights framework;
 13. the first proposal concerning disarmament, demilitarization or non-violence;
 14. the first environmental or planetary-governance framework;
 15. the first intergenerational framework;
 16. the first ethical framework concerning science or technology;
 17. the first peace-education framework;
 18. the first proposal concerning Artificial Intelligence and peace;
- or

19. the first human effort to imagine a world beyond recurring war.

D. THE SPECIFIC CUMULATIVE CATEGORY

1. The historical characterization does not rest merely upon the labels:

“A WORLD CONSTITUTION” or

“A PEACE DOCUMENT.”

2. The claimed category concerns an independently authored, constitutionally structured,

Good-Faith, Non-Binding World Peace Constitution

whose principal constitutional purpose is:

THE PREVENTION OF RECURRING WAR;

THE CONSTRUCTION OF DURABLE PEACE; AND

THE PRESERVATION OF HUMAN DIGNITY AND CONTINUITY.

3. The cumulative category integrates, within one coherent constitutional instrument:

- (a) World Peace as the central constitutional purpose;
- (b) Human Dignity;
- (c) Aram as a voluntary, non-compulsory ethical orientation;
- (d) prevention of war;
- (e) peaceful settlement of disputes;

- (f) root-cause prevention;
- (g) early prevention before irreversible escalation;
- (h) human conscience without thought control;
- (i) justice without vengeance;
- (j) rejection of collective guilt;
- (k) prevention of inherited hatred;
- (l) women's equal dignity, agency and participation;
- (m) protection, development and peaceful possibility for children;
- (n) dignity, autonomy and participation of older persons;
- (o) intergenerational continuity;
- (p) responsible concern for Future Generations without invented representation;
- (q) Elemental Stewardship concerning Earth, Water, Air, Fire/Energy and Space;
- (r) non-weaponization principles concerning life-supporting systems;
- (s) responsible science;
- (t) responsible technology;
- (u) human accountability for Artificial Intelligence;
- (v) information integrity;
- (w) practical implementation architecture;
- (x) accountability, correction and remedy;
- (y) institutional learning;
- (z) adaptive review;
- (aa) non-recurrence;
- (bb) strict source-status discipline;
- (cc) international-law safeguards;
- (dd) sovereign equality;
- (ee) territorial integrity;
- (ff) political independence;

- (gg) non-intervention;
- (hh) rejection of World Government through this instrument;
- (ii) rejection of supranational sovereignty;
- (jj) rejection of invented consent and representation; and
- (kk) an expressly non-binding durable peace-solution architecture.

4. The claimed historical category therefore, depends upon the cumulative integration of these characteristics.

5. No individual feature, standing alone, is claimed as historically unique.

6. Subsequent discovery that one or more individual concepts existed earlier does not itself resolve the cumulative-category question.

7. Conversely, the presence of different terminology in an earlier instrument shall not be used artificially to exclude a substantively comparable precedent.

E. ACKNOWLEDGMENT OF HISTORICAL PREDECESSORS

1. This Constitution expressly acknowledges that substantial proposals for constitutional world organization existed long before 2026.

2. Among the historical materials reviewed for this edition are records concerning:

THE COMMITTEE TO FRAME A WORLD CONSTITUTION,

associated with the University of Chicago; and THE PRELIMINARY DRAFT OF A WORLD CONSTITUTION developed through that initiative.

3. The Committee's work belongs to the historical tradition of proposals for constitutional world organization and world government.

4. This Constitution also acknowledges:

THE CONSTITUTION FOR THE FEDERATION OF EARTH,

associated with the World Constitution and Parliament Association.

5. That instrument represents a substantial world-federal and world-government constitutional tradition.

6. These initiatives, together with other historical peace, federalist, constitutional and institutional proposals, form part of the wider intellectual history of attempts to organize humanity beyond exclusive reliance upon the sovereign State.

7. Their existence shall not be minimized, mischaracterized or erased in order to protect the title of this Constitution.

8. Acknowledging predecessors does not establish that the present Constitution is derived from them.

9. Nor does independent similarity establish copying without supporting evidence.

HISTORICAL PREDECESSORS SHALL BE ACKNOWLEDGED WITHOUT INVENTING DERIVATION AND WITHOUT ERASING DIFFERENCE.

