To

His Excellency,

The Hon'ble President of the Republic of India,

Rashtrapati Bhavan

New Delhi – [110004](#)

Republic of India

SUBJECT:

Respectful Constitutional Submission under Article 51(c) of the Constitution of India Concerning Peaceful International Dialogue, Nuclear Disarmament, Planetary Continuity, and the Protection of the Peaceful Future of All Living and Non-Living Beings – Reg.

Your Excellency,

With highest constitutional respect and in the spirit of peaceful international cooperation, humanitarian responsibility, ecological continuity, and global coexistence, I respectfully submit herewith the accompanying document titled:

“Official International Declaration, Civilizational Peace Appeal, and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This peaceful constitutional submission is respectfully made under Article 51(c) of the Constitution of India, which encourages respect for international law, treaty obligations, and peaceful relations among nations.

The accompanying Declaration is entirely peaceful, humanitarian, non-binding, non-coercive, constitutional, and non-adversarial in nature.

It does not seek hostility, accusation, intervention, coercive action, or confrontation against any State, government, institution, or people.

The purpose of this submission is solely to respectfully encourage:

- peaceful international dialogue,
- humanitarian reflection,
- ecological responsibility,
- reduction of existential nuclear risk,
- long-term planetary continuity,
- and the preservation of peace for future generations.

This Declaration respectfully recognizes that nuclear weapons continue to represent one of the gravest existential dangers confronting humanity, ecological systems, and the continuity of civilization itself.

The submission further emphasizes that humanity’s long-term future depends upon peaceful coexistence, diplomatic wisdom, ecological protection, intergenerational responsibility, and the gradual transition from permanent existential fear toward enduring global peace.

Guided by the civilizational principles of:

- Vasudhaiva Kutumbakam (The World Is One Family),
- Ahimsa (Non-Violence),
- and Aram (Righteousness and Moral Responsibility),

this Declaration respectfully appeals for constructive humanitarian and diplomatic reflection concerning the future of nuclear disarmament and planetary continuity.

Your Excellency,

This submission is respectfully placed on public constitutional record with utmost respect for:

- the sovereignty of all nations,
- the Charter of the United Nations,
- international law,
- humanitarian principles,
- peaceful coexistence,
- and the constitutional framework of the Republic of India.

It is humbly requested that the enclosed Declaration and Annexures may kindly be taken on official record and, where considered appropriate within constitutional and diplomatic procedure, may be forwarded or made available for peaceful international consideration among relevant institutions and international bodies.

The enclosed submission includes:

- Main Declaration Document
- Annexure I to Annexure X
- Related Historical Public Depository Reference

(DOI: [10.5281/zenodo.15657082](https://doi.org/10.5281/zenodo.15657082))

This submission is respectfully intended solely for peaceful humanitarian, constitutional, ecological, and future civilizational purposes. No unlawful intent, hostility, or adversarial objective is expressed or implied. May humanity continues toward peace, wisdom, coexistence and the protection of future generations.

With highest respect,

R NARASIMHAN Digitally signed by R NARASIMHAN

SUBMISSION AUTHORITY

Respectfully submitted under:

Article 51(c) of the Constitution of India (Promotion of International Peace and
Security and Respect for International Law)

Respectfully submitted through:

His Excellency,
The Hon'ble President of the Republic of India,
Rashtrapati Bhavan,
New Delhi – [110004](#),
Republic of India.

For peaceful international consideration, diplomatic reflection, humanitarian
dialogue and future civilizational record by:

- The Secretary-General of the United Nations
- The President of the United Nations General Assembly (UNGA)
- The United Nations Security Council (UNSC)
- The United Nations Office for Disarmament Affairs (UNODA)
- The International Court of Justice (ICJ)
- The International Atomic Energy Agency (IAEA)
- All Member States of the United Nations
- All Nuclear-Armed and Nuclear-Capable States

- International humanitarian, scientific, environmental, diplomatic, peace and intergovernmental institutions

INTERNATIONAL LEGAL, CONSTITUTIONAL AND MORAL BASIS

This Declaration is respectfully issued in conformity with:

- Article 51(c) of the Constitution of India
- The Charter of the United Nations — Articles 1, 2(3), 2(4), 33, 55, 56 and 103
- Universal Declaration of Human Rights (UDHR)
- International Covenant on Civil and Political Rights (ICCPR)
- International Covenant on Economic Social and Cultural Rights (ICESCR)
- Treaty on the Non-Proliferation of Nuclear Weapons (NPT)
- Treaty on the Prohibition of Nuclear Weapons (TPNW)
- UN General Assembly Resolution 1 (1946) concerning the elimination of atomic weapons
- UN General Assembly Resolution 2625 (XXV)
- UN General Assembly Resolution 53/243 (Declaration and Programme of Action on a Culture of Peace)
- Principles of International Humanitarian Law
- International obligations toward future generations, ecological continuity, planetary protection, and peaceful coexistence

PREAMBLE

Human civilization stands at one of the most consequential moments in recorded history.

Despite extraordinary scientific advancement, technological capability and global interconnection, humanity continues to maintain systems capable of permanently destroying cities, civilizations, ecosystems, future generations and the peaceful continuity of life on Earth.

Nuclear weapons remain among the gravest existential threats ever created by human intelligence. The continued existence, deployment, storage, modernization, testing, expansion and operational readiness of nuclear weapons place humanity, nature and planetary stability under continuous risk of irreversible devastation.

The atmosphere, oceans, forests, rivers, mountains, soil systems, biodiversity, ecological cycles and planetary equilibrium together constitute the shared foundation of all living and non-living existence.

Any weapon capable of permanently contaminating or destroying these foundations constitutes not merely a military concern, but a humanitarian, ecological, civilizational, scientific and moral crisis affecting all beings and future generations.

The survival of humanity cannot be separated from the survival of the Earth itself. Peace cannot remain permanently secure while instruments capable of ending civilization continue to exist in operational readiness.

HISTORICAL CIVILIZATIONAL REFLECTION

Human civilization has survived world wars, destruction, genocide, ecological collapse, famine, pandemics and technological conflict.

The historical suffering witnessed in Hiroshima and Nagasaki remains a permanent reminder of the humanitarian, environmental and intergenerational consequences of nuclear warfare.

The continued existence of nuclear weapons demonstrates that humanity has not yet fully transitioned from civilizations governed by fear toward civilizations guided by wisdom, restraint and peaceful coexistence.

Future generations may ultimately judge civilizations not by the weapons they created but by the dangers they chose to peacefully eliminate.

