To
His Excellency,
The President of India,
Rashtrapati Bhavan
New Delhi – [110004](https://www.india.gov.in)

Through: Secretary of the President of India

Date: 08-12-2025

Subject: Submission of National Road-Safety, Life-Protection & Animal-Safety Reform

(Constitutional Proposal under Articles 51A(g), 48A & 21)

Your Excellency,

With my highest respect and humility, I am submitting herewith a detailed constitutional proposal titled:

**“National Road-Safety, Life-Protection & Animal-Safety Reform –
Constitutional Submission under Article 51A(g), Article 48A & Article
21 (Protection of Human Life, Animal Life, and Continuity of All Beings)”.**

The enclosed memorandum places before Your Excellency an urgent national concern regarding:

- The very high number of road accidents and human fatalities in India;
- The absence of a formal national mechanism to record and protect animal life on roads; and
- The need for a modern, AI-integrated, constitutionally grounded Road-Safety & Life-Protection Framework.

In this representation, I have respectfully proposed:

- Human and animal life-protection measures;

- Technological safety reforms (ADAS, AI detection, black-box);
- Constitutional, judicial and statistical basis; and
- A humane and scientific framework for protecting all beings who use India's roads.

I most humbly request that this submission may kindly be:

1. Acknowledged as a formal constitutional representation under Articles 51A(g), 48A and 21; and
2. Placed before the appropriate Ministry/Authorities (including the Ministry of Road Transport & Highways and other concerned bodies) for detailed examination and suitable action in the national interest.

Enclosures:

1. National Road-Safety, Life-Protection & Animal-Safety Reform (Constitutional Submission under Article 51A(g), Article 48A & Article 21) – Main Memorandum
2. Annexure – I : National Road-Safety Statistical Evidence ([2013–2023](#))
3. Annexure – II : Constitutional & Judicial Notes (Animal Life)
4. Annexure – III : Technological Justification & Global Standards
5. Annexure – IV : International Comparative Road-Safety Index
6. Annexure – V : Animal Moral Rights Charter (VSJP Edition)

With deepest respect,

R NARASIMHAN Digitally signed by R NARASIMHAN

National Road-Safety, Life-Protection & Animal-Safety Reform **Constitutional Submission under Article 51A(g), Article 48A & Article 21** **(Protection of Human Life, Animal Life, and Continuity of All Beings)**

Your Excellency,

I offer my humble respects at the outset.

Human life is a priceless divine gift, and the same sanctity extends to every living being — whether a dog, a cow, a bird, or even an ant. The essence of life does not diminish based on its form. Every being carries the inherent right to live without fear, harm, or suffering — a right deeply rooted in the moral and constitutional fabric of our nation.

India is currently witnessing a severe and escalating road-safety crisis. Rapid motorization, expanding networks of high-speed roads, and flexible enforcement of traffic rules have led to alarming levels of accidents across the country. In several tragic instances, entire families have perished, extinguishing bloodlines and causing irreparable emotional and social devastation.

Millions of citizens operate vehicles under economic pressure, physical exhaustion, emotional strain, and mental distress. A vehicle driven under such burden becomes a potential instrument of catastrophe capable of claiming many innocent lives. This crisis now stands as a humanitarian, constitutional, and national safety concern.

According to the Ministry of Road Transport & Highways (MoRTH), India consistently records a disproportionately high number of road accidents and fatalities.

(Full statistical details are annexed as Annexure – I.)

Further, the absence of any national registry for animal fatalities contradicts Articles 21, 48A, and 51A(g).

(Constitutional notes annexed as Annexure – II.)