F. STRUCTURAL DISTINCTION FROM WORLD-GOVERNMENT PREDECESSORS

1. A significant structural distinction of the present Constitution is its express refusal to establish through this instrument:

- (a) a world State;
- (b) a World Government;
- (c) a compulsory world legislature;
- (d) a supranational executive;
- (e) a compulsory world judiciary;
- (f) global taxation authority;
- (g) compulsory global financing;
- (h) a global military;
- (i) compulsory global police power;
- (j) supranational sovereignty; or
- (k) compulsory political authority over humanity.

2. Its architecture instead seeks:

GLOBAL ASPIRATION WITHOUT GLOBAL GOVERNMENT.

COOPERATION WITHOUT INVENTED CONSENT.

RESPONSIBILITY WITHOUT UNLAWFUL INTERVENTION.

HUMAN SOLIDARITY WITHOUT SUPRANATIONAL SOVEREIGNTY.

AND

PEACE WITHOUT GLOBAL DOMINATION.

3. This distinction forms part of the cumulative historical category.
4. It does not, by itself, prove historical priority.
5. Nor shall the distinction be used to imply that earlier world-federal or world-government traditions lacked historical, intellectual or constitutional significance.

G. NO ERASURE OF PREDECESSOR CONTRIBUTIONS

Historical priority shall never require historical erasure.

Accordingly:

1. earlier peace thinkers shall remain part of the historical record;
2. earlier constitutional proposals shall remain acknowledged;
3. earlier world-federalist and world-government movements shall not be distorted merely to strengthen this Constitution's title;
4. ideas originating elsewhere shall not knowingly be falsely attributed to this Constitution;
5. independent similarity shall not automatically imply copying or derivation;
6. later discovery of an earlier contribution shall be assessed fairly;
7. inconvenient contrary evidence shall not be suppressed; and
8. historical categorization shall not become a competition for prestige at the expense of truth.

THE PAST DOES NOT NEED TO DISAPPEAR FOR A NEW CONTRIBUTION TO HAVE VALUE.

H. EVIDENTIARY STANDARD

1. The historical-priority characterization shall be maintained only in Good Faith.
2. Relevant documentary evidence may include:
 - (a) original historical texts;
 - (b) authenticated reproductions;
 - (c) library catalogues;
 - (d) archival finding aids;
 - (e) institutional archives;
 - (f) bibliographic records;

- (g) academic publications;
- (h) dated public records;
- (i) preserved digital records;
- (j) repository records;
- (k) authenticated editions;
- (l) contemporaneous publications; and
- (m) other reasonably reliable documentary material.

3. Greater evidentiary weight should ordinarily be given to sources possessing stronger documentary provenance.

4. Search-engine results alone shall not be treated as exhaustive historical research.

5. No single:

SEARCH ENGINE;

DATABASE;

ARCHIVE;

LIBRARY;

LANGUAGE;

COUNTRY;

REPOSITORY;

OR

DIGITAL COLLECTION

can guarantee discovery of every relevant document ever produced.

6. Historical assessment should therefore, remain open to additional credible evidence.

ABSENCE FROM A SEARCH RESULT SHALL NOT BE EQUATED WITH PROOF OF HISTORICAL NON-EXISTENCE.

I. VERIFICATION LIMITATION

The historical-priority characterization does not assert complete historical knowledge.

Its evidentiary limits may include:

1. materials discoverable at the time of research;

2. restricted or inaccessible archives;
3. language barriers;
4. incomplete cataloguing;
5. incomplete digitization;
6. unpublished manuscripts;
7. private collections;
8. lost, destroyed or inaccessible records;
9. inconsistent historical terminology;
10. documents known by alternate titles;
11. imperfect indexing; and
12. future discovery of earlier material.

The proper formulation is therefore:

FIRST KNOWN WITHIN THE DEFINED CUMULATIVE CATEGORY, BASED UPON REASONABLY AVAILABLE DOCUMENTARY RESEARCH, NOT FIRST ABSOLUTELY PROVEN ACROSS ALL HUMAN HISTORY.

J. CORRECTION MECHANISM

1. If reliable evidence later establishes an earlier instrument that materially satisfies the same cumulative category, the historical-priority characterization shall be reviewed.
2. Review should examine:
 - (a) the authenticity and date of the earlier instrument;
 - (b) whether the relevant version existed before the present Constitution;
 - (c) whether the comparison concerns substantially the same cumulative category;
 - (d) whether apparent similarity is substantive rather than merely terminological;
 - (e) documentary provenance; and
 - (f) contrary evidence.
3. Where correction is warranted:

- (a) the title, subtitle or historical characterization should be corrected in a later identifiable edition;
- (b) the reason for correction should be recorded;
- (c) prior authenticated editions shall not be secretly altered;
- (d) the documentary chain should be preserved;
- (e) public records under the author's control should be corrected where reasonably appropriate; and
- (f) the substantive peace architecture should remain independently assessable upon its merits.