Humanity holds the Earth in temporary stewardship for future generations yet unborn.

GLOBAL CIVILIZATIONAL OBSERVATION

Human intelligence must evolve beyond systems founded upon permanent fear, mutual destruction and existential insecurity.

Weapons capable of planetary devastation cannot represent the highest achievement of civilization. The highest achievement of civilization is the protection of existence itself.

True strength is not domination through fear. True strength is the preservation of peace, continuity, dignity, ecological balance, coexistence and intergenerational responsibility.

Human civilization must gradually transition from doctrines of annihilation toward doctrines of protection, wisdom, restraint and peaceful coexistence.

The moral future of humanity depends not upon the capacity to destroy the Earth, but upon the capacity to preserve it. Scientific advancement must remain aligned with the preservation of life, ecological balance and long-term planetary continuity.

RECOGNITION OF THE RIGHTS OF ALL LIVING AND NON-LIVING BEINGS

This Declaration respectfully affirms that:

All human beings possess the inherent right to life, peace, security, continuity, ecological stability and protection from catastrophic destruction.

Furthermore, all non-human beings — including animals, birds, marine life, forests, biodiversity and ecological systems — possess the right to exist free from irreversible destruction caused by nuclear conflict, radioactive contamination or ecological collapse.

This Declaration further recognizes that even non-living ecological foundations of Earth — including oceans, rivers, mountains, glaciers, atmospheric systems, soil structures and planetary ecosystems — constitute essential foundations of continuity and must not be subjected to irreversible devastation.

Humanity does not exist separately from nature. The continuity of civilization is inseparably connected to the continuity of Earth itself.

The continuity of peace, human dignity, ecological balance and civilization itself constitutes a shared responsibility of humanity beyond borders, alliances, ideologies or geopolitical divisions.

OFFICIAL INTERNATIONAL PEACE APPEAL TO NUCLEAR-ARMED STATES

Through this peaceful constitutional and international submission, the **Vishwa Shanti Janata Party (VSJP)**, the world's first fully digital transnational political party guided by **Aram, Ahimsa** and **Vasudhaiva Kutumbakam**, respectfully appeals to all nuclear-armed and nuclear-capable States to initiate a historic era of peaceful nuclear de-escalation, global disarmament dialogue and irreversible protection of planetary continuity.

This appeal respectfully calls upon all nuclear-armed States to:

1. Permanently prohibit the future expansion of nuclear weapons;
2. Gradually, peacefully and verifiably reduce existing nuclear stockpiles;
3. Permanently deactivate operational nuclear weapons maintained in active deployment systems;
4. Ensure that deactivated nuclear systems are securely contained, peacefully neutralized, responsibly dismantled, or permanently rendered inoperable in a manner causing no harm to humanity, future generations, nature, or planetary ecosystems;
5. Prevent radioactive contamination affecting land, air, oceans, agriculture, water systems, and biodiversity;
6. Strengthen peaceful diplomatic engagement, dialogue, confidence-building measures, and conflict-resolution mechanisms under international law;

7. Redirect scientific capability, economic resources, and technological advancement toward peace, health, ecology, education, food security, humanitarian welfare, scientific progress and sustainable development;
8. Cooperate toward a long-term international framework ensuring the continuity, dignity, existence, and peaceful future of all living and non-living beings;
9. Advance multilateral disarmament efforts through peaceful, lawful, transparent, and internationally verifiable mechanisms;
10. Recognize that the preservation of planetary continuity constitutes a shared responsibility of all nations and humanity collectively.

INTERNATIONAL CALL FOR PEACEFUL DIALOGUE, DIPLOMATIC COOPERATION AND MORAL MEDIATION

The Vishwa Shanti Janata Party (VSJP) acting peacefully, constitutionally and in full respect of Indian sovereignty, international law and the sovereign equality of all nations, respectfully calls for the establishment of a new era of peaceful international dialogue concerning the gradual, responsible and irreversible elimination of nuclear weapons.

Guided by the civilizational principle of:

“Vasudhaiva Kutumbakam” (The World Is One Family),

this Declaration respectfully invites all nations, institutions, scientific communities, humanitarian organizations and peace-oriented international bodies to participate in constructive dialogue aimed at protecting humanity, Earth future generations, and the continuity of existence itself.

This submission is entirely peaceful, non-binding, non-adversarial and humanitarian in nature. No hostility, accusation, threat, or unlawful intent against any State, institution, government, or people is expressed or implied.

It seeks only:

- Peaceful dialogue
- Diplomatic cooperation
- Moral responsibility

- Planetary continuity
- Humanitarian protection
- Ecological preservation
- Intergenerational security
- Long-term peace

FORMAL INTERNATIONAL REQUESTS

Accordingly, it is respectfully requested that:

- This Declaration may kindly be taken on official international public record;
- This submission may be considered within relevant United Nations, humanitarian, environmental, scientific, diplomatic, peace, and disarmament frameworks;
- Nuclear-armed States may be encouraged to pursue meaningful, peaceful, transparent, verifiable, and irreversible disarmament pathways;
- International institutions may continue strengthening peaceful conflict-resolution mechanisms under international law;
- International dialogue concerning the long-term elimination of nuclear weapons may be strengthened through cooperative diplomatic engagement;
- The continuity, dignity, existence and peaceful future of all living and non-living beings may be recognized as a shared responsibility of humanity.

FINAL INTERNATIONAL DECLARATION

Let humanity move beyond permanent fear.

Let science become a force for protection rather than annihilation.

Let future generations inherit peace instead of radioactive uncertainty.

Let nuclear weapons be permanently deactivated, peacefully neutralized, securely contained, and responsibly eliminated from the future of civilization.

Let the Earth remain a home for continuity — not a battlefield for irreversible destruction.

Let this century become the century of wisdom, peace, disarmament, ecological responsibility, coexistence and global continuity.

Let humanity advance toward a civilization guided not by fear, but by conscience.

Peace is not weakness. Peace is the highest intelligence of civilization.

Respectfully Issued and Submitted,

R NARASIMHAN Digitally signed by R NARASIMHAN
Date: 2026.05.17 21:27:19 +05'30'

Republic of India

END OF DECLARATION

ANNEXURE I

INTERNATIONAL LEGAL BASIS AND UNITED NATIONS CHARTER ALIGNMENT

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the principal international legal, humanitarian, constitutional and peace-oriented foundations relevant to the Declaration.

