INTERNATIONAL MORAL–ECONOMIC DECLARATION FOR GLOBAL PEACE, FOOD JUSTICE, AND THE CONTINUITY OF ALL LIVING AND NON-LIVING BEINGS

SUBMISSION AUTHORITY

Submitted under:

Article 51(c) of the Constitution of India (Promotion of International Peace and
Respect for International Law)

Submitted Through:

His Excellency,
The Hon'ble President of the Republic of India,
Rashtrapati Bhavan,
New Delhi-110004.

For Transmission to:

- The United Nations
- United Nations Member States
- International Financial and Economic Institutions
- Global Multilateral Bodies

Aligned with:

- Charter of the United Nations – Articles 1, 2, 55, 56, 103
- Universal Declaration of Human Rights
- International Covenant on Economic, Social and Cultural Rights
- UN General Assembly Resolution 2625 (XXV)
- UN General Assembly Resolution 53/243 (Culture of Peace)
- Sustainable Development Goals (SDGs)

PREAMBLE

Humanity stands at a critical civilizational crossroads. Across the world, hunger, poverty, deprivation, and inequality continue to persist, and from these

conditions arise violence, extremism, terrorism, armed conflict, and global instability in multiple forms and dimensions.

These threats are not accidental. They are the direct consequences of an economic order that has deviated from morality, justice, and compassion.

Where hunger exists, violence follows.

Where deprivation is normalized, extremism takes root.

Where economic power is weaponized, peace collapses.

This is not merely a failure of governance — it is a failure of moral economics.

STATEMENT OF GLOBAL CONCERN

The international community must acknowledge that:

- Hunger is the first form of violence.
- Economic injustice is the breeding ground of terrorism.
- Poverty is the silent architect of global conflict.
- An economy divorced from ethics becomes a weapon of destruction.

In the present global order, monetary systems are frequently used as instruments of domination, coercion, and indirect warfare.

The excessive monopolization of global trade through a single dominant reserve currency has enabled:

- Economic coercion of sovereign nations
- Illicit financial flows and illegal transactions
- Terror financing and organized crime
- Destabilization of weaker economies
- Weaponization of trade and sanctions

Money, which should serve life, has been transformed into a tool that threatens life.

PRINCIPLE OF MORAL ECONOMICS

This Declaration affirms a universal moral truth:

An economy must exist to protect life, not to profit from destruction.

Economic systems must serve:

- Peace, not war
- Hunger eradication, not accumulation
- Justice, not domination
- Continuity of life, not exploitation

An economy that fuels violence, directly or indirectly, violates the spirit of the United Nations Charter, the Universal Declaration of Human Rights, and the collective conscience of humanity.

INDIA’S CIVILIZATIONAL RESPONSIBILITY

India’s civilizational foundation is rooted in Aram (Righteousness), Ahimsa (Non-Violence), and Vasudhaiva Kutumbakam — “The World is One Family”.

History and living practice stand as evidence that:

- India’s moral roots are grounded in compassion.
- India has never pursued global domination.
- India has consistently advocated peaceful coexistence.
- India has extended food assistance without discrimination to all beings, irrespective of nation, ideology, or power.

India is the first civilization in the world to proclaim and practice the principle that:

No living being shall be allowed to suffer hunger.

India has further affirmed that:

Food must not originate from violence, killing, or the destruction of life.

THE NON-VIOLENT FOOD & LIFE ECONOMY

This Declaration formally recognizes that:

- Food is a universal right of all beings.
- Hunger of any being is a failure of humanity.
- Killing for food is a moral contradiction.
- Economic systems must protect all life forms, including animals, ecosystems, and non-living natural entities.

An economy that feeds humanity while destroying other lives cannot be called ethical. True peace is impossible unless hunger is abolished for all beings without discrimination.

THE INDIAN RUPEE AS AN ARAM-BASED GLOBAL TRADE CURRENCY (PEACE CURRENCY)

This Declaration proposes that India, in fulfillment of its constitutional and civilizational duty, shall introduce the Indian Rupee to the world as a moral, peace-oriented economic instrument.

To reflect this responsibility, it is proposed that:

- The Indian Rupee incorporate sacred symbols of Aram, non-violence, compassion, and universal dignity.
- Such symbols shall represent life protection, ecological balance, and moral restraint.
- The Rupee shall be positioned as a Peace Currency, not a weaponized instrument.

Just as Mahatma Gandhi's presence on Indian currency symbolizes non-violence, the global version of the Indian Rupee must symbolize moral economics.

GLOBAL INVITATION TO THE UNITED NATIONS AND WORLD NATIONS

The international community is respectfully invited to:

1. Recognize the principle that economies must serve peace and the continuity of all beings.
2. Acknowledge that weaponized monetary dominance undermines global stability and justice.
3. Support the recognition of an Aram-based, non-violent economic framework led by India.
4. ***Encourage the acceptance of the Indian Rupee, embedded with moral and spiritual symbols, for global trade dedicated to peace, hunger eradication, and ecological continuity.***
5. Promote a multipolar, ethical global economic order aligned with the United Nations Charter.

FINAL DECLARATION

A world guided by greed will collapse.
A world governed by domination will fracture.
A world guided by Aram will endure.

When the global economy is purified by righteousness, peace will no longer be negotiated — it will naturally prevail.

The recognition of India's Aram-based moral economy is not a national ambition, but a global necessity.

- Non-violence (Ahimsa) as a guiding principle
- Aram (Righteousness) as the foundation of governance