4. A correction of historical priority shall not be treated as invalidating the constitutional substance of the instrument.

IF EVIDENCE PROVES OTHERWISE, THE HISTORICAL CLAIM SHALL CHANGE.

THE COMMITMENT TO PEACE NEED NOT.

K. NO LEGAL CONSEQUENCE FROM HISTORICAL PRIORITY

Even if the historical-priority characterization were conclusively established, it would create no:

- 1. international legal personality;
- 2. Statehood;
- 3. sovereignty;
- 4. territorial authority;
- 5. jurisdiction;
- 6. treaty status;
- 7. United Nations status;
- 8. governmental recognition;
- 9. diplomatic status;
- 10. institutional competence;
- 11. intellectual monopoly over general peace concepts;
- 12. authority over other peace initiatives;
- 13. compulsory citation;

14. entitlement to international adoption;
15. institutional endorsement;
16. representation of humanity;
17. representation of Future Generations; or
18. priority over Applicable International Law.

HISTORICAL PRIORITY IS DOCUMENTARY.

IT IS NOT SOVEREIGNTY.

IT IS NOT JURISDICTION.

IT IS NOT AUTHORITY.

L. DOCUMENTARY CONTINUITY

The documentary identity of this Constitution should be preserved through, where reasonably practicable:

1. a stable document title;
2. clear edition or version designation;
3. edition date;
4. author identity;
5. issuer identity;
6. stable public records where appropriate;
7. authentic copies;
8. Digital Signature Certificate where lawfully and actually used;
9. cryptographic integrity records where technically appropriate;
10. documentary source records;
11. correction history;
12. revision history; and
13. preservation of superseded editions were useful for historical transparency.

Documentary preservation shall seek to establish:

WHAT TEXT EXISTED;

WHEN IT EXISTED;

WHO AUTHORED IT;

WHAT EDITION IT WAS;

AND WHETHER IT WAS LATER MODIFIED.

M. REVISION HISTORY PRINCIPLE

1. A substantive revision should be distinguishable from a previously authenticated edition.
2. A later edition shall not silently alter:
 - (a) historical claims;
 - (b) legal character;
 - (c) constitutional Articles;
 - (d) Annexures;
 - (e) authorship;
 - (f) dates;
 - (g) source records;
 - (h) authentication information; or
 - (i) material documentary safeguards.
3. Where a correction materially affects the historical-priority claim, the revised record should make that correction reasonably visible.
4. A new edition should not be presented as though its revised text had existed unchanged in an earlier edition.
5. Documentary correction should therefore, preserve both:

ACCURACY AND CHAIN OF RECORD.

N. DOCUMENTARY PRIORITY, PUBLICATION AND PRESERVATION

1. Public availability, website publication, repository deposit, archiving, search-engine indexing, citation, registration, persistent identifiers, digital signatures, timestamps or similar documentary mechanisms

may assist, according to their actual evidentiary value, in establishing that a particular document or version existed at or before a particular time.

2. None of those acts, standing alone, establishes:

- (a) historical exclusivity;
- (b) substantive correctness;
- (c) legal superiority;
- (d) international endorsement;
- (e) United Nations recognition;
- (f) governmental adoption;
- (g) customary international law;
- (h) treaty status;
- (i) intellectual monopoly; or
- (j) institutional authority.

3. Documentary evidence shall be described only according to what it actually proves.

A TIMESTAMP MAY HELP ESTABLISH TIME.

AN ARCHIVE MAY HELP ESTABLISH PRESERVATION.

A REPOSITORY MAY HELP ESTABLISH PUBLIC AVAILABILITY.

A DIGITAL SIGNATURE MAY HELP ESTABLISH AUTHENTICATION.

BUT NONE OF THESE, BY ITSELF, ESTABLISHES INTERNATIONAL APPROVAL.

DOCUMENTARY PRESERVATION IS EVIDENCE OF A RECORD.

IT IS NOT EVIDENCE OF INSTITUTIONAL ENDORSEMENT.

O. THE CORRECTION DUTY

The authorial duty concerning historical claims is:

SEARCH IN GOOD FAITH.

DEFINE THE CATEGORY PRECISELY.

PREFER RELIABLE DOCUMENTARY EVIDENCE.

ACKNOWLEDGE PREDECESSORS.