1. ARTICLE 51(c) OF THE CONSTITUTION OF INDIA

This Declaration is respectfully submitted under Article 51(c) of the Constitution of India, which directs the State to:

“Foster respect for international law and treaty obligations in the dealings of organized peoples with one another.”

This constitutional principle reflects India’s long-standing civilizational and diplomatic commitment toward:

- international peace,
- peaceful coexistence,
- non-aggression,
- lawful international conduct,
- and respect for global cooperation.

2. CHARTER OF THE UNITED NATIONS

This Declaration respectfully aligns with the foundational principles of the Charter of the United Nations.

Article 1(1):

Calls for the maintenance of international peace and security through peaceful means.

Article 2(3):

Requires peaceful settlement of international disputes.

Article 2(4):

Prohibits the threat or use of force against the territorial integrity or political independence of any State.

Article 33:

Encourages peaceful negotiation, mediation, conciliation, arbitration, and diplomatic settlement of disputes.

Articles 55 and 56:

Promote international cooperation, human welfare, peace, and stability.

Article 103:

Recognizes the primacy of obligations under the Charter of the United Nations.

3. UNIVERSAL DECLARATION OF HUMAN RIGHTS (UDHR)

This Declaration recognizes the principles contained within the Universal Declaration of Human Rights, including:

- Article 1:

All human beings are born free and equal in dignity and rights.

- Article 3:

Everyone has the right to life, liberty and security of person. The existence of weapons capable of catastrophic destruction raises profound humanitarian concerns affecting these principles.

4. INTERNATIONAL HUMANITARIAN LAW

This Declaration respectfully recognizes the principles of international humanitarian law, including:

- protection of civilian populations,
- prevention of unnecessary suffering,
- proportionality,
- distinction,
- and humanitarian responsibility during armed conflict.

Nuclear weapons possess consequences extending beyond ordinary military boundaries and may affect civilian populations, ecosystems, future generations and planetary systems.

5. NUCLEAR NON-PROLIFERATION AND DISARMAMENT FRAMEWORKS

This Declaration acknowledges existing international disarmament efforts, including:

- Treaty on the Non-Proliferation of Nuclear Weapons (NPT)
- Treaty on the Prohibition of Nuclear Weapons (TPNW)
- United Nations General Assembly Resolution 1 (1946) concerning the elimination of atomic weapons

These international instruments reflect humanity's continuing recognition that lasting peace requires long-term reduction of existential threats.

6. CULTURE OF PEACE

This Declaration further aligns with:

UN General Assembly Resolution 53/243 (Declaration and Programme of Action on a Culture of Peace)

which emphasizes:

- peaceful dialogue,
- tolerance,
- cooperation,
- non-violence,
- human dignity,
- and international understanding.

7. ECOLOGICAL AND INTERGENERATIONAL RESPONSIBILITY

The protection of future generations, ecological continuity, and planetary stability constitute an emerging global responsibility shared by humanity. The atmosphere, oceans, forests, rivers, soil systems, and biodiversity together form interconnected systems essential to the continuity of civilization.

Weapons capable of irreversible contamination or destruction create risks extending beyond present generations.

8. NON-ADVERSARIAL CHARACTER OF THIS DECLARATION

This Declaration is entirely:

- peaceful,
- constitutional,
- humanitarian,
- non-binding,
- non-coercive,
- and non-adversarial.

No hostility, threat, accusation, or unlawful intent against any nation, government, institution or people is expressed or implied.

This Annexure is intended solely for peaceful international dialogue, humanitarian reflection, future civilizational continuity and lawful diplomatic consideration.

ANNEXURE II

HUMANITARIAN CONSEQUENCES OF NUCLEAR WEAPONS

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the humanitarian, civilizational, environmental and intergenerational consequences associated with nuclear weapons and nuclear warfare.

1. HUMANITARIAN IMPACT

Nuclear weapons possess destructive consequences extending far beyond conventional warfare.

Their detonation may result in:

- Immediate large-scale civilian casualties
- Severe burn injuries and radiation exposure
- Collapse of medical systems and emergency infrastructure

- Destruction of housing, transport, water and food systems
- Long-term humanitarian displacement
- Psychological trauma across generations

The humanitarian consequences of nuclear warfare may continue for decades beyond the initial event.

2. RADIOACTIVE CONTAMINATION

Radioactive fallout may affect:

- air systems,
- water systems,
- agricultural land,
- rivers,
- oceans,
- forests,
- biodiversity,
- and food chains.

Such contamination may persist across generations and may affect civilian populations far beyond the immediate conflict zone.

3. IMPACT ON FUTURE GENERATIONS

Radiation exposure may create long-term biological, health, and genetic consequences affecting future generations. Future generations who played no role in geopolitical conflict may nevertheless inherit environmental, health, and ecological consequences resulting from nuclear warfare. Humanity therefore carries a moral responsibility toward generations yet unborn.

4. ECOLOGICAL CONSEQUENCES

Nuclear conflict may contribute to:

- destruction of ecosystems,
- biodiversity collapse,
- soil degradation,
- atmospheric instability,
- agricultural disruption,
- marine contamination,
- and ecological imbalance.

The continuity of human civilization is inseparably connected to ecological continuity.

5. GLOBAL FOOD AND HUMAN SECURITY RISKS

Nuclear conflict may threaten:

- global food systems,
- freshwater security,
- public health systems,
- economic stability,
- and humanitarian continuity.

Modern civilization is globally interconnected. Regional nuclear conflict may therefore generate international humanitarian consequences extending far beyond national borders.

6. HISTORICAL HUMANITARIAN MEMORY

The suffering historically witnessed in Hiroshima and Nagasaki remains a continuing humanitarian reminder of the catastrophic consequences associated with nuclear warfare.

These historical events continue to inform global humanitarian reflection concerning the protection of humanity and future generations.

7. MORAL AND CIVILIZATIONAL RESPONSIBILITY

The existence of weapons capable of irreversible mass destruction raises profound humanitarian and ethical questions for civilization. Scientific advancement must remain aligned with:

- preservation of life,
- humanitarian dignity,
- ecological balance,
- peaceful coexistence,
- and long-term planetary continuity.

True civilizational progress is measured not by destructive capability but by the protection of existence itself.

8. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, humanitarian, non-coercive and educational in nature.

No hostility, threat, accusation or unlawful intent against any State, institution, government or people is expressed or implied.

This Annexure is intended solely for:

- humanitarian awareness,
- peaceful international dialogue,
- ecological responsibility,
- and future civilizational reflection.