Therefore, I respectfully request Your Excellency to consider adopting the following reforms:

HUMAN & ANIMAL LIFE-PROTECTION MEASURES

1. STRICT ENFORCEMENT OF TRAFFIC RULES
2. ANIMAL-SAFE CORRIDORS & FENCING
3. STRICTER DRIVING LICENCE REGULATIONS
4. NATIONAL ROAD-SAFETY MEDICAL PROTOCOL
5. PROTECTION OF TRUCK / TRANSPORT DRIVERS
6. REMOVAL OF LIQUOR OUTLETS ON HIGHWAYS
7. AI/GPS-INTEGRATED DRIVING ACCOUNTABILITY
8. FAST-TRACK COURTS
9. NATIONAL ANIMAL-ACCIDENT DATABASE
10. CONSTITUTIONAL PROTECTION OF ALL LIFE

TECHNOLOGICAL SAFETY REFORMS

11. MANDATORY ADAS SYSTEMS
12. AI PEDESTRIAN & ANIMAL DETECTION
13. BLACK BOX FOR VEHICLES ABOVE 150cc

ANNEXURE – I NATIONAL ROAD-SAFETY STATISTICAL EVIDENCE (2013–2023)

- 4,00,000+ accidents annually
- 1,45,000–1,55,000 deaths per year
- 11% of global road accident deaths
- 70% victims aged 18–45
- Over speeding: 65%
- Drunk driving: 5–7%

- Vehicle fatigue deaths rising annually
- Poor road engineering: 30% factor
- Animal fatalities estimated: 25–30 lakh/year
- No national registry for animal deaths
- Economic loss: 3–5% GDP
- Road accidents: India’s leading unnatural cause of death

ANNEXURE – II CONSTITUTIONAL & JUDICIAL NOTES (ANIMAL LIFE)

1. Article 21 – Right to Life (extended to animals)
2. Article 48A – Protection of Wildlife
3. Article 51A(g) – Compassion for all creatures
4. PCA Act, 1960
5. IPC 428 & 429
6. Supreme Court: AWBI v. Nagaraja (2014)
7. Supreme Court: Stray Dog Guidelines (2023)

ANNEXURE – III TECHNOLOGICAL JUSTIFICATION & GLOBAL STANDARDS

1. EU 2022 ADAS Mandate
2. USA – NHTSA Black Box Rules
3. Japan/Korea – AI Pedestrian-Protective Systems
4. UN Road Safety Collaboration – AI Safety
5. India’s National Need Based on Traffic Density, Two-Wheeler Population, and Animal Presence

ANNEXURE – IV INTERNATIONAL COMPARATIVE ROAD-SAFETY INDEX

(As per WHO Global Road Safety Reports & International Transport Forum)

ROAD FATALITIES PER 1,00,000 POPULATION:

- Norway: 2.7
- UK: 3.1
- Japan: 3.6
- Australia: 4.6
- USA: 12.0
- Brazil: 18.0
- South Africa: 23.5
- **India: 15.6 (one of the world's highest absolute fatalities)**

WHY INDIA IS AT HIGH RISK:

- Largest two-wheeler usage in the world
- Dense mixed traffic (humans, animals, vehicles sharing road)
- Absence of ADAS & AI safety systems
- Low enforcement of speed limits
- Lack of animal-detection & protected crossings

LESSONS FOR INDIA:

- Norway: Near-zero fatalities through strict enforcement and tech integration
- Japan: Pedestrian & animal detection systems mandatory
- UK: Road design prioritizing vulnerable life
- South Korea: Rapid adoption of AI safety technologies

ANNEXURE – V ANIMAL MORAL RIGHTS CHARTER (VSJP EDITION)

1. Every animal possesses inherent dignity equal to human life, as all life is born from the same natural origin.
2. No life — human or animal — shall suffer or die without recognition, documentation, or justice.
3. Every sentient being has the right to safe movement, protection from human-caused harm, and a peaceful life.

4. The State must protect animals from death caused by negligence on highways and urban roads.
5. Roads are not solely human property; they are shared spaces of coexistence among species.
6. Animals struck in accidents must be entitled to rescue, emergency care, and legal recognition of their suffering.
7. Animal fatalities must be officially recorded as part of national accident data.
8. Technological safety standards must protect all life — including silent, voiceless, and non-human beings.
9. True civilization is measured by how gently it treats the weakest life.
10. The moral value of a nation is reflected in the safety it provides to every living being within its borders.

CONCLUSION

Your Excellency,

Protecting life on India's roads is a sacred duty — moral, constitutional, and civilizational.

This Road-Safety Framework reflects India's eternal values of compassion, justice, and the protection of all beings.

Date: 08 December 2025.

With utmost respect,