PRESERVE RELEVANT EVIDENCE.

DISTINGUISH FACT FROM INFERENCE.

STATE LIMITATIONS.

AVOID ABSOLUTE CLAIMS.

REMAIN OPEN TO CONTRARY EVIDENCE.

CORRECT MATERIAL ERROR.

PRESERVE REVISION HISTORY.

AND

NEVER SACRIFICE TRUTH TO PROTECT PRESTIGE.

P. HISTORICAL-PRIORITY TEST

Before retaining the expression:

“THE WORLD’S FIRST,”

the following questions should be answered affirmatively:

1. Is the claimed category precisely defined?
2. Is the characterization materially narrower than “the first world constitution”?
3. Is it materially narrower than “the first peace document”?
4. Are known predecessor world constitutions and related traditions acknowledged?
5. Has reasonably available documentary research been conducted?
6. Have archival, bibliographic and institutional sources been considered where appropriate?
7. Has credible contrary evidence been examined fairly?
8. Is the characterization presented as Good-Faith, evidence-dependent and correctable?
9. Is the verification date stated?
10. Is the limitation of historical knowledge expressly acknowledged?
11. Is correction expressly permitted?
12. Is the characterization legally non-consequential?
13. Would the Constitution retain its substantive value if the priority characterization were later disproved?

If the answer to the final question is not: YES, then historical prestige has been given greater importance than the Constitution itself.

Q. HISTORICAL TRUTH SAFEGUARD

The constitutional principle is:

HISTORICAL DISTINCTION SHALL REMAIN SUBORDINATE TO DOCUMENTARY TRUTH.

A PEACE CONSTITUTION SHOULD NEVER DEFEND AN INACCURATE HISTORICAL CLAIM FOR THE SAKE OF PRESTIGE.

CONSTITUTIONAL MERIT SHALL NOT DEPEND UPON WINNING A HISTORICAL RACE.

IF THE RECORD CHANGES, THE CLAIM SHALL CHANGE.

TRUTH HAS PRIORITY OVER PRIORITY.

R. VERIFICATION RECORD

1. Historical-priority research for this edition included examination of reasonably available documentary material concerning earlier world-constitution and world-federalist initiatives.

2. Among the historical records identified and reviewed were materials concerning:

THE COMMITTEE TO FRAME A WORLD CONSTITUTION;

THE PRELIMINARY DRAFT OF A WORLD CONSTITUTION;

AND

THE CONSTITUTION FOR THE FEDERATION OF EARTH.

3. These materials confirm that substantial world-constitution traditions predate this 2026 Constitution.

4. They therefore, require the present historical characterization to remain:

NARROW;

CUMULATIVE;

CATEGORY-SPECIFIC;

EVIDENCE-DEPENDENT;

NON-ABSOLUTE;

AND

CORRECTABLE.

5. This verification record does not claim that the identified predecessors are the only relevant predecessors in human history.

6. Additional credible historical evidence shall remain admissible for future review.

VERIFICATION DATE: 05th SEPTEMBER 2026

S. FINAL DOCUMENTARY PRINCIPLE

THIS CONSTITUTION DOES NOT REQUIRE HISTORY TO BEGIN WITH IT.

IT DOES NOT REQUIRE EARLIER WORK TO DISAPPEAR.

IT DOES NOT REQUIRE HUMANITY TO FORGET THOSE WHO IMAGINED PEACE BEFORE.

IT REQUIRES ONLY THAT ITS OWN HISTORICAL CLAIMS

BE:

DEFINED PRECISELY;

SUPPORTED IN GOOD FAITH;

LIMITED BY EVIDENCE;

OPEN TO REVIEW;

AND

CORRECTED WHEN TRUTH REQUIRES CORRECTION.

THE FINAL HISTORICAL FORMULA IS:

ACKNOWLEDGE THE PAST.

VERIFY THE RECORD.

DEFINE THE CLAIM.

PRESERVE THE EVIDENCE.

STATE THE LIMIT.

CORRECT THE ERROR.

PROTECT THE TRUTH.

AND

LET THE VALUE OF A CONSTITUTION FOR PEACE BE DETERMINED NOT BY WHETHER IT WAS FIRST, BUT BY WHETHER

IT CAN HELP HUMANITY MOVE TOWARD PEACE.

HISTORICAL DISTINCTION SHALL REMAIN SUBORDINATE TO DOCUMENTARY TRUTH.

TRUTH HAS PRIORITY OVER PRIORITY.

FROM ARMS TO ARAM.