ANNEXURE III

ENVIRONMENTAL, ECOLOGICAL, AND PLANETARY CONTINUITY IMPACT

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the environmental, ecological, planetary and continuity-related consequences associated with nuclear weapons, radioactive contamination and nuclear conflict.

1. PLANETARY INTERCONNECTEDNESS

The Earth functions through interconnected ecological and environmental systems. The atmosphere, oceans, rivers, forests, soil systems, biodiversity, climate systems, and hydrological cycles together sustain the continuity of life and civilization. Large-scale nuclear conflict possesses the capacity to disrupt these interconnected systems far beyond immediate military zones.

2. ATMOSPHERIC CONSEQUENCES

Nuclear detonations may generate:

- atmospheric contamination,
- radioactive fallout,

- smoke dispersion,
- and long-term environmental instability.

Scientific concern has historically included the possibility that large-scale nuclear conflict may contribute to severe climatic disruption affecting agriculture, public health and ecological continuity.

3. WATER AND OCEAN CONTAMINATION

Radioactive contamination may affect:

- oceans,
- rivers,
- lakes,
- groundwater,
- marine ecosystems,
- and freshwater systems.

Water systems are shared foundations of human civilization and ecological continuity.

Long-term contamination may threaten:

- public health,
- marine biodiversity,
- agriculture,
- fisheries,
- and intergenerational environmental security.

4. AGRICULTURAL AND FOOD SYSTEM IMPACT

Nuclear conflict may severely affect:

- agricultural land,
- crop systems,
- soil fertility,
- food distribution,
- and global food continuity.

Disruption of agricultural systems may create risks of:

- famine,
- humanitarian instability,

- economic disruption,
- and long-term food insecurity.

Modern civilization depends upon stable ecological and agricultural systems for peaceful continuity.

5. BIODIVERSITY AND ECOLOGICAL CONTINUITY

Nuclear contamination may endanger:

- forests,
- wildlife,
- birds,
- marine life,
- pollinators,
- and ecological habitats.

The destruction of biodiversity weakens the ecological balance necessary for long-term planetary continuity. The continuity of humanity cannot be separated from the continuity of nature.

6. IMPACT ON NON-LIVING PLANETARY FOUNDATIONS

This Declaration respectfully recognizes that even non-living environmental systems — including mountains, glaciers, atmospheric structures, oceans, soil systems and planetary ecological foundations — constitute essential components of Earth's continuity. Irreversible environmental devastation affects not only present populations but the long-term structural stability of civilization itself.

7. INTERGENERATIONAL ENVIRONMENTAL RESPONSIBILITY

Humanity holds the Earth in temporary stewardship for future generations.

Future generations possess a moral interest in inheriting:

- ecological stability,
- environmental continuity,
- biodiversity,
- peaceful coexistence,
- and a habitable planet.

Long-term radioactive contamination may affect generations yet unborn.

8. SCIENTIFIC AND MORAL RESPONSIBILITY

Scientific advancement carries corresponding moral responsibility.

Technological capability must remain aligned with:

- ecological preservation,
- humanitarian protection,
- peaceful coexistence,
- environmental sustainability,
- and planetary continuity.

Civilization cannot sustainably progress through systems capable of permanently destabilizing Earth's ecological foundations.

9. GLOBAL CONTINUITY PRINCIPLE

The continuity of peace, human dignity, ecological balance and planetary stability constitutes a shared responsibility of humanity beyond borders, alliances, ideologies or geopolitical divisions. Environmental destruction caused by nuclear conflict would affect humanity collectively.

10. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, humanitarian, scientific, ecological and educational in nature. No hostility, threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure is intended solely for:

- ecological awareness,
- peaceful international dialogue,
- humanitarian reflection,
- and future civilizational continuity.

ANNEXURE IV

INTERGENERATIONAL RESPONSIBILITY AND THE RIGHTS OF FUTURE GENERATIONS

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal, and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the principles of intergenerational responsibility, future civilizational continuity and the moral obligation of humanity toward generations yet unborn.

1. HUMANITY AS TEMPORARY STEWARDSHIP

Human civilization does not permanently own the Earth. Humanity exists as a temporary steward of planetary continuity entrusted with preserving the conditions necessary for future existence. The atmosphere, oceans, rivers, forests, soil systems, ecological balance and peaceful continuity of civilization must therefore be protected not only for the present generation, but for generations yet unborn.

2. FUTURE GENERATIONS AND NUCLEAR RISK

Nuclear weapons create risks extending beyond present political, military, or geopolitical circumstances. Radioactive contamination environmental instability, and ecological destruction may continue affecting future generations long after current conflicts or governments cease to exist.

Future generations who possess no participation in present geopolitical disputes may nevertheless inherit irreversible consequences arising from nuclear warfare.

3. INTERGENERATIONAL JUSTICE

Intergenerational justice requires that present generations avoid actions capable of permanently damaging the future continuity of humanity and Earth.

This principle includes responsibility toward:

- environmental continuity,
- biodiversity preservation,

- humanitarian stability,
- peaceful coexistence,
- and long-term planetary habitability.

No generation possesses unlimited moral authority to permanently endanger future civilization.

4. CONTINUITY OF CIVILIZATION

Civilization depends not merely upon technology, economics or military capability but upon the long-term preservation of:

- peace,
- ecological balance,
- humanitarian dignity,
- social continuity,
- intergenerational trust,
- and stable planetary systems.

The continued existence of nuclear weapons places these foundations under continuous existential uncertainty.

5. MORAL RESPONSIBILITY OF SCIENCE AND GOVERNANCE

Scientific advancement and governmental authority carry corresponding responsibilities toward future generations.

Technological capability must remain aligned with:

- preservation of life,
- ecological responsibility,
- peaceful coexistence,
- humanitarian protection,
- and long-term continuity.

Human intelligence achieves its highest purpose when it protects existence rather than threatens extinction.

6. PEACE AS AN INTERGENERATIONAL DUTY

Peace is not merely a present political objective.

Peace constitutes an intergenerational responsibility essential to the continuity of civilization itself.

The preservation of peace protects:

- future populations,
- ecological systems,
- scientific progress,
- cultural continuity,
- and the long-term dignity of humanity.

7. FUTURE CIVILIZATIONAL REFLECTION

Future generations may ultimately evaluate present civilization not solely by technological achievement but by whether humanity possessed the wisdom to peacefully eliminate existential dangers threatening planetary continuity.

The peaceful reduction and elimination of nuclear risk may therefore represent a defining moral responsibility of modern civilization.

8. PLANETARY CONTINUITY PRINCIPLE

The continuity of humanity, ecological stability and peaceful civilization constitutes a shared responsibility extending beyond borders, alliances, political systems or generations.

The preservation of Earth's long-term habitability remains a collective responsibility of humanity as a whole.

9. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, humanitarian, educational, non-binding and non-adversarial in nature. No hostility, threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure is intended solely for:

- humanitarian reflection,
- peaceful international dialogue,

- intergenerational responsibility,
- and future civilizational continuity.

ANNEXURE V

PEACEFUL NUCLEAR DISARMAMENT AND DEACTIVATION PRINCIPLES

This Annexure forms an integral part of the
“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines peaceful, lawful, humanitarian and internationally responsible principles concerning long-term nuclear disarmament, deactivation and reduction of existential nuclear risk.

1. PRINCIPLE OF PEACEFUL DISARMAMENT

Nuclear disarmament should proceed through peaceful, lawful, diplomatic, transparent and internationally cooperative mechanisms.

This Declaration does not advocate coercion, hostility force or unlawful intervention against any State. The objective of this Annexure is the gradual reduction of existential nuclear risk through peaceful international cooperation.

2. PRINCIPLE OF IRREVERSIBLE RISK REDUCTION

Human civilization carries a shared interest in reducing systems capable of irreversible planetary devastation.

The long-term reduction of nuclear risk may contribute toward:

- international peace,
- humanitarian stability,
- ecological continuity,
- intergenerational security,

- and long-term global coexistence.

3. PRINCIPLE OF GRADUAL AND VERIFIABLE REDUCTION

This Annexure respectfully recognizes that nuclear disarmament, where pursued, should proceed gradually and through internationally verifiable processes consistent with international law and diplomatic agreements. Peaceful confidence-building measures may contribute toward long-term international stability.

4. PRINCIPLE OF DEACTIVATION

The reduction of operational nuclear readiness may contribute toward lowering the risk of accidental, miscalculated, unauthorized, or escalatory nuclear conflict.

The peaceful deactivation of active deployment systems may therefore contribute toward reducing existential risk to humanity and Earth.

5. PRINCIPLE OF SAFE CONTAINMENT

Any deactivated nuclear systems, materials or related infrastructure should be handled through responsible scientific, environmental, and safety-based frameworks designed to avoid harm to:

- civilian populations,
- ecosystems,
- biodiversity,
- water systems,
- future generations,
- and planetary continuity.

6. PRINCIPLE OF INTERNATIONAL COOPERATION

Long-term nuclear risk reduction requires:

- diplomatic dialogue,
- scientific cooperation,
- humanitarian engagement,
- transparency,
- confidence-building measures,

- and respect for international law.

Peaceful international cooperation strengthens global stability and reduces the possibility of catastrophic conflict.

7. PRINCIPLE OF HUMANITARIAN PRIORITY

Humanitarian protection must remain central to all considerations concerning nuclear weapons and disarmament. Civilian populations, future generations, ecological systems and planetary stability must remain protected from irreversible harm.

8. PRINCIPLE OF ECOLOGICAL RESPONSIBILITY

Environmental continuity and ecological preservation constitute essential considerations in all matters relating to nuclear systems, materials and disarmament processes.

The atmosphere, oceans, rivers, soil systems, and biodiversity form interconnected systems necessary for the continuity of civilization.

9. PRINCIPLE OF PEACEFUL COEXISTENCE

The long-term security of humanity cannot sustainably depend upon permanent existential fear.

Peaceful coexistence, diplomatic engagement, mutual restraint and humanitarian responsibility remain essential foundations of international stability.

10. PRINCIPLE OF FUTURE GENERATIONAL RESPONSIBILITY

Present generations carry responsibility toward future generations yet unborn.

The reduction of existential nuclear danger may contribute toward preserving:

- peace,
- ecological continuity,
- humanitarian dignity,
- and long-term planetary stability.

11. PRINCIPLE OF NON-ADVERSARIAL DIALOGUE

This Annexure supports peaceful, non-adversarial and cooperative international dialogue. No hostility, threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure seeks only:

- peaceful dialogue,
- humanitarian reflection,
- ecological responsibility,
- and long-term civilizational continuity.

12. CIVILIZATIONAL PEACE PRINCIPLE

The highest achievement of civilization is not the perfection of destruction, but the preservation of existence.

The peaceful reduction of existential nuclear danger may represent one of humanity's most important long-term civilizational responsibilities.

ANNEXURE VI

SAFE NEUTRALIZATION, CONTAINMENT AND NON-HARM FRAMEWORK

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal, and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines humanitarian, scientific, environmental and non-harm principles concerning the responsible handling, containment, neutralization, storage and long-term management of deactivated nuclear systems and related materials.

1. PRINCIPLE OF NON-HARM

Any deactivation, neutralization, containment or dismantling process relating to nuclear systems should be conducted in a manner designed to avoid harm to:

- humanity,
- civilian populations,
- future generations,
- ecological systems,
- biodiversity,
- water systems,
- and planetary continuity.

The protection of life and environmental stability must remain a central consideration in all such processes.

2. SCIENTIFIC AND SAFETY RESPONSIBILITY

The handling of nuclear materials requires:

- scientific responsibility,
- environmental safeguards,
- long-term monitoring,
- technical expertise,
- safety-oriented containment systems,
- and internationally responsible procedures.

Scientific advancement must remain aligned with humanitarian protection and ecological continuity.

3. SAFE CONTAINMENT PRINCIPLE

Any deactivated nuclear systems, materials or radioactive infrastructure should be safely contained through internationally recognized scientific, environmental and safety-based frameworks.

Containment processes should seek to prevent:

- radioactive leakage,

- atmospheric contamination,
- groundwater contamination,
- marine contamination,
- ecological disruption,
- and long-term public health risks.

4. ENVIRONMENTAL PROTECTION FRAMEWORK

The atmosphere, oceans, rivers, soil systems and biodiversity constitute interconnected foundations of civilization.

The management of nuclear materials should therefore prioritize:

- environmental protection,
- ecological continuity,
- biodiversity preservation,
- public health safety,
- and long-term planetary stability.

5. INTERGENERATIONAL SAFETY RESPONSIBILITY

Radioactive materials may remain hazardous across long periods of time extending beyond present generations. Humanity therefore carries intergenerational responsibility to ensure that future generations are not exposed to preventable ecological, environmental or radiological harm.

6. HUMANITARIAN SAFEGUARDS

All containment, neutralization and dismantling processes should seek to minimize risks affecting:

- civilian populations,
- workers,
- surrounding communities,
- indigenous populations,
- agricultural systems,
- and future public health continuity.

Humanitarian protection remains essential to long-term global stability.

7. PEACEFUL INTERNATIONAL COOPERATION

The responsible management of nuclear materials may benefit from:

- scientific cooperation,
- peaceful international dialogue,
- technical transparency,
- environmental monitoring,
- humanitarian safeguards,
- and international confidence-building measures.

Peaceful cooperation strengthens collective planetary responsibility.

8. PLANETARY CONTINUITY PRINCIPLE

The long-term continuity of Earth depends upon the preservation of:

- ecological balance,
- environmental stability,
- peaceful coexistence,
- biodiversity,
- humanitarian security,
- and sustainable planetary systems.

Nuclear materials capable of causing irreversible contamination must therefore be handled with long-term civilizational responsibility.

9. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely:

- peaceful,
- scientific,
- humanitarian,
- ecological,
- educational,

- non-binding,
- and non-adversarial.

No hostility threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure seeks only:

- responsible humanitarian reflection,
- ecological continuity,
- scientific responsibility,
- and peaceful international dialogue.

10. FUTURE CIVILIZATIONAL RESPONSIBILITY

Future civilizations may ultimately judge present humanity by whether technological capability was guided by wisdom, restraint, humanitarian responsibility and ecological consciousness.

The peaceful management and reduction of existential nuclear risk may therefore constitute a defining responsibility of modern civilization.

ANNEXURE VII

ARTICLE 51(c) CONSTITUTIONAL BASIS OF INDIA

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal, and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the constitutional basis of this peaceful international submission under Article 51(c) of the Constitution of India.

1. CONSTITUTIONAL FOUNDATION

This Declaration is respectfully submitted under:

Article 51(c) of the Constitution of India, which provides that the State shall endeavour to:

“Foster respect for international law and treaty obligations in the dealings of organized peoples with one another.”

This constitutional principal forms part of the Directive Principles of State Policy contained within Part IV of the Constitution of India.

2. PROMOTION OF INTERNATIONAL PEACE

Article 51 of the Constitution of India reflects India’s constitutional commitment toward:

- international peace,
- peaceful coexistence,
- diplomatic cooperation,
- respect for international law,
- and the peaceful settlement of disputes.

The principles expressed within Article 51 remain closely aligned with the purposes and principles of the Charter of the United Nations.

3. CIVILIZATIONAL AND DIPLOMATIC CONTINUITY

India possesses a long-standing civilizational tradition emphasizing:

- peace,
- coexistence,
- non-violence,
- dialogue,
- humanitarian values,
- and international cooperation.

Principles such as:

- Ahimsa (Non-Violence),

- **Vasudhaiva Kutumbakam (The World Is One Family)**, and peaceful coexistence have historically contributed to India's philosophical and diplomatic identity within international discourse.

4. PEACEFUL CONSTITUTIONAL CHARACTER

This Declaration is entirely:

- peaceful,
- constitutional,
- humanitarian,
- non-binding,
- non-coercive,
- and non-adversarial.

This submission does not seek:

- military action,
- coercive authority,
- unlawful intervention,
- hostility,
- or confrontation against any State or institution.

The purpose of this submission is solely to encourage:

- peaceful international dialogue,
- humanitarian reflection,
- ecological continuity,
- nuclear risk reduction,
- and respect for international peace and security.

5. ALIGNMENT WITH INTERNATIONAL LAW

Article 51(c) encourages respect for international law and treaty obligations.

Accordingly, this Declaration respectfully aligns itself with:

- the Charter of the United Nations,

- principles of peaceful coexistence,
- international humanitarian law,
- disarmament frameworks,
- humanitarian protection,
- and long-term planetary responsibility.

6. CONSTITUTIONAL AND MORAL RESPONSIBILITY

The constitutional spirit underlying Article 51(c) reflects the understanding that humanity benefits from:

- peaceful diplomacy,
- lawful conduct,
- international cooperation,
- and respect among nations.

The reduction of existential threats affecting humanity and planetary continuity may therefore be understood as consistent with the broader constitutional aspiration toward international peace and security.

7. FUTURE GENERATIONAL RESPONSIBILITY

The Constitution of India exists not only for present governance but also for the continuity, stability and future welfare of generations yet unborn.

Peaceful international engagement concerning existential risks may therefore contribute toward the protection of future humanity and ecological continuity.

8. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, constitutional, humanitarian, educational and non-adversarial in nature.

No hostility, threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure is intended solely for:

- constitutional clarification,
- peaceful international dialogue,

- humanitarian reflection,
- and future civilizational continuity.

9. CONSTITUTIONAL PEACE PRINCIPLE

The constitutional spirit of Article 51(c) reflects a broader civilizational understanding that peace, international cooperation and respect for international law remain essential foundations for the continuity of humanity and global stability.

The peaceful pursuit of international dialogue concerning existential threats may therefore contribute toward the long-term protection of humanity, Earth and future generations.

ANNEXURE VIII

VASUDHAIVA KUTUMBAKAM, ARAM, AHIMSA AND THE MORAL PEACE DOCTRINE

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the philosophical, civilizational, ethical and humanitarian principles underlying the moral peace doctrine referenced throughout this Declaration.

1. VASUDHAIVA KUTUMBAKAM (THE WORLD IS ONE FAMILY)

The civilizational principle of **“Vasudhaiva Kutumbakam”** reflects the understanding that humanity shares a common planetary existence beyond borders, alliances, political systems, religions or geopolitical divisions.

This principle emphasizes:

- peaceful coexistence,

- mutual respect,
- international harmony,
- humanitarian dignity,
- and shared responsibility toward humanity and Earth.

The continuity of civilization depends upon recognizing the interconnectedness of all peoples and ecological systems.

2. ARAM (RIGHTEOUSNESS AND MORAL RESPONSIBILITY)

Aram represents the principle of moral righteousness, ethical responsibility, justice, compassion and the protection of continuity. Under this principle, true progress is measured not merely by material advancement, but by the preservation of:

- peace,
- dignity,
- ecological balance,
- humanitarian responsibility,
- and coexistence among all forms of life.

Civilization cannot sustainably endure without moral responsibility guiding scientific, political, economic and technological power.

3. AHIMSA (NON-VIOLENCE)

Ahimsa reflects the principle that long-term peace and coexistence require the reduction of violence, harm, destruction and suffering.

This principle supports:

- peaceful dialogue,
- humanitarian protection,
- restraint,
- diplomatic coexistence,
- and the avoidance of catastrophic destruction.

The existence of weapons capable of irreversible devastation raises profound humanitarian and ethical concerns under the principle of Ahimsa.

4. HUMANITY AND ECOLOGICAL CONTINUITY

Human civilization does not exist separately from nature.

The atmosphere, oceans, forests, rivers, soil systems, biodiversity and ecological cycles together sustain the continuity of life and civilization.

The destruction of ecological continuity ultimately threatens humanitarian continuity itself.

The protection of Earth therefore represents both a humanitarian and civilizational responsibility.

5. MORAL RESPONSIBILITY OF SCIENCE AND POWER

Scientific advancement, technological capability, economic influence and military power carry corresponding moral responsibility. Human intelligence achieves its highest purpose when it protects existence rather than threatens extinction. The long-term survival of civilization depends upon ensuring that scientific capability remains aligned with:

- humanitarian protection,
- ecological continuity,
- peaceful coexistence,
- and future generational responsibility.

6. CIVILIZATIONAL PEACE PRINCIPLE

Peace is not weakness.

Peace represents one of the highest expressions of wisdom, restraint and civilizational maturity.

True strength is not domination through fear.

True strength is the protection of existence itself.

The peaceful reduction of existential nuclear danger may therefore constitute a long-term moral responsibility of humanity.

7. INTERGENERATIONAL RESPONSIBILITY

Present generations hold the Earth in temporary stewardship for future generations yet unborn.

Humanity therefore carries responsibility toward preserving:

- ecological continuity,
- humanitarian stability,
- peaceful coexistence,
- biodiversity,
- and long-term planetary habitability.

Future generations may ultimately inherit the consequences of present civilizational choices.

8. GLOBAL CONTINUITY PRINCIPLE

The continuity of peace, human dignity, ecological balance and civilization itself constitutes a shared responsibility extending beyond national borders, alliances, political systems or ideologies.

The preservation of planetary continuity requires cooperation, restraint, dialogue and humanitarian responsibility among nations.

9. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, humanitarian, philosophical, educational, non-binding and non-adversarial in nature.

No hostility, threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure is intended solely for:

- peaceful international dialogue,
- humanitarian reflection,
- ecological continuity,
- moral responsibility,
- and future civilizational understanding.

10. FUTURE CIVILIZATIONAL REFLECTION

Future civilizations may ultimately evaluate humanity not merely by technological advancement, but by whether humanity possessed the wisdom to preserve peace, protect continuity and prevent irreversible destruction.

The moral evolution of civilization depends upon humanity's ability to move beyond systems governed by fear toward systems guided by conscience, wisdom and coexistence.

ANNEXURE IX

ROLE OF VSJP AS A PEACEFUL DIGITAL MEDIATION AND INTERNATIONAL DIALOGUE PLATFORM

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the peaceful, humanitarian, digital and dialogue-oriented role envisioned by the Vishwa Shanti Janata Party (VSJP) concerning international peace, humanitarian reflection and global coexistence.

1. PEACEFUL DIGITAL PLATFORM

The Vishwa Shanti Janata Party (VSJP) identifies itself as:

“The World’s First Fully Digital Transnational Political Party”

guided by:

- Aram (Righteousness),
- Ahimsa (Non-Violence),
- Vasudhaiva Kutumbakam,
- humanitarian dignity,
- ecological continuity,

- and peaceful coexistence.

VSJP operates through peaceful digital communication, public dialogue, humanitarian reflection and non-violent international engagement.

2. NON-VIOLENT AND NON-ADVERSARIAL CHARACTER

VSJP respectfully affirms that its activities, public statements and international appeals are entirely:

- peaceful,
- constitutional,
- humanitarian,
- non-coercive,
- non-binding,
- and non-adversarial.

VSJP does not advocate:

- violence,
- unlawful action,
- armed confrontation,
- coercive intervention,
- hatred,
- extremism,
- or hostility against any nation, government, institution, community or people.

Its public communications are intended solely for peaceful humanitarian and diplomatic dialogue.

3. ROLE AS A PEACEFUL DIALOGUE PLATFORM

VSJP respectfully envisions its role as a peaceful digital platform encouraging:

- humanitarian dialogue,
- international understanding,

- ecological responsibility,
- peaceful coexistence,
- and long-term civilizational continuity.

This includes encouraging constructive global reflection concerning existential risks affecting humanity and Earth.

4. DIGITAL CIVILIZATION AND GLOBAL INTERCONNECTION

Modern civilization increasingly operates through interconnected digital systems transcending traditional geographic boundaries.

Digital communication now influences:

- diplomacy,
- humanitarian awareness,
- public dialogue,
- scientific cooperation,
- environmental advocacy,
- and international understanding.

VSJP therefore views peaceful digital engagement as an important component of future global coexistence.

5. PEACEFUL MEDIATION AND MORAL DIALOGUE

VSJP respectfully supports peaceful, lawful and humanitarian dialogue concerning:

- international peace,
- ecological continuity,
- humanitarian responsibility,
- intergenerational security,
- and reduction of existential risk.

Any reference to mediation within this Declaration refers solely to:

- moral dialogue,

- peaceful diplomatic reflection,
- humanitarian engagement,
- and non-binding international communication.

No claim of governmental, legal, military or treaty-based authority is asserted or implied.

6. RESPECT FOR SOVEREIGNTY AND INTERNATIONAL LAW

VSJP respectfully affirms full respect for:

- the sovereignty of all nations,
- the Charter of the United Nations,
- international law,
- constitutional governance,
- diplomatic equality,
- and peaceful coexistence among States.

This Declaration does not seek to interfere in the internal affairs of any nation.

7. HUMANITARIAN AND ECOLOGICAL RESPONSIBILITY

VSJP recognizes that:

- humanity,
- biodiversity,
- ecological systems,
- and planetary continuity are interconnected.

The preservation of peace, ecological balance and humanitarian dignity therefore represents a shared global responsibility extending beyond borders and political divisions.

8. FUTURE CIVILIZATIONAL VISION

VSJP respectfully envisions a future civilization guided by:

- peace instead of fear,
- coexistence instead of destruction,

- humanitarian dignity instead of hostility,
- ecological responsibility instead of irreversible devastation,
- and wisdom instead of existential conflict.

The long-term survival of civilization depends upon humanity's ability to cooperate peacefully across nations, cultures and generations.

9. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, humanitarian, educational, philosophical and non-adversarial in nature.

No hostility, threat, accusation or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure is intended solely for:

- peaceful international dialogue,
- humanitarian reflection,
- ecological continuity,
- diplomatic understanding,
- and future civilizational responsibility.

10. GLOBAL CONTINUITY PRINCIPLE

The continuity of peace, human dignity, ecological balance and civilization itself constitutes a shared responsibility of humanity.

Peaceful dialogue, digital cooperation, humanitarian understanding and lawful international engagement may contribute toward the long-term continuity of humanity and Earth.

ANNEXURE X

HISTORICAL DEPOSITORY RECORD, DOI CONTINUITY AND ARCHIVAL REFERENCES

This Annexure forms an integral part of the

“Official International Declaration, Civilizational Peace Appeal and Constitutional Global Petition Concerning the Universal Prohibition, Irreversible Deactivation, Peaceful Neutralization, Safe Containment, and Complete Elimination of Nuclear Weapons.”

This Annexure respectfully outlines the archival, historical, digital continuity and public depository references associated with this Declaration and related peace-oriented public records.

1. PURPOSE OF ARCHIVAL CONTINUITY

The preservation of peaceful public records contributes toward:

- historical continuity,
- humanitarian transparency,
- public accessibility,
- civilizational memory,
- and long-term documentary preservation.

Digital archival continuity assists in ensuring that peaceful humanitarian declarations remain accessible for future generations, research, public dialogue and historical reflection.

2. RELATED HISTORICAL PUBLIC DEPOSITORY RECORD

This Declaration respectfully recognizes the existence of the following related public depository reference:

DOI: [10.5281/zenodo.15657082](https://doi.org/10.5281/zenodo.15657082)

Reference: **VSJP/INT/PEACE-007/2025**

Date of Original Public Depository Record: **07 June 2025**

This related archival reference forms part of the broader continuity of peaceful public humanitarian and international dialogue records associated with the Vishwa Shanti Janata Party (VSJP).

3. DIGITAL PUBLIC RECORD CONTINUITY

This Declaration forms part of an ongoing series of peaceful public records concerning:

- international peace,
- ecological continuity,
- humanitarian responsibility,
- global coexistence,
- intergenerational reflection,
- and future civilizational continuity.

The maintenance of digital public records contributes toward transparency, historical preservation and peaceful public accessibility.

4. ROLE OF DIGITAL ARCHIVAL SYSTEMS

Modern digital archival systems, public repositories, search indexing systems and DOI infrastructures contribute toward the long-term preservation of humanitarian, scientific, educational and historical documents.

Such systems may assist in:

- public accessibility,
- research continuity,
- peaceful international dialogue,
- documentary preservation,
- and future historical reference.

5. HUMANITARIAN AND EDUCATIONAL PURPOSE

The preservation of this Declaration and related archival materials is intended solely for:

- humanitarian reflection,
- peaceful dialogue,
- educational awareness,
- historical continuity,

- ecological responsibility,
- and future civilizational understanding.

No hostile, coercive or unlawful purpose is expressed or implied.

6. INTERNATIONAL PUBLIC RECORD CHARACTER

This Declaration is respectfully presented as a peaceful international public record intended for:

- diplomatic reflection,
- humanitarian awareness,
- ecological continuity,
- constitutional discourse,
- and peaceful international consideration.

The document does not claim legal enforcement authority over any State, government, institution, or people.

7. FUTURE CIVILIZATIONAL MEMORY

Future generations may rely upon preserved public records to understand how earlier civilizations responded to existential dangers affecting humanity and Earth. The preservation of peaceful declarations, humanitarian appeals and ecological continuity frameworks contributes toward long-term civilizational memory.

8. PEACEFUL DIGITAL CONTINUITY

This Declaration recognizes the importance of peaceful digital continuity within modern interconnected civilization.

Public accessibility of humanitarian and peace-oriented records may contribute toward:

- awareness,
- dialogue,
- transparency,
- historical continuity,
- and future educational understanding.

9. NON-ADVERSARIAL CHARACTER OF THIS ANNEXURE

This Annexure is entirely peaceful, humanitarian, educational, archival and non-adversarial in nature.

No hostility, threat, accusation, or unlawful intent against any State, government, institution or people is expressed or implied.

This Annexure is intended solely for:

- peaceful international dialogue,
- historical continuity,
- humanitarian reflection,
- digital archival preservation,
- and future civilizational reference.

10. FINAL ARCHIVAL OBSERVATION

Civilizations are remembered not only by their conflicts, but by the peaceful records they leave behind concerning humanity, wisdom, coexistence and the protection of future generations.

The preservation of humanitarian and peace-oriented declarations may therefore contribute toward the long-term moral and historical continuity of civilization.

Title: Call for the Global Prohibition of Nuclear Weapons – A Moral Stand for Universal Peace

Issued by:

Aaryan Narasimhan Radhakrishnan

Founder & International Leader – Vishwa Shanti Janata Party (VSJP)

Chief Ambassador of World Peace | Digital Father of the World

www.vsjp.org | fb.com/VSJP.e.Off | vsjp.w.1stepoliticalparty@gmail.com

+91 7598842227

Declaration:

The Vishwa Shanti Janata Party (VSJP), the world's first fully digital political party, issues this resolution as a universal moral declaration.

We, as representatives of 183 nuclear-weapon-free nations and of all voiceless beings — living, non-living, forgotten, and endangered — strongly oppose the continued existence, development, and threat of nuclear weapons by 10 nuclear-armed states.

We emphasize that:

- The extraction of uranium from the Earth violates the sacredness of soil and its micro-ecosystems.
- The enrichment of uranium and the production of nuclear warheads threaten the peace of not only humanity but all forms of existence — from ant to atom.
- The silence of 183 nations cannot be mistaken for consent to fear, destruction, or dominance.
- True strength is the protection of life, not its obliteration.

We declare that:

1. The continued development and stockpiling of nuclear weapons is a moral failure of civilization.
2. All nations must collectively agree to ban the production, storage, testing, and threat of nuclear weapons.
3. The Earth, both sentient and non-sentient, deserves to sleep in peace — without the fear of sudden annihilation.
4. Peace is not a policy of weakness. It is the highest intelligence and the only future.

This resolution stands as a voice not just of the Global South — but of global morality.

We appeal to the UN, disarmament agencies, and all sovereign states to enact an urgent

international treaty to ban nuclear weapons entirely.

Let this be the era where humanity grows beyond destruction and embraces the sacred right of every form — to live, rest, and regenerate.
